### Forecast Variance by Executive Director

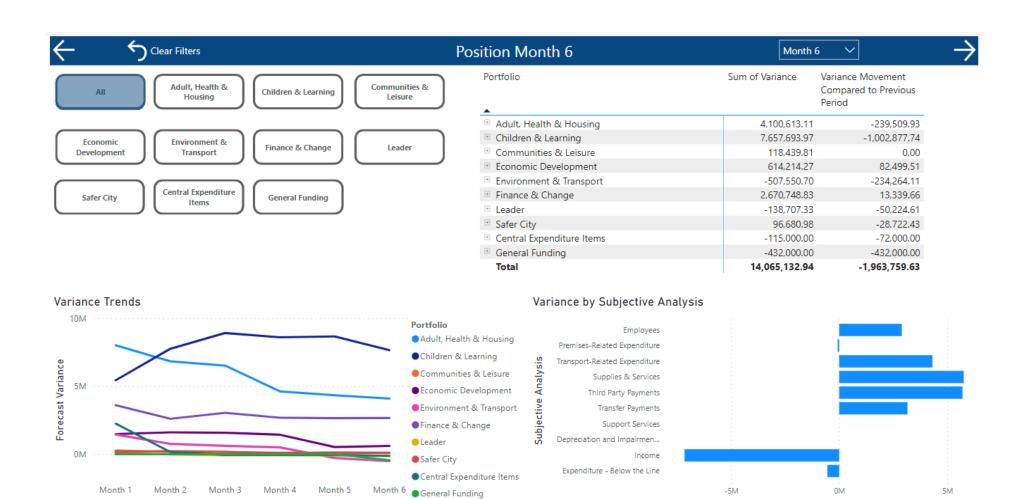

**HRA POSITION -** £0.59M Favourable. £0.59M Favourable forecast on depreciation charge is proposed to be added to the overall working balance. Pressures of £2.37M across the HRA relating to rent void loss £0.2M and empty property charges £0.25M, £0.8M Disrepair claims, waste disposal cost, management restructure and termination costs and £1m interest rate cost are being offset by favourable variances on service charge income of £0.18M and interest receivable of £0.08M, and a reduction in planned direct revenue financing contribution of £2.1M.

#### **General Fund Key Messages**

- > Current Position £14.1M overspent, a favourable movement of £1.9M from the variance reported to EMB at month 5 (£16.0M overspent).
- > Children & learning £7.7M overspent, a favourable movement of £1.00M: £4.1M is because of Home to school transport pressures, £0.5M non achievement of current savings, £3.1M children placement costs, £0.4M additional employee costs due to the anticipated pay offer and £0.1M year of the child costs. There is a further pressure of historic saving targets of £0.2M in Education offset by new cost control initiatives totalling 0.7M through early intervention, reducing accommodation costs, prioritising projects to reduce spend and reducing translation costs by utilising online solutions. In addition costs to Home to school have reduced through an exercise of route optimisation and tendering routes to use larger vehicles reducing the number of journeys.
- ➤ Corporate Services £2.35M overspent, a favourable movement of £0.10M: £1.55M is due to non-achievement of savings, a shortfall in income of £0.77M and a shortfall in the salary budget of £0.53M which mainly relate to forecast variances within the IT budget. The adverse position is reduced by cost control measures within the pension account of £0.23M, forecast savings of £0.14M in the Highways budget and risk management savings of £0.13M.
- ➤ Wellbeing and Housing £4.0M overspent, a favourable movement of £0.2M: £5.4M is due to increased number and cost of client packages, £0.2M of non-achievement of savings, £0.3M increased bad debt provision and £0.3M increased homelessness costs, offset by employee savings including agency of £0.5M. The adverse position is further offset by new government funding of £1.7M for care costs.
- ➤ Place £0.5M overspent, a favourable movement of £0.1M: Adverse variances of £0.2M Mayflower Park funding, £0.3M historic agency saving target which cannot be achieved, £0.3M relating to visitor economy, virtual retail for the Art Gallery and Southampton branding. There is a pressure of £0.2M due to non-achievement of the solar bins saving and other minor savings and £0.2M pressure relating to the cost of reactive repairs, increased Coroner costs of £0.1M and £0.2M City Development growth proposal. This is offset by a rates reduction in cultural services of £0.2M and Transportation cost control measures of £0.3M and reduction in the anticipated cost of energy of £0.3M and net increased income of £0.18M, along with a reduction on the Waste Transformation and Improvement budget of £0.3M. Cost control measures are continuing to be developed to address the remaining pressure in year.

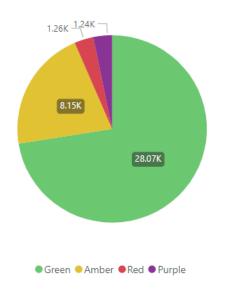

Forecast Variance

Month

# Savings not achieved

 $\rightarrow$ 

Savings Targets 2023/24 RAG Rated £000's

Savings Targets per Directorate £'000s

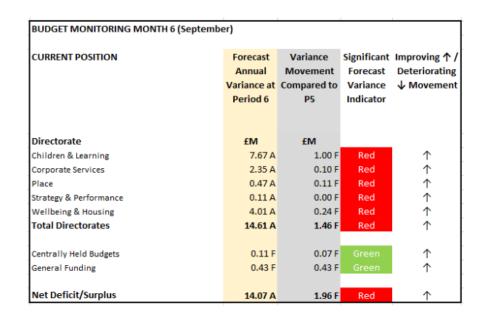

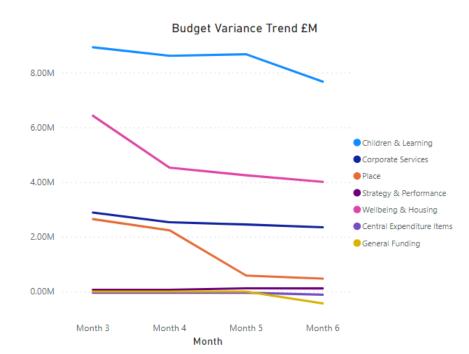

## **Key Issues**

The current rate of non-achievement of savings is 8% or £2.5M forecast not to be achieved (Red & Purple).

## **General Fund Position**

The overall movement since month 5 is £1.9M favourable. The main area of movement is Children & Learning (favourable £1.0M)

		'		Summa	ry of varia	nces to bu	idget

Stronger Communities	2.05	1.95	0.09 F	0.09 F	0.00			2.30	2.47

Wellbeing and Housing £4.0M overspent, a favourable movement of £0.2M: £5.4M is due to increased number and cost of client packages, £0.2M of non-achievement of savings, £0.3M increased bad debt provision and £0.3M increased homelessness costs, offset by employee savings including agency of £0.5M. The adverse position is further offset by new government funding of £1.7M for care costs.

The balance on the Medium Term Financial Risk (MTFR) Reserve is forecast to be used up in 2023/24 in meeting the £14.1M in-year overspend. £4.7M of the General Fund Balance would also be required to cover the forecast deficit as at month 6, if not met from other reserves. This would reduce the General Fund Balance to £5.4M, compared with a minimum of £11M recommended by CIPFA (5% of net revenue expenditure).

Government Grant adjustments to be taken	0.81	(3.38)	(2.56)
into account in budget setting			

- For the Collection Fund as a whole there is a forecast surplus of £6.2M to be carried forward into 2024/25, mostly from an improvement in the 2022/23 outturn position due to a reduction in the amount set aside for business rates appeals.
- ➤ SCC's share of the surplus is £2.7M, of which £4.3M relates to the improvement in the 2022/23 outturn position and £1.6M to an in-year deficit. This will need to be taken into account in setting the 2024/25 budget and is not available to use in 2023/24.
- ➤ In addition, there is a forecast reduction of £0.1M in government grant income for business rates reliefs in 2023/24.

**HRA POSITION - £0.59M Favourable.** £0.59M Favourable forecast on depreciation charge is proposed to be added to the overall working balance. Pressures of £2.37M across the HRA relating to rent void loss £0.2M and empty property charges £0.25M, £0.8M Disrepair claims, waste disposal cost, management restructure and termination costs and £1m interest rate cost are being offset by favourable variances on service charge income of £0.18M and interest receivable of £0.08M, and a reduction in planned direct revenue financing contribution of £2.1M.

As a result of significantly increased energy costs, and no subsequent adjustment to charges applied during 2022/23, the landlord controlled heating account ended in a deficit position as at 31<sup>st</sup> March 2023. The revised charges for 2023/24 are sufficient to cover costs in 2023/24 only, but will not contribute to deficit recovery unless a significant reduction in cost occurs. Cabinet agreed to the principle of a phased deficit recovery plan in July 2023.
