#### **STATEMENT OF CONFIDENTIALITY**

#### **BRIEF SUMMARY**

The numbers and complexity of children with special educational needs and disabilities has been increasing year on year for the last 10 years, putting pressure on Special School Places, with all schools reaching capacity in the next 2 years.

The Cedar Special School has been operating above its published admission number ('PAN') of 80 for the last year with 87 pupils currently on role. At a Placement Panel meeting on 29 April 2020 the number of children identified as needing a place exceeded the number leaving. With the likelihood of additional requests being made to the school throughout the year and in subsequent years it is predicted that the number of pupils needing a place will continue to increase. It is therefore proposed to formally increase the PAN to 90.

The Cedar School is a community special school.

The Polygon Special School currently has a PAN of 60. There are currently 66 pupils on roll due to the demand for places and no alternative provision within the city. As the numbers of pupils with social, emotional and mental health needs is expected to increase significantly in the coming years this demand for places will continue to increase. It is therefore proposed to formally increase the PAN at The Polygon School to 70.

The Polygon School is a foundation special school. It is part of the Southampton Co-operative Learning Trust.

Both of these proposals form part of a major expansion and reconfiguration of special school provision being developed within the city.

<b>RECOMMENDATIONS:</b>	
	<p>(i) To approve the publication of statutory proposals to:</p> <p>a) Increase the PAN of Cedar Special School from 80 to 90 pupils from 1 January 2021 resulting in an increase in total school capacity and pupil numbers of 10 once the proposals have been fully implemented across all age ranges.</p> <p>b) Increase the PAN of The Polygon Special School from 60 to 70 pupils from 1 January 2021 resulting in an increase in total school capacity in pupil numbers of 10 once the proposals have been fully implemented.</p>
	<p>(ii) To note, a further report to determine the proposals following a 4 week period of representation will be brought to Cabinet within 2 months of the close of the representation period.</p>
<b>REASONS FOR REPORT RECOMMENDATIONS</b>	
1.	To comply with the statutory guidance 'Making significant changes ('prescribed alterations') to maintained schools the proposal and notices must be published allowing a 4 week period for representation (formal consultation) prior to the final decision and implementation
2.	Both The Cedar and The Polygon Schools have been operating above their published numbers for the last year. With the expectation that pupil numbers will continue to rise it is important that the published admission number reflects the number on roll and the capacity of the school. All schools are required to have a published admission number.
<b>ALTERNATIVE OPTIONS CONSIDERED AND REJECTED</b>	
3.	This proposal is formalising a current situation where both schools are currently above their PAN
4.	Due to the complexity of needs, children identified as needing a place at either of these schools will have to be educated in an alternative Special School out of the city, either Local Authority or independent if sufficient places are not available. The former will attract the same level of funding as Southampton Special Schools and will require pupils to spend avoidable time and discomfort in travelling. Other Local Authorities have the same pressures on their Special Schools and a shortage of places. Independent Special Schools cost significantly more, in the region of £70,000 per place (including transport), and again will have the negative impact of daily travel on the child and additional travel costs. Both of these options will impact on the home to school transport budget.
<b>DETAIL (Including consultation carried out)</b>	
5.	The Local Authority has a statutory duty to ensure that there is a sufficient supply of school places in its area for children of school age. In addition all children and young people are entitled to an appropriate education, one that is appropriate to their needs, promotes high standards and the fulfilment of potential (Code of Practice 2015 6.1)
6.	The number and complexity of children with special educational needs has been increasing year on year for the last 10 years and is predicted to continue to rise for the foreseeable future.

<b>Number of Education, Health and Care Plans maintained by Southampton City Council 2010-2020</b>											
	2010	2011	2012	2013	2014	2015	2016	2017	2018	2019	2020
	567	593	634	655	701	803	1021	1181	1387	1522	1736
<i>Source: DfE SEN 2 Return</i>											
7.	Whilst many of these children will be educated within mainstream schools, the increasing complexity of needs is putting pressure on the city's special schools with most either at or reaching capacity in the next 2 years.										
8.	Educating children locally is the preferred option for parents and ensures that children have access to high quality educational provision (Both The Cedar School and The Polygon School were rated Good in their last Ofsted inspections). It enables the Local Authority to more easily monitor provision and outcomes and ensures that children have access to local health and social care services. It enables children and their families to develop friendships with other Southampton children and families and to be supported throughout their journey to adulthood by local community provision.										
9.	The Cedar School and Polygon School take children from across the city. Home to school transport will be arranged for those pupils who meet the criteria. This will impact on the home to school transport budget.										
10.	Due to the different types of SEND, the changing needs of individual pupils and the nature of the environment, the number of pupils on roll has a degree of flex, with the individual needs of each pupil, within the context of the SEND profile across the school, considered at each admission panel meeting. This flex however can result in continual creep in numbers and a loss of the impact of the overall increase over time. It is therefore important that published admission numbers are reviewed and amended, if required, to reflect the capacity of the school and staff.										
11.	Both schools are currently operating above their published PAN. An assessment by the Headteachers of both schools of the impact of an additional 3 pupils at Cedar School and 4 pupils at The Polygon on staff, the site or facilities has been deemed to be negligible.										
12.	These proposals have been discussed with the Headteachers, Governing Bodies, staff and parents of both schools. They have been shared with the Unions and with the Parent Carer Forum. The main concerns raised by parents and Unions was the impact on staff : pupil ratios. As funding follows the child, any increase in pupil numbers will result in an increase in staffing.										
<b>RESOURCE IMPLICATIONS</b>											
<b><u>Capital/Revenue</u></b>											
13.	Children placed in a Special School attract base funding of £10,000 per pupil plus top up costs according to need (Band 2 top up costs for Cedar = £11,708; Band 2 top up costs for Polygon = £9,542). These costs are based on pupils on roll and not the published admission number.										
14.	The budgeted revenue for 20/21 for The Cedar school is based on 85 pupils. The budgeted revenue for 20/21 for Polygon School is based on 60 pupils										
15.	An additional 5 places in Cedar School will require revenue funding of £21,708 x 5 = £108,540.										

	<p>An additional 10 places at The Polygon School will require revenue funding of £19,542 x 10 = £195,420.</p> <p>This increase in revenue will come from the Dedicated Schools Grant and will prevent the need to use high cost out of city provision (Approximate costs of independent out of city provision = £70,000 x 15 = £1,050,000).</p>
<b><u>Property/Other</u></b>	
16.	There are no property implications
<b>LEGAL IMPLICATIONS</b>	
<b><u>Statutory power to undertake proposals in the report:</u></b>	
17.	The Council has a statutory duty to provide sufficient school places to secure attainment and meet demand in accordance with s.13-14 Education Act 1996.
18.	In order to make changes in pupil numbers of the number and type proposed the Council is required to follow a statutory school organisation process set out in The Education & Inspections Act 2006 and further detailed in The School Organisation (Prescribed Alterations to Maintained Schools (England) Regulations 2013. The Regulations require engagement and consultation with schools prior to publishing statutory proposals in the form of a Notice, allowing 4 weeks for representations to be made by interested parties. Following that period, the Council has a maximum of 2 months to make a decision on the proposals (reserved to Cabinet) at which point it may approve them, subject to specific statutory modifications or reject them. The modifications and conditions that can be imposed are strictly limited by the legislation.
19.	The Council has additional, specific duties, in relation to the provision of education for children with special educational needs (SEN) as set out in Part 3 of the Education Act 1996.
<b><u>Other Legal Implications:</u></b>	
20.	In making the proposals the Council is required to have regard to the provisions of the Equality Act 2010 and in particular s.149, the Public Sector Equality Duty to ensure the proposals and any impacts they may have on those with protected characteristics are taken into account and mitigated or improved as a result of the design of the proposals.
<b>RISK MANAGEMENT IMPLICATIONS</b>	
21.	In considering these proposals an assessment of risks was undertaken by the relevant Headteachers and Governing Bodies. No risks of concern were identified.
<b>POLICY FRAMEWORK IMPLICATIONS</b>	
22.	These proposals support the Children and Young People's Strategy 2017-20 in supporting children and young people with SEND to achieve their potential in all aspects of their lives.
23.	They also support the SEND Strategy 2017-20 in ensuring that there are sufficient places in schools following a forecast of need.

<b>KEY DECISION?</b>	<b>Yes</b>
----------------------	------------

<b>WARDS/COMMUNITIES AFFECTED:</b>	All wards This proposal affects school age children only
------------------------------------	---

SUPPORTING DOCUMENTATION

**Appendices**

1.	Equality and Safety Impact Assessment
2.	Proposal to increase the number of places at The Cedar School , Southampton, from 80 places to 90 places from January 2021.
3.	Proposal to increase the number of places at The Polygon School, Southampton, from 60 to 70 places from January 2021.
