PUSH AREA

KEY OBJECTIVES OF PUSH

The Partnership for Urban South Hampshire was formed to deliver regeneration of the core urban areas in south Hampshire, focused on the cities of Portsmouth and Southampton. The adjoining older urban areas are also very much at the heart of this urban renaissance strategy and PUSH believes that the strong functional and physical links between the core urban areas and the semi rural hinterland must form the basis for the proper planning of the south Hampshire sub region; which must also be seen in the wider Hampshire context.

PUSH has pursued an economic regeneration/urban renaissance-driven strategy which SEERA has also adopted in crafting the SE Plan. PUSH believes that a balanced approach, with economic, social and environmental sustainability at its heart, is the responsible and appropriate way to plan for the future of south Hampshire, with an inclusive and integrated spatial strategy delivering sustainable communities into the future.

PUSH accepts and embraces managed and sustainable growth as a policy instrument to help lift deprived communities and households out of poverty and deprivation, whilst providing a foundation for the long term security of the quality of life of all the people of south Hampshire, which is dependent on economic prosperity, adequate provision of and access to housing, and maintenance of the sub regional environment.

The key objectives for PUSH are as follows, most of which are reflected in PUSH's sub-regional strategy submitted as advice to SEERA:

- Encouraging conditional, managed growth through the adoption of a *Plan, Monitor and Manage* approach to land release and plan review, with development conditional on timely and adequate infrastructure provision;
- Securing necessary enhancements to infrastructure (covering transport, water supply and waste water treatment, social and community facilities, education and healthcare provision and green infrastructure) to support new development and addressing existing infrastructure deficits;
- Securing a realistic and sustainable level of economic growth, with a target for GVA growth from 2.75% 2006–11 up to 3.5 % by 2021–26;
- Delivering “Smart Growth”, based on increased productivity and economic activity rates, principally delivered through enhanced workforce skills and training for the indigenous labour force and population;
- Providing for 80,000 additional dwellings over the period 2006 to 2026 to meet the needs of the existing population and to accommodate labour supply requirements to sustain sub regional economic performance and prosperity;
- Pursuing a *brownfield and city first* spatial strategy focusing on brownfield and existing sites up to 2011, adding sustainable urban extensions up to 2016 and bringing in larger greenfield Strategic Development Areas after 2016 to deliver sustainable communities with links to the two cities;
- Adopting strong policy protection for strategic gaps, designated nature conservation and protected landscapes, and areas of high quality built environment;
- Achieving the highest environmental standards for new development in the South East, particularly in terms of resource conservation and reduction of environmental impact, by the

DRAFT

application of consistent standards and policy approaches in partner authorities' local development documents covering the PUSH area;

- Delivering enhancements to the green infrastructure and high quality design in the built environment to consolidate and improve the environment and quality of life of the sub region and to promote urban renaissance;
- Promoting locally-led and democratically accountable and cross-party leadership, management and delivery of the vision and spatial strategy for south Hampshire and securing the participation and engagement of communities of place and interest, including the private sector.

FUNCTIONS DELEGATED BY THE PARTIES TO THE PUSH JOINT COMMITTEE

Table 1 sets out the functions delegated to the PUSH Joint Committee.

In exercising delegated functions, the Joint Committee operates according to certain key principles.

<ul style="list-style-type: none"> • <i>A commitment to partnership and joint working</i> Successful delivery of the South Hampshire Sub-Regional Strategy depends upon effective and wholehearted collaboration between member authorities at both political and officer levels, and genuine partnership working with other sectors and agencies with an interest. • <i>Subsidiarity</i> Matters that are best done at individual local authority level should continue to be performed at that level. Conversely, matters that would more effectively be dealt with at a sub-regional level, or that may have impacts or require a response on a cross-boundary basis, should be led by PUSH. • <i>Geographical limitations</i> PUSH would have no jurisdiction or responsibilities outside of its boundaries, unless expressly agreed between PUSH and the relevant local authority or statutory agency. • <i>Functional limitations</i> PUSH will only do the things that authorities collectively agree that it should do. This needs to be applied flexibility to allow for innovation responsiveness and maximising opportunities. • <i>Collective Responsibility</i> The member authorities will be collectively responsible and mutually accountable for delivering PUSH's objectives, strategy and activities.

The business plan sets out the range of matters on which the Joint Committee has delegated authority to act and make decisions. These matters are ones that have cross-boundary implications, rather than affecting one authority alone. The Joint Committee has all necessary delegated functions to implement the approved business plan. Individual authorities retain the power to determine local issues affecting their area alone, as these would not be included in the approved business plan.
