Total													

Comments:

See following A4 sheets for comments.

Key:

Scale of effect:	Adverse	Beneficial	Totals:
Local	●	●	Major negative effects
Regional	●	●	Minor negative effects
National	●	●	Neutral / uncertain effects
International	●	●	Minor positive effects
Mixed / balanced effect	-	-	Major positive effects
Uncertain effects	?	?	

Notes:

There are more question marks and comments near the top of the table because these are the more strategic policies that exhibit greater uncertainties. Each individual cell should be comparable with equivalent test in Detailed Assessment Matrices, where applicable. Bottom totals row is used to inform commentary of effects by SEA topic (Chapter 7).
