

Low Emission Taxi Incentive Scheme

The halving of the Low Emission Taxi Incentive scheme offered previously planned for May 2020 has been delayed until the end of the year to support drivers who might be considering upgrading to a low emission vehicle. Until then, applicants can claim the full amount offered by the scheme including £3,000 for switching to a full electric vehicle, £1,500 for a full hybrid electric and so on.

For more information on the Low Emission Taxi Incentive scheme, please visit <https://www.southampton.gov.uk/environmental-issues/pollution/air-quality/concessions/>
