#### **STATEMENT OF CONFIDENTIALITY**

NONE

#### **BRIEF SUMMARY**

The primary care strategic plan has been developed in response to national and local challenges and the need to secure sustainable GP services for the population in the future. The strategy sets expectations about how primary care delivery will change to reflect the model of care outlined in NHS England's Five Year Forward View and General Practice Forward View. It also acknowledges the local workforce challenge, which reflects the national position. The primary care strategy is aligned to Better Care, Southampton and the Hampshire and Isle of Wight Sustainability and Transformation Plan.

The document has been developed after a period of research and engagement spanning more than one year. It has been influenced by feedback received from local GPs and practice staff, patient representative groups and individuals and other local stakeholders.

The strategy is being shared with the Health and Wellbeing Board (HWB) for information.

#### **RECOMMENDATIONS:**

|  |      |  |
|--|------|--|
|  | (i)  | The board are asked to note the themes and direction in this document. |
|  | (ii) |  |

#### **REASONS FOR REPORT RECOMMENDATIONS**

|    |  |
|----|--|
| 1. | The HWB is a statutory body with responsibility for health therefore may find oversight of this document useful and should be used as relevant by the HWB to inform its future work. Primary Care is central to many of the changes in |
|----|--|

|  |   |
|--|---|
|  | better Care being led by HWB.   |
| 2.   |   |
| <b>ALTERNATIVE OPTIONS CONSIDERED AND REJECTED</b> |   |
| 3.   | N/A   |
| <b>DETAIL (Including consultation carried out)</b> |   |
| 4.1  | <p>The transforming primary medical care strategy was born out of the need to respond to a number of key challenges, including financial and workforce constraints in general practice. It has been developed by a working group including five GPs and has been influenced by a period of information gathering and engagement with GPs, practice staff, patients and service users, local providers including the voluntary sector, and other stakeholders, via the GP forum, surveys and a stakeholder workshop.</p> <p>A survey was conducted which was distributed via the practice communications networks and the CCG patient involvement network.</p> <p>The future of primary care has been a key agenda item at various patient group meetings including; HealthWatch, Consult and Challenge Group, the CCG Communications and Engagement Group, the CCG Equality Reference Group and the Pensioners Forum.</p> |
| 4.2  | The document will be going to CCG Governing Body for approval on 30 <sup>th</sup> November 2016   |
| 4.3  | The purpose of the strategy is to address the expectations that the way in which care is delivered will change, as outlined in NHS England's Five Year Forward View and GP Forward View, in order to meet the needs of people and support the delivery of Better Care and the Hampshire and Isle of Wight Sustainability and Transformation Plan (STP) locally.   |
| 4.4  | The strategy also acknowledges the workforce challenge and recognises the importance of building a strong team of motivated and engaged health and care professionals across a range of disciplines with the GP at the core.  |
| 4.5  | The future model of Primary Care will integrate the roles of other professional groups such as clinical pharmacists, dentists and ophthalmologists. This will form the basis of further strategic development following the adoption of this strategy. This strategy is presented as a key building block for wider system reform recognising general practice is at the heart of the health system. The primary care strategy aims to capture the core objectives of what the future model of general practice in Southampton should look like but is not an implementation plan.  |

|     |  |
|-----|--|
| 4.6 | A delivery plan will form Phase 2 of the change process and actions will be developed across access, quality, workforce, infrastructure and collaboration.                   |
| 4.7 | This strategy recognises the value of the traditional partnership model of General Practice, and seeks to build upon those strengths, whilst offering an alternative option. |
