

Friends of Chessel Bay

Informal group of locals whose aim is to protect and preserve Chessel Bay LNR. Principal activity consists of community litter picks organised in conjunction with City Council officers - usually in Spring and Autumn.

Volunteers have removed substantial quantities of rubbish from the site for over 20 years - often a ton on each occasion.

Volunteers have worked with Surfers Against Sewage on Citizen Science projects at Chessel Bay. In 2022 over 67 people volunteers helped at the Autumn clean-up. No formal membership. Leaflet available.
