The Panel considered the provisional key stage results and the supplementary data, as detailed in the appendices, and discussed the details with Councillor Dr Paffey, Cabinet Member for Children and Learning, and Derek Wiles, Divisional Head of Education and Learning, educational attainment in Southampton.

The Panel and Officers' attention was drawn to two confidential appendices attached to the report. The confidentiality of Appendices 2 and 3 was based on Category 7a of paragraph 10.4 of the Council's Access to Information Procedure Rules, as they contained information which was subject to an obligation of confidentiality. Members agreed not to discuss the content of the confidential appendices in the meeting, and it was therefore determined that there would be no requirement to exclude the press or public.

In discussions with the Cabinet Member and officers the Panel noted the following:

- Concerns were raised about the 2022 KS2 outcomes for Southampton where the Expected Standards were at least 1%, and as much as 7%, below the National average across all subjects and combined indicators.
- KS4 results could not be compared with last year's figures due to the different system of testing.

- The national dip in GSCE results was not replicated in Southampton, where levels were maintained and continued the steady improvement seen over the last five years. Page 1 Agenda Item 6 - 7 –
- The KS4 Progress 8 results anticipated in September, were expected in mid-October.
- Southampton's A level results remained well below national performance standards but had improved from 2021 to 2022.
- A city-wide solution was needed for Post-16 education due a sizable number of Southampton students attending schools outside the city and the sustainability of colleges in the city.
- Educational attainment of looked after children was to be discussed at the 24 November of the Panel.
- Local authority services provided to schools may be affected if funding currently provided to the City Council was redirected to schools.
- Many Early Years (EY) settings in Southampton were impacted by the pandemic. The majority of those operating in Southampton offer quality provision. The sufficiency of places in Southampton was to be addressed through the development of hubs following the receipt of funding.

RESOLVED that consideration be given to an additional meeting of the Panel to focus on educational attainment with a focus on scrutinising the use of catch up funding; the soon to be published Key Stage 4 national results, including Progress 8; and, Early Years Foundation Stage performance.
