

DETERMINATION OF APPLICATION

TOWN AND COUNTRY PLANNING ACT 1990

Town & Country Planning (Development Management Procedure) (England) Order 2015

Michael Sparks Associates - FAO Mr Ashley Chambers
11 Plato Place
St. Dionis Road
London
SW6 4TU

In pursuance of its powers under the above Act and Regulations, Southampton City Council, as the Local Planning Authority, hereby gives notice that the application described below has been determined. The decision is:

FULL APPLICATION - CONDITIONAL APPROVAL

Proposal: **Redevelopment of the site to provide 19,132 square metres of employment floorspace in three buildings (Units 1 and 3 to be storage and distribution use (Class B8), Unit 2 to be Business use (Class B1c) and/or storage and distribution use (Class B8)) with an area of open space, associated landscaping, servicing areas and car parking with vehicular access from Test Lane.**

Site Address: **Land at Test Lane, Southampton,**

Application No: **14/01911/FUL**

Subject to the following conditions.

01. Full Permission Timing Condition - Physical works

The development works hereby permitted shall begin not later than three years from the date on which this planning permission was granted.

Reason:

To comply with Section 91 of the Town and Country Planning Act 1990 (as amended).

02. Details of building materials to be used [Pre-Commencement Condition]

Notwithstanding the information shown on the approved drawings and application form no development works shall be carried out unless and until a written schedule of external materials and finishes has been submitted to and approved in writing by the Local Planning Authority. Development shall be implemented only in accordance with the agreed details. These shall include full details of the manufacturers, types and colours of the external materials to be used for external walls, windows, doors and the roof of the proposed buildings. It is the Local Planning Authority's practice to review all such materials on site. The developer should have regard to the context of the site in terms of surrounding building materials and should be able to demonstrate why such materials have been chosen and why alternatives were discounted. If necessary this should include presenting alternatives on site.

Reason:

To enable the Local Planning Authority to control the development in detail in the interests of amenity by endeavouring to achieve a building of visual quality.

03. Landscaping, lighting & means of enclosure detailed plan [Pre-Commencement Condition]

Notwithstanding the submitted details before the commencement of any site works a detailed landscaping scheme and implementation timetable shall be submitted, which includes:

- i. proposed finished ground levels or contours; means of enclosure; car parking layouts; other vehicle pedestrian access and circulations areas, hard surfacing materials, structures and ancillary objects (refuse bins, lighting columns etc.);
- ii. planting plans; written specifications (including cultivation and other operations associated with plant and grass establishment); schedules of plants, noting species, plant sizes and proposed numbers/planting densities where appropriate including semi-mature tree planting;
- iii. an accurate plot of all trees to be retained and to be lost. Any trees to be lost shall be replaced on a favourable basis (a two-for one basis unless circumstances dictate otherwise and agreed in advance);
- iv. details of any proposed boundary treatment, including retaining walls; and
- v. a landscape management scheme.

Any trees, shrubs, seeded or turfed areas which die, fail to establish, are removed or become damaged or diseased, within a period of 5 years from the date of planting shall be replaced by the Developer in the next planting season with others of a similar size and species unless the Local Planning Authority gives written consent to any variation. The Developer shall be responsible for any replacements for a period of 5 years from the date of planting.

The approved hard and soft landscaping scheme (including parking) for the whole site shall be carried out prior to occupation of the building or during the first planting season following the full completion of building works, whichever is sooner. The approved scheme implemented shall be maintained for a minimum period of 5 years following its complete provision.

Reason:

To improve the appearance of the site and enhance the character of the development in the interests of visual amenity, to ensure that the development makes a positive contribution to the local environment and, in accordance with the duty required of the Local Planning Authority by Section 197 of the Town and Country Planning Act 1990

04. Land Contamination investigation [Pre-Commencement]

Prior to the commencement of development approved by this planning permission (or such other date or stage in development as may be agreed in writing with the Local Planning Authority), a scheme to deal with the risks associated with contamination of the site shall be submitted to and approved by the Local Planning Authority. That scheme shall include all of the following phases, unless identified as unnecessary by the preceding phase and approved in writing by the Local Planning Authority:

1. A report of the findings of the additional assessment/investigation, characterising the land gas and groundwater regime and allowing for potential risks (as identified in phase 1) to be assessed.
2. A scheme of remediation detailing the remedial actions to be taken and how they will be implemented.

Any changes to these agreed elements require the express consent of the local planning authority.

Reason:

To ensure land contamination risks associated with the site are appropriately investigated and assessed with respect to human health and the wider environment.

05. Unsuspected Contamination [Performance Condition]

The site shall be monitored for evidence of unsuspected contamination throughout construction. If potential contamination is encountered that has not previously been identified no further development shall be carried out unless otherwise agreed in writing by the Local Planning Authority.

Works shall not recommence until an assessment of the risks presented by the contamination has been undertaken and the details of the findings and any remedial actions has been submitted to and approved by the Local Planning Authority.

Any changes to the agreed remediation actions will require the express written consent of the Local Planning Authority.

Reason:

To ensure any land contamination not previously identified is assessed and remediated so as not to present any significant risks to human health or, the wider environment.

06. Use of uncontaminated soils and fill [Performance Condition]

Only clean, uncontaminated soil, subsoil, rock, aggregate, brick rubble, crushed concrete and ceramic shall be permitted for infilling and landscaping on the site. Any such materials imported on to the site must be accompanied by documentation to validate their quality and be submitted to the Local Planning Authority for approval prior to the occupancy of the site.

Reason:

To ensure imported materials are suitable and do not introduce any land contamination risks onto the development.

07. Hours of work for Demolition / Clearance / Construction [Performance Condition]

All works relating to the demolition, clearance and construction of the development hereby granted shall only take place between the hours of;

Monday to Friday 08:00 hours to 18:00 hours (8.00am to 6.00pm)

Saturdays 09:00 hours to 13:00 hours (9.00am to 1.00pm)

And at no time on Sundays and recognised public holidays.

Any works outside the permitted hours shall be confined to the internal preparations of the buildings without audible noise from outside the building, unless otherwise agreed in writing by the Local Planning Authority.

Reason:

To protect the amenities of the occupiers of existing nearby residential properties.

08. Construction Environment Management Plan (Pre-Commencement Condition)

Prior to the commencement of any development a written construction environment management plan shall be submitted to and approved by the Local Planning Authority. The plan shall contain method statements and site specific plans to prevent or minimise impacts from noise, vibration, dust and odour for all operations, as well as proposals to monitor these measures at the site boundary to ensure emissions are minimised beyond the site boundary. All specified measures shall be available and implemented during any processes for which those measures are required.

Reason:

To protect the amenities of the occupiers of existing nearby properties and to safeguard the special ecological value of the adjoining nature reserve.

09. Wheel Cleaning Facilities [Pre-Use Condition]

During the period of the preparation of the site, excavation for foundations or services and the construction of the development, wheel cleaning facilities shall be available on the site and no lorry shall leave the site until its wheels are sufficiently clean to prevent mud being carried onto the highway.

Reason:

In the interests of highway safety.

10. Piling [Pre-Commencement Condition]

Prior to the commencement of development approved by this planning permission (or such other date or stage in development as may be agreed in writing with the Local Planning Authority), a piling and/or foundations design risk assessment and method statement for the preferred piling/foundation design/designs shall be submitted to and approved in writing by the Local Planning Authority.

Reason:

To ensure the selected piling method can be justified on the grounds of structural, geotechnical, contamination, noise, vibration and practicability and ensure any adverse environmental impacts are identified and appropriate mitigation measures are proposed

Condition Informative 1

Guidance is provided in the Environment Agency's publication NC/00/73, Piling and Penetrative Ground Improvements Methods on Land affected by Contamination: Guidance on Pollution Prevention, section 6.5

Condition Informative 2

Guidance suggests maximum vibration of 1mm/sec Peak Particle Velocity (measured in any one direction) at the foundations of the nearest occupied residential building and a maximum vibration of 3mm/sec Peak Particle Velocity (measured in any one direction) at the foundations of an occupied commercial building.

11. Lighting Scheme (Pre-Occupation Condition)

A written lighting scheme including light scatter diagram with relevant contours shall be submitted to and approved in writing by the Local Planning Authority prior to implementation of the lighting scheme. The scheme must demonstrate compliance with table 1 "Obtrusive Light Limitations for Exterior Lighting Installations", by the Institution of Lighting Engineers Guidance Notes for the Reduction of Obtrusive Light 2005. The installation must be maintained in accordance with the agreed written scheme.

Reason

To protect the amenities of the occupiers of existing nearby residential properties.

12. Restricted Use [Performance Condition]

Notwithstanding the provisions of the Town and Country Planning (General Permitted Development) (England) Order 2015 (or any subsequent amending Order) the buildings hereby approved shall only be used for the purposes specified in the application, namely Storage and Distribution (Class B8) for Units 1 and 3 and either Business Use (Class B1(c)) or (Class B8) for Unit 2.

Reason:

For the avoidance of doubt and to enable the Local Planning Authority to retain control over the development in the interests of the amenities of the area and to comply with Policy MSA19 of the Local Plan.

13. Restriction on use (Performance Condition)

The maximum floorspace of the development hereby approved shall be 19,132 square metres gross and the buildings shall not be sub-divided into separate units without the approval of the Local Planning Authority.

Reason

To restrict the development to that set out in the application in the interests of the amenities of the area and local transport conditions.

14. Junction Details [Pre-Occupation Condition]

The junction between the proposed service road and the highway shall be constructed in accordance with the approved plans before the development is first occupied.

Reason:

To ensure a safe access to the site is achieved.

15. Cycle and changing facilities (Pre-Occupation Condition)

The buildings hereby approved shall not be first occupied until cycle storage, changing, washing and shower facilities for members of staff have been provided in accordance with details which shall first have been submitted to and approved in writing by the Local Planning Authority. The approved measures shall be retained thereafter.

Reason

To encourage cycling as an alternative sustainable means of transport in accordance with Council policy.

16. Storage / Removal of Refuse Material [Pre-Occupation Condition]

Before each building is first occupied full details of facilities to be provided for the storage and removal of refuse from the premises together with the provision of suitable bins accessible with a level approach shall be submitted to and approved in writing by the Local Planning Authority. The facilities shall include accommodation and the provision of separate bins for the separation of waste to enable recycling. The approved refuse and recycling storage shall be retained thereafter.

Reason:

In the interests of visual amenity, the amenities of future occupiers of the development and the amenities of occupiers of nearby properties.

17. Layout of Car Parking/ Servicing (Pre-Occupation Condition)

The whole of the car parking, cycle storage and servicing facilities for the uses hereby approved shown on the approved plans shall be laid out and made available before the building to which the facilities relate is first occupied and thereafter retained solely for the use of the occupants and visitors to the that building and for no other purpose.

REASON

To ensure adequate on-site parking and servicing facilities and to avoid congestion in the adjoining highway.

18. Surface / foul water drainage [Pre-commencement Condition]

No development approved by this permission shall commence until a scheme for the disposal of foul water and surface water drainage have been submitted to and approved in writing by the Local Planning Authority and no building shall be occupied unless and until all drainage works have been carried out in accordance with such details as approved by the Local Planning Authority and subsequently implemented and maintained for use for the life of the development.

Reason:

To ensure satisfactory drainage provision for the area.

19. BREEAM Standards (Pre-Occupation Condition)

Within 6 months of any part of the development first becoming occupied, written documentary evidence proving that the development has achieved at minimum Excellent against the BREEAM Standard in the form of post construction assessment and certificate as issued by a legitimate BREEAM certification body shall be submitted to the Local Planning Authority for its approval.

REASON:

To ensure the development has minimised its overall demand for resources and to demonstrate compliance with policy CS20 of the Local Development Framework Core Strategy Development Plan Document Adopted Version (January 2010).

20. Ecological Mitigation Statement [Pre-Commencement Condition]

Prior to development commencing, including site clearance, the developer shall submit a programme of habitat and species mitigation and enhancement measures, [as set out in the submitted Ecological Statement with the application] which unless otherwise agreed in writing by the Local Planning Authority shall be implemented in accordance with the programme before any demolition work, site clearance or hedgerow removal takes place.

Reason

To safeguard protected species under the Wildlife and Countryside Act 1981 (as amended) in the interests of preserving and enhancing biodiversity.

21. Protection of nesting birds [Performance Condition]

No clearance of vegetation likely to support nesting birds shall take place between 1 March and 31 August unless a method statement has been agreed in writing by the Local Planning Authority and works implemented in accordance with the agreed details.

REASON

For the safeguarding of species protected by The Wildlife & Countryside Act 1981 (as amended) and the conservation of biodiversity

22. No other windows or doors other than approved in specific location [Performance Condition]

Unless the Local Planning Authority agree otherwise in writing and notwithstanding the provisions of the Town and Country Planning (General Permitted Development) Order 2015 (or any order amending, revoking or re-enacting that Order) in relation to the development hereby permitted, no alternative or additional windows (including roof windows or dormer windows), doors or openings other than those expressly authorised by this permission shall be constructed in the southern elevations of Units 1 or 3.

Reason:

To protect the amenities of the adjoining properties.

23. Sustainable Urban Drainage (Pre-Commencement Condition)

No development shall take place until details of the implementation, maintenance and management of the sustainable drainage scheme have been submitted to and approved by the local planning authority. The scheme shall be implemented and thereafter managed and maintained in accordance with the approved details. Those details shall include:

- i. a timetable for its implementation, and
- ii. a management and maintenance plan for the lifetime of the development which shall include the arrangements for adoption by any public body or statutory undertaker, or any other arrangements to secure the operation of the sustainable drainage scheme throughout its lifetime.

Reason

To ensure the proposed SUDs arrangements are provided in a satisfactory manner.

24. Acoustic barriers (Pre-Occupation Condition)

The position and height of acoustic barriers (comprising bunds and fencing) along the site boundary shall be in accordance with the approved plans. Details of the construction of the acoustic screening (including fencing design, materials and surface density) shall be verified for effectiveness by a competent acoustician and approved by the Local Planning Authority both prior to their construction and prior to commencement of use, and thereafter those barriers shall be maintained in a good state of repair so as to remain fully effective.

Reason

To protect the amenities of the occupiers of existing nearby residential properties.

25. Electric Car Charging Points (Pre-Occupation Condition)

No part of the development shall be occupied until a minimum of 11 electric car charging points have been provided in accordance with details which shall first have been submitted to and approved in writing by the Local Planning Authority. The approved measures shall be retained thereafter unless otherwise agreed in writing by the Local Planning Authority.

Reason

In the interests of sustainability and air quality given the proximity to an Air Quality Management Area.

26. Noise Mitigation Measures (Pre-Occupation Condition)

No part of the development shall be occupied until detailed noise mitigation measures, to include canopies above the loading dock and a scheme of management measures to include details of reversing alarms of fork lift trucks and lorries have been submitted to and approved in writing by the Local Planning Authority. The approved measures shall be implemented before first occupation and retained thereafter.

Reason

To limit noise and disturbance and to protect the amenities of neighbours.

27. Refrigerated Vehicles (Performance Condition)

All refrigeration vehicles serving the site shall use electrical hook up facilities rather than diesel engines.

Reason

To limit noise and disturbance and to protect the amenities of neighbours.

28. Refrigeration Compressors (Performance Condition)

All refrigeration equipment within the buildings shall utilise electric compressors and not diesel.

Reason

To limit noise and disturbance and to protect the amenities of neighbours.

29. Approved Plans

The development hereby permitted shall be carried out in accordance with the approved plans listed in the schedule attached below, unless otherwise agreed in writing with the Local Planning Authority.

Reason:

For the avoidance of doubt and in the interests of proper planning.

30. Night time operation (Pre-Occupation Condition)

Between 2300 and 0700 hours the development shall not operate or be used otherwise than in accordance with a Night Time Operation Plan, which shall first have been submitted to and approved in writing by the Local Planning Authority.

Reason

To ensure the occupiers of the building operate in a manner which would safeguard the amenities of adjoining residential occupiers.

31. Advertisement Restriction (Performance Condition)

Notwithstanding the requirements of the Town and Country Planning (Control of Advertisements) (England) Regulations 2007, or any subsequent amending regulations, no site marketing advertising shall be displayed on the site facing South so as to be visible from the residential properties in Gover Road.

Reason:

In the interests of the amenities of neighbouring residential properties.

32. Construction Phasing (Pre-Commencement Condition)

No development shall commence until a programme of construction work has been submitted to and approved in writing by the Local Planning Authority. The programme shall define the phasing of the development to include when the buildings and the bund along the boundary with the new park will be constructed. The development shall subsequently be carried out in accordance with the approved construction phase programme.

Reason:

To allow the Local Planning Authority to control the construction programme in the interests of the amenities of the area.

33. Construction Phasing (Performance Condition)

No occupation of Units 1 or 3 shall take place until both these buildings and the bund and acoustic fence between them have been constructed as shown on the approved plans or such alternative acoustic measures as may be approved in writing by the Local Planning Authority.

Reason:

To ensure that the noise mitigation measures are in place before these buildings are first occupied in the interests of the amenities of local residents.

34. No open storage of metal containers (Performance Condition)

No open storage of metal shipping containers shall take place within the service yards or car parking areas of this development.

Reason:

To mitigate potential noise problems in the interests of the amenities of residential neighbours.

Reason for granting Planning Permission

The development is acceptable taking into account the policies and proposals of the Development Plan as set out below. The Council has considered the site allocation for industrial and warehousing development as set out in the Local Plan and the importance of the additional employment to be created by this development. The development would have an impact on the surrounding area in terms of character and appearance, traffic and noise but that the impact can be mitigated by Section 106 obligations and conditions. Ecology and flood risk issues have also been taken into account. Other material considerations have been considered and are not judged to have sufficient weight to justify a refusal of the application, and where applicable conditions have been applied in order to satisfy these matters. The scheme is therefore judged to be in accordance with the development plan as required by Section 38(6) of the Planning and Compulsory Purchase Act 2004 and planning permission should therefore be granted. In reaching this decision the Local Planning Authority offered a pre-application planning service and has sought to work with the applicant in a positive and proactive manner as required by paragraphs 186-187 of the National Planning Policy Framework (2012).

Policies - SDP1, SDP4, SDP5, SDP7, SDP9, SDP10, SDP13, SDP14, SDP15, SDP16, SDP17, SDP22, NE4, NE5, CLT7 and MSA19 of the City of Southampton Local Plan Review (as amended 2015) and CS6, CS7, CS13, CS18, CS19, CS20, CS21, CS22, CS23, CS24 and CS25 of the Local Development Framework Core Strategy Development Plan Document (as amended 2015) and guidance in the NPPF (2012).

Notes to Applicant

1. Water Main - The exact position of the public water distribution main on the site must be determined before the layout of the development is finalised. All existing infrastructure, including protective coatings and cathodic protection, should be protected during the course of construction works. No excavation, mounding or tree planting should be carried out within 7 metres of the public water main without consent from Southern Water. Please contact Southern Water, Sparrowgrove House, Sparrowgrove, Otterbourne, Hampshire SO21 2SW (Tel: 0330 303 0119) or www.southernwater.co.uk

2. Sewerage Infrastructure - The applicant/developer should enter into a formal agreement with Southern Water to provide the necessary sewerage infrastructure required to service this development. Please contact Southern Water, Sparrowgrove House, Sparrowgrove, Otterbourne, Hampshire SO21 2SW (Tel: 0330 303 0119) or www.southernwater.co.uk

3. Water Supply - A formal application for connection to the water supply is required in order to service this development. Please contact Southern Water, Sparrowgrove House, Sparrowgrove, Otterbourne, Hampshire SO21 2SW (Tel: 0330 303 0119) or www.southernwater.co.uk

4. Public Sewer - Due to changes in legislation that came in to force on 1st October 2011 regarding the future ownership of sewers it is possible that a sewer now deemed to be public could be crossing the site. Therefore, should any sewer be found during construction works, an investigation of the sewer will be required to ascertain its condition, the number of properties served, and potential means of access before any further works commence on site. The applicant is advised to discuss the matter further with Southern Water, Sparrowgrove House, Sparrowgrove, Otterbourne, Hampshire SO21 2SW (Tel: 0330 303 0119) or www.southernwater.co.uk

5. Network Rail - The applicant should contact Network Rail's Asset Protection team at AssetProtectionWessex@networkrail.co.uk and sign up to an asset protection agreement prior to proceeding with any design and construction works.

6. Pollution Prevention - All precautions must be taken to avoid discharges and spills to the ground both during and after construction. For advice on pollution prevention measures, the applicant should refer to the Environment Agency guidance, 'PPG1 - General Guide to the Prevention of Pollution. In the event of a pollution incident all works should cease immediately and the Environment Agency should be contacted via the Incident Hotline 0800 807060.

7. Noise Management Plan - The information to be submitted to discharge Condition 30 of this planning permission shall include the following matters:

- (a) Yard Surface Material and Maintenance.
- (b) Equipment Maintenance
- (c) Acoustic Barrier Maintenance
- (d) Site facilities including attenuation of external plant
- (e) Vehicle Management Arrangements
- (f) Staff Management Arrangements

NOTES

1. This permission relates to Planning Control only. Approval under the Building Regulations may also be required and should you be in any doubt about this, please contact Building Control Services, Tel. 023 8083 2558. Any other necessary consent must be obtained from the appropriate authority. Special attention is drawn to the fact that this permission does not relate to the display of advertisements and separate consent is required under the Town and Country Planning (Control of Advertisements) England Regulations 2007. Development affecting buildings of special Architectural or Historical interest is also subject of separate Listed Building Consent. Any queries should be made to Development Control Service as indicated below.
2. This permission has been granted on the basis of all the information submitted by the applicant shown on the plans accompanying the application. Any material misstatement or wrong information may invalidate the permission.
3. If the applicant is aggrieved by the decision of the Local Planning Authority to approve the proposed development, subject to conditions, they may appeal to the Secretary of State in accordance with Section 78 of the Town and Country Planning Act 1990, within six months of the date of decision. Appeals must be made using a form which you can get from The Planning Inspectorate, Temple Quay House, 2 The Square, Temple Quay, Bristol BS1 6PN (Tel: 0303 444 5000) or do it online at <https://acp.planninginspectorate.gov.uk/>
4. The Secretary of State can allow a longer period for giving notice of an appeal but will not normally be prepared to use this power unless there are special circumstances which excuse the delay in giving notice of appeal. The Secretary of State need not consider an appeal if it seems to the Secretary of State that the local planning authority could not have granted planning permission for the proposed development or could not have granted it without the conditions they imposed, having regard to the statutory requirements, to the provisions of any development order and to any directions given under a development order.
5. If permission to develop land is granted subject to conditions, whether by the Local Authority or by the Secretary of State, and the owner of the land claims that the land has become incapable of reasonable beneficial use by the carrying out of any development which has been or would be permitted, they may serve on the Council a purchase notice requiring the Council to purchase their interest in the land in accordance with the provisions of Part IV of the Town and Country Planning Act 1990.
6. In certain circumstances, a claim may be made against the Local Planning Authority for compensation, where permission is granted subject to conditions by the Secretary of State on appeal or on a reference of the application to him. The circumstances in which compensation is payable are set out in Section 114 of the Town and Country Planning Act 1990.
7. Attention is drawn to the provisions of Section 12 of the Hampshire Act 1983 relating to access for the Fire Brigade, and you are advised to contact Building Control Services as set out in Note 1.
8. For those developments which are covered by the Disability Discrimination Act, the attention of developers is drawn to the relevant provisions of the Act and to the British Standard B300:2001 Design of buildings and their approaches to meet the needs of disabled people code of practice.
9. The applicant is recommended to retain this form with the title deeds of the property.
10. In reaching this decision the Local Planning Authority offered a pre-application planning service and has sought to work with the applicant in a positive and proactive manner as required by paragraphs 186-187 of the National Planning Policy Framework (2012)
Please address any correspondence in connection with this form quoting the application number to: **Development Management, Southampton City Council, Lower Ground Floor, Civic Centre, Southampton, SO14 7LY.**
