

## Equality and Safety Impact Assessment

The **Public Sector Equality Duty** (Section 149 of the Equality Act) requires public bodies to have due regard to the need to eliminate discrimination, advance equality of opportunity, and foster good relations between different people carrying out their activities.

The Equality Duty supports good decision making – it encourages public bodies to be more efficient and effective by understanding how different people will be affected by their activities, so that their policies and services are appropriate and accessible to all and meet different people's needs. The Council's Equality and Safety Impact Assessment (ESIA) includes an assessment of the community safety impact assessment to comply with Section 17 of the Crime and Disorder Act and will enable the Council to better understand the potential impact of proposals and consider mitigating action.

<b>Name or Brief Description of Proposal</b>	The Development of the Former Oaklands School Site
<b>Brief Service Profile (including number of customers)</b>	
Delivery of 103 new affordable homes on the site of the Former Oakland's School including, landscaping and public realm works, parking and play facilities.	
<b>Summary of Impact and Issues</b>	
<p>Whilst the former Oakland's School has been demolished, there are still the floors slabs of the building on the site and these will be removed as part of the ground works.</p> <p>During the removal of the slab and the construction of the new homes and public realm there will be some noise and dust inconvenience.</p> <p>There is currently no traffic movement on and off this site so both during the construction and once complete there will be an increased traffic flow to and from the site.</p> <p>An existing cycle way/footpath will be closed and this will be rerouted through the site to improve the visibility of those using the route.</p>	
<b>Potential Positive Impacts</b>	
The completed scheme will offer 103 new homes which will all be affordable. This will be a mix of affordable rent and shared ownership. The site will	

provide homes for those currently on the councils housing register and for those wishing to take the first step into home ownership.

Some of the properties will be designed specifically for disabled people. It is anticipated some of the homes on the site will be used by adult social care as supported housing.

Currently the site which is surrounded by fencing and hoarding is unattractive in the local community and the development will result in significant improvement to the local environment.

There will be an improved cycle route to the housing behind the site.

There will be new play facilities for children living on the site.
