Dismissed at Appeal
15.10.2010

Enforcement Notice served 4.2.2010 requiring cessation of the use of the building for the manufacture of plastic products and restore its lawful use for warehousing and storage purposes. Following the Appeal against the Notice being dismissed, the Notice became effective on 15 April 2011. The occupier and owner are now therefore in breach of the upheld and effective Enforcement Notice. This breach can be prosecuted in the Courts if considered expedient to do so. Such action is being held in abeyance until the determination of the current planning application (11/01007/FUL).
