

# **November 2018**

## **ECaT**

### **More than Words**

**Is your home a communication friendly space?**

**Children often communicate best in calm, interesting, small spaces.**

## **Challenge**

- **Build a den under the table or behind a curtain, where you and your child could sit and share a book or play with a favourite toy**
- **Is your house always noisy; are there a lot of brightly coloured toys and objects; do you always have artificial lighting; are all the toys plastic? Can you change any of these things?**
- **Talk with your child for 20 minutes each day with the TV switched off.**
