## Listening and Attention Skills August 2017

**Children will develop longer attention spans as they grow older but you can help promote good attention to an activity or toy by playing alongside your child, encouraging them to spend just a little longer at the game.**

### **ACTIVITY – Play Shops**

Set up a pretend shop, with 4 or 5 things in it – real objects or toys. Ask your child to buy milk, then milk and beans, then apple, cheese, yoghurt ..... !
