BRIEF SUMMARY

For the fifth meeting of the Making Southampton a Dementia Friendly City Inquiry a number of invited experts will provide an outline of the services that are commissioned and the contribution that they currently make towards making Southampton a dementia friendly city. They will provide detail of any gaps that they are currently aware of from best practice, and provide recommendations of where, as a city, we should be doing more and/or doing things differently.

As described in the introduction meeting, the work and priorities are aligned to the existing framework in place: Alzheimer's Society building dementia-friendly communities: a priority for everyone. The following area from the framework will form the basis of the fifth meeting.

- Ensure an early diagnosis – ensure access to early diagnosis and post-diagnostic support. Have health and social care services that are integrated and delivering person-centred care for people with dementia in all settings.
