SCC-ICU-0052	Home Care Services Framework Review and Re-tender – Quality Software	A new platform is in the process of being developed for when the existing Home Care framework comes to an end on 31st March 2023. The suggested approach requires use of market insight software which we propose to use as the main aspect of an enhanced quality assessment. The software needs to perform multiple functions, including improving quality of providers on the platform, facilitating the implementation, including management and delivery of a set of Southampton-specific standards based on the ADASS model. The approach ties in quality assessment with the e-brokerage system, so these need to directly work together. By attaching quality intelligence to the brokerage process, this can be used as one of the primary methods of ranking and awarding packages of care.	TBD	24	£ 99,996	TBD	N/A
EC09-01-3228 Lot 1	Home First Bridging Service - Lot 1	Planned and urgent home care visits across all areas of the city of Southampton.	30/06/2023	30	£ 248,625	N/A	N/A
