Note 1

The Council contributions to the pension fund are based on a fixed percentage of an employee's salary. In 2010/11 this percentage was 19.1% (18.6% in 2009/10) as disclosed above. The contribution effectively consists of two components: the actuary assessed contribution rate that relates to the actual pension to be received by employees (14.5%), and the contribution to the existing deficit on the pension fund (4.6%).

Note 2

Assistant Chief Executive (Strategy) post deleted 31/08/2010.

Note 3

There were no bonuses paid.
