Trade in Animal and Related Products Regulations 2011

Regulation (EC) No. 882/2004

The Official Feed and Food Controls (England) Regulations 2009

I write to advise you of changes concerning the level of charges at the Southampton Border Inspection Post effective from 1st January 2012.

In accordance with European Union requirements the charges set for veterinary checks of all animal products from New Zealand and fresh red meat products, poultry meat, farmed and wild game meat and fishery products from other third countries is set in Euros.

The exchange rate for the harmonised charge for 2012 is 1 Euro = 0.8856 which will be the basis of the minimum charge and the maximum EU charge for certain products from 1st January 2012.

The actual costs for carrying out checks are permitted to be retrieved for all products of animal origin from third countries with the exception of those from New Zealand where a fee level cannot be exceeded as an "equivalent agreement" exists.

The standard Southampton Border Inspection Post charge from the 1st January 2012 will be £7.97 per gross tonne.

The minimum charge for products between 0 to 6 tonnes will be £48.71.

I would be grateful if you will notify the importers of the charges applicable as per the attached schedule (Ref. BIP 2012).

If you require this letter or future correspondence from us in a different format (e.g. tape, Braille, or disc) please do not hesitate to let us know.

* Actual cost of laboratory analysis of food samples will be recovered in addition to the above charge when sampling is carried out and will vary according to the analysis required for each food product to establish compliance with statutory requirements.

If you have any queries please do not hesitate to contact me.

Yours sincerely

A handwritten signature in cursive script that reads "Rosie Zambra".
