English & Maths GCSEs - These scores show how much progress students at this school or college made in English and maths qualifications such as GCSE re-takes, between the end of key stage 4 and the end of the 16 to 18 phase of education

A positive score means that, on average, students got higher grades at 16 to 18 than at key stage 4. A negative score means that, on average, students got lower grades than at key stage 4. Students are included in these measures if they did not achieve a grade C or higher in their GCSE or equivalent by the end of key stage 4 in that subject.
