

## 9. Health & Disability Domain

This domain measures the number of people who die prematurely, whose quality of life is impaired by poor health, or who are disabled, across the whole population.

This domain combines the following indicators,

- Years of Potential Life Lost (YPLL) (2001 to 2005, Source: ONS)
- Comparative Illness and Disability Ratio (CIDR) (2005, Source: DWP)
- Measures of acute morbidity, derived from Hospital Episode Statistics (2004 to 2005, Source: Department of Health)
- The proportion of adults under 60 suffering from mood or anxiety disorders based on prescribing (2005, Source: Prescribing Pricing Authority), Hospital Episode Statistics (2004 to 2005, Source: Department of Health) and Incapacity Benefit data (2005, Source: DWP)
