APPENDIX 1 – SOUTHAMPTON CITY VISION LOCAL PLAN TIMETABLE	8

PREPARING OUR DEVELOPMENT PLANS

A Local Development Scheme for Southampton

What is this document?

'Preparing our Development Plans' is a document that sets out how and when Southampton City Council will prepare 'Southampton City Vision', the new Local Plan, and other essential planning documents from 2019 onwards. These documents are referred to by government as Development Plan Documents, or DPDs.

Together, these plans express the vision for the city and form the Council's planning policy framework known as the 'Development Plan'. The purpose of the Development Plan is to guide all planning and development decisions for the area to which it applies.

The objectives of this document are:

- To meet the requirements of the Planning and Compulsory Purchase Act 2004; the Planning Act 2008; the Localism Act 2011; the National Planning Policy Framework (NPPF) 2019 and the National Planning Policy Guidance (NPPG);
- To accord with the Council's strategy for engagement as set out in the 'Involving you in Planning' document (2019);
- To present a plan that ensures a continued and up to date planning policy framework for Southampton; and
- To be accessible and user friendly for everyone.

Why is this document important for Southampton?

It is Southampton City Council's obligation to produce this document and to ensure it is updated regularly. However, as the document is required to include details of the proposed Development Plan changes, as well as a timetable for the works, it is also a great starting point for the local community and other interested parties to find out more about the planning of the city and to keep track of progress.

As a focal point in central southern England, and the principal city in south Hampshire, Southampton is an important regional location for growth and the development of new homes; additional employment opportunities; transport connections; as well as retail, leisure and education facilities. It is also the home of a globally important port, for both cruises and the transport of goods, and is a gateway to the Isle of Wight. It is therefore important that the Development Plan recognises all of the above and allows us to take advantage of any opportunities whilst promoting sustainable growth, protecting and enhancing of the city's natural and historic environment whilst ensuring vibrancy and attractiveness is maintained.

However, planning issues often change over time and policies can sometimes prove ineffective in tackling new problems or aiding us to drive forward change or growth when

new opportunities arise. It is therefore vital to update the Development Plan regularly and to ensure it is relevant to local planning issues. However, the Council also believes it is important to keep this document up to date so that local people, businesses and other interested parties can stay properly informed about why, how and when we plan to make changes.

What is Southampton's Development Plan?

Southampton City Council's Development Plan comprises a series of documents which, as a whole, set out the aspirations for the city, the long-term strategic plans for Southampton, as well as a variety of other non-strategic planning policies to manage development within the city boundary (see figure 1). The Development Plan is also what both the planning officers and planning committee consider development proposals against to ensure that we, as the local planning authority for Southampton, are making consistent decisions in the best interest of the city.

What documents form the existing Development Plan for Southampton?

Southampton's Development Plan currently comprises 5 DPDs as shown in Figure 2. Further details on each of these documents, and the areas they apply to, are provided below.

Figure 2: Development Plan Documents that form Southampton's existing Development Plan

City of Southampton Local Plan March 2006 and Review 2015

The original Local Plan was adopted in 2006 to provide a land use framework for the entire city. However, the initial documents that informed it (e.g. the City Strategy 1999 and Community Strategy 2003) had become out of date, therefore a review in 2015 updated its policies to ensure the Local Plan was fit for purpose and current use. The Local Plan Review (adopted March 2015) is therefore the latest version of this document and replaces parts of the original plan to align with Southampton's other adopted DPDs (listed below).

Core Strategy 2010 and its Partial Review March 2015

The original Core Strategy provided an overarching vision for Southampton to the year 2026, providing strategic policies for the city's economic development and spatial approach to planning. The 2015 Partial Review updated the document with three focussed changes that responded to altered priorities, more recent evidence and changing legislation. These were:

- Introduction of the national 'presumption in favour of sustainable development';
- A reduction of office and retail targets; and
- Changes to the biodiversity policy

City Centre Action Plan March 2015

This document was based upon the priorities set out in a masterplan undertaken in 2012. With a time horizon to 2026, the City Centre Action Plan (CCAP) has a vision and strategy for the city centre (see Figure 1 for city centre boundary).

The Hampshire Minerals and Waste Local Plan 2013

This plan covers the administrative areas of Hampshire County Council, Southampton City Council, Portsmouth City Council, New Forest National Park and the part of the South Downs National Park which falls within the administrative boundary of Hampshire County Council. It addresses issues of supply, in terms of producing minerals for the construction industry, and managing mineral extraction in high quality landscapes (e.g. along the River Itchen and the Port of Southampton). However, the rising profile of waste management and recycling is presenting greater challenges to transport routes, noise and pollution (like dust emissions). As such, the plan's vision is to protect the environment, maintain communities and support the economy.

Bassett Neighbourhood Plan 2016

The Bassett Neighbourhood Plan was adopted by the Council on 20 July 2016, and runs up to 2029. It contains policies that seek to protect the green spaces, trees and the existing character in the ward of Bassett, acting to positively steer development and change in the area. It identifies high, medium and low density areas for housing in this ward with an emphasis upon the provision of family homes in response to identified need, managing traffic and controlling the growth of houses in multiple occupation (HMOs).

What changes are proposed for Southampton's Development Plan?

As explained above, and depicted in Figure 2, the current Development Plan for Southampton comprises a series of 5 DPDs. However, the Local Plan, Core Strategy and City Centre Action Plan have now become outdated, and we would like to make the Development Plan easier to comprehend and more user-friendly. As such, we are planning to combine the types of policies covered by these three outdated DPDs into a singular document – a new Local Plan called 'Southampton City Vision' (see Figure 3).

The other documents that form part of the existing Development Plan, namely the Hampshire Minerals and Waste Plan and the Bassett Neighbourhood Plan, will remain as existing. However, we anticipate that in the future there will be a need to review the Hampshire Minerals and Waste Plan in partnership with neighbouring Councils, including Hampshire County Council.

Figure 3: Existing Development Plan vs. Proposed Development Plan

It is important to note that the above sets out the Council’s current plans, but over time the Development Plan may need to change further in order to assist in the effective management of development across the city. In light of this, the LDS (this document) will be updated regularly to ensure that there is proper and timely communication of the Council’s planned changes and the timescales for the production of any new documents.

The new Local Plan, ‘Southampton City Vision’

The future development needs of Southampton will be set out in this long term strategy to manage development, protect the environment and promote sustainable communities. It will set out how Southampton’s growth needs will be met and will include policies for assessing planning applications and new development proposals across the whole of the city.

In developing this new Local Plan, we have the chance to take a fresh look at the challenges and opportunities in the city and to think about where the Council might be able to update planning policy to help tackle or take advantage of certain matters. This new document will also plan for Southampton’s continuing growth and ensure that the new homes, businesses, jobs, shops and infrastructure the city needs can be delivered at the right time and in the right places.

Appendix 1 sets out the timetable of milestones in the plan’s preparation and estimated dates for examination and final adoption.

How will the Council ensure that the Local Plan milestones are reached effectively and on time?

To deliver the programme as set out in the timetable (Appendix 1) it will be important to:

- Produce a sound and robust evidence base;
- Ensure stakeholders and the community are involved in the process, in accordance with the 'Involving you in Planning' document (2019);
- Ensure that we deliver on all legislative requirements;
- Allocate sufficient resources (staffing and financial) to carry out the required tasks;
- Review and monitor work undertaken (e.g. through the Annual Monitoring Report); and
- Assess risk, in terms of both mitigation and contingency

The Council will also keep this document, and the relevant planning documents, under regular review, amending its programme of work as necessary to ensure the continuation of sound planning strategies and policies for Southampton.

How will the Council report on the progress of the Development Plan changes?

Southampton City Council Website

The Planning Policy webpages on the website will be kept up to date throughout the development of any new development plan documents, including those associated with the new 'Southampton City Vision' Local Plan. We will use these pages to communicate overall progress, provide information on any consultations or engagement activities that are being undertaken, publish any background documents that will support the plan and to publish the plan itself.

Authority Monitoring Report (AMR)

The AMR is a document that is required to be produced annually in order to provide monitoring updates on a range of planning matters and measure the effectiveness of the Council's planning policies. This document will update on progress towards any milestones set out in the 'Preparing our Development Plans' document and identify whether or not any of the proposed timescales require adjustment.

APPENDIX 1 – SOUTHAMPTON CITY VISION LOCAL PLAN TIMETABLE

December 2019	Publish Statement of Community Involvement (SCI)	
	Publish Local Development Scheme (LDS)	
January – March 2020	Produce Technical Reports for Evidence Base	CONSULTATION: Issues and Options
May 2020		Feedback outcome of consultation
October – November 2020		CONSULTATION: Preferred Options
January 2021		Feedback outcome of consultation
September 2021		Publish Pre-Submission Plan
October 2021	Finalise Evidence Base	CONSULTATION: Pre-submission Plan
December 2021	Publish and Submit Final Plan	Feedback outcome of consultation
June 2022	Examination by Inspector	CONSULTATION: Modifications
December 2022	Adoption of Plan
