BRIEF SUMMARY

On an annual basis and in accordance with the Public Sector Internal Audit Standards the Chief Internal Auditor is required to provide an opinion on the adequacy and effectiveness of the Council's framework of risk management, internal control and governance.

In addition to the opinion an update is provided within the report of the Internal audit work carried out since the last reporting period.

During 2021-22 Internal Audit & Counter Fraud completed 33 audits (including 2 items of consultancy), 15 grant reviews, 14 first follow ups and 8 second follow ups. The results show that the level of 'No Assurance' audited areas have decreased from the previous year, as none were raised during 2021-22.

70% of areas tested were rated as 'reasonable assurance' or 'assurance'. This is consistent with the previous year. This is a strong indication that improvements evidenced over the last two years have been maintained. In addition, the results across audit work performed during 2021-22 have not identified any systemic failings. There are pocked however, across the council that require further work and the impact of Covid 19 and changes to working patterns may highlight additional areas for focus and auditing over time.

Based on the results 'Reasonable Assurance' has been attributed to the effectiveness of the control framework in operation. This is an improvement from prior years where 'limited assurance' was given. The full details can be found in Appendix A.
