

SEA Objectives	1	Maintain and enhance Southampton's biodiversity, flora and fauna.					
	2	Maintain and enhance landscape / townscape character whilst minimising visual impacts of transport infrastructure.					
	3	Protect and improve surface and groundwater quality, including sea water.					
	4	Maintain and improve air quality.					
	5	Encourage energy efficiency and reduce contributions to climate change.					
	6	Minimise the risk of tidal / fluvial flooding affecting people and transport schemes and to implement sustainable design solutions to flood risk.					
	7	Conserve and, where appropriate, enhance the archaeological, historic and cultural environment.					
	8	Reduce crime and promote community safety.					
	9	Reduce poverty and social exclusion, promote a strong community and improve the quality of life.					
	10	Ensure the population of Southampton has access to the full range of appropriate public, commercial, community and voluntary services.					
	11	To facilitate the development of a buoyant, sustainable tourism sector, including access to the countryside and green spaces.					
	12	Promote healthy life styles and communities.					
	13	Encourage economic growth that does not compromise the ability of future generations to meet their needs and develop a culture of enterprise and innovation.					
	14	Promote sustainable design and construction.					
		Increasing accessibility , in the widest sense, to education, employment, healthcare, retail services and leisure. This relates to the nature of service provision as well as transport solutions. Develop and implement an accessibility strategy.	Reducing congestion and the causes of congestion through better use of existing infrastructure and public transport. Define circumstances under which provision of additional capacity will be considered.	Improving road safety by continuing work towards casualty reduction and the promotion of wider community safety.	Improving air quality by reducing emissions, both in terms of pollutants and contributions to climate change.	Supporting wider Council objectives such as improving community safety, providing affordable housing, widening participation in education, promoting independent living and enhancing the streetscene.	Seeking value for money through an asset-management based approach to maintenance and investment.
