### STATEMENT OF CONFIDENTIALITY

N/A

#### **BRIEF SUMMARY**

The report summarises the General Revenue Fund, Housing Revenue Account (HRA) and Collection Fund financial position for the Council as at the end of December 2022 and informs Cabinet of any major changes in the overall General Fund and HRA capital programme for the period 2022/23 to 2026/27.

The General Revenue Fund deficit for the year as outlined in this report is £10.34M as at 31 December 2022 after taking account of £4.70M agreed in-year savings, with the most significant deficit being for the Children & Learning portfolio (£11.02M). Mitigation plans to reduce the forecast deficit are being progressed, however will not reduce the deficit in full. Failing any further improvement in the financial position the deficit will need to be met from corporate reserves and would therefore impact on the council's future financial resilience and the resources available to help address future years' budget shortfalls and transformation costs, as noted in the 2023/24 Budget, Medium Term Financial Strategy and Capital Programme report elsewhere on this agenda.

### **RECOMMENDATIONS:**

4.	The current forecast spending against the council's net General Fund revenue budget for the year of £193.15M is projected to be a £10.34M deficit, after taking account of £4.70M agreed in-year savings, a deterioration of £0.75M from the position forecast at the end of September 2022. This is a significant adverse variance which has on-going consequences for the Council's financial sustainability. The most significant deficit is			

£0.92M, with a forecast surplus of £1.11M against an expenditure budget of £77.33M offset by a forecast deficit of £1.11M against an income budget of £76.41M. This is no overall change from the position forecast at the end of September 2022.  Capital  Appendix 2 sets out any major changes in the overall General Fund and Housing Revenue Account (HRA) capital programme for the period 2022/23 to 2026/27, highlighting the changes in the programme since the last reported position in November 2022. The report also notes the major forecast variances against the approved estimates.  Due to the current financial environment, there has been a need to review the programme, against the backdrop of rising inflation which is significantly increasing construction costs and rising interest rates which has seen the cost of borrowing more than double since the budgets were set in February 2022.  This review has resulted in £17.66M of net slippage/rephasing (£11.61M General Fund and £6.05M HRA) from 2022/23 into later years, as detailed in paragraphs 5 and 6 of appendix 2.  The current forecast position for 2022/23 at quarter 3 is £144.78M, resulting in a potential surplus of £2.43M, as detailed in paragraphs 5 and 6 of appendix 2.  RESOURCE IMPLICATIONS  Capital/Revenue  There are no specific property implications arising from this report other than the schemes already referred to within appendix 2 of the report.  EGAL IMPLICATIONS  Statutory power to undertake proposals in the report:  Financial reporting is consistent with the Section 151 Officer's duty to ensure good financial administration within the Council.  Other Legal Implications:		for Children & Learning (£11.02M) and Health, Adults & Leisure has a forecast deficit of £4.54M (after a £1.91M contribution from reserves). Mitigation plans to reduce the forecast deficit are being progressed, however this will not reduce the deficit in full. Failing any further improvement in the financial position the £10.34M will need to be met from the Medium Term Financial Risk Reserve, which would therefore impact on the council's future financial resilience and the resources available to help address future years' budget shortfalls or deliver transformation. The overspend is substantial and when coupled with the expectation of future stress on the budget extending into 2023/24, it represents a major risk to the future financial stability of the authority. The council has been operating under Essential Spend only rules since August 2022 to counteract the overspend and the financial risks of spending to such an extent over budget and the impact it has on reserves.
