## **PUBLIC INFORMATION**

### **Role of the Council**

The Council comprises all 48 Councillors. The Council normally meets six times a year including the annual meeting, at which the Mayor and the Council Leader are elected and committees and sub-committees are appointed, and the budget meeting, at which the Council Tax is set for the following year.

The Council approves the policy framework, which is a series of plans and strategies recommended by the Executive, which set out the key policies and programmes for the main services provided by the Council. It receives a summary report of decisions made by the Executive, and reports on specific issues raised by the Overview and Scrutiny Management Committee. The Council also considers questions and motions submitted by Council Members on matters for which the Council has a responsibility or which affect the City.

## **PUBLIC INVOLVEMENT**

**Questions:-** People who live or work in the City may ask questions of the Mayor, Chairs of Committees and Members of the Executive. (See the Council's Constitution ref Part 4 Council Procedure Rules 10.8)

**Petitions:-** At a meeting of the Council any Member or member of the public may present a petition which is submitted in accordance with the Council's scheme for handling petitions. Petitions containing more than 1,500 signatures (qualifying) will be debated at a Council meeting. (See the Council's Constitution ref Part 4 Council Procedure Rules 10.1)

**Representations:-** At the discretion of the Mayor, members of the public may address the Council on any report included on the agenda in which they have a relevant interest. Any member of the public wishing to address the meeting should advise the Democratic Support Officer (DSO) whose contact details are on the front sheet of the agenda.

**Deputations:-** A deputation of up to three people can apply to address the Council. A deputation may include the presentation of a petition. (See the Council's Constitution ref Part 4 Council Procedure Rules 10.7)

## **MEETING INFORMATION**

**Use of Social Media:-** The Council supports the video or audio recording of meetings open to the public, for either live or subsequent broadcast. However, if, in the Chair's opinion, a person filming or recording a meeting or taking photographs is interrupting proceedings or causing a disturbance, under the Council's Standing Orders the person can be ordered to stop their activity, or to leave the meeting. By entering the meeting room you are consenting to being recorded and to the use of those images and recordings for broadcasting and or/training purposes. The meeting may be recorded by the press or members of the public.

Any person or organisation filming, recording or broadcasting any meeting of the Council is responsible for any claims or other liability resulting from them doing so.

Details of the Council's Guidance on the recording of meetings is available on the Council's website.

**Mobile Telephones** – Please switch your mobile telephones to silent whilst in the meeting.

The Southampton City Council Strategy (2016-2020) is a key document and sets out the four key outcomes that make up our vision.

- Southampton has strong and sustainable economic growth
- Children and young people get a good start in life
- People in Southampton live safe, healthy, independent lives
- Southampton is an attractive modern City, where people are proud to live and work

**Access** – Access is available for disabled people. Please contact the Council Administrator who will help to make any necessary arrangements

**Smoking policy** – The Council operates a no-smoking policy in all civic buildings

**Fire Procedure** – In the event of a fire or other emergency, a continuous alarm will sound and you will be advised by Council officers what action to take.

<b>Proposed dates of meetings (Municipal year 2017/18)</b>	
<b>2017</b>	<b>2018</b>
19 July	21 February (Budget)
20 September	21 March
15 November	16 May (AGM)

## **CONDUCT OF MEETING**

### **FUNCTIONS OF THE COUNCIL**

The functions of the Council are set out in Article 4 of Part 2 of the Constitution

### **RULES OF PROCEDURE**

The meeting is governed by the Council Procedure Rules as set out in Part 4 of the Constitution.

### **BUSINESS TO BE DISCUSSED**

Only those items listed on the attached agenda may be considered at this meeting.

### **QUORUM**

The minimum number of appointed Members required to be in attendance to hold the meeting is 16.

## **DISCLOSURE OF INTERESTS**

Members are required to disclose, in accordance with the Members' Code of Conduct, **both** the existence **and** nature of any "Disclosable Pecuniary Interest" or "Other Interest" they may have in relation to matters for consideration on this Agenda.

### **DISCLOSABLE PECUNIARY INTERESTS**

A Member must regard himself or herself as having a Disclosable Pecuniary Interest in any matter that they or their spouse, partner, a person they are living with as husband or wife, or a person with whom they are living as if they were a civil partner in relation to:

- (i) Any employment, office, trade, profession or vocation carried on for profit or gain.
- (ii) Sponsorship: Any payment or provision of any other financial benefit (other than from Southampton City Council) made or provided within the relevant period in respect of any expense incurred by you in carrying out duties as a member, or towards your election expenses. This includes any payment or financial benefit from a trade union within the meaning of the Trade Union and Labour Relations (Consolidation) Act 1992.
- (iii) Any contract which is made between you / your spouse etc (or a body in which the you / your spouse etc has a beneficial interest) and Southampton City Council under which goods or services are to be provided or works are to be executed, and which has not been fully discharged.
- (iv) Any beneficial interest in land which is within the area of Southampton.
- (v) Any license (held alone or jointly with others) to occupy land in the area of Southampton for a month or longer.
- (vi) Any tenancy where (to your knowledge) the landlord is Southampton City Council and the tenant is a body in which you / your spouse etc has a beneficial interests.
- (vii) Any beneficial interest in securities of a body where that body (to your knowledge) has a place of business or land in the area of Southampton, and either:
  - a) the total nominal value of the securities exceeds £25,000 or one hundredth of the total issued share capital of that body, or
  - b) if the share capital of that body is of more than one class, the total nominal value of the shares of any one class in which you / your spouse etc has a beneficial interest that exceeds one hundredth of the total issued share capital of that class.

### **Other Interests**

A Member must regard himself or herself as having an, 'Other Interest' in any membership of, or occupation of a position of general control or management in:

Any body to which they have been appointed or nominated by Southampton City Council

Any public authority or body exercising functions of a public nature

Any body directed to charitable purposes

Any body whose principal purpose includes the influence of public opinion or policy

### **Principles of Decision Making**

All decisions of the Council will be made in accordance with the following principles:-

- proportionality (i.e. the action must be proportionate to the desired outcome);
- due consultation and the taking of professional advice from officers;
- respect for human rights;
- a presumption in favour of openness, accountability and transparency;
- setting out what options have been considered;
- setting out reasons for the decision; and
- clarity of aims and desired outcomes.

In exercising discretion, the decision maker must:

- understand the law that regulates the decision making power and gives effect to it. The decision-maker must direct itself properly in law;
- take into account all relevant matters (those matters which the law requires the authority as a matter of legal obligation to take into account);
- leave out of account irrelevant considerations;
- act for a proper purpose, exercising its powers for the public good;
- not reach a decision which no authority acting reasonably could reach, (also known as the "rationality" or "taking leave of your senses" principle);
- comply with the rule that local government finance is to be conducted on an annual basis. Save to the extent authorised by Parliament, 'live now, pay later' and forward funding are unlawful; and
- act with procedural propriety in accordance with the rules of fairness.

Service Director, Legal and Governance  
Richard Ivory  
Civic Centre, Southampton, SO14 7LY

Tuesday, 13 February 2018

**TO: ALL MEMBERS OF THE SOUTHAMPTON CITY COUNCIL**

You are hereby summoned to attend a meeting of the COUNCIL to be held on WEDNESDAY, 21ST FEBRUARY, 2018 in the COUNCIL CHAMBER CIVIC CENTRE at 6:30pm when the following business is proposed to be transacted:-

**1 APOLOGIES**

To receive any apologies.

**2 ANNOUNCEMENTS FROM THE MAYOR AND LEADER**

Matters especially brought forward by the Mayor and the Leader.

**3 DEPUTATIONS, PETITIONS AND PUBLIC QUESTIONS**

To receive any requests for Deputations, Presentation of Petitions or Public Questions.

**4 INTERIM APPOINTMENT OF CHIEF EXECUTIVE AND HEAD OF PAID SERVICE**

Following interviews taking place on 19<sup>th</sup> February, 2018, to approve the Interim Appointment of Chief Executive and Head of Paid Service.

**5 COUNCIL TAX SETTING AND RELATED MATTERS**

**a THE REVISED MEDIUM TERM FINANCIAL STRATEGY AND BUDGET 2018/19 to 2021/22 (Pages 1 - 110)**

Report of the Cabinet Member for Finance detailing an update on the Medium Term Financial Strategy for the period 2018/19 to 2021/22, including the General Fund Revenue Budget.

**b THE GENERAL FUND & HOUSING REVENUE ACCOUNT CAPITAL STRATEGY & PROGRAMME 2017/18 TO 2021/22 (Pages 111 - 172)**

Report of the Cabinet Member for Finance providing an update to the Capital Strategy and to inform Council of any major changes in the overall General Fund and HRA Capital Programme for the period 2017/18 to 2021/22, highlighting the changes in the programme since the last reported position to Cabinet in November 2017.

**6 TREASURY MANAGEMENT STRATEGY AND PRUDENTIAL LIMITS 2018/19 TO 2021/22 (Pages 173 - 218)**

Report of the Council's Service Director, Finance and Commercialisation detailing the context within which the Council's treasury management activity operates and sets out a proposed strategy for the coming year in relation to the Council's cash flow, investment and borrowing, and the management of the numerous risks related to this activity.

NOTE: There will be prayers by the Mayor's Chaplain John Attenborough in the Mayor's Reception Room at 6.15pm for Members of the Council and Officers who wish to attend.

<b>STATEMENT OF CONFIDENTIALITY</b>
N/A
<b>EXECUTIVE SUMMARY</b>
<p>This report details the Medium Term Financial Strategy (MTFS) for the period 2018/19 to 2021/22 and provides the budget position for 2018/19 and later years for the General Fund and the Housing Revenue Account (HRA).</p> <p>In February 2017, the council approved a two year balanced budget for the first time for the financial years 2017/18 and 2018/19.</p> <p>This was the result of the implementation of the first stage of Outcome Based Planning and Budgeting (OBPB) allowing the council to focus and utilise resources towards agreed priorities and outcomes.</p> <p>This also gives certainty to residents, businesses and service users that service provision has been prioritised and funded for those two years, within a stable financial framework. This meant there was no requirement for further consultation on service provision for the 2018/19 financial year.</p> <p>The objective of the MTFS is to provide a financial framework within which financial stability can be achieved and sustained in the medium term to deliver the council's outcomes.</p> <p>The Strategy is based around 6 key aims:</p> <ul style="list-style-type: none"> <li>• To provide financial parameters within which budget and service planning should take place;</li> <li>• To ensure the council sets a balanced budget;</li> <li>• To focus and re-focus the allocation of resources so that, over time, priority areas receive additional resources, ensuring services are defined on the basis of a clear alignment between priority and affordability;</li> <li>• To ensure the council manages and monitors its financial resources effectively so that</li> </ul>

- spending commitments do not exceed resources available in each service area;
- To plan the level of fees, charges and taxation in line with levels that the council regard as being necessary, acceptable and affordable to meet the council's aims, objectives, policies and priorities whilst gradually reducing the council's reliance on Central Government funding; and
- To ensure that the council's long term financial health and viability remain sound.

The OBPB process will be further reviewed and refined in 2018/19 to ensure that the budget gap in 2019/20 and future years can be mitigated.

As a result of changes in service requirements and demand, the report identifies the new pressures that impact on the General Fund in 2018/19 and the proposals to fund those additional pressures. In addition, for the HRA, the report makes recommendations in relation to rents, service charges, and other charges to council tenants, and leaseholders, from 1st April 2018 for the 2018/19 financial year.

The report summarises the Housing Revenue Account (HRA) 30 year Business Plan and the assumptions behind it including details of savings proposals recommended to close the HRA budget gap. The proposals do not require any formal consultation, and the recommendations of the report take this into account.

The Government announced its latest Budget assumptions in the Autumn Statement on 22nd November 2017. The implications of these announcements, along with the Provisional Local Government Finance Settlement (PLGPS) have been included within the updated MTFS and budget position contained within this report along with an update on the impact of other national and local factors such as Brexit and the move towards 100% Business Rate Retention (BRR). The Ministry of Housing, Communities & Local Government (formerly the Department for Communities & Local Government – DCLG) announced on the 19<sup>th</sup> December that Southampton City Council, along with Portsmouth City Council and Isle of Wight Council, had been successful in a joint bid to become a Pilot for 100% Business Rates Retention and to form a Solent Business Rates Pool.

The impact of the latest capital programme and Capital Strategy, are also included in the strategy, with the detail reported in the General Fund & Housing Revenue Account Capital Strategy & programme 2017/18 to 2021/22. This has been updated for changes as recommended by the Council Capital Board.

The MTFS is supported by the approved Efficiency Plan for the council, which was a requirement of accepting the 4 year settlement offer. This has been updated and is included as an annex to the MTFS.

## **RECOMMENDATIONS:**

### **CABINET**

#### **General Fund**

	i)	Note the position on the forecast adverse outturn position for 2017/18 as set out in paragraphs 32 to 38.
	ii)	Note the revised Medium Term Financial Strategy 2018/19 to 2021/22 as detailed in Appendix 2.

	iii)	Note the aims and objectives of the Medium Term Financial Strategy which will be presented to council for approval on 21 February 2018.
	iv)	Note that the Executive's budget proposals are based on the assumptions detailed within the MTFS and that this includes a council tax increase of 5.99 %, 2.99% under general powers to increase council tax without a referendum and 3.00% Social Care Precept in 2018/19.
	v)	To note that the report identifies additional general fund pressures totalling £10.07M in 2018/19 as detailed in paragraphs 42 to 46 and 58 to 59 along with the proposed funding mitigations.
	vi)	To note that the report identifies direct investment in services totalling £2.46M, with a further sum of £1.18M invested in an Enterprise Resource Planning Programme in 2018/19 as detailed in paragraph 60 along with the proposed funding mitigations.
	vii)	To note that further proposals will need to be considered to address the 2019/20 and future years budget gap.
	viii)	Notes and recommends to council where appropriate, the MTFS and General Fund Revenue Budget changes as set out in council recommendations i) to xiv).

#### **Housing Revenue Account**

	ix)	To note that, from 1st April 2018, a standard decrease be applied to all dwelling rents of 1.0%, as set out in paragraph 107 of this report, equivalent to an average decrease of £0.85 per week in the current average weekly dwelling rent figure of £84.57.
	x)	To note an increase in weekly service charges of 3% from 1st April 2018 (including supported accommodation) based on a full cost recovery approach – as detailed in paragraph 108.
	xi)	To note an increase in the charges to council tenants for garages by 15% and parking spaces by 10% from 1st April 2018 as detailed in paragraph 106.
	xii)	To note savings totalling of £3.94M in 2018/19 as laid out in Appendix 9.
	xiii)	To note and recommend the Housing Revenue Account Revenue Estimates as set out in the report.
	xiv)	To note the 30 year Business Plans for revenue and capital expenditure set out in Appendices 7 and 8 respectively, that based on current assumptions are sustainable and maintain a minimum HRA balance of £2M in every financial year.
	xv)	To note that rental income and service charge payments will continue to be paid by tenants in 48 instalments across a 52 week period.

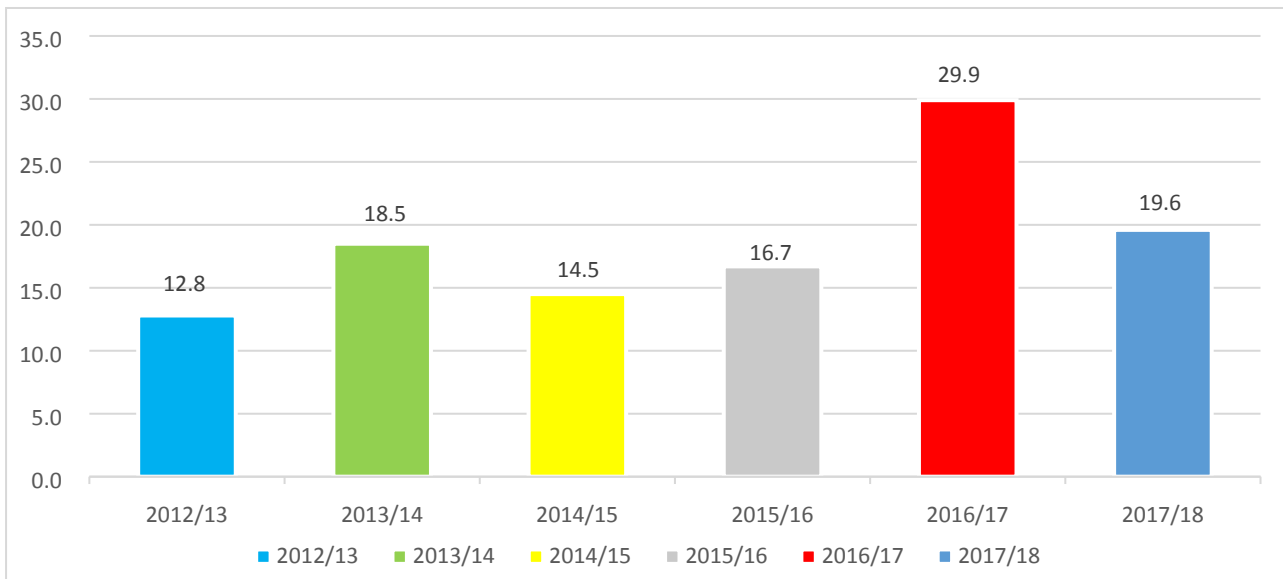

#### **COUNCIL**

#### **General Fund**

	i)	Note the position on the forecast adverse outturn position for 2017/18 as set out in paragraphs 32 to 38.
	ii)	Approves the revised Medium Term Financial Strategy 2018/19 to 2021/22 as detailed in Appendix 2.
	iii)	Approves the aims and objectives of the Medium Term Financial Strategy.
	iv)	Notes that the Executive's budget proposals are based on the assumptions detailed

		within the MTFs and that this includes a council tax increase of 5.99 %, 2.99% under general powers to increase council tax without a referendum and 3.00% Social Care Precept in 2018/19.
	v)	Approves additional general fund pressures totalling £10.07M as detailed in paragraphs 42 to 46 and 58 to 59 along with the proposed funding mitigations.
	vi)	Approves direct investment in services totalling £2.46M, with a further sum of £1.18M invested in an Enterprise Resource Planning Programme in 2018/19 as detailed in paragraph 60 along with the proposed funding mitigations.
	vii)	To note that further proposals will need to be considered to address the 2019/20 and future years budget gap.
	viii)	Note and approve the arrangements made by the Leader, in accordance with the Local Government Act 2000, for the Cabinet Member for Finance to have responsibility for financial management and budgetary policies and strategies, and that the Cabinet Member for Finance will in accordance with the Budget and Policy Framework Rules as set out in the council's Constitution, be authorised to finalise the Executive's proposals in respect of the Budget for 2018/19, in consultation with the Leader, for submission to full council 21 February 2018.
	ix)	To delegate authority to the Service Director – Finance & Commercialisation (S151 Officer), following consultation with the Cabinet Member for Finance, to do anything necessary to give effect to the proposals contained in this report and any implications from of the Final Local Government Finance Settlement.
	x)	Sets the council tax Requirement for 2018/19 at £95.93M as per Appendix 3.
	xi)	Notes the estimates of precepts on the council tax collection fund for 2018/19 as set out in Appendix 4.
	xii)	Delegates authority to the Service Director – Finance & Commercialisation (S151 Officer) to implement any variation to the overall council tax arising from the final notification of the Hampshire Fire and Rescue Authority precept and the Police and Crime Commissioner for Hampshire, precept.
<b>Housing Revenue Account</b>		
	xiii)	To approve that, from 1st April 2018, a standard decrease be applied to all dwelling rents of 1.0%, as set out in paragraph 107 of this report, equivalent to an average decrease of £0.85 per week in the current average weekly dwelling rent figure of £84.57.
	xiv)	To approve an increase in weekly service charges of 3% from 1st April 2018 (including supported accommodation) based on a full cost recovery approach – as detailed in paragraph 108.
	xv)	To approve an increase in the charges to council tenants for garages by 15% and parking spaces by 10% from 1st April 2018 as detailed in paragraph 106.
	xvi)	To approve savings totalling of £3.94M in 2018/19 as laid out in Appendix 9.
	xvii)	To approve the Housing Revenue Account Revenue Estimates as set out in the report.
	xviii)	To approve the 30 year Business Plans for revenue and capital expenditure set out in Appendices 7 and 8 respectively, that based on current assumptions are sustainable and maintain a minimum HRA balance of £2M in every financial year.

	xix)	To note that rental income and service charge payments will continue to be paid by tenants in 48 instalments across a 52 week period.
<b>REASONS FOR REPORT RECOMMENDATIONS</b>		
1.	The council is a large and complex organisation managing the delivery of a vast range of businesses either directly or through/with others. Its core purpose is to improve the quality of life for residents and effective financial management is key to this. It is important that Members are aware of the major financial opportunities and challenges and that they make informed decisions. The council regularly revises its Medium Term Financial Strategy (MTFS) so that the financial position is clear for budget proposals to be drawn up for the forthcoming year.	
2.	The council introduced a focused approach on Outcomes Based Planning and Budgeting in 2017/18 which looks at utilising decreasing resources towards agreed priorities and outcomes. Work will continue to further refine this process.	
3.	The council approved a two year balanced budget for 2017/18 and 2018/19. However, additional pressures have been identified which need to be mitigated in 2018/19. These have been addressed through increased income; central government funding changes; the revision of centrally held funds and from a review of treasury management requirements. At this stage there are no new savings proposals identified within the General Fund however, savings proposals are proposed with regards to the HRA. None of the savings proposals seeking approval at this stage require consultation.	
4.	The Constitution requires the Executive to recommend its budget proposals for the forthcoming year to full council. The recommendations contained in this report set out the various elements of the budget that need to be considered and addressed by the Cabinet in preparing the final papers that will be presented to full council.	
<b>ALTERNATIVE OPTIONS CONSIDERED AND REJECTED</b>		
5.	Alternative options for revenue spending and MTFS assumptions form an integral part of the development of the overall MTFS that will be considered at the council budget setting meeting on 21 February 2018.	
6.	Part of setting the General Fund Budget and Medium Term Financial Strategy and Model requires a view to be taken on the revenue cost of capital to the Authority and proposals have been considered by the council's Capital Board in order to ensure the most appropriate use of capital resources in meeting the council's desired outcomes and the Executive commitments. A Capital Strategy and Programme Update report is included elsewhere on the agenda, and the latest position is included in the MTFS Model.	
7.	This report sets out the HRA revenue budgets for 2018/19 and the 30 year HRA business plan covering the period 2018/19 to 2047/48. The proposed changes to rents and other charges are an integral part of the revenue estimates for 2018/19.	
<b>DETAIL (Including consultation carried out)</b>		
	<b><u>BACKGROUND</u></b>	
8.	Each financial year the council is required to set the level of council tax for the residents of Southampton. In doing this the council reviews its Medium Term Financial Strategy to ensure we are still on track to achieve a balanced position and are aware of the required efficiencies in future years.	
9.	Since 2011/12 the council has faced year on year reductions in government grants, of which the Revenue Support Grant (RSG) was a significant source of income. The current	

	<p>MTFS assumptions were based on Central Government Funding proposals pre the General Election in June 2017. Under those proposals the intention was to radically change the way local authorities are funded by moving to full 100% business rate retention and phasing out the Revenue Support Grant by 2020. Alongside this there would be additional responsibilities for local government to ensure the move is fiscally neutral to central government plans. Business rates will then be the main source of income to fund general fund council services.</p>														
10.	<p>The proposed changes to the business rate retention required primary legislation amendments and was incorporated into the Local Government Finance Bill 2017. However, the bill was not ratified following the General Election with the focus now being on negotiations for Brexit. However, there is ministerial support to continue working towards to 100% Business Rate Retention and reviewing relative needs via a Fair Funding Formula. A timeline for this has not yet been announced although views have been sought via a MHCLG enquiry of the potential impact of delaying the implementation of 100% Business Rate Retention until 2020/21. A Fair Funding Review consultation is currently underway. The deadline for this consultation is the 12<sup>th</sup> March 2018 and the council will be submitting its views.</p>														
11.	<p>The Provisional Local Government Finance Settlement has indicated that there will be a move to 75% business rate retention in the medium term from 2019/20 onwards although this has not been reflected in the MTFS update at this time. The MTFS will be updated as further details are confirmed.</p>														
12.	<p>A 100% Business Rate Retention Pilot bid was submitted to the then Department for Communities and Local Government (DCLG) on the 27<sup>th</sup> October 2017 for the Solent Region. This included the forming of a business rates pool arrangement comprising of Southampton City Council, Portsmouth City Council and the Isle of Wight Council. The MHCLG confirmed on the 19<sup>th</sup> December 2017 that the bid had been successful. The Pilot bid covers the financial year 2018/19. This has been factored into the updated MTFS and further details are included in paragraphs 18 to 22.</p>														
13.	<p>Over the last 6 years the council has approved savings of £112.0M but to be sustainable in the future will require us to continue to change, reduce, stop and in some cases, develop new services.</p>  <table border="1"> <thead> <tr> <th>Financial Year</th> <th>Savings (£M)</th> </tr> </thead> <tbody> <tr> <td>2012/13</td> <td>12.8</td> </tr> <tr> <td>2013/14</td> <td>18.5</td> </tr> <tr> <td>2014/15</td> <td>14.5</td> </tr> <tr> <td>2015/16</td> <td>16.7</td> </tr> <tr> <td>2016/17</td> <td>29.9</td> </tr> <tr> <td>2017/18</td> <td>19.6</td> </tr> </tbody> </table>	Financial Year	Savings (£M)	2012/13	12.8	2013/14	18.5	2014/15	14.5	2015/16	16.7	2016/17	29.9	2017/18	19.6
Financial Year	Savings (£M)														
2012/13	12.8														
2013/14	18.5														
2014/15	14.5														
2015/16	16.7														
2016/17	29.9														
2017/18	19.6														
14.	<p>The MTFS, approved by council February 2017, introduced a different approach to financial</p>														

	<p>management with the aim of aligning delivery of the Executive's key outcomes (described in the Council Strategy 2016-20) with affordability. This aims to help the council to invest its reducing resources in activities that have the greatest impact on the delivery of priority outcomes. The council also wants to achieve better outcomes for all residents by improving quality and performance, managing demand of its high cost services and becoming more commercial. Therefore financial plans were drawn up on the basis of the four main outcomes and these are supported by an internal plan to enable the council to become a modern and sustainable organisation.</p>
15.	<p>In September 2016, the council approved the Southampton City Council Strategy 2016-20. The Strategy sets out the council's strategic vision until 2020 and has four key outcomes, along with an internal outcome, which are:</p> <div style="display: flex; justify-content: space-around; align-items: flex-end; text-align: center;"> <div>  <p>Children and young people get a good start in life</p> </div> <div>  <p>Strong and sustainable economic growth</p> </div> <div>  <p>People in Southampton live safe, healthy, independent lives</p> </div> <div>  <p>Southampton is an attractive and modern city, where people are proud to live and work</p> </div> <div>  <p>A modern, sustainable council</p> </div> </div>
16.	<p>The outcome plans are contained within the Medium Term Financial Strategy Report approved at council in February 2017. Appendix 1 contains the updated financial summaries for each of the outcomes.</p>
17.	<p>Local government has had to evolve significantly in response to ongoing changes in the city's profile, trends in customer behaviour driver by technology, national and local policies and the austerity challenges. For us this is accompanied by ongoing challenges in the shape of rising demand in adults and children's social care.</p> <p>The chart below shows how the government funding to the council has reduced and the projection is that by 2020 the Government is expecting councils to become financially independent through business rates and council tax which will replace government grants as our main sources of income.</p>

For comparison purposes 2018/19 still contains the RSG the council would have received without the Business Rates Retention Pilot.

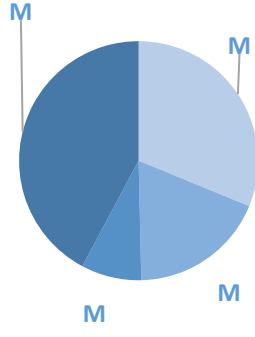

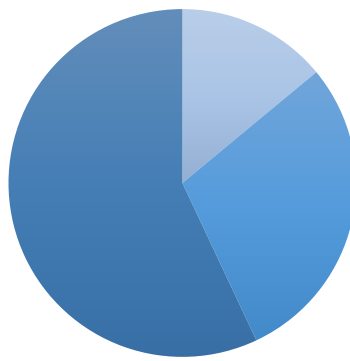

### **BUSINESS RATES POOL AND 100% BUSINESS RATES RETENTION PILOT**

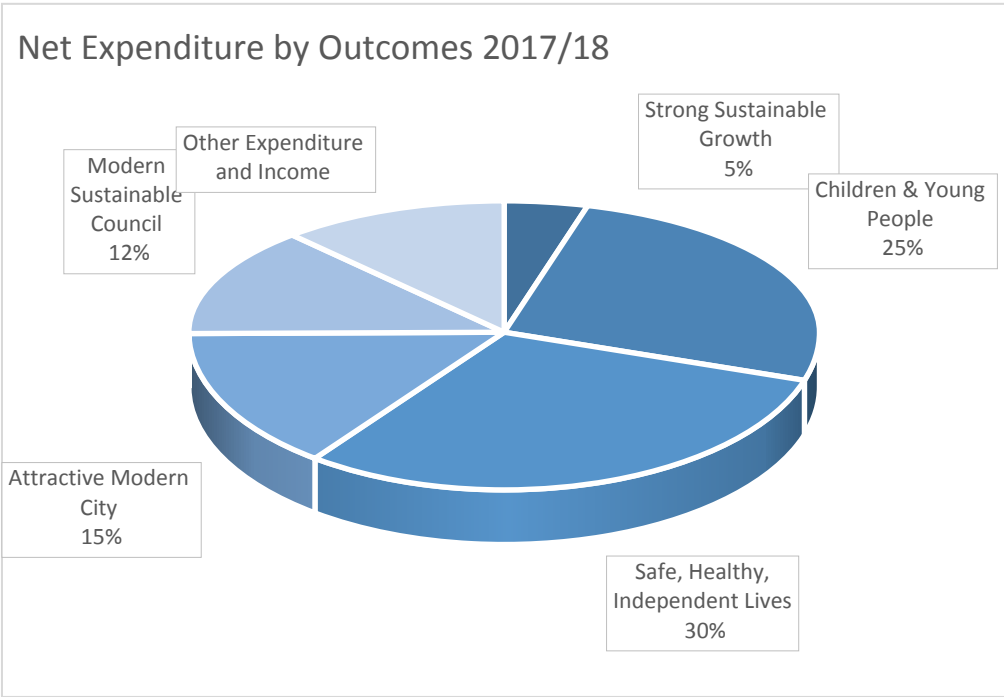

18. In October, a joint application between the Southampton City Council, Portsmouth City Council and Isle of Wight Council (the basis for the Solent Combine Authority Deal) was made to the then Department for Communities and Local Government, to become a 100% business rates retention pilot. As a result the council foregoes Revenue Support Grant and becomes a tariff authority rather than receiving a top up grant. Further information is contained within the Business Rates section of the report.
19. The bid also included the establishment of a pooling arrangement for the business rates of the three councils.
20. The Solent Pilot was announced as a successful pilot on the 19th December 2017.
21. The arrangement will be governed by a Board consisting of the three council leaders, and provides the opportunity for the 3 councils to retain the governments share of business rates growth and invest this in services, financial stability and sustainable, and reinvesting in promoting further growth in the city.
22. The council's financial benefit from any growth will not impact until 2019/20 and has not been included in the financial position within this report, due to the business rates pilot being one year only at the present time. At this time the expected benefit may be in the region of £2.5M.

### **MEDIUM TERM FINANCIAL STRATEGY AND MODEL**

23. The council currently spends £611M delivering services and funds this from income from central government grants, council tax, business rates, rents, and other fees and charges. Two areas of income we receive (Schools grants and Benefits payments) are passed directly from the council to the Schools and Benefits recipients, and the Rents we get from Housing tenants must only be spent on providing council Housing services. The rest of the council's income (£282 million) is included in the General Fund and is used to fund all other services. General Fund expenditure is dominated by Adult Social Care (29%) and Children's Social Care (14%) with the remaining 57% spent on other services including Highways, Waste Services, Street Cleansing, Libraries, Parks and Open Spaces, Arts, Heritage and Culture, Planning and Licensing, Economic Development and Skills.

	<div style="display: flex; justify-content: space-around;"> <div style="text-align: center;"> <p><b>INCOME 2017/18 (£MILLIONS)</b></p>  <p> <span style="color: #4F81BD;">■</span> Council Tax  <span style="color: #4F81BD;">■</span> Business Rates  <span style="color: #4F81BD;">■</span> Revenue Support Grant  <span style="color: #4F81BD;">■</span> General Grants, Fees and Charges </p> </div> <div style="text-align: center;"> <p><b>Expenditure 2017/18 (%)</b></p>  <p> <span style="color: #4F81BD;">■</span> Children's Social Care    <span style="color: #4F81BD;">■</span> Adult Social Care  <span style="color: #4F81BD;">■</span> Other Services </p> </div> </div>
24.	<p>Council approved a 4 year MTFS in February 2017, 2 years of which showed a balanced position, the objective of which is to provide a financial framework within which financial stability can be achieved and sustained in the medium term to deliver the council's priority outcomes.</p>
25.	<p>There are 6 key aims of the Strategy:</p> <ul style="list-style-type: none"> <li>• To provide financial parameters within which budget and service planning should take place;</li> <li>• To ensure the council sets a balanced budget;</li> <li>• To focus and re-focus the allocation of resources so that, over time, priority areas receive additional resources. Ensuring services are defined on the basis of a clear alignment between priority and affordability;</li> <li>• To ensure the council manages and monitors its financial resources effectively so that spending commitments do not exceed resources available in each service area;</li> <li>• To plan the level of fees, charges and taxation in line with levels that the council regard as being necessary, acceptable and affordable to meet the council's aims, objectives, policies and priority whilst gradually reducing the council's reliance on Central Government funding; and</li> <li>• To ensure that the council's long term financial health and viability remain sound.</li> </ul>
26.	<p>The updated MTFS focuses on determining the financial position for the period up to and including 2021/22. However the financial position post 2019/20 becomes more uncertain as this is post the current Comprehensive Spending Review period, and when 75% Business Rates Retention and Fair Funding Formula should come into effect. The MTFS takes into account major issues affecting the council's finances, including international, national and regional economic influences as well as local factors and priorities. It identifies risks and opportunities and looks to mitigate the risks through provisions within reserves and balances to ensure the council has adequate resources to cover the uncertainty and risk. It provides the framework and assumptions for developing the overall budget, taking into account any agreed, unavoidable service pressures. The MTFS recognises the key role that financial resources play in the future delivery of services, and enabling the effective planning, management and delivery of those services. The MTFS is therefore key to the effective delivery of the council's overall aims of achieving better outcomes for residents in a financially sustainable way.</p>

27.	The budget proposals contained within this report seek to increase council tax by 5.99% which (based on 2017/18) represents £1.62 per week for residents in a Band D property but will help the council to continue to deliver services that matter most to residents.																									
28.	<p>The council’s current spend and how it is allocated across the main outcomes is shown in the pie chart below:</p> <div><p>Net Expenditure by Outcomes 2017/18</p><table border="1"><thead><tr><th>Outcome</th><th>Percentage</th></tr></thead><tbody><tr><td>Strong Sustainable Growth</td><td>5%</td></tr><tr><td>Children &amp; Young People</td><td>25%</td></tr><tr><td>Safe, Healthy, Independent Lives</td><td>30%</td></tr><tr><td>Attractive Modern City</td><td>15%</td></tr><tr><td>Modern Sustainable Council</td><td>12%</td></tr><tr><td>Other Expenditure and Income</td><td>-</td></tr></tbody></table></div>	Outcome	Percentage	Strong Sustainable Growth	5%	Children & Young People	25%	Safe, Healthy, Independent Lives	30%	Attractive Modern City	15%	Modern Sustainable Council	12%	Other Expenditure and Income	-

30.	<p>Since February 2017 the MTFS has been reviewed and updated to include pressures and benefits that have arisen in that time. The following sections describe the detail of the items that have been taken into account in revised the Medium Term Financial position.</p> <p><b>ISSUES THAT HAVE BEEN CONSIDERED</b></p>																									
31.	<p>The MTFS has been reviewed to take into account the following:</p> <ul style="list-style-type: none"><li>• The current forecast outturn position for 2017/18 including potential ongoing non-achievement of approved savings;</li><li>• A review of pressures facing the council; and</li><li>• A review of base budget assumptions such as pay and inflation assumptions.</li></ul>																									

	<ul style="list-style-type: none"><li>The Provisional Local Government Finance Settlement (PLGFS) - The Government announced its latest Budget assumptions in the Autumn Statement on 22nd November 2017. The implications of these announcements, along with the Provisional Local Government Finance Settlement have been included within the updated MTFS and budget position contained within this report, along with an update on the impact of other national and local factors such as Brexit and the updated 100% Business Rate Retention (BRR) assumptions (with the exception of the potential additional funding from the 100% Business Rates Retention Pilot).</li></ul>																		
	<b><u>2017/18 Forecast Outturn Position</u></b>																		
32.	Whilst this report is concerned with an update on the MTFS for the period from 2018/19 onwards, there are elements of the 2017/18 forecast outturn that will have an impact on the overall financial position. The latest position, as at 31 <sup>st</sup> December 2017, is that there is a forecast overspend against budget of £2.02M (this is not unusual at this point in the financial year).																		
33.	<p>The table below shows the summary forecast outturn position:</p> <p><b><u>Table 2 – 2017/18 Summary Forecast Outturn Position</u></b></p> <table><tr><td></td><td><b>Forecast Outturn Variance £M</b></td><td><b>Forecast Outturn Variance %</b></td></tr><tr><td><b>Baseline Portfolio Total</b></td><td><b>4.33 A</b></td><td><b>2.6</b></td></tr><tr><td>Capital Asset Management</td><td>1.73 F</td><td>5.8</td></tr><tr><td>Other Expenditure &amp; Income</td><td>0.18 F</td><td>10.4</td></tr><tr><td>General Government Grants</td><td>0.40 F</td><td>1.0</td></tr><tr><td><b>Net Overspend</b></td><td><b>2.02A</b></td><td><b>-</b></td></tr></table>		<b>Forecast Outturn Variance £M</b>	<b>Forecast Outturn Variance %</b>	<b>Baseline Portfolio Total</b>	<b>4.33 A</b>	<b>2.6</b>	Capital Asset Management	1.73 F	5.8	Other Expenditure & Income	0.18 F	10.4	General Government Grants	0.40 F	1.0	<b>Net Overspend</b>	<b>2.02A</b>	<b>-</b>
	<b>Forecast Outturn Variance £M</b>	<b>Forecast Outturn Variance %</b>																	
<b>Baseline Portfolio Total</b>	<b>4.33 A</b>	<b>2.6</b>																	
Capital Asset Management	1.73 F	5.8																	
Other Expenditure & Income	0.18 F	10.4																	
General Government Grants	0.40 F	1.0																	
<b>Net Overspend</b>	<b>2.02A</b>	<b>-</b>																	
34.	<p>The overall forecast overspend on portfolios is £4.33M which has been offset by the release of central funding. This relates to:</p> <ul style="list-style-type: none"><li>Review and release of Treasury Management budgets £1.73M. This is due to continued short term borrowing which attracts lower borrowing rates which reduces anticipated borrowing costs in year; slippage in the capital programme has reduced the borrowing requirement; and there has been higher than anticipated returns on investments; and</li><li>Additional Government Grants £0.14M (Staying Put Grant) and grants, notified after budget setting for 2017/18, have not reduced in line with expectations giving an additional £0.26M in 2017/18.</li></ul>																		
35.	The key area of overspend is the Housing and Adult Care Portfolio, with a £4.40M forecast overspend. This is further detailed in table 3 below.																		

36. It should be noted that as forecast overspends have been identified, the relevant Service Director has been expected to develop an action plan to detail what measures and interventions would be undertaken to manage the pressure. In addition to the action plans, 'intensive care' meetings are held with the Senior Leadership Team to discuss key issues and actions with the Service. It is expected that these meetings and the requirement for action plans will continue into 2018/19, with an overarching expectation that pressures arising must be accommodated within the overall service budgets. This has led to significant improvement in the overall forecast position. The following table details how these pressures have been mitigated in 2017/18 and how they have impacted on the 2018/19 proposed estimates:

**Table 3 – Impact of 2017/18 Pressures**

Outcome	2017/18 Pressure		How this is being dealt with in the MTFS Model
	Description	£M	
Strong and sustainable economic growth.	Pressure due to delays in the Capital Assets restructure leading to less profitability and fewer than expected investment properties and lower rental incomes.	0.62	This is being met from one off savings in the Central Repairs and Maintenance budget in 2017/18, and a treasury management saving from investing in the CCLA. A £0.5M pressure has been included in the MTFS update in 2018/19 & 2019/20 to mitigate against the loss of income
Strong and sustainable economic growth.	Property Services pressure is due to the non-charging of overheads to capital.	0.78	<p>This is being met from one off savings in the Central Repairs and Maintenance budget in 2017/18.</p> <p>In 2018/19 this will be offset by a planned underspend on the Central Repairs and Maintenance budget whilst the required programme of works is reviewed. This can be supported as a result of the accommodation review capital scheme. Additionally a new management SLA with the HRA for their programme of works will be implemented.</p>

	Outcome	2017/18 Pressure		How this is being dealt with in the MTFS Model
		Description	£M	
	Children and young people get a good start in life.	Adverse variance due to a delay in the integration of the 0-19 service.	0.17	A detailed review of all the teams within Early Help is being undertaken to move staff to new teams as part of the Phase 3 restructure. Additional savings have been identified to mitigate this adverse variance in 2017/18 and future years.
	Children and young people get a good start in life.	The pressure on Home to School Transport has arisen as a result of increasing demand particularly since 2015 when a change in legislation required the authority to provide transport for children aged 0-25 that have additional educational needs. A one-off contribution of £350k was made to reduce the overspend in 2017/18	0.61	A one off pressure has been included in the updated MTFS for 2018/19 of £0.39M and the authority has an action plan to address the pressure by undertaking a strategic transport review.
	Children and young people get a good start in life	Lower than anticipated income generation for Education Psychology services due to resources directed to undertake increased statutory activity.	0.13	Restructuring the Psychology service as part of the phase 3 review will allow the service to further develop its trading and income generating activities and mitigate the current pressures.
	Children and young people get a good start in life	Unachieved High Needs Savings	0.30	A review of the service is expected to identify efficiency savings that will mitigate this pressure in future years.
	Children and young people get a good start in life	Savings in respect of Service Cost Recovery that will not be achieved.	0.45	This pressure has been included in the MTFS for 2018/19 and future years.

	Outcome	2017/18 Pressure		How this is being dealt with in the MTFs Model
		Description	£M	
	People in Southampton live safe, healthy independent lives.	Unachieved savings on Adult Mental Health & Out Of Hours Services	0.49	Further savings plans have been developed to mitigate this pressure in 2018/19 and future years. These involve reviewing packages and approaching client referrals with a strengths based approach.
	People in Southampton live safe, healthy independent lives.	Delay in the closure of Kentish Road	0.29	The future use of the Kentish Road site is still being reviewed and therefore currently only £0.1M of saving is expected to be realised in 2018/19.
	People in Southampton live safe, healthy independent lives.	Increased agency staffing costs incurred in the single point of access service.	0.18	Following the implementation of the Phase 3 staffing review temporary staffing is expected to be replaced with permanent staff, therefore reducing costs in 2018/19.
	People in Southampton live safe, healthy independent lives.	Additional demographic pressures due to demand and complexity. Unachieved savings for long term care.	3.46	Further savings plans currently being put into action should help mitigate this for 2018/19. The ongoing pressure on this service has been included in the update of the MTFs for 2018/19 and future years, which includes an additional budget pressure of £2.67M for demand and £1.07M for unachieved savings.
	People in Southampton live safe, healthy independent lives	Houses in Multiple Occupation (HMO) – Unachieved licence income targets.	0.24	This will be met from other one-off savings in 2017/18. A detailed review of HMO licenses renewing in 2018/19 is being performed and additional income has been identified from properties that should previously have been registered. The mandatory HMO registration scheme is also being extended and

	Outcome	2017/18 Pressure		How this is being dealt with in the MTFS Model
		Description	£M	
				more properties will become within scope. These factors should mitigate the 2018/19 pressure.
	Modern Sustainable Council.	Additional one-off cost of recruitment in relation to Hays contract	0.16	This cost is not recurrent.
	Modern Sustainable Council.	Unachieved IT savings in relation to: <ul style="list-style-type: none"> <li>Reducing IT Development Activity - £0.18M;</li> <li>A reorganisation of IT provision - £0.19M;</li> <li>Rationalisation of the number of IT licenses - £0.11M; and</li> <li>One off pressure to support security of council data - £0.12M.</li> </ul>	0.60	The recurrent savings will be achieved in future years with further review of development activity and licenses.
	Modern Sustainable Council.	Unachieved digital savings in respect of efficiencies expected as a result of reviewing activity analysis where the digital solution has not achieved the desired outcome. Additionally, staff resource pressures as a result of the role out of universal credit.	0.00	A pressure of £0.56M in 2017/18 has been covered by in-year savings from staff vacancies. The ongoing pressure has been included in the MTFS for 2018/19 and future years.
	<b>Total</b>		<b>8.48</b>	
37.	Where a 2017/18 pressure has been identified as having a longer term impact the financial implications have been included within the updated MTFS position. Details are included within Table 4 below, the revised financial sections of the Outcome Plans at Appendix 1 and in paragraphs 42 to 46 and 58 to 59.			
38.	Further details on the forecast outturn position for 2017/18 are included within the Revenue Financial Monitoring for the Period to the End of December 2017 Report to be considered by Cabinet at its meeting on the 13 <sup>th</sup> February 2018.			
	<b><u>Medium Term Financial Forecast</u></b>			
39.	Table 4 below identifies the changes to the Medium Term Financial Strategy Model as reported to Cabinet in November 2017 and updated to reflect the Executive's final proposed budget 2018/19 to 2021/22.			

40.

<b>Remaining Savings Requirement - November 2017</b>	<b>0.00</b>	<b>10.26</b>	<b>11.15</b>	<b>11.15</b>

EXPLANATION OF ADJUSTMENTS TO THE REVISED MTFS POSITION

November 2017 Budget Position

41.

In November 2017 Cabinet noted a revised Medium Term Financial Position, which still maintained a balanced position in 2018/19, but increased the savings requirement in 2019/20 and 2020/21 to £11.15M. The following paragraphs explain the reasons for this change.

Pressures

42.

Children and Young People get a good start in life - £0.84M 2018/19  
As detailed in paragraph 36 the following pressures have been included in the MTFS;

- Home to School Transport service is currently experiencing an increase in numbers of children requiring transport to and from school. Additional budget was approved to address this pressure but due to additional demand the initial pressure was more than originally understood (£0.39M). This pressure has been added for one year only in 2018/19 to allow for an overall review of transport requirement to be completed and actions implemented; and
- In addition, there are unachieved savings in respect of Service Cost Recovery that will not be achieved (£0.45M).

43.

Modern Sustainable Council - £1.26M 2018/19  
The council has undertaken the first wave of digital transformation which looked at service specific digital journeys. In some cases, the assumed staffing savings cannot be achieved. Staffing pressures also have arisen as a result of implementation of Universal Credit (£1.26M);

44.

Safe, Healthy & Independent Lives - £2.67M 2018/19  
Pressures within this portfolio are due to local demographics and the increasing complexity of adults requiring care.  
  
It should be noted that the forecast pressure in 2017/18 is £4.4M adverse. This includes savings where implementation dates have slipped. In November the position gave a

	pressure in the current year but assumed the ongoing pressure would reduce to £2.67M in future years. Further work has been completed and further pressures have been identified in this area, this is detailed in paragraph 58.
45.	<p><b><u>Strong, Sustainable Economic Growth - £1.10M</u></b></p> <ul style="list-style-type: none"> <li>• Unachieved income savings target in relation to Property Services. This is in part due to a delay in the design and sign off of the service restructure following the transfer of the service back in house, and associated vacancies, and due to reduced suitable opportunities for Property Investment (£0.50M). This is further impacted by a decision to restrict future investment decisions following the changes to the Prudential Code that now require authorities to set aside minimum revenue provision;</li> <li>• An assumed recurring approved saving proposal in relation to compliance has now been confirmed as a one off saving in 2017/18 only (£0.50M); and</li> <li>• Unachieved income savings target linked to the development of Solent wide economic development, business support and employment and skills service. This income target was linked to funding that would have been received as part of the Solent Devolution Deal. As this funding will not be received it will be necessary to review how this service could be provided in the future (£0.1M).</li> </ul>
46.	Where relevant, the above pressures have been reflected in the forecast outturn position for 2017/18.
	<b><u>Funding Adjustments</u></b>
47.	There are a number of changes in central grants assumptions (New Homes Bonus & Business Rates Top Up Grants). These changes are in line with the Local Government Finance Settlement 2018/19, but had been assumed prior to the settlement announcement. The changes are in respect of New Homes Bonus and Business Rate Top Up grants as further clarification in the calculation of these has now been provided.
	<b><u>Treasury Management Budget</u></b>
48.	In light of slippage on the Capital Programme for 2017/18 reduced borrowing costs are expected along with continued short term borrowing keeping borrowing costs lower. The treasury management budget has therefore been reviewed.
	<b><u>MTFS Adjustments</u></b>
49.	<p><b><u>Reduction in Centrally Held Allocations</u></b></p> <p>Held centrally are a number of allocations for inflation, increments, pension changes, redundancy and interest rate rises. This have been reviewed and to due staffing restructures, the low level of inflation and interest over the past year some of this allocation has been released.</p>
	<b><u>Provisional Local Government Finance Settlement</u></b>
50.	The Provisional Local Government Finance Settlement (PLGFS) for 2018/19 was published on the 19th December 2017. This has led to an update of the council's financial position as shown in the following table:

	<b><u>Table 5 – PLGFS Changes</u></b>				
	<b>Explanation of Change</b>	<b>2018/19 £M</b>	<b>2019/20 £M</b>	<b>2020/21 £M</b>	<b>2021/22 £M</b>
	<b>Opening Budget Position</b>	<b>0.00</b>	<b>10.26</b>	<b>11.15</b>	<b>11.15</b>
	Revenue Support Grant (RSG) - replaced by business rates	17.06	0.00	0.00	0.00
	Housing Benefit Subsidy Admin Grant	(0.92)	0.00	0.00	0.00
	Council Tax Income additional 1% increase in the referendum limit	(0.89)	(0.89)	(0.89)	(0.89)
	Business Rates – replacement RSG, section 31 grants and revise the inflation rate to CPI	(19.94)	(4.22)	0.00	0.00
	<b>Overall change to financial position</b>	<b>(4.69)</b>	<b>5.15</b>	<b>10.26</b>	<b>10.26</b>
51.	Housing Benefit Subsidy Admin Grant - Due to the roll out of Universal Credit the MTFS assumed that the council would not receive the Housing Benefit Subsidy Admin Grant in future years. However, a provisional figure of £0.92M has now been notified for 2018/19.				
52.	Business Rates - As a result of the Solent Region Business Rate Pilot, SCC will not receive RSG of £17.06M in 2018/19 as this is offset by the increased retention of Business Rates. In addition to this the council has received additional section 31 grants to recompense for the Government’s announcement to change from RPI to CPI level increases in each financial year. The MTFS Model assumption was for an inflationary increase below the level of CPI therefore the income from business rates has also been adjusted.				
53.	The full details of all changes notified within the PLGFS are detailed within the MTFS in Appendix 2.				
54.	At the time of writing this report the final Local Government Finance Settlement has not been received, but any changes resulting from the final settlement will be taken into account when setting the final budget. The authority to delegate the power to Service Director Finance and Commercialisation to deal with these amendments.				
	<b>FURTHER CHANGES</b>				
55.	Table 6 below details further changes since the position reported to Cabinet in November 2017.				

56.

	2018/19 £M	2019/20 £M	2020/21 £M	2021/22 £M

57.

2019/20 and future years budget gap to be addressed including further review of savings requirements and MTFS Funding Assumptions.

**Revised Pressures**

58.

Since the November report was published there have been further changes to the position identified. These are set out below.

Southampton is an attractive and modern city - £0.75M

- The formation of a Local Authority Trading Company (LATCo) is currently being developed with the assumption that this would give rise to efficiency savings and increased income generation of £1M in 2018/19. This target was based on a full year operation of the LATCo. The first services are now likely to transfer to the LATCo from October 2018 and as such the anticipated saving in 2018/19 has reduced to £0.45M, a reduction of £0.55M. It is assumed in the MTFS that the full year saving will be achieved from 2019/20; and
- The Southampton Treasures Project aims to relocate significant Maritime and Local History Collections into the SeaCity Museum. Funding of £0.2M was approved in February 2017 to support this project. Due to the phasing of applying for Heritage Lottery funding to support the wider project, it is necessary to re-phase this funding from 2019/20 to 2018/19 (£0.2M.)

Strong Sustainable Economic Growth - £0.07M

- Expected increase in parking fee income will not be achieved (£0.07M).

Safe, Healthy & Independent Lives - £1.07M

- As the financial year has progressed a number of the savings proposed have been reviewed and either cannot be achieved or need to be re-profiled. This has resulted in a further pressure of £1.07M.

Modern Sustainable Council – £0.22M

Changes in central funding requirements in relation to education related grants.

59.	<p><u>MTFS Adjustments</u></p> <p>Pay Award - The previous MTFS model was based on a pay award of 1% per annum. However, on 5th December 2017, the 'National Employers for Local Government Services' announced a higher pay offer to local government unions for the period 2018 to 2020. The offer comprises a two year deal with a headline flat-rate increase of 2.0% in 2018/19 and 2019/20. A 2% pay award has also now been assumed from 2020/21 and future years.</p>
	<p><b><u>Other Changes</u></b></p>
	<p><u>Investment in Services</u></p>
60.	<p><u>Enterprise Resource Planning System</u></p> <p>Cabinet received a report in December 2017 seeking approval to undertake the implementation of an Enterprise Resource Program (ERP).</p> <p>By implementing an ERP system it will enable the council to</p> <ul style="list-style-type: none"> <li>• Consolidate the number of IT applications, reducing the number of contracts, independent support and maintenance costs;</li> <li>• Rationalise and streamline business processes;</li> <li>• Enable easier access to correct data;</li> <li>• Provide a single view of debt;</li> <li>• Provide a single view of the employee;</li> <li>• Support the provision of a single point of payment for the customer; and</li> <li>• Improve management information.</li> </ul> <p>Cabinet approved the release of monies held in the Transformation Reserve (£1.18M) to meet the cost of the initial modules of the ERP project which has now been reflected in the MTFS.</p> <p><u>Highways £1.10M 2018/19</u></p> <p>A programme of works will be undertaken to address pot holes across the city with the aim to reduce the depth and to shorten the timeline for undertaking works. Additionally, looking to address those roads that currently have a concrete surfacing and replacing the road surface to a more durable coverage.</p> <p><u>Street Cleansing £0.41M 2018/19</u></p> <p>A further mechanical sweeper will be added with additional street cleaners, focusing the activity in the City Centre on Green Spaces including the city parks. This will free up more skilled operatives to undertake more fee earning activity. This is supported in part by funding from the Business Improvement District (BID).</p> <p><u>Enforcement Activity £0.23M 2018/19</u></p> <p>Additional resource will be made available in Environmental Health to review issues raised and where relevant ensure that prosecutions are sought particularly in respect to noise nuisance complaints; fly tipping; and other anti-social behaviour. It is also intended to reinstate the late night noise complaints service on weekday nights.</p> <p><u>Parks and Open Spaces £0.10M 2018/19</u></p> <p>A small team will be created to deliver park and open space improvements including investments in safety, cleanliness and play. This is to ensure that investments in parks and open spaces infrastructure are delivered in a timely fashion.</p> <p><u>Leisure and Heritage £0.38M 2018/19</u></p> <p>Additional resources are required to ensure that funding bids are made for sports, recreation and heritage grants opportunities. This will include Sports Centre redevelopment, attracting investment in Heritage sites and to support Community Asset Transfer (CAT) proposals. It</p>

	<p>will also support the provision of more Christmas lights in the city.</p> <p>A further capital funding provision (funded by a direct revenue contribution to capital) will be made to invest in Heritage assets and to match fund capital grants. This will be invested, amongst other things the 'Walk the City Walls' experience ahead of the Mayflower 400 anniversary.</p> <p><u>Customer Services £0.20M 2018/19</u></p> <p>Further investment in provision of customer services support to reduce waiting times to speak to an operative when contacting council.</p> <p><u>Installation of Water Fountains £0.02M</u></p> <p>A small sum will be invested in water fountains within the city to encourage the reduction in use of plastic bottles and the reduction in consumption of sugary drinks. This is similar to a number of other councils.</p> <p><u>Armed Forces Day £0.02M</u></p> <p>A non-recurrent sum has been set aside to invest in Armed Forces Day.</p> <p><u>British Legion Statues £0.004M</u></p> <p>A sum of money will be invested in statues across the city to commemorate the armed forces.</p>
61.	<p><u>Collection Fund - Council Tax &amp; Business Rates</u></p> <p>Council Tax (£2.15M)</p> <p>Each financial year the council tax base number of properties are reviewed. This year the increase has been higher than anticipated resulting in £2.15M being available.</p> <p>Business Rates £0.18M</p> <p>Assumptions regarding growth in business rates were built into last year's MTFS Model, whilst this growth is still expected to occur the profiling of when the new developments will be operational has been adjusted.</p>
62.	<p><u>Review of Treasury Management – Minimum Revenue Provision</u></p> <p>CIPFA has published two revised Codes, The Prudential code for Capital Finance in Local Authorities (Prudential Code) and Treasury Management in the Public Services Code of Practice and Cross-Sectoral Guidance Notes (Treasury Management Code), for implementation in 2018/19.</p> <p>CIPFA plans to put transitional arrangements in place for reports that are required to be approved before the start of the 2018/19 financial year, which will incorporate the Treasury Management Strategy report that goes to Governance and council in February. This gives greater focus on investments that have not been made purely for Treasury Management purposes i.e. investment in commercial properties.</p> <p>Linked to this the Ministry for Housing, Communities and Local Government (MHCLG) and CIPFA wish to have a more rigorous framework in place for the treatment of commercial investments as soon as is practical. The MHCLG has revised its Investment Guidance (and its Minimum Revenue Provision (MRP) guidance) for local authorities in England.</p> <p>The proposed changes are not as prescriptive as originally envisaged and still allow the council to make decisions within the concept of 'prudence'.</p> <p>However, clarification has been received that a prudent MRP cannot be nil or a credit. It has also proposed a maximum life for the MRP calculation of 50 years (equivalent to 2%) for freehold land without buildings on it and 40 years (equivalent to 2.5%) for all other assets.</p> <p>Many local authorities make commercial investments in order to achieve wider social and economic benefits for their local areas such as by economic regeneration or by providing</p>

additional facilities for residents or visitors, and where they do so they are likely to rely on powers other than the 2011 Localism Act.

The council has purchased 3 assets as part the of the Property Investment Fund (PIF) and in doing so included in the MRP policy, a decision that MRP would be applied on the depreciation method which allowed a 0% rate to be applied. This was seen as prudent as it was intended that any capital receipt from the future sale of the assets would be used to offset the borrowing taken to fund these assets.

The proposed changes to the code could mean that the council will have to make additional provision to repay debt for any assets purchased as part of the PIF i.e. cannot apply a nil MRP.

This will therefore have an impact on councils’ revenue budgets affecting delivery of services, possibility as early as the 2018/19 budget cycle. The amount of MRP per annum that would be payable on these properties is circa £1.29M in 2018/19. After 2018/19 a pressure of £0.75M has been included with a requirement for an action plan to manage this pressure ongoing to be presented to Capital Board. This may necessitate the disposal of these assets sooner than originally planned although this will generate capital receipts for further investment to meet the council’s outcomes and priorities.

**SUMMARY FINANCIAL POSITION**

63. The table below summarises the financial position:

**Table 7 – Summary Financial Position**

	<b>2018/19 £M</b>	<b>2019/20 £M</b>	<b>2020/21 £M</b>	<b>2021/22 £M</b>
<b>Opening Savings Requirement</b>	<b>0.00</b>	<b>8.58</b>	<b>8.49</b>	<b>8.49</b>

	<b>THE COLLECTION FUND</b>																				
64.	<p>The income from council tax and non-domestic rates is reflected initially in the Collection Fund Account, which is a statutory account that records the collection and distribution of taxation.</p> <p>Utilising the Key Assumptions within the MTFS, the forecast position for Southampton City council for the collection fund is shown in Table 8.</p> <p><b><u>Table 8 – Collection Fund</u></b></p> <table><tr><td></td><td><b>2018/19 £M</b></td><td><b>2019/20 £M</b></td><td><b>2020/21 £M</b></td><td><b>2021/22 £M</b></td></tr><tr><td>Council Tax - General Precept</td><td>88.94</td><td>91.43</td><td>93.39</td><td>95.39</td></tr><tr><td>Council Tax - Adult Social Care Precept</td><td>6.99</td><td>7.04</td><td>7.04</td><td>7.04</td></tr><tr><td>Business Rates</td><td>99.21</td><td>54.69</td><td>57.15</td><td>58.33</td></tr></table>		<b>2018/19 £M</b>	<b>2019/20 £M</b>	<b>2020/21 £M</b>	<b>2021/22 £M</b>	Council Tax - General Precept	88.94	91.43	93.39	95.39	Council Tax - Adult Social Care Precept	6.99	7.04	7.04	7.04	Business Rates	99.21	54.69	57.15	58.33
	<b>2018/19 £M</b>	<b>2019/20 £M</b>	<b>2020/21 £M</b>	<b>2021/22 £M</b>																	
Council Tax - General Precept	88.94	91.43	93.39	95.39																	
Council Tax - Adult Social Care Precept	6.99	7.04	7.04	7.04																	
Business Rates	99.21	54.69	57.15	58.33																	
65.	<b><u>Council Tax</u></b>																				
66.	<p>The Executive are recommending an increase in council tax for 2018/19 of 2.99%, with regard to the general power to increase council tax prior to referendum. They are also recommending that council tax is increased by 3.00% for the Adult Social Care Precept, with the increase for this element all being used to fund Adult Social Care pressures detailed elsewhere in the report. £95.93M is the level of council tax required to provide a balanced budget for 2018/19. This is then divided by the council tax base set by the S151 Officer, following consultation with the Cabinet Member for Finance, to give the basic amount of council tax for a Band D equivalent of £1,448.74 plus £42.20 for the Adult Social Care Precept making a council tax of £1,490.94 this is a 5.99% increase. The full calculation is set out in Appendix 3. This does not include amounts from other precepting authorities.</p>																				
67.	<p>The estimates of the payments from the collection fund in the form of precepts for 2018/19 are set out in Appendix 4. This also details the increase in council tax by property band for 2018/19. This includes preliminary figures for the Police &amp; Crime Commissioner (PCC) and the Fire Authority. The PLGFS allows for an increase up to £12 for PCC and this has been proposed giving an increase of 7.25% on their precept. The Fire Authority have proposed an increase of 2.98% on their precept. Whilst these are the proposed increases these are subject to formal approval.</p>																				
68.	<p>The figures for both the PCC and the Fire Authority may not be approved until after 21<sup>st</sup> February 2018 and therefore this report requests a delegation of authority to the S151 Officer to implement any variation to the overall level of council Tax arising from the final notification of the Hampshire Fire and Rescue Authority precept and the Police and Crime Commissioner for Hampshire precept.</p>																				
69.	<p>The council tax base for 2018/19 has been set at 64,345 properties using delegated powers granted by full council on 17<sup>th</sup> January 2007. This reflects the expected growth in the tax base and any adjustments for the Council Tax Reduction Scheme.</p>																				
70.	<b><u>Business Rates</u></b>																				
71.	<p>The amount to be retained and the amounts to be paid to central government and major precepting authorities are fixed at the start of the financial year on the basis of the billing authority's estimate of its business rate income for the year. Any variation is recognised as</p>																				

	part of the end of year accounting process for the collection Fund and any surplus can be utilised in the budget whilst any deficit must be made good.
72.	The non-domestic rates (NDR) estimate for 2018/19 has now been completed and the statutory notification return (NNDR1 Form) has been completed. Given the continued uncertainty of the impact of in year adjustments such as appeals, the form allows for estimated growth / decline of various elements. After allowing for these various elements and the impact of the Autumn Statement 2017 changes (funded by Section 31 Grant) the council's net rates payable for 2018/19 is £115.45M.
73.	After allowing for estimated losses in collection of £2.31M and estimated repayments in respect of the 2017/18 Rates of £5.43M giving a collectable rates figure of £107.71M.
74.	This is further adjusted to exclude Transitional Arrangements additional income of £2.02M, all payable to central government, and £0.31M costs of collection giving non domestic rating income of £105.38M.
75.	As detailed in paragraphs 18 to 22, SCC is part of the Solent Region Business Rates Pool and 100% Business Rates Retention Pilot for 2018/19. Any pilot has to be fiscally neutral to the government therefore the council foregoes Revenue Support Grant £17.06M and becomes a tariff authority rather than receiving a top up grant (£4.4M). The tariff will be £28.29M for 2018/19.
76.	There is a one off sum of £0.54M adjustment to the top up grant payable to the authority for 2017/18 in relation to the 2017 revaluation of the rating list to be paid in 2018/19.
77.	In addition to income received from the collection of Business Rates, the council will receive grants under Section 31. Under the pilot scheme in 2018/19 these amount to £6.14M.
78.	It should be noted that as a result of retaining 99% of the business rates, the pool will receive the share of growth in rates that would have been paid over to central government. The mechanism for allocating this growth between the pool members is currently being finalised and will be approved by the Leaders of the three councils as part of the governance framework.
79.	It is estimated that SCC's share of this growth will initially be in the region of £2.5M however, this has not been included in the updated MTFS as this stage. The amount will be finalised during 2018/19 and cannot be utilised to support the budget position until 2019/20. This will be included in future updates of the MTFS once clarification on the amount is given.
80.	The overall level of expected income for business rates for 2018/19 is expected to be £77.06M to support the revenue position. It should be noted that £17.06M of this is offset by the loss of RSG that will not be received under the pilot.
	<b>PUBLIC HEALTH GRANT</b>
81.	The Public Health Grant, which was introduced in April 2013, will continue to be a ring-fenced grant to local authorities into 2017/18 and 2018/19. The final allocation of Public Health Grant for 2018/19 is £16.94M. The Public Health Grant has already seen year on year reductions from 2015/16 and will continue to reduce as outlined in Table 9 below.

82.	<b>Table 9 Public Health Grant Reductions</b>		
		<b>2018/19</b>	<b>2019/20</b>
	Public Health Grant	£16.94M	£16.52M
	Percentage reduction in total grant from 2015/16 baseline	2.57%	2.64%
83.	The council is committed to identifying savings from within the total Public Health Programme, comprising the delivery of internal and external services, in order to achieve the level of savings required.		
84.	The grant reduction in 2018/19 is £0.47M, with a further £0.42M to be achieved in 2019/20, as well as inflation and pay awards needing to be contained within expenditure resulting in a requirement to save a total of £0.95M in the next two years. After this the expectation is this funding will be removed completely as part of the Business Rates Retention scheme.		
	<b><u>RESERVES AND BALANCES</u></b>		
85.	To ensure proposals are considered in a full financial picture, it is important to set out the expected position on earmarked reserves and the General Fund Balance.		
	<u>Earmarked Reserves</u>		
86.	<p>The council has a number of earmarked reserves that have been set aside for specific reasons. These reserves can be split into two categories:</p> <ul style="list-style-type: none"> <li>a. Those required to be kept by statute or accounting guidance e.g. revenue grants reserve, School Balances. These reserves can only be utilised for the purpose for which they have been set aside.</li> <li>b. Those set aside for a future event that has a high probability of occurring, e.g. Transformation Reserve.</li> </ul>		
87.	The financial risks facing the council in the medium term are assessed within the MTFS. This includes assessing the risk of continuing reductions in Central Government Funding and the subsequent budget shortfalls that the council would then face and the overall local and national economic factors which can affect the financial stability of the council.		
88.	In light of the increasing level of risk and uncertainty identified within the MTFS and the increased probability of resources being required to support its delivery, a full review of useable reserves and provisions has been undertaken. In closing the accounts for 2016/17 a view has been taken on maintaining and strengthening, where necessary, those reserves specifically earmarked to support the highest areas of risk resulting in the rationalisation of reserves and provisions where possible and in some cases additional funding being set aside.		
	<u>General Fund Balance</u>		
89.	The General Fund Balance is forecast to be £11.3M at the end of 2017/18 providing the current year financial overspend is addressed. The required level of balance is determined by assessing the level of risk the council faces. This is currently assessed at £11.3M.		
90.	Obviously when the council is facing significant cuts in funding, increasing demand alongside a major transformation programme the level of risk is heightened. The assessed minimum balance has been reviewed again for the MTFS update, taking into consideration both risk and affordability.		

	<b>SCHOOLS UPDATE</b>			
91.	Currently there are 8 schools reporting a deficit balance in 2017/18. The 4 schools with the largest deficits have been working with the Children and Families service area to agree Deficit Recovery Plans (DRP) and work is also continuing with the remaining schools to develop and have approved Deficit Recovery Plans in place.			
92.	As previously reported there is a significant pressure within the High Needs Budget, and a number of options have been previously approved, including a one off contribution from General Fund Reserves, to facilitate a workable solution. Further pressures identified as a result of ongoing increased demand will see the original pressure of £2.9M increase to around £3.3M in 2017/18 and a further review of budgets is continuing to mitigate the further pressures in the current year. However it is expected the High Needs block will be in deficit by £1M by the end of the 2017/18 financial year. Going forward a detailed review of the costs, processes and procedures will be undertaken to rationalise the High Needs Offer within the funding available within the Dedicated Schools Grant.			
93.	It should be noted that this pressure increases to £3.53M in 2018/19. However, in recognition that there is a national high needs funding issue, the Government have allocated additional DSG monies in 2018/19. SCC will receive an additional £1.1M, which is the maximum available and will continue to receive the maximum increases in future years. At the Schools Forum in January 2018, agreement was reached to ‘top slice’ 0.5% of the Schools Block DSG to help meet the high needs pressure funding a further £0.7M. At this stage this results in a deficit position in 2018/19 of £1.73M. If the 2017/18 expected deficit is not addressed the deficit will be £2.73M by the end of 2018/19. In order to address this futures years additional funding will need to offset this initially along with a review of the high needs service provision.			
94.	It has been assumed that the above noted pressures will need to be accommodated within the Dedicated Schools Grant (DSG).			
	<b>HOUSING REVENUE ACCOUNT</b>			
95.	The HRA records all the income and expenditure associated with the provision and management of council owned homes in the City. This account funds a significant range of services to over 16,000 homes for Southampton tenants and their families and to over 1,900 homes for leaseholders. This includes housing management, repairs and improvements, welfare advice, supported housing services, neighbourhood wardens, and capital spending on council properties.			
96.	<b><u>2017/18 Forecast Position</u></b>			
97.	The income and expenditure budgets for the HRA were approved by council in February 2017 as shown in table 10 below, with a net draw required from the HRA balances of £1.00M.			
98.	The year-end forecast position for 2017/18 shows an adverse forecast variance of £0.86M compared to this budget.			

		£M	£M	£M	Table 10 – HRA Forecast Outturn Position 2017/18	
	Net rent income	(72.59)	(72.59)	0.00		
	Service charges & other income	(2.27)	(2.39)	(0.12)		
	Misc. Adjustments	0.00	0.00	0.00		
	RTB admin	(0.13)	(0.13)	0.00		
	<b>Total income</b>	<b>(74.99)</b>	<b>(75.11)</b>	<b>(0.12)</b>		
	Management	21.95	22.13	0.18		
	Depreciation	19.26	19.26	0.00		
	Responsive & Cyclical repairs	13.91	14.71	0.80		
	Other revenue spend	0.10	0.10	0.00		
	HRA cost of rent rebates	0.00	0.00	0.00		
	<b>Total service expenses</b>	<b>55.22</b>	<b>56.20</b>	<b>0.98</b>		
	Capital charges	5.98	5.98	0.00		
	Repayment of loans	5.59	5.59	0.00		
	Revenue contribution to capital	9.19	9.19	0.00		
	<b>Total expenditure</b>	<b>75.99</b>	<b>76.97</b>	<b>0.98</b>		
	<b>(Surplus) / Deficit for the year</b>	<b>1.00</b>	<b>1.86</b>	<b>0.86</b>		
99.	The variance of £0.86M is due to: <ul style="list-style-type: none"><li>a delay in the implementation of the new materials contract, initially due to systems and stock replenishment issues but has been mitigated in part, by savings from vacant posts; retendering on Housing Investment expenditure; and increased income from leasehold properties due to major works.</li><li>An increase in the provision for bad debts to reflect the increasing rent and service charge arrears as a result of the introduction of Universal Credit</li></ul> Work is ongoing to identify further in-year savings to mitigate the variance, but the current assumption is that an expected underspend on the capital programme will enable £0.86M of reduced revenue contribution to capital in 2017/18.					
	<b><u>Medium Term Financial Position</u></b>					
100.	This report sets out the HRA revenue budgets for 2018/19 and the 30 year HRA business plan covering the period 2018/19 to 2047/48. The proposed changes to rents and other charges are an integral part of the revenue estimates for 2018/19.					
101.	The HRA Business Plan supports a number of council strategies, including the Medium Term Financial Strategy, to ensure plans are affordable and budgets are aligned to the assumptions detailed in those strategies. The specific HRA Business Plan priorities are summarised below: <ul style="list-style-type: none"><li>All HRA debt can be repaid over the 30 year life of the Plan.</li><li>The capital spending plans include provision to maintain and improve all existing dwellings and feature an increase in the level of planned expenditure in the early years.</li><li>This investment can be achieved within the Government’s borrowing limit of £199.6M, also known as the ‘debt cap’. Additionally, a reserve of at least £6M borrowing headroom is retained throughout.</li><li>As a result of additional voluntary minimum revenue provision payments (MRP) the ratio of financing costs to new revenue stream, which is an indicator of affordability</li></ul>					

	<p>and highlights the revenue implications of existing and proposed capital expenditure, significantly increases in 2019/20 and then reduces over the remainder of the MTFS period. This is further reflected in the Treasury Management Strategy &amp; Prudential Limits Report which will be reported to council in February 2018.</p> <ul style="list-style-type: none"> <li>• A provision of £93M is set aside for stock replacement, which will support the renewal of any of the existing dwellings that may be required over the next 30 years. This provision has been phased between year 7 and year 30 of the Plan.</li> <li>• Following the Chancellors announcement in the Autumn Statement the council will be reviewing whether to complete a bid to central government to raise the HRA borrowing cap.</li> </ul> <p>The revenue budget meets the minimum balances of £2M over the life of the Plan.</p>
102.	<p>The HRA Business Plan has consistently shown revenue balances that increase above minimum levels within the 30 year period. This remains the case, although in the proposed updated plan for 2018/19 onwards the year 30 projected revenue balance will be reduced to £3.1M. The surpluses are liable to change annually, either favourably or not, and will reflect the annual review of stock investment needs and estimated unit rates. The predicted revenue surpluses do however begin to exceed minimum levels in 2022/23 rather than 2021/22. This is linked to the additional fire safety works of £14.9M required as a consequence of the Grenfell Tower disaster which have increased the cost of the capital programme.</p>
103.	<p>Since the 30 year HRA Business Plan was approved as part of the 2017/18 budget setting process at full council on 15<sup>th</sup> February 2017, there have been further developments which have had a material effect on the Business Plan. These relate to capital expenditure and are detailed elsewhere on this agenda as part of the General Fund &amp; Housing Revenue Account Capital Strategy &amp; Programme 2017/18 to 2021/22 report. In summary, they mainly relate to the Grenfell Tower disaster, as fire safety remedial works have been identified as being required for 20 high rise HRA owned blocks of flats within the city.</p> <p>This may result in the need to breach the HRA borrowing headroom in order to meet the costs of these works.</p>
104.	<p>A 30 year HRA Business Plan has been prepared and the summary for the revenue and capital budgets is set out in Appendices 7 and 8. To ensure all council plans are aligned these reflect the key planning assumptions set out in the Medium Term Financial Strategy.</p>
105.	<p>The HRA capital programme was last updated and approved in November 2017. These spending plans have now been reviewed to take account of the latest estimated costs and phasing of those schemes and the forecast change in resources. The proposed February 2018 programme is shown in detail as part of the General Fund and Housing Revenue Account Capital Programmes 2017/18 to 2021/22 report. The changes in the overall programme are summarised by year in a table in that report as well as details of significant changes since the last update.</p>
	<p><b>Rent &amp; Service Charge Increases</b></p>
106.	<p>In order to address the HRA budget gap it has been necessary to review the charges currently levied for both garages and parking spaces. In reviewing what the charges are for similar service provision in the private sector it has been established that the council's rates are lower by comparison. Based on this, financial modelling has been undertaken to establish what increase in charges can be accommodated to increase income targets without a material impact on voids. Approval is sought to increase charges by 15% for Garages and 10% for Parking Spaces. It should be noted that council tenants have not seen an increase in these rents above inflation for a number of years (non-council tenants had a</p>

	flat increase of £1 in 2016/17).
107.	In line with the Welfare Reform and Work Act 2016, HRA rents will be reduced by 1%. This is a four year programme of rent reductions and will continue until end of the 2019/20 financial year.
108.	<p>Approval is sought to increase service charges by 3% from 1st April 2018 (including supported accommodation) based on a full cost recovery approach. This gives revised service charges as follows:</p> <p><u>General Service Charges</u></p> <ul style="list-style-type: none"> <li>• Digital TV £0.43 (£0.01 increase from 2017/18)</li> <li>• Concierge monitoring £1.24 (£0.04 increase from 2017/18)</li> <li>• Tower Block Warden £5.12 (£0.15 increase from 2017/18)</li> <li>• Cleaning service in walk-up blocks £0.65 (£0.02 from 2017/18)</li> </ul> <p><u>Supported Accommodation</u></p> <ul style="list-style-type: none"> <li>• Call Monitoring Charge - £1.29 (£0.04 increase from 2017/18)</li> <li>• Careline Silver - £3.09 (£0.09 increase from 2017/18)</li> <li>• Careline Gold - £4.38 (£0.13 increase from 2017/18)</li> </ul>
	<b>Other Key Assumptions</b>
109.	Rent arrears have risen in the current financial year 2017/18, linked to the impact of Welfare Reform. Although there is a short term impact on the Business Plan, with bad debt provision temporarily rising by 0.5% over the next 5 years, it is expected that in the longer term, the debt position will stabilise in line with national policies and internal debt collection processes.
	<b>Savings Proposals</b>
110.	As part of setting the budget for 2017/18 onwards, the HRA business plan was updated to reflect a required 1% reduction in dwelling rent for the financial years 2016/17 to 2019/20. This resulted in a loss of income of £33M. The Business Plan approved by council in February 2017 included a 2018/19 savings target of £3.94M. Savings proposals of £3.94M have been identified and were reported to Cabinet in November 2017. The table below provides an update on the current HRA budget position:

**Table 11– HRA Budget Position Update**

	2017/18 £M	2018/19 £M	2019/20 £M	2020/21 £M	2021/22 £M
<b>Original Savings Requirement</b>	<b>0.00</b>	<b>3.94</b>	<b>7.84</b>	<b>8.16</b>	<b>8.42</b>
<u>Pressures</u>					
2017/18 Forecast Outturn Position (Paragraph 39)	0.86	0.00	0.00	0.00	0.00
Future years identified pressures – none currently identified	0.00	0.00	0.00	0.00	0.00
<u>Savings</u>					
One-off contribution from Heating Account	0.00	(0.39)	0.00	0.00	0.00
Efficiency Savings	0.00	(0.14)	(0.15)	(0.15)	(0.15)
Income Generation	0.00	(0.02)	(0.02)	(0.02)	(0.02)
Service Reductions	0.00	(0.45)	(0.45)	(0.45)	(0.45)
Reduction in Contribution to Capital Funding	(0.86)	(2.94)	(3.07)	(3.12)	(3.12)
<b>Amended savings requirement</b>	<b>0.00</b>	<b>0.00</b>	<b>4.15</b>	<b>4.42</b>	<b>4.68</b>

111. In 2013/14 the HRA made a contribution of £0.39M to the landlord-controlled heating account in order to reduce the deficit on that account. This was in effect a short term contribution to balance the account but it was intended that the sum would be repaid to the HRA. At the end of 2016/17 the heating account held a surplus of £0.80M, and in 2018/19 will be in a position to now make a repayment to the HRA.
112. Efficiency savings, Income generation and Service Reductions savings have been explored, including reduction and cessation of various corporate subscriptions, as well as potential further service redesign. None of the proposals impact on staffing and therefore it has not been necessary to undertake a consultation process.
113. There are proposed reductions in revenue contributions to capital as a result of slippage and reduced spend on current approved capital schemes. In addition, there is a proposal to replace capital funding from revenue contributions with increased borrowing. Although this will be within the overall HRA borrowing limits, it should be noted that this saving is after taking into account the change in priorities of the capital programme to undertake identified works following the Grenfell Tower disaster. These works will be funded through slippage in existing schemes, additional long term borrowing, and HRA capital receipts. It should be noted that £0.94M of this is a one off saving in 2018/19.
114. The above savings proposals have now been finalised and do not require the need for public consultation.
- HRA Balances**
115. The HRA Business Plan has consistently shown revenue balances that increase above minimum levels within the 30 year period. This remains the case, but in the proposed updated plan for 2017/18 onwards the year 30 projected revenue balance will reduce to £38.39M compared to the equivalent figure of £26.35M in the previous approved plan. As previously reported, the main risk to the long term plan is that, if building inflation was to exceed general inflation over a prolonged period, this would have a significant adverse impact on HRA balances. Therefore the surpluses are liable to change annually, either

	favourably or not, and will reflect the annual review of stock investment needs and estimated unit rates. The predicted revenue surpluses now begin to significantly exceed minimum levels in 2022/23, compared to 2021/22 in the previous plan.
116.	It will be necessary to regularly undertake sensitivity analysis to assess the impact of external influences such as building inflation and changes to CPI on the business plan so that the overall budget position can be maintained to support investment in services and properties to meet the expectations of tenants and our regulatory requirements.
117.	The HRA minimum balance will remain at £2M.
	<b><u>STATEMENT OF THE SECTION 151 OFFICER IN ACCORDANCE WITH THE LOCAL GOVERNMENT ACT 2003 – ROBUSTNESS OF ESTIMATES AND ADEQUACY OF RESERVES</u></b>
118.	Section 151 of the Local Government Act 1972 requires local authorities to make arrangements for "the proper administration of their financial affairs' and appoint a Chief Finance Officer (CFO) to have responsibility for those affairs. The CFO must exercise a professional responsibility to intervene in spending plans in order to maintain the balance of resources so that the authority remains in sound financial health.
119.	<p>Section 25 of the Local Government Act 2003 (LGA 2003) imposes a duty on the Chief Financial Officer (CFO) to report formally to full council on the following matters:-</p> <ul style="list-style-type: none"> <li>• The robustness of the estimates made for the purpose of the calculations (to set the council tax).</li> <li>• The adequacy of the proposed financial reserves.</li> </ul> <p>The council is required to set a balanced budget each year and a minimum level of revenue balances and reserves must be specified within the budget, and be taken account of when setting the budget requirement.</p>
120.	In setting the budget the council should have regard to the strategic and operational risks it is facing. Some of these risks reflect the current economic climate, the national issues surrounding local authorities and increasing demand for services.
121.	<p>In considering the robustness of estimates the S151 Officer has examined the major assumptions and has carried out some sensitivity analysis to ascertain the potential risk and reasonableness of underlying budget assumptions such as:-</p> <ul style="list-style-type: none"> <li>▪ The reasonableness of provisions for inflationary pressures;</li> <li>▪ The likelihood of interest rate rises;</li> <li>▪ The extent to which known trends and pressures have been provided for;</li> <li>▪ The achievability of change built into the budget;</li> <li>▪ The realism of income targets;</li> <li>▪ Third party provider risks;</li> <li>▪ A review of major risks associated with the budget;</li> <li>▪ The availability of the General Fund Balance to meet cost pressures from unforeseen events; and</li> </ul> <p>The strength of the financial management and reporting arrangements.</p>
122.	In coming to a view the Service Director Finance & Commercialisation (S151 Officer) has taken into account the risks, issues and mitigations set out in Appendix 6 - Key Financial Risks.
123.	All these risks have been rated using the council's risk assessment criteria. Key points from this assessment are detailed below.

124.	There has been a sensitivity analysis carried out on the underlying assumptions contained with the MTFs Model, around inflation, interest rates and income estimates.
125.	There has been an assessment of the required General Fund Balance to meet cost pressures of unforeseen events and third party risk.
126.	Detailed estimates have been prepared by each service area based on levels of service required to achieve the outcome plans. In completing this exercise service areas have reviewed the risk associated with the individual business plans. Where these risks are seen as significant they have been added to Appendix 6.
127.	As the 2017/18 year has progressed savings proposals have been implemented and further planning and verification of the proposals for 2018/19 has taken place. In some instances this has resulted in a reduced saving all of which have been taken into account in setting the budget and reviewing pressures. However due to the level of savings required and, in some areas, the complexity, there is still a risk to the business, as the budget assumes these will be implemented with sufficient pace. The achievement of these savings proposals has been and will continue to be monitored by the Senior Leadership Team throughout the coming year, but as a consequence the MTFs Reserve is still seen as key reserve to be maintained.
128.	Significant financial pressures experienced in 2017/18 have, where appropriate, been recognised in preparing the estimates included in this report, as can be seen from table 3 in paragraph 36.
129.	The financial management and reporting arrangements have continued to be strengthened in the past twelve months with the introduction of finance business partnering and the continuation of monthly monitoring reports to the council Management Team in a timely fashion. The revised process for dealing with areas which have budgetary pressures by ensuring there are action plans in place and intensive care meetings with the Senior Leadership Team are in place to ensure the plans are robust and being achieved. The impact of these measures can be seen from the financial position regarding Children and Families, which at the end of the 2017/18 financial year was in a surplus position for the first time in a number of years, and current forecasts look like this position is set to continue.
130.	For the second time the setting of a balanced budget is not reliant on the utilisation of the General Fund balance. This gives us the opportunity, given the level of economic uncertainty to maintain the level of the balance without any further contributions giving us the opportunity to review this balance in light of the economic uncertainty faced by the council.
131.	In addition to the budget risks the collection of council Tax and the generation of business rates are two key risks which need to be closely monitored. An assessment of the anticipated business rates income has been carried out based on the information available and a provision made for appeals. The anticipated growth in business rates and council tax fed into the estimates has broadly been achieved, with relatively minor slippage in business rates. However 2018/19 not only relies on further growth but also introduces 100% business rates retention which makes us more reliant on business rate income increasing the potential risk associated with these estimates, but in the S151 Officer's opinion these have been identified and provided for within the Taxation Reserve, which if resources are available will be strengthened at the end of the financial year.
132.	Overall the risk associated with the General Fund and the Housing Revenue Account budget is still at a relatively high status given the quantum and complexity of savings, however these risks have been identified and mitigations put in place.
133.	Looking forward there are a number of potential risks on the horizon;

	<ul style="list-style-type: none"> <li>• the end of the Comprehensive Spending Review in 2019/20</li> <li>• the proposal to implement a revised funding formula</li> <li>• increase in the frequency of valuations</li> <li>• the move to 75% Business Rates Retention</li> </ul>
134.	As a result of these potential future risks it is the S151's opinion that the General Fund Balance should be maintained at £11.3M, and when possible the taxation reserve increased. However following the analysis it is the S151 officer's opinion that the overall level of reserves and balances are adequate.
	<b><u>BUDGET CONSULTATION</u></b>
135.	There has been no need for consultation on the savings proposals that have been put forward. However should the need arise Cabinet will undertake a public consultation process. The Leader and Cabinet are keen to listen to any new ideas on how to reduce costs, to receive feedback on the proposals and on any potential impact of the proposals.
136.	<p>The aims of the public consultation are to:</p> <ol style="list-style-type: none"> <li>a. Communicate clearly and make residents aware of the financial pressures the council is facing;</li> <li>b. Ensure residents understand what is being proposed in the updated 2018/19 budget and are aware of what this will mean for them;</li> <li>c. Enable any resident, business or stakeholder who wishes to comment on the proposals the opportunity to do so, allowing them to raise any impacts the proposals may have;</li> <li>d. Ensure that the results are analysed in a meaningful, timely fashion, so that feedback is taken into account when final decisions are made; and</li> <li>e. Provide feedback on the results of the consultation and how these results have influenced the final decision.</li> </ol>
	<b><u>STAFFING IMPLICATIONS</u></b>
137.	The council has on-going financial challenges. As a significant proportion of the council's expenditure is on employee costs in the context of all outcomes being delivered within reducing envelopes, it is inevitable that the draft proposals will have an impact on staff cost and staff numbers.
138.	In light of this, the council has agreed a clear framework for change management with the trade unions to implement a fair and transparent way of achieving the necessary reductions in employee numbers whilst working to reduce the potential for compulsory redundancies. Where any proposals have an impact on workforce numbers, employment status and/or terms and conditions of employment there will be meaningful consultation with due regard to statutory timeframes as a minimum.
139.	<p>Through the consultation process the Cabinet are keen to explore all avenues with the Trade Unions and employees to identify wherever possible alternative options for delivering savings, in order that the level of any proposed workforce reductions and potential redundancies can be reduced. The Cabinet will also continue to ensure that impacted staff are aware of all the available options which can be used to avoid compulsory redundancies including:</p> <ul style="list-style-type: none"> <li>• Voluntary solutions;</li> <li>• Early and Flexible retirement; and</li> <li>• Voluntary redundancy and proposals from employees such as reduced hours.</li> </ul>

<b><u>EQUALITY AND SAFETY IMPACT ASSESSMENTS</u></b>	
140.	The Equality Duty is a duty on public bodies which came into force on 5 April 2011. The council will have due regard to the impact of its decisions on its equality duties and the need to advance equality of opportunity between people who have protected characteristics and those who do not.
141.	While the Equality Duty does not impose a legal requirement to conduct an Equality Impact Assessment, it does require public bodies to show how they considered the Equality Duty and that they have been consciously thinking about the aims of the Equality Duty as part of the process of decision-making. To comply with these requirements as well as the Community Safety legislation, the council has used its existing Impact Assessment framework so that it can ensure the use of a consistent, council wide mechanism to evidence how decision making takes into account equality and safety considerations. In addition, in light of the potential impact of the welfare reforms on some residents, the assessments also take into account the impact on poverty.
142.	Equality and Safety Impact Assessments (ESIAs) will need to be completed for any proposals that are identified as requiring an assessment, as they could have an adverse impact on a particular group or individuals.
143.	The individual ESIAs are then analysed to consider the cumulative impacts proposals may have on particular groups and the mitigating actions that could be considered. In order to give the right perspective to budget proposals, the Cumulative Impact Assessment has to be considered in light of the available information on the City's profile, service user and non-user information and staffing profiles as well as the proportion of the council's budget that is currently spent on targeted groups or communities. The first draft of the Cumulative Impact Assessment are completed by a central team of officers within the council, based on the initial ESIAs completed by service managers. This is then published on the council's website.
<b><u>RESOURCE IMPLICATIONS</u></b>	
<b><u>Capital/Revenue</u></b>	
144.	The capital and revenue implications are fully detailed within the report.
<b><u>Property/Other</u></b>	
145.	None
<b><u>LEGAL IMPLICATIONS</u></b>	
146.	It is important that Members are fully aware of the full legal implications of the entire budget and council tax making process, when they consider any aspect of setting the council's Budget. Formal and full advice to all Members of the council protects Members, both in their official and personal capacity, as well as the council. If Members have received the appropriate professional legal and financial advice and act reasonably, generally the courts will not interfere in their decisions.
147.	The first and overriding legal duty on Members is their fiduciary duty to weigh the needs of service users against the interests of local taxpayers. In planning the budget, Members are under a fiduciary duty to act prudently, responsibly, in a business-like manner and in their view of what constitutes the best interests of the general body of local taxpayers. In deciding upon expenditure, the council must fairly hold a balance between recipients of the benefits of services provided by the council and its local taxpayers. Members should note that their fiduciary duty includes consideration of future local taxpayers as well as present

	local taxpayers.
148.	It is appropriate for Members to consider their own position as some Members may have expressed support publicly for policies that are not policies of the council. Political documents do not represent a legal commitment on behalf of the council. To treat any political document as a legal commitment by the council would be illegal. Where there is a valid choice before Members, then, at that stage and only at that stage, Members may take political documents into account.
149.	The legal significance of the Annual Budget derives from the council's duty under the Local Government Finance Act 1992 (the 1992 Act) to set a balanced budget. Failure to make a lawful council Tax on or before 11 March 2018 could have serious financial results for the council and make the council vulnerable to an Order from the Courts requiring it to make a council tax. Information must be published and included in the council tax demand notice. The Secretary of State has made regulations, which require charging authorities to issue demand notices in a form and with contents prescribed by these regulations.
150.	There is also a duty under Section 65 of the 1992 Act to consult persons or bodies appearing to be representative of persons subject to non-domestic rates in each area about proposals for expenditure (including capital expenditure) for each financial year.
151.	Under Section 114 (2) and 114 (3) of the Local Government Finance Act 1988 , the Chief Financial Officer is required to make a report, if it appears to him/her that a decision or course of action the council or an officer has agreed or is about to make is unlawful, or that expenditure is likely to exceed resources available.
152.	The Local Government Act 2000 provides a power for councils to promote the economic, social and environmental well-being of their areas and develop community strategies and establishes an ethical framework.
153.	Section 25 of the Local Government Act 2003 imposes a specific duty on the CFO (Section 151 officer) to formally report to council at the time the budget is considered and the council tax is set on the robustness of the budget estimates and the adequacy of financial reserves. This report will be brought forward alongside the Budget and council Tax Setting Report to full council in February.
154.	Of particular importance to the council tax setting process and budget meeting of the full council is the council's budget and Policy Framework Procedure Rules (FPR's) set out in Part 4 of the City Council's Constitution. These provide a legal framework for the decision making process whereby the budget of the city council is determined, and the council tax is set. In addition, Members need to be aware that these rules provide a route whereby the Leader may require the full council to reconsider their position if they do not accept the Executive's recommended budget without amendment.
<b><u>Other Legal Implications</u></b>	
155.	The financial forecasts contained in this report have been prepared and are submitted as part of the budget process set out in the council's Constitution. As part of the review process by the Council's Management Team, the proposals contained in this report have been checked from a legal viewpoint.

<b><u>RISK MANAGEMENT IMPLICATIONS</u></b>	
156.	The council maintains a financial risk register which details the key financial risks that face the council at a given point in time. This is updated on a quarterly basis and forms part of the Corporate Revenue Monitoring Report included elsewhere on this agenda.
157.	<p>Alongside the risks identified when setting the budget for 2017/18 a number of items have arisen since this time that may need to be addressed outside of those assumptions. Currently those main issues are:</p> <ul style="list-style-type: none"> <li>• Additional costs are being incurred to install sprinkler systems in all tower blocks on the advice of Hampshire Fire &amp; Rescue and specialist fire safety consultants following the Grenfell Tower Block Fire. These costs are being met by the HRA;</li> <li>• Southampton's joint bid with Portsmouth and the Isle of Wight to become a pool pilot in 2018/19 for 100% retention of business rates has been accepted by the MHCLG. As a result Southampton will benefit more from business rates growth in the pool area, although there is an increased risk of an overall reduction in funding if business rates fall. Arrangements have been put in place as part of the pool agreement to mitigate this risk;</li> <li>• Potential risk of savings proposals not being achieved and insufficient mitigations found to deal with in year – this is covered by the MTFS reserve;</li> <li>• High Needs Funding – due to increasing pupil numbers within special schools and the associated cost of Home to School transport, there is a £3.3M in 2017/18 pressure that will need to be resolved by 2018/19. In this financial year this pressure will be mitigated using DSG roll forward; review of the top-up funding; and an injection from general fund reserves to enable the schools and the service to plan and implement savings; and</li> <li>• There is still a risk from the economic climate due to Brexit and current levels of inflation. These are covered both by the MTFS reserve and by the contingencies (previously known as the risk fund).</li> </ul>
158.	The Financial Risk Register is attached as appendix 6.
<b><u>POLICY FRAMEWORK IMPLICATIONS</u></b>	
159.	The Medium Term Financial Strategy and the Budget are key parts of the Policy Framework of the council and a budget and council tax for 2018/19 must be proposed by the Cabinet for consideration by the full council under the Constitution.

## SECTION 1. Introduction

### 1.1 Background

The Medium Term Financial Strategy published last year was a step change in the Council's transformation journey being the first time a two year budget was set. This has enabled the Council to set a budget this financial year without the need to consult on further savings proposals. It is intended to continue this practice going forward.

The city vision is 'Southampton – City of opportunity where everyone thrives', with the goal of achieving prosperity for all.

Building on this the Council Strategy priorities are to deliver the following outcomes for residents:

- Southampton is a city with strong and sustainable economic growth;
- Children and young people in Southampton get a good start in life;
- People in Southampton live safe, healthy and independent lives; and
- Southampton is a modern attractive city where people are proud to work and live.

In order to achieve this, we have to be a modern, sustainable organisation, which is the fifth outcome.

### 1.2 Aims and Purpose of the Medium Term Financial Strategy

The purpose of the Medium Term Financial Strategy (MTFS) is to provide the strategic framework and a forward looking approach to achieve long term sustainability. It is central to the delivery of priority outcomes in the Council Strategy in an affordable and sustainable way over a 5 year period. It aids robust and methodical planning as it forecasts the Council's financial position, taking into account known pressures, major issues affecting the Council's finances, including international, national, sub regional and the city's economic influences as well as local priorities and factors.

It helps the Council to respond, in a considered manner, to pressures and changes as a result of many internal and external influences. This is particularly important during a period when the Council will face unprecedented changes and challenges. The MTFS recognises the key role that financial resources play in the future delivery of outcomes and in enabling the effective planning, management and delivery of services that contribute to the outcomes in the Council Strategy 2016-2020. The strategy concentrates on the principles that will provide a strong direction for the medium term.

An overarching MTFS is not only good practice, but is required to provide the strategic financial framework for the authority at a time of considerable pressure and change, be this delivering key priorities and ongoing efficiency gains, closer budget scrutiny, the management of financial pressures, or political change.

The key overriding aim of the MTFS is therefore:

***To provide a financial framework within which financial stability can be achieved and sustained in the medium term to deliver the Council's key strategic outcomes, priorities and sustainable services.***

The 6 key objectives of the MTFS are to:

- Provide financial parameters within which budget and service planning should take place;
- Ensure that the Council sets a balanced and sustainable budget;
- Focus and re-focus the allocation of resources so that, over time, priority areas receive additional resources. Ensuring services are defined on the basis of clear alignment between priority and affordability;

## SECTION 1. Introduction

- Ensure that the Council manages and monitors its financial resources effectively so that spending commitments do not exceed resources available in each service area;
- Plan the level of fees, charges and taxation in line with levels that the Council regard as being necessary, acceptable and affordable to meet the Council's aims, objectives, policies and priorities whilst gradually reducing the Council's reliance on Central Government funding; and
- Ensure that the Council's long term financial health and viability remain sound.

The MTFS enables the Council to move away from the historical position of setting annual budgets in isolation to future years, to integrated service and financial planning over the medium term, using an outcomes based planning and budgeting approach. This approach focuses the planning process on the medium term facilitating a balanced budget by 2019/20 and future years, ready for the expected start of the new funding regime for local government, and the move towards full business rate retention in 2020.

The resulting Medium Term Financial Model provides the framework within which decisions relating to future service provision can be made. The detailed budget, taking account of constantly changing circumstances, will continue to be kept under review over the period and the Council will need to set the level of Council Tax on an annual basis.

### 1.3 Strategic context

There are a number of strategies, policies and plans which impact on the direction of the Council and the day to day operations therefore impacting on the MTFS. The following diagram puts the MTFS in this strategic context.

## SECTION 1. Introduction

### 1.4 Setting the context: key strategies and plans

#### 1.4.1 SOUTHAMPTON CITY STRATEGY 2015-2025

The MTFS is framed by the City Strategy 2015-2025, and the City Vision, which has been developed by Southampton Connect, a partnership group consisting of representatives from business, the public, voluntary and education sectors and the City Council. The City Strategy identifies three key priorities:

- Economic Growth with social responsibility;
- Skills and Employment; and
- Healthier and safer communities.

It also includes four cross cutting themes:

- Fostering City Pride and Community capacity;
- Delivering whole place thinking and innovation;
- Improving mental health; and
- Tackling poverty and inequality.

Southampton Connect works closely with the key city partnerships to deliver against the vision, priorities and themes. Partnerships include the Health and Wellbeing Board and the Safe City Partnership.

#### 1.4.2 SOUTHAMPTON CITY COUNCIL STRATEGY 2016-2020

In September 2016, the Council approved the Southampton City Council Strategy 2016-20. The Strategy sets out the council's strategic vision until 2020 and has four key outcomes, along with an internal outcome, which are:

Children and young people get a good start in life

Strong and sustainable economic growth

People in Southampton live safe, healthy, independent lives

Southampton is an attractive, modern city where people are proud to live and work

A modern, sustainable council

These objectives reflect the on-going commitment to ensure the Council works to put residents and the customers at the heart of everything we do reflecting the city's diversity. Such strong leadership is essential if the city is to be able to meet the immediate challenges faced in a way that means it is sustainable and able to make the most of opportunities in the future.

We expect the shape of the Council, including the types of services we deliver and how we will deliver them, will be very different over the coming years. The Council Strategy sets out that this will be achieved through:

- Taking personal responsibility;
- Working through and with others;
- Embracing change;
- Balancing commercial demands; and
- Being customer orientated.

To manage our resources effectively to deliver these priority outcomes, we have allocated resources against each of them, considered what is being achieved from the services provided and focused on what makes the most difference to residents, customers and businesses. Under each outcome, we then identified proposals to reduce costs in the following areas:

- Business as usual - being more efficient in how we manage and deliver our services on a day-to-day basis;
- Digital savings - changing and improving how we deliver services, making better use of online channels; and
- Service delivery changes - redesigning, sharing, stopping, reducing or changing services

## SECTION 1. Introduction

### 1.4.3 WORKFORCE STRATEGY 2016-2020

In September 2016 Council approved the Workforce Strategy setting out a high level vision, priorities and key outcomes to develop and nurture a motivated and effective workforce who will deliver the Council's priorities. The main outcomes delivered by the Workforce Strategy will be:

- A robust foundation which enables decision making, planning and delivery based on evidence - we will know, understand and project workforce needs, issues and demands and plan accordingly;
- Southampton City Council will be an employer of choice; and
- Southampton City Council perceived as a great place to work.

### 1.4.4 CUSTOMER STRATEGY 2018-2022

The Council's vision is:

*We want to put all of our customers at the heart of everything we do, reflecting their feedback in the design and delivery of services, and to provide appropriate support to those who need it ensuring that customer experiences are easy, effective and convenient.*

The Customer Strategy sets out three outcomes that the Council aims to deliver for customers, and the high level actions to achieve these outcomes:

- Better customer experiences;
- Digital is the first choice for most customers; and
- Engagement with customers influences design and delivery of services.

### 1.4.5 DIGITAL STRATEGY 2018-2022

The Council's digital vision is of better customer experiences, greater independence and improved working through making the best use of information and technology. In particular we want to:

- Make contacting the council, finding information and doing business with us easier for our customers;
- Help the council run efficiently and work well with partners; and
- Grow Southampton's economy.

The Digital Strategy sets out four outcomes that the Council aims to deliver for customers, and the high level actions to achieve these outcomes:

- Digital is the first choice for most customers;
- Southampton has a growing digital economy;
- Digital data is secure, accurate and well-managed; and
- Public services in Southampton are digitally 'joined up'.

### 1.4.6 OTHER MAJOR STRATEGIES AND POLICIES

As well as the overarching City Strategy and the Southampton City Council Strategy, there are a range of other strategies and policies and work programmes which will influence the MTFS.

The two other key financial strategies are detailed below:

### 1.4.7 CAPITAL STRATEGY

The Capital Strategy sets out the capital plans for the next five years, taking account of any capital investment required to deliver outcomes, transformational change and executive priorities. The strategy covers the same timeframe as the MTFS to ensure all plans are co-ordinated and the focus is on the medium term. The programme will be reviewed annually to ensure projects are still in line with outcomes, and that the programme is affordable.

The strategy details the priorities of the Council in terms of capital expenditure and provides a framework for the Council's capital plans to be agreed and delivered within.

The Capital Strategy and Capital Programme are approved each year in February by Council.

Key issues and developments that are now incorporated in the strategy include:

- £67M for the Schools Expansion;
- Significant digital investment in the Council's main systems including an enterprise resource planning system, and a client case management system;

## SECTION 1. Introduction

- Recognition of the need for additional preventative Flood Defence schemes in the city;
- A commitment to provide more Extra Care Accommodation;
- Further expansion of the Roads Programme;
- Bidding for additional funding and working with partners to provide an accelerated housing delivery programme;
- Initial proposals for a Public Sector Community Hub;
- Plans for a Business Incubator;
- Recognition that future capital investment may be required in relation to the proposed Local Authority Trading Company (LATCo); and
- Clearer links to the outcomes, and executive commitments.

### 1.4.8 TREASURY MANAGEMENT STRATEGY 2018/19 TO 2021/22

The Treasury Management Strategy is reviewed annually and provides the framework within which authority is delegated to the Service Director for Finance and Commercialisation to make decisions on the management of the City Council's debt and investment of surplus funds.

The City Council is able to borrow on a long term basis to finance capital and on a short term basis to manage cash flow fluctuations. The Council is also able to invest surplus funds.

The core elements of the 2018/19 Treasury Management strategy are:

- To continue to make use of short term variable rate debt to take advantage of the market conditions of low interest rates;
- To constantly review longer term forecasts and to lock into longer term rates through a variety of instruments, as appropriate, during the year, in order to provide a balanced portfolio against interest rate risk;
- To secure the best short term rates for borrowing and investments consistent with maintaining flexibility and liquidity within the portfolio;
- To invest surplus funds prudently, the Council's priorities being:
  - Security of invested capital;
  - Liquidity of invested capital;
  - An optimum yield which is commensurate with security and liquidity; and
  - To approve borrowing limits that provide for debt restructuring opportunities and pursue debt restructuring where appropriate and within the Council's risk boundaries.

### 1.4.9 INVESTMENT STRATEGY

The Council holds significant invested funds, representing income received in advance of expenditure plus balances and reserves held. In the past 12 months, the Council's investment balance has ranged between £58M and £101M. As at 31st December 2017, the Council had investments amounting to £69M with an average rate of return of 3.69%.

The current strategy is to minimise our borrowing by utilising investment balances as this is the most cost effective way to manage surplus funds and to continue to diversify into more secure and/or higher yielding asset classes in 2018/19 as there is increasing risk and low returns from short term unsecured bank investments. New banking legislation means local authorities now have reduced protection for unsecured deposits in the event of a bank failing and there is some uncertainty over credit ratings for banks splitting their retail and investment operations.

Investment limits are set as part of the strategy to help mitigate and spread risk across a number of financial institutions. The Service Director for Finance and Commercialisation has the delegated authority to review these in year and they will be updated quarterly as relevant in line with advice received from the Council's treasury management advisors, Arlingclose.

The MTFS assumes that new investments will be made at an average 0.39% short term and 4.50% long term.

## SECTION 1. Introduction

### 1.4.10 BORROWING STRATEGY

The Council's primary focus when borrowing money is to strike an appropriately low risk balance between securing low interest costs and achieving cost certainty over the period for which funds are required. The flexibility to renegotiate loans should the Authority's long-term plans change is secondary to this. This is key to managing borrowing costs within the overall financial constraints of the authority.

By doing this the Council is able to minimise net borrowing costs and overall treasury risk. Details of borrowing options are included in full within the Prudential Limits and Treasury Management Strategy 2018/19 to 2021/22.

As at the 31st December 2017, the Council's overall outstanding borrowing was £244M, at an average rate of 3.31% and an average maturity of 21 years. This has decreased by £16M since the start of the financial year (£260M) as this is in line with reducing our investment balances we have not yet replaced all maturing debt. If expenditure is in line with cash flow predictions this is expected to borrow an additional £22M in 2017/18 and a further £41M in 2018/19 bringing estimated borrowing to £307M by the end 2018/19. The long term debt portfolio is made up of loans from the Public Works Loan Board (PWLb) of £212M and market loans of £9M.

The MTFS assumes that new long term borrowing will be at 2.92%.

The budget for debt interest paid in 2018/19 is £14.6M based on an average debt portfolio of £311M at an average interest rate of 2.63%. Investment income for 2018/19 is budgeted at £1.4M based on an average portfolio of £50M at an average of 2.8%. If actual levels of investments and borrowing, and actual interest rates differ from those forecast, performance against budget will be correspondently different. If the costs are higher than expected the Council will manage these within existing resources however when this cannot be achieved a call on the MTFS reserve can be made in order to avoid in year pressures.

### 1.4.11 OTHER STRATEGIES AND PLANS THAT HAVE AN IMPACT ON THE MTFS

Below is a sample of further strategies that have been considered in drawing up the MTFS:

- Solent Economic Plan 2014-20;
- Health and Wellbeing Strategy;
- Improved Better Care Plan;
- Safe City Strategy;
- Local Plan;
- Local Transport Plan and Transport Asset Management Plan;
- Housing Revenue Account Business Plan 2017/18 to 2046/47; and
- Corporate Property Strategy and Asset Management Plan.

### 1.4.12 NATIONAL AND EXTERNAL FACTORS

The MTFS is set within the context of national economic and public expenditure plans, and takes into account the national legislation setting out the City Council's ability to borrow and to raise income from Council Tax and other sources.

### DEVOLUTION – SOLENT MAYORAL COMBINED AUTHORITY

The City Council has worked with Portsmouth City Council and the Isle of Wight Council to submit a proposal for a Solent Deal based on a Mayoral Combined Authority (MCA). The Deal was submitted in March 2016, and included:

- An allocation of £30M pa for 30 years (75% capital 25% revenue) for economic growth, that can also be capitalised;
- The retention of 100% of the business rates collected within the area which assumed an earlier implementation than the expected national roll-out in 2020 (currently 50% of all business rates collected are passed over to Central Government). The model assumes the proposal will be fiscally neutral to the Government;
- Funding and support for business growth and innovation;
- Control of Adult Education budgets to meet the needs of employers and local residents;

## SECTION 1. Introduction

- A support programme to enable unemployed people to progress to work;
- Additional homes in the Solent area;
- New dedicated transport budgets and powers; and
- Measures to support public sector reforms.

The three Unitary Authorities undertook an eight week consultation during summer 2016, which showed a favourable response to progressing with the MCA and devolved powers and funds. Further to the report being approved by the three Councils a proposal was submitted to the Secretary of State to consider the establishment of an MCA in the Solent. Whilst the proposal has been considered a decision has not been announced, the timeline for the announcement has not been confirmed.

### SOLENT REGION - BUSINESS RATE RETENTION PILOT

A Business Rate Retention Pilot bid was submitted to the Ministry of Housing, Communities & Local Government MHCLG (formerly the Department for Communities & Local Government – DCLG) on the 27th October 2017. The bid involved establishing a business rates pool for the Solent Region comprising of Southampton City Council, Portsmouth City Council and the Isle of Wight Council and requesting that the pool retains 100% of the business rates collected and forgoes revenue support grant.

The MHCLG confirmed on the 19th December 2017 that the bid had been successful.

The Pilot bid covers the financial year 2018/19 but with the option to continue as a pool after this point, although all 3 authorities have indicated that they would not want to operate in a pool without the benefits of the 100% Business Rate Retention.

The pilot allows the pool to retain the element of growth (50%) currently paid over to the Government in addition to the locally retained growth.

The arrangement assumes that the original 50% local share of growth in business rates is retained by the individual authority (including Fire & Rescue 1%) as it is now. It is the 50% Government share that is now retained by the pool for future allocation.

It is expected that the council's base funding position, before the pool utilises the governments share of growth, will be broadly unaffected by this change and therefore will no longer receive Revenue Support Grant (RSG) and will in the case of Southampton & Portsmouth become tariff authorities (the IOW council remains a top up authority).

It should be noted that it is possible for the pool to be in a loss as well as the fully expected growth position. A number of possible outcomes have been considered with Governance Arrangements in place for each outcome.

Based on the information that has been provided for each local authority for forecast 2018/19 Business

Rates Income, the pool is expected to be in a growth position, with each individual authority having growth.

In an overall growth model, the growth pool of the 50% Government Share element will be distributed using the following:

- 60% Based on Need - Provides funding to sustain public services in the greatest areas of relative need / demand as per the governments calculation of relative need;
- 30% Growth & Productivity Pot - Re-invests a meaningful proportion of growth into the local economies to stimulate further growth and productivity as well as re-balancing growth across the 3 Local Authority areas; and
- 10% Financial Stability Pot - Provides a degree of financial stability and resilience to each Member of the Pool via an Internal Levy on the Pool.

The Pool arrangements will be determined by a Governance Board comprising the Leaders of the 3 Member Authorities.

### SOUTHAMPTON BUSINESS IMPROVEMENT DISTRICT

In November 2016, City Centre businesses voted in favour of the establishment of a Business Improvement District (BID). Over £1M will be generated for each year from 2017/18 - 2021/22, through a levy of 1.5% of business' rateable value in the specified BID area (with some concessions).

## SECTION 1. Introduction

The funds are overseen by the businesses via a Board, and allocated for activities to improve the marketing and experience of the City Centre. Delivery must add value to Council services, for which a baseline agreement will be in place. The BID has the potential to match fund and augment existing services, to consider alternative delivery models in the future, and to lever additional resources to the City. This will support the Council's outcomes and priorities, particularly in relation to economic growth.

### 1.4.13 AUTUMN BUDGET 2017

The Chancellor of the Exchequer presented the 2017 Budget to Parliament on 22nd November 2017. He pledged to use Government funds to "invest to secure a bright future for Britain". The key themes relevant to Southampton City Council were as follows:

#### Environment and Air Pollution

- In support of the National Air Quality Plan published in July 2017, the Government will provide £220M for a new Clean Air Fund. The money aimed at allowing local authorities with the most challenging pollution problems help individuals and businesses adapt as measures to reduce pollution are implemented; and
- The Council is committed to improving the air quality and has already set up a voluntary Clean Air Zone and will set up a chargeable one by 2020. The council is also already working with business and individuals in the city to change behaviour.

#### Education and Skills

- Substantial support for maths was announced. £27M will be invested in the "Teaching for Mastery" maths programme into a further 3,000 schools; an extra £600 pupil premium for each pupil studying maths or further maths at 'A Level' or Core Maths; £18M committed to fund an annual £0.35M for every maths school; £8.5M pilot to test innovative approaches to improve GCSE maths resit outcomes; £40M to establish Further Education Centres of Excellence across the country to train maths teachers; and
- £84M committed to upskilling 8,000 computer science teachers.

#### Universal Credit

- £1.5 billion package to address concerns about the delivery of the benefit, including the abolition of the seven day waiting period and changes to the advances system.

#### Housing

- A comprehensive package of new policies intended to raise housing supply by the end of this Parliament to its highest level since 1970, on track to reach 300,000 per year, through:
  - o Making available £15.3 billion of new financial support for housing over the next five years, bringing total support for housing to at least £44 billion over this period;

- o Introducing planning reforms that will ensure more land is available for housing, and that better use is made of underused land in cities and towns; and
- o £204M of funding for innovation and skills in the construction sector, including to train a workforce to build new homes.
- The Budget also announced plans to increase housing density in urban areas. To ensure that brownfield land and scarce urban land is used as efficiently as possible, the Government will consult on introducing:
  - o Minimum densities for housing development in city centres and around transport hubs, with greater support for the use of compulsory purchase powers for site assembly;
  - o Policy changes to support the conversion of empty space above high street shops;
  - o Policy changes to make it easier to convert retail and employment land into housing; and
  - o A permitted development right to allow commercial buildings to be demolished and replaced with homes.

## SECTION 1. Introduction

- The Government is determined to ensure that land released for housing is put to better use. It is to consult on:
  - o Strengthening the Housing Delivery Test with tougher consequences where planned homes are not being built, by setting the threshold at which the presumption in favour of development applies at 75% of housing delivery by 2020;
  - o Local authorities to bring forward 20% of their housing supply as small sites. This will speed up the building of new homes and supports the government's wider ambition to increase competition in the house building market; and
  - o Speeding up the development process by removing the exemptions from the deemed discharge rules. This will get builders on site more quickly, ensuring that development is not held back by delays in discharging planning conditions.
- In addition, Housing Revenue Account borrowing caps are to be lifted for councils in areas of high affordability pressure, so they can build more council homes. Local authorities will be invited to bid for increases in their caps from 2019/20, up to a total of £1 billion by the end of 2021/22. The Government will monitor how authorities respond to this opportunity, and consider whether any further action is needed.

### Affordable Housing

- The Budget also confirmed a further £2 billion of funding for affordable housing - originally announced in October 2017 - including funding for social rented homes. This takes the total budget for the Affordable Homes Programme from £7.1 billion to £9.1 billion to 2020/21. It is now expected that this will provide at least 25,000 new affordable homes.

### Homelessness

- Rough Sleeping – The Budget sets out the Government's first steps towards its commitment to halve rough sleeping by 2022, and to eliminate it by 2027, including the launch of the Homelessness Reduction Taskforce, which will develop a cross-government strategy to work towards this commitment; and
- Private rented sector access schemes: support for households at risk of homelessness – the Government will also provide £20M of funding for schemes to support people at risk of homelessness to access and sustain tenancies in the private rented sector.

### Business Rates

- Business Rates – a further £2.3 billion of support to businesses to be provided to reduce the burden of Business Rates and the extension of the £1,000 discount for pubs with a rateable value of less than £100,000 for one more year (to March 2019).

### 1.4.14 PROVISIONAL LOCAL GOVERNMENT FINANCE SETTLEMENT 2018/19

The Provisional Local Government Finance Settlement (PLGFS) for 2018/19 was published on the 19th December 2017, which has led to an update of the Council's financial position. The main points were:

- An announcement of the consultation on Fair Funding for implementation by 2020-21. This takes into account the results of the call for evidence requested last year and focuses on potential approaches that have been identified to measure the relative needs of local authorities. The deadline for consultation responses is the 12th March 2018;
- Movement to a "next phase" of business rate retention of 75% by 2020-21 including the assumptions around reductions in grant funding to compensate e.g. the removal of Revenue Support Grant and Public Health Grant;
- Existing 100% rate retention pilots will continue into 2019-20;
- 11 new rate retention pilots including London were announced. The Solent Region Pool incorporates Southampton City Council;
- Rural services grant to be maintained at £65M for the settlement period;
- As part of the LGFS 2017, the Government set a baseline growth of 0.4%, below which New Homes

## SECTION 1. Introduction

Bonus (NHB) will not be paid. Government retained the right to make adjustments to this baseline in future years in the event of a significant increase in housing growth. There has been no change in the baseline position of 0.4% in the 2018/19 settlement;

- Possibility to increase planning fees by 20% (although conditions apply);
- The capital receipts flexibilities given as part of the LGFS 2017 will continue for another 3 years;
- A review of remaining negative revenue support grant allocations will be consulted on in Spring 2018;

- A Green Paper on future challenges in Adult Social Care will be published in the Summer of 2018;
- Powers to give an additional 1% on the referendum limit for general Council Tax increases has been detailed (i.e. the referendum limit is now 2.99%);
- No action on referendum limit for Town and Parish Councils; and
- A £12 Council Tax flexibility for Police and Crime Commissioner.

It should be noted that due to the roll out of Universal Credit the MTFS assumed the Council would not be receiving Housing Benefit Subsidy Admin Grant going

forward. However the information provided following the settlement suggests this will continue into 2018/19.

For Southampton the impact of the settlement in terms of grant funding can be seen in the graph below. The Central Government funding position compared to 2015/16 shows a considerable reduction in resources.

For comparison purposes 2018/19 and future years still contains the RSG the council would have received without the Business Rates Retention Pilot

The financial impact of the Local Government Finance Settlement has been included in the Medium Term Financial Model attached in Annex 1.

**Current Central Government Funding Position compared to 2015/16**

## SECTION 1. Introduction

**TABLE 1 SUMMARY OF KEY ASSUMPTIONS**

Item	2018/19	2019/20	2020/21	2021/22
<b>Business Rates Multiplier</b>	3.0%	2.9%	2.4%	2.2%
<b>Council Tax</b>	2.99%	1.99%	1.99%	1.99%
<b>Social Care Precept</b>	3.00%	0.00%	0.00%	0.00%
<b>Council Tax Base (No of Band D Equivalents)</b>	63,345	64,757	64,757	64,757
<b>Revenue Support Grant *</b>	(26.66%)	(36.7%)	-	-
<b>New Homes Bonus</b>	(8.9%)	(4.1%)	(12.8%)	(16.0%)

<b>Borrowing Rates (Long Term HRA) (ave)</b>	3.36%	3.26%	3.46%	3.50%
<b>Borrowing Rates (Long Term - consolidated) (ave)</b>	3.30%	3.18%	3.39%	3.42%
<b>Housing Revenue Account Housing Rent Increases</b>	-1.00%	-1.00%	3.00%	3.00%

\* Under any increases in Business Rates Retention, RSG will not be received.

### 1.5 Key Assumptions

Local authority budgeting is by its very nature difficult to forecast with absolute certainty since there are so many variables that need to be assessed.

#### 1.5.1 Summary of Key Assumptions

Table 1 summarises the key assumptions contained within the Medium Term Financial Strategy. These assumptions will be the standard assumptions used to drive all financial planning within the Council, where applicable. Figures in brackets represent a reduction.

#### 1.5.2 Business Rate Retention Scheme

The Business Rate Retention (BRR) Scheme was introduced in April 2013 and represented a major change in the way in which local government is funded. It is seen by the Government as providing a direct link between Business Rates growth and the amount of money local authorities have available to spend on local services.

Councils are able to retain a proportion of their growth in Business Rates and will also be taking the risk of reductions in Business Rates, although there are 'safety net' arrangements in place to protect against very large reductions.

The Government's original intention was to introduce a 100% BRR scheme in 2019/20, alongside introducing additional responsibilities for local government to ensure fiscal neutrality for Central Government. However, there has been significant slippage in the timetable, with the Local Government Finance Bill, which contained provision for 100% BRR, falling when Parliament was dissolved for the General Election in June 2017. It was not revived in the Queen's Speech but the Government has confirmed it is still committed to the reforms.

The delay has caused significant uncertainty amongst councils, which has been recognised with the CLG Select Committee launching an inquiry into the impact of the longer implementation period for 100% BRR amid worries within local government as to what happens when their current funding settlements come to an end in 2020.

The Inquiry will assess the implications of the extended implementation period and how it is affecting councils' financial planning.

The PLGPS has indicated a move towards 75% BRR from 2020/21 with BRR pilots able to operate under 100% BRR.

Consultation will also be undertaken to examine the consequences of implementing the Fair Funding Review, which is the Government's review into needs and redistribution, due for implementation in 2020/21.

## SECTION 1. Introduction

The main points to note are:

- Funding baselines for local authorities (LA) are based on an assessment of relative needs and resources for each LA;
- The methodology for the needs assessment has not been updated since 2013/14;
- Since then, demographic changes and pressures along with the cost of providing those services means that the methodology needs to be updated;
- A call for evidence on needs redistribution was undertaken in 2017/18, the results of which have been considered in preparing the Fair Funding Review consultation;
- The consultation focuses on potential approaches that have been identified to measure the relative needs of local authorities;
- The deadline for consultation responses is the 12th March 2018;
- The result of the review will be to set new baseline funding allocations;
- As Government have been clear that there will continue to be a redistribution of business rates between LA's to take account of relative needs, the review will provide an up to date assessment of those relative needs;
- The review will look at how and if other sources of income such as Council Tax, should be taken into consideration when redistributing business rates linked to the needs assessment;
- It will initially look at those services currently funded through the Local Government finance settlement; and

- Through further engagement and consultation, will aim to keep LA's informed of progress of the review and also to determine what transitional arrangement are needed.

There has been an assumption built into the MTFS for Business Rates growth, this is based on an assessment of new property developments undertaken in conjunction with the Growth team. This estimate is based on projects which are already in the pipeline.

The graph below shows the steady increase in business rates since 2015 and the projected future growth.

### 1.5.3 Council Tax

As set out in Table 1 above, the assumption is that Council Tax rises will be set at the referendum limit of 2.99% in 2018/19 and 1.99 % in future years (plus the Adult Social Care Precept see section 1.5.4).

There has been some growth in the Council Tax base built into the MTFS, this has been calculated in conjunction with the Growth team based on current known levels of development.

The tax base that has been assumed for each financial year is also detailed in Table 1 this reflects the required adjustments as a result of the localisation of Council Tax Benefits and changes to associated funding which was implemented from 2013/14, and any growth in Council Tax base detailed above.

### Net rates payable in year

## SECTION 1. Introduction

A new Local Council Tax Scheme (LCTS) was introduced in 2013/14 which, as a result of the localisation of Council Tax Benefits, allows the Council to set its own criteria for offering reduced Council Tax for those eligible. The changes to discounts, exemptions and LCTS are now in place, and the LCTS administration grant has been confirmed and included in the forecast position.

### 1.5.4 Adult Social Care Precept

Local authorities with Adult Social Care responsibilities were given the ability to increase Council Tax by a total of 8% over the period 2016/17 to 2019/20 through an Adult Social Care Precept with options on how this could be profiled. 2% was applied in 2016/17 with a further 3% applied in 2017/18. The MTFS assumes that the remaining increase will be taken in 2018/19 (i.e. at the earliest opportunity) as the estimated increase in funding needed for Adult Social Care far outweighs the income gained from the Precept.

### 1.5.5 Revenue Support Grant Update Post Settlement

Historically a major source of funding for the Council has been the Revenue Support Grant (RSG), however since the austerity measures have been introduced this grant has been reduced drastically with the Council suffering a 75% reduction by 2019/20. The MTFS reflects the allocations given in the LGFS. It should be noted however, that RSG will not be received whilst in a Business Rates Pilot Pool or in the event of moving towards increased Business Rate Retention.

### 1.5.6 Housing Benefit Administration Subsidy

Following the abolition of Council Tax Benefit (CTB) and the introduction of Local Council Tax Support (LCTS) in April 2013, the funding baseline for HB/CTB has remained disaggregated. The DWP is responsible for allocating the HB element to local authorities with the responsibility for distributing the remaining LCTS element being with the Ministry of Housing, Communities and Local Government (MHCLG).

Each year the HB administration subsidy has been reduced and this will continue into 2018/19 as the DWP applies a percentage reduction as an efficiency saving based on the previous year's allocation and also takes into account Universal Credit. However the LCTS administration subsidy has brought the overall funding up to much the same overall level each year. A further years grant has been confirmed for 2018/19.

### 1.5.7 Public Health Grant

The Public Health Grant that was introduced in April 2013, will continue to be a ring-fenced grant to local authorities into 2017/18 and 2018/19. The final allocation of Public Health Grant for 2018/19 is £16.94M. The Public Health Grant will continue to reduce, as outlined in Table 2 below.

**TABLE 2 PUBLIC HEALTH GRANT REDUCTIONS**

Item	2016/17	2017/18	2018/19	2019/20
Percentage reduction in total grant from 2015/16 baseline	(2.20%)	(2.50%)	(2.57%)	(2.64%)

The Council is committed to identifying savings from within the total Public Health Programme, comprising the delivery of internal and external services, in order to achieve the level of savings required.

The grant reduction in 2018/19 is £0.47M, with a further £0.42M to be achieved in 2019/20, as well as inflation and pay awards needing to be contained within expenditure resulting in a requirement to save a total of £0.95M in the next two years. Under further Business Rate Retention, the Public Health Grant will not be received.

### 1.5.8 Care Act

The Care Act 2014 deals with the reform of adult social care and support legislation. The introduction of the Act was to be phased over two years. Changes including the rights of Carers, a national eligibility criteria and universal Deferred Payments came into force on 1 April 2015. However the changes programmed to come into force from 1 April 2016, including the funding reforms, have now been postponed until at least 2020. This decision was taken nationally in recognition of the overwhelming pressure, across the country, within Adult Social Care services.

## SECTION 1. Introduction

### 1.5.9 New Homes Bonus

To encourage an increase in the number of homes available in the UK, in 2011 the Government brought in a grant payable to local authorities referred to as the New Homes Bonus (NHB). This grant was calculated based on the amount of extra Council Tax revenue raised for new build homes, conversions and long term empty homes brought into use, with an additional payment for affordable homes. This grant (in the form of “legacy payments”) was payable for 6 years.

Although the NHB was deemed successful in encouraging local authorities to promote housing growth in the early years, the Government consulted on a number of possible reforms to the Bonus in 2015/16. The overall objective of the reforms was to “sharpen the incentive” for housebuilding and provide additional funding for Adult Social Care. The outcome of the consultation was announced alongside the provisional local government settlement 2017/18. The Government decided to:

- Reduce the number of years for which legacy payments are made from 6 years to 5 years in 2017/18 and then to 4 years from 2018/19; and
- Set a national baseline for housing growth to sharpen the incentive for councils to deliver more homes.

**TABLE 3 NEW HOMES BONUS ALLOCATIONS**

	2018/19 £M	2019/20 £M	2020/21 £M	2021/22 £M
<b>New Homes Bonus Assumption</b>	5.20	5.00	4.30	4.30

The Government chose to set the Initial baseline in 2017/18 at 0.4%, below which the bonus will not be paid. This level is significantly below the average rate of growth in the 10 years before the introduction of the NHB scheme. The government also retained the option of making adjustments to the baseline in 2018/19 and future years in the event of significant and unexpected housing growth. The PLGFS 2018 confirmed that there will be no changes to the current assumptions.

Table 3 below shows the assumed NHB allocations within this MTFS:

### 1.5.10 Education Services Grant

The Education Services Grant (ESG) was a ‘non ring-fenced’ Government grant paid to local authorities and academy trusts to pay for specific services to schools. The ESG comprised two elements:

- Retained duties (£15 per pupil in 2016/17) - paid only to local authorities to fund the duties that they delivered for all pupils regardless of whether they attended a maintained school or an academy; and
- General duties funding (£77 per pupil in 2016/17) - paid to local authorities for every pupil in a maintained school and to academies for every pupil on roll.

The 2015 Spending Review announced a £600M cut (around 75%) in the ESG, to be achieved by removing the funding for general duties. Academies also lose their general ESG, but gradually up until 2020.

Total ESG grant for Southampton in 2016/17 was £2.2M. Transitional arrangements were introduced in 2017/18 with reduced funding received for the period April to August 2017 only (amounting to £1.1M).

ESG funding in respect of general duties was withdrawn completely from September 2017. The MTFS only assumes the sum awarded for the retained duties which is paid via the Dedicated Schools Grant and recovered from schools.

### 1.5.11 National Fairer Funding Schools

The Government has been reforming the school funding system since 2010 with the most significant reform being the planned introduction of the “National Funding Formula” (NFF) for Schools, Early Years and High Needs to match funding directly and transparent to need. This involved creating a new Central Schools Block, allowing local flexibility on the Minimum Funding Guarantee and ring-fencing the Schools Block within the Dedicated Schools Grant (DSG). Whilst the NFF was quickly adopted by Southampton in April 2017 for Early Years (SCC declined the opportunity to phase), the Government has put back introducing the NFF for Schools and High Needs until 2018/19.

## SECTION 1. Introduction

Transitional arrangements (using a “soft formula”) are to be put in place for Schools for the first two years (i.e. 2018/19 and 2019/20). The NFF will have no direct impact on the overall Southampton Schools funding allocation, with maintained schools given a notional allocation only by the soft formula (i.e. a limited impact in first two years, as school allocations will continue to be made using existing local formula).

Grants outside the DSG (e.g. “Pupil Premium”) are not affected by the changes, although there is to be a renamed “Pupil Premium Plus” grant Introduced in 2018/19, funded from ‘looked after children’ funding contained within the 2017/18 DSG.

The Government has recently stated that spending plans beyond 2019/20 will be set out in a future Spending Review, therefore the exact timing of the hard formula rollout for the Schools NFF is still uncertain.

With regard to High Needs, the NFF is to be introduced in 2018/19 with additional funding of £124M put in nationally by Government (Southampton are set to receive an additional allocation of £1.1M).

### 1.5.12 Other Grants

The Council receives a variety of other grants from Government and the MTFS assumes these will decline over the life of the forecast to circa £0.7M.

The result of these assumptions is that the Council will receive minimal levels of funding from Central Government by the end of the term of the MTFS.

### 1.5.13 Pay Inflation

Assumptions have been made in the forecast about the likely level of pay inflation that will apply from April 2018. As a large proportion of the Council’s expenditure is pay related, this can have a significant impact if actual rates are much higher than predicated.

The previous MTFS model was based on a pay award of 1% per annum. However, on 5th December 2017, the ‘National Employers for Local Government Services’ announced a higher pay offer to local government unions for the period 2018 to 2020. The offer comprises a two year deal with a headline flat-rate increase of 2.0% in 2018/19 and 2019/20. A 2% pay award has now been assumed from 2020/21 and future years.

### 1.5.14 National Living Wage

The Government’s July 2015 budget announcement introduced a new premium for those aged 25 and over leading to a new National Living Wage (NLW) of £7.20 in April 2016. The Government’s ambition is for the NLW to increase to 60% of the median earnings by 2020, and it will ask the Low Pay Commission to recommend the premium rate in light of this ambition going forward. Based on Office for Budget Responsibility forecasts, this means the NLW is expected to reach over £9 by 2020.

The Council has adopted the National Living Wage Foundation’s recommended living wage, which is currently £8.75 (set in November 2017 but implemented by the Council from 1st April 2018), for

payment of SCC employees, and this rate is presently higher than the initial NLW (£7.83 from April 2018).

### 1.5.15 Ending of Contracted out Pensions Schemes

Provision has also been made for the financial impact of changes made to the national pension arrangements which no longer allow National Insurance Rate reductions to public sector employees who opt out of SERPS from 2016/17. This has been based on the assumption that current staffing levels will continue.

### 1.5.16 General Inflation

Assumptions have been made in the forecast about the likely level of general inflation that will apply from April 2018. If inflation were to increase at a higher rate than anticipated then this would have an impact on the Council, not least because the Council’s major outsourced/partnership contracts are uplifted by indexation linked to inflation on an annual basis.

Current indications are that - in the short term at least - an increase is unlikely (in fact inflation is currently forecast to gradually decline over the medium-term). However, the risk has been mitigated by the inclusion of amounts in contingencies to cover key elements of inflation, for example in relation to fuel and energy costs, which can be volatile.

Beyond this provision, it is likely that this would be managed as an ‘in year’ issue and that services would be expected to absorb the difference.

## SECTION 1. Introduction

### 1.5.17 Pension Fund – Past Service Pension Cost and Compulsory Added Years

Employer contributions to the Hampshire Local Government Pension Scheme (LGPS) were reviewed as part of the 2017 triennial revaluation process. The changes in rates were applied from April 2017. This is likely to give rise to an additional cost of £1.8M by 2019/20. This has been built into the MTFS. It has been confirmed that the position for past service costs and compulsory added years has not changed and has been included within the forecast for 2018/19 to 2019/20. Using the current valuation from Hampshire County Council an 8.8% per annum increase for the six year period 2014/15 to 2019/20 is assumed within the MTFS Model. This has then been assumed to continue at this level in 2021/22.

### 1.5.18 Public Sector Employment – Restrictions on Exit Payments

The Enterprise Bill for 2015 set up new restrictions on public sector exit payments through the introduction of a £95,000 cap on such payments. The Government's response to the consultation paper was published on 26th September 2016 and set out an expectation that Government departments would put forward proposals for reform within three months, with consultation on proposals to follow the normal process of discussions and negotiations with Trade Unions and other workforce representatives in order to seek agreement to their

reform proposals. The Government originally expected discussions to be concluded, agreement reached and the necessary changes made to compensation schemes and other arrangements within nine months. Although the original timetable has slipped, the Government's plans are still expected to progress as planned in due course.

Within the overall cap / package to limit exit payments the Government is considering proposals appropriate to each workforce to include:

- A maximum tariff and base salary on which redundancy payments are calculated;
- A cap on the value of employer funded pension 'top-ups';
- An increase in the minimum age at which an employee is able to receive an employer funded top-up;
- Other general limits on most employer-funded payments made in relation to leaving employment; and
- Consideration of any case for protection during the transition period for those with exit agreements formally agreed on terms that pre-date the new exit compensation arrangements coming into effect.

In addition to the above, new regulations came into force from April 2016 on the requirement to repay exit payments for up to 12 months after payment if further employment is undertaken within the public sector during

that time for employees earning over £100,000 per annum. The necessary changes to the leavers' process and paperwork have been introduced and have been communicated as necessary to affected employees.

### 1.6 Key Risks

There is a significant degree of uncertainty, arising from both internal and external factors, which could have a significant impact on the key assumptions made within the MTFS. The macro financial systems within which the Council operates are complex and highly sensitive to a range of variables and it is therefore important that risks, that could have a material effect on the financial position of the Council, are identified and understood in terms of the potential impact (positive or negative) and the likelihood of occurrence. The foregoing recognises the importance of having adequate mechanisms in place to identify and manage risks in order to support the achievement of financial stability.

These risks are reflected in a 'Key Financial Risks' document which identifies the key financial risks to the council's financial position over the short to medium term together with a summary of the mitigating actions in place and planned. These financial risks are reflected in the assessment of the adequacy of estimates and reserves.

## SECTION 1. Introduction

Factors that can have a material effect on the financial position of the Council include:

- The lack of certainty in Government funding for future years including grants and the new fair funding formula;
- Changes in function;
- Changes in how services are funded;
- Changes in the economy;
- Changes in Members' priorities;
- Unmanaged service pressures and increases in demand;
- Council tax policy;
- Changes in legislation and government policy;
- Level of future pay awards and general inflation assumptions;
- Adequacy of contingencies in any one period;
- Business Rate Volatility and Business Rate Retention;
- Treasury Management and interest rate changes;
- Projected income levels from fees & charges;
- Non achievement of savings;
- Impact of National Living Wage;

- Level of provision for insurances;
- New burdens;
- Welfare reforms;
- Demographic changes; and
- Impact of Brexit, both nationally and locally.

It is important to note that the revised forecast represents the most realistic forecast position moving forward. However, there are a number of risks associated with these revised forecasts, the main risks being as follows:

1. **Financial Risk** – the majority of the future years' strategy and model is based on a series of assumptions, the further into the future you look the higher the risk that these assumptions are inaccurate.
2. **Political Risk** – The Government are providing more certainty and transparency over central government funding levels for the term to 2019/20. Whilst further clarity has been given with regards to the next steps in the move towards 100% Business Rates Retention there are still some uncertainties on how the scheme will operate and from when. The impact of any new burdens that will be imposed on the local authority as a result of that will need to be considered in due course.

3. **Treasury Risk** – the MTFS is based on a reasonably stable global financial position going forward, taking into consideration that there are unknowns at this stage with regards to the impact that Brexit may have on the council's finances. If the assumptions change it may have a major impact on the financial position of the Council particularly around business rate income, and interest payments. The Treasury Management Strategy sets the parameters in which borrowing is undertaken and along with longer term forecasts for low interest rates the potential risk of having to undertake a major restructuring of debt seems less likely and is currently viewed as less significant than other risks faced by the council. A taxation reserve of £3.7M is held to meet one off shortfall in business rate income as the Council's funding position becomes more reliant on this source of funding.
4. **Transformational Change** – It is essential that the Council continues to further its major change programmes to ensure the organisation is fit for the future and is sustainable. There is a degree of risk associated with this type of change, particularly as the management capacity to drive this change through reduces, and as we seek to deliver significant change against a backdrop of constrained funding.

## SECTION 2. Horizon scanning

Key issues affecting council services and finances are detailed below as they can have a major impact on the Council's budget in the short and medium term. There are demographic and system-wide social-economic factors which undoubtedly impact the residents of Southampton and have an impact on the services which the council and its partners deliver across the city. The financial implications of these factors are included in the Medium Term Financial Forecast where it has been possible to make a financial assessment at this time.

### 2.1 Demographics

Population forecasts for Southampton and nationally show that more people are living longer and as a consequence average life expectancy is increasing. The fastest growing sector of the population is that aged 90 years and over. Forecasts made using known residential development plans predict the over 90s will rise by 26.6% between 2016 and 2023 whilst the number of people over 75 years is forecast to grow from 5,100 to 6,100, an increase of 23.7%. Longer term projections, based on past trends, predict a 49.6% increase in over 65s in Southampton between 2014 and 2039.

The increasing proportion of older people creates challenges for individuals and policy makers alike, and it increases pressures on social care resources and other public services. Medical advances mean that

people who previously might have died at a young age are living longer, often into adulthood, but do so frequently with long-term conditions and needs which require support to help them live as independently as possible. Likewise, with old age being extended, demands for social care and support are increasing. At the same time, the proportion of the working age population (aged 16-64 years) is only due to increase by about 12% between 2014 and 2039, and this may affect availability of informal and community care.

As more people live longer the number of people living with dementia will continue to rise. It is anticipated that as techniques for diagnosing dementia improve, this will add to the total number of individuals requiring support. In 2015/16, there were 1,605 Southampton residents recorded on GP registers as having dementia; this has increased from 1,451 in 2013/14. This increase represents increasing prevalence and the ageing of the population as well as increased diagnosis and recording by GPs.

### 2.2 National and Local Policy

#### 2.2.1 DEVOLUTION

The Cities and Local Government Devolution Act 2016 provides the legal framework for the implementation of devolution deals with combined authorities and other areas. It is an enabling piece of legislation which provides a legislative framework which can be applied flexibly to different areas by secondary legislation.

A combined authority is a legal structure that may be established, via an Order made by the Secretary of State, at the request of two or more local authorities. The Local Democracy, Economic Development and Construction Act 2009, which has been amended by the Cities and Local Government Devolution Act 2016 provides the legislative framework. In the Government's manifesto they made it clear that combined authorities should have a directly elected mayor to ensure a single point of accountability.

Due to other Government priorities the English devolution agenda is now only moving tentatively forward. In the Autumn 2017 Budget the Chancellor announced that the Government is pursuing deals with North of Tyne and exploring further devolution to the Liverpool City Region and the Tees Valley.

The Council is an active partner in the Solent Deal devolution bid, alongside Portsmouth City Council, and the Isle of Wight Council, further details on these the proposals are highlighted earlier in this strategy.

#### 2.2.2 BREXIT

The decision of UK citizens to leave the European Union in the referendum on 23 June 2016 is likely to have a significant impact not only local government but both UK citizens and EU citizens who live and work here.

## SECTION 2. Horizon scanning

The government has confirmed its intentions to achieve:

- Control of immigration with a commitment to get net migration down to a sustainable level;
- Most free trade possible between EU and UK after leaving the EU's single market and new trade agreements with other countries;
- Protected rights of UK citizens living within the EU and a reciprocal arrangement for EU citizens living in the UK;
- Co-operation on law enforcement and security; and
- Enhanced rights for workers.

The Brexit negotiations are on-going following the triggering of the Article 50 process in March 2017. While the UK Parliament has no formal role in the negotiations, it is dealing with domestic legislation. Parallel to Brexit negotiations, the UK needs to adjust domestic legislation to ensure that it reflects the withdrawal agreement's rights and obligations.

- The Repeal Bill (the European Withdrawal Bill) will:
  - o repeal the European Communities Act 1972 which currently provides legal authority for EU law to have effect as national law in the UK;
  - o convert existing EU law into domestic law; and

- o give ministers powers to make secondary legislation.
- Customs Bill will:
  - o legislate for the UK's departure of the EU and the EU Customs Union; and
  - o allow the government to create a standalone customs regime and amend the VAT and excise regimes.
- Trade Bill will:
  - o create powers to assist in transition of existing trade agreements;
  - o establish the Trade Remedies Authority to defend UK businesses; and
  - o enable UK to become a member of the Agreement on Government Procurement.

### 2.2.3 WELFARE REFORMS AND INTRODUCTION OF UNIVERSAL CREDIT (UC)

In May 2016 the Universal Credit full service began to roll out nationally and was rolled out in Southampton in February 2017. Rollout of the Universal Credit full service is due to complete in December 2018. After the rollout process has completed, DWP will then begin moving all remaining existing benefit claimants to the Universal Credit full service starting in 2019. Once Universal Credit is fully implemented, Local

Authorities will be asked to provide 3 main services, mainly to the most vulnerable claimants who have complex support needs. These are:

- Supported on-line access, where claimants need one-to-one support to access the UC claimant portal on gov.uk website or to complete the UC on-line application or both;
- Personal Budgeting Support, where the UC claimant needs support to manage financial affairs on a monthly basis; and
- Support for the UC Service Centre for administering the housing element of UC. This includes queries about Housing Benefit and the more complex housing issues that may arise.

'Universal Services – Delivered Locally' will provide the 'partnership framework agreement' for this. Although there have been a range of pilots and projects linked to Universal Credit, it is difficult to predict the direct and indirect impacts locally at this time. However, as part of the HRA forecast position for 2017/18 an assumption has been made that there is a need to provide additional bad debt provision to mitigate the impact of these changes.

The withdrawal of Central Government funding for Local Welfare Provision will also have an impact on the support the Council and other key services in the city can provide for individuals and household in crisis and for crisis prevention.

## SECTION 2. Horizon scanning

There is an ongoing timetable of national welfare reforms affecting both in-work and out-of-work claimants. From November 2016, the Government further reduced the Benefit Cap from £500 to £385 a week for couples (with or without children) and single parents with dependent children – and from £350 to £258 a week for a single adult (different rates apply in the Greater London area).

Further changes made from April 2017 included:

- Tax Credits: Support for children through Tax Credits and Universal Credit is limited to two children from April 2017. People starting a family after April 2017 are no longer eligible for the Family Element in tax credits. The equivalent in Universal Credit, known as the first child premium, will also not be available for new claims;
- Employment Support Allowance: New ESA claimants who are placed in the Work-Related Activity Group will receive the same rate of payment as those claiming Jobseeker's Allowance and the equivalent in Universal Credit;
- Universal Credit (Youth Obligation): 18-21 year olds who are on Universal Credit have to either apply for training/ apprenticeships or attend a work placement from six month after the start of their claim, apart from certain exempt groups (those considered to be vulnerable); and

- Universal Credit (Housing Support): Reform to housing and housing support proposed- including removing the entitlement to housing support in Universal Credit for those aged 21 or under.

As part of the 2017 Budget the Chancellor of the Exchequer outlined some changes for Universal Credit including:

- From February 2018 the seven-day waiting period for new claimants has been removed;
- From January 2018 the amount a new claimant can receive from their estimated entitlement increased from 50% to 100%;
- From April 2018, claimants who were previously receiving Housing Benefit will receive a transitional payment of an extra two weeks support; and
- From April 2018 any new claims for UC from claimants in temporary accommodation will have their housing costs met through Housing Benefit. Existing temporary accommodation claimants on UC will also move to Housing Benefit.

### 2.2.4 BETTER CARE FUND

The Better Care Fund commenced 1st April 2015 and is framed within a formal contract with Southampton City Clinical Commissioning Group (SCCCG) for a pooled budget under Section 75 of the National Health Service Act 2006. The purpose of the Fund is to ensure closer integration between health and social care services.

The Southampton Better Care Fund pools funding for a significantly greater number of services than the minimum required which is consistent with the ambition locally to integrate and pool resources at a scale to significantly transform its health and care services.

In 2018/19 the combined Better Care Fund budget is £108.5M and is broken down in Table 4.

## SECTION 2. Horizon scanning

**TABLE 4 BETTER CARE FUND (not including Improved Better Care Fund)**

<b>OVERALL TOTAL</b>	<b>70.72</b>	<b>37.76</b>	<b>108.48</b>

The Southampton Better Care Plan has identified key areas where greater integration between Health and Social Care will make system wide efficiencies that will benefit both organisations. For the Council these efficiencies have been included within the medium-term financial forecast.

In addition to the flexibility given to local authorities to raise Council Tax above the referendum threshold by a total of 8% by 2019/20, the Government has also provided £1.5 billion nationally for local authorities to spend on Adult Social Care by 2019-20. This is being given to local authorities in the form of a grant - Improved Better Care Fund. Taken together, these two measures are estimated to provide £3.5bn nationally by 2019/20 to address the demographic pressures facing the Social Care system. Table 5 sets out the position for Southampton and the proposed use of this funding.

## SECTION 2. Horizon scanning

### 2.2.5 FORTHCOMING PARLIAMENTARY BILLS

There are a number of parliamentary bills in the pipeline which are likely to have an impact on local government finances. Whilst the full impact at this point is unclear, it is worth highlighting that the following bills are currently progressing through Parliament:

- Local Authorities (Removal of Council Tax Restrictions) Bill;
- Local Authorities (Borrowing and Investment) Bill;
- Local Government Finance Bill; and
- School Holidays (Meals and Activities) Bill.

There are also a number of policy commitments made by the Government that could impact local government, these include:

Social Care - the green paper has been delayed and is now expected summer 2018, it is expected to cover care and support for older people and a parallel programme of work for working age recipients of social care packages.

- Industrial Strategy;
- Housing - the Chancellor made several announcements in the Autumn 2017 Budget including increasing the number of new homes built annually by 300,000 by the middle of the next decade;
- Devolution deals; and
- European Union (Withdrawal) Bill.

## SECTION 2. Horizon scanning

### 2.3 Socio- Economic Factors

#### CHILDREN LOOKED AFTER

From 2010 to 2015, the rates of referrals of children and young people to Children's Social Services continued to increase year on year. However, as can be seen from the table below, from 2015 to 2017, there has been a decrease in the rate per 10,000 (0-17) children from 1,318.8 in 2015 to 610.0 in 2017. These rates are still higher than national averages (548.3 in 2015 and 548.2 in 2017).

#### Rates of Referrals per 10,000 (0-17) Children

Year	Southampton CC	National Averages
2015	1318.8	548.3
2017	610.0	548.2

Over the period from 2010 to 2016, the rate of Children Looked After (per 10,000 children aged under 18) increased by 42.9% in Southampton compared to a 5.3% increase nationally (England average). However, from 2016 to 2017, there has now been a decrease of 10% in Southampton's rate of children looked after per 10,000 aged under 18 at 108.0. It is still higher than the national average, which in 2017 was 62.0 (3% increase from the previous year, and a 9% increase from 2010).

In the year ending March 2017, the council carried out 238.3 Section 47 Child Protection investigations for every 10,000 children compared with 142.3 per 10,000 nationally and the city had 92.2 children subject to an

initial child protection conference compared with 64.4 per 10,000 nationally.

These high rates of referrals, children looked after and child protection investigations in Southampton reflect the level of need in the city. To ensure that children's needs are met at the earliest stage, a children's services transformation programme is underway.

With regard to Looked After Children (LAC) numbers, from April to November 2017, the average monthly number of children looked after in the city has been 526, when over 2016/17, the figure was 593 on average. The number has, since December 2016, remained under 600, and whilst this is good news plans to meet the LAC reduction trajectory are in place to ensure the associated savings targets are met. The percentage of fostering placements made with independent fostering agencies, (IFA) from April to November 2017 is approx. 26.8% (average). The cost of an IFA is, on average two to three times more expensive than an internal placement. This has created and continues to create a significant pressure on the Children Services budget.

We are continuing to review our contracts with IFAs to negotiate cost reductions as well as also increasing the numbers of 'in-house' foster carers through targeted recruitment, providing more options for in-house placements where appropriate.

The medium term financial forecast incorporates the impact of a reduction in cost of the number of looked after children over the next three years. For the period 2016/17 to 2019/20 the planned trajectory of fostering placement numbers is shown in the Table 6 below.

**TABLE 6 LAC TRAJECTORY 2016/17 TO 2019/20**

Placement/ Allowance Type	April 2017	April 2018	April 2019	April 2020
In-house Fostering	298	302	306	309
IFA	172	122	76	17
Residential	23	19	15	12
New Independent Living Provision	10	13	15	15
Inter-Agency (adoption)	48	46	36	26
Unaccompanied Asylum Seeking Children	4	4	4	4
Living with Parents	32	9	8	7
<b>Total</b>	<b>587</b>	<b>515</b>	<b>460</b>	<b>390</b>

## SECTION 2. Horizon scanning

### 2.4 Physical-environmental factors

#### HOUSING

In Southampton 25% of residents live in privately rented accommodation, which is higher than the average for comparator cities at 18% and the England average of 17%. There are around 7,000 Houses of Multiple Occupation (HMOs) in the city. Nearly a quarter of all homes are in the social rented sector with 16,500 managed by the Council with 8,000 households on its housing waiting list. The Council has a responsibility to ensure that its own properties meet minimum decency standards. In April 2017, the Council reported that just under 8% of stock was non-decent as a result of the aging profile and the deteriorating condition of components. The Council recognises that the number of new affordable homes available needs to be increased, and the Executive has made a commitment to build 365 new homes per year.

### 2.5 Wider Partnership Working

#### 2.5.1 COMMUNITY BUDGETING

Southampton has trialled a Community Budgeting approach across skills, employment and criminal justice agencies to meet defined collective outcomes on a 'Performance by Results' (PBR) basis, and the mechanism is still in place to respond to

opportunities. The City Deal employment programmes will also be delivered through this route, and recent commissioning of Not in Education, Employment or Training (NEET) support through transfer of grants to commissioning is also funded by PBR. There is an opportunity to further develop Community Budgets in relation to joint strategic objectives, but this would require a human resource to identify priorities, funds and processes.

#### 2.5.2 SOCIAL IMPACT BONDS

As part of The Big Lottery, funding can be secured for projects to improve service provision. One of these approaches is provision of services via a Social Impact Bond (SIB). A SIB involves an investor giving funding to a provider for a services with payment by the local authority being made when successful, normally through a preferred option of payments by results.

The benefit of this is that revenue savings can be achieved for the local authority and the investor looks to receive a 6%-8% return on their investment. If a successful bid is made to the Big Lottery they can provide up to 15% of the total cost of a SIB scheme.

The Council does not currently have any SIB schemes in place, however it will continue to explore areas where they may prove beneficial.

#### 2.5.3 ONE PUBLIC ESTATE

Southampton has been involved in the One Public Estate programme that looks to reduce accommodation costs through joint work with other public sector partners. This includes a coordinated redevelopment project involving two health sites, which will achieve considerable estate rationalisation with the opportunity for reduced running costs and land release.

## SECTION 3. The financial challenge

### 3.1 Forecast Financial Position 2017/18 – 2021/22

The Council's current forecast financial position is detailed below and includes the implications of the LGFS, implementation of the transformation agenda, and will be reviewed each year of budget setting to reflect any new pressures and any revision to the Council Strategy.

Where possible factors described in the preceding sections have been built into the financial modelling to ascertain the forecast financial position. The graph below demonstrates the funding gap to 2021/22 as reported to Council in February 2018.

Table 7 below shows the current summary position, with the detail being included in Annex 1.

This shows the Council is required to make £10.94M savings over the period to 2021/22.

Revenue position

**TABLE 7 SUMMARY OF SAVINGS REQUIREMENTS**

	2017/18 £M	2018/19 £M	2019/20 £M	2020/21 £M	2021/22 £M

Baseline Funding	(178.9)	(180.9)	(178.3)	(182.1)	(185.4)
<b>SAVINGS REQUIREMENT</b>	<b>0.0</b>	<b>0.0</b>	<b>6.9</b>	<b>14.1</b>	<b>10.9</b>

## SECTION 3. The financial challenge

### 3.2 Pressures

Table 8 summarises the pressures that have been included in the medium term financial forecast in annex 1. These have arisen from the issues described in the preceding sections as well as pressures that have been identified via the individual service areas through regular financial monitoring and budget setting.

**TABLE 8 SUMMARY OF PRESSURES**

Outcome	2018/19 £M	2019/20 £M	2020/21 £M	2021/22 £M
Southampton is a city with Strong Sustainable Growth	1.17	1.17	0.67	0.67

Southampton is an attractive and modern city, where people are proud to live and work	0.75	-0.20	0.00	0.00
<b>TOTAL PRESSURES</b>	<b>10.07</b>	<b>7.16</b>	<b>7.74</b>	<b>7.84</b>

### 3.3 New Initiatives & Investments

As well as experiencing pressures the Council have also identified a number of new initiatives that it wishes to undertake to help stimulate the economy as shown in Table 9. The revenue and capital implications have been included in the medium term financial forecast in annex 1.

**TABLE 9 NEW INITIATIVES**

Outcome	2018/19 £M	2019/20 £M	2020/21 £M	2021/22 £M
Southampton is a city with Strong Sustainable Growth	1.10	1.10	1.10	1.10

Southampton is an attractive modern city where people are proud to live and work	1.12	0.76	0.76	0.76
A Modern Sustainable Council	1.42	0.22	0.22	0.22
<b>TOTAL</b>	<b>3.64</b>	<b>2.08</b>	<b>2.08</b>	<b>2.08</b>

### 3.4 Income Generation

The Council's approach regarding income generation is to maximise opportunities where possible and income generation forms a key strand of the Council's Commercialisation Strategy. Income generation targets form part of the overall savings programme to reduce the Council's budget gap. Once proposals are more certain the income generation assumptions contained within the Medium Term Financial Model will be revised.

The Council will set up a Local Authority Trading Company (LATCo) during 2018/19 which will play a pivotal role in progressing the commercialisation agenda.

### 3.5 Key Financial Commitments

The Council has in previous years entered into a number of strategic contracts which have resulted in ongoing financial commitments. Whilst these contracts can be monitored and performance managed to ensure they deliver value for money, it can be lengthy and more difficult to renegotiate these contracts to reduce expenditure.

The current commitments are:

#### A) PFI Schools

A PFI contract was approved by the Government to significantly improve the quality of the buildings in three of the City's secondary schools and to provide additional places in two of them.

## SECTION 3. The financial challenge

The contract with Pyramid Schools (Southampton) Ltd started on the 29 October 2001 and will terminate on 31 August 2031. The annual fee (Unitary Charge) is £6.54M supported by an income stream (PFI credits from Government) of £3.86M.

The Department for Education (DfE) have supported the Council in reviewing the PFI contracts with the aim of driving out savings. The Council is working with the three schools, Pyramid and their sub-contractor, Interserve, to identify opportunities to reduce the variable costs of the PFI. Savings have already been made by 'mothballing' unused classroom facilities and a further proposal to switch to the direct payment of utilities costs is currently being reviewed.

A further series of options is currently being reviewed to explore opportunities to further reduce revenue costs including:

- Relaxing hand-back conditions;
- Removing Soft Services;
- Lifecycle;
- Refinancing;
- Change in Law; and
- Insurance.

### B) Hampshire Waste Contract

In 1996 the Council entered into a tri-partite arrangement with Hampshire County Council

and Portsmouth City Council, in respect of Waste Management Services from Veolia Environmental Services. The contract involved the building and running of three Energy Recovery Facilities, two Material Recycling Facilities and the provision of waste management services. The original contract was for a 25 year period until 2025, but it has recently been extended to 2030. The Council is delivering savings in the contract, which is due to the agreed contract extension. The annual cost to the council from 2015/16 is approximately £7.9M per annum.

### C) BUPA Care Homes (Northlands, and Oak Lodge Nursing Homes) Public Private Partnership

The Council has agreed to lease the land, on which the nursing homes have been built, to BUPA for an annual £1 peppercorn rent for 50 years, and has block contracts for 25 years, Northlands until July 2030, and Oak Lodge until 2035.

### D) Strategic Services Partnership (SSP)

The Council has outsourced Customer Services, Local Taxation and Benefits, Procurement, Information Technology, Printing, Health and Safety and Human Resources operations to Capita via the SSP, which commenced on 1 October 2007. The SSP is scheduled to run until 30 September 2022, following an exercise in December 2013 of an option to extend it by five years.

The contract was been reset during 2016/17 to drive out further efficiencies and financial savings to the Council. The cost to the Council in 2017/18 is £16.8M circa for the core fixed contract charges.

### E) Highways Service Partnership (HSP)

The HSP with Balfour Beatty Living Places Ltd. commenced on 4 October 2010 and has recently been extended to run until 3 October 2025 following approval by the council's Cabinet in June 2017 of a package of savings and changes to the contract. The services covered include highway maintenance, scheme delivery, network management, winter gritting and asset management.

The annual Lump Sum is £2.5M. Current capital and miscellaneous variable spend through the contract is around £10M p.a.

### F) City Watch

The City Watch contract commenced on 1 October 2012 and has recently been extended to run until 3 October 2025 following approval by the council's Cabinet in June 2017. The services provided include public safety CCTV cameras and their monitoring, Intelligent Traffic Systems, asset management, Housing Concierge and asset investment and routine repairs.

The annual Lump sum payment for the services is £1.2M.

## SECTION 3. The financial challenge

### G) Street Lighting PFI

The Street Lighting PFI was designed to support significant investment in the city's street lighting estate during its first five years of 'Core Investment'. The Government awarded the Council £28M of PFI Credits to replace approximately 16,500 lighting columns and convert 10,250 lanterns to create new energy efficient lighting, white light output and install Remote Monitoring and Central Management Systems. The contract commenced on 1 April 2010 and is for a duration of 25 years. The Service Provider is Tay Valley Lighting (Southampton) Ltd who sub contract day-to-day management and operations to SSE. The annual 'Unitary Charge' is currently £4.0M. Energy costs associated with the contract are £0.7M.

### H) Leisure Services

Sports and recreation services are outsourced to Places for People who sub contract operational and day-to-day management to Active Nation. The contract commenced on 1 September 2010 and the term is fifteen years. There is a three year extension option built into the contract. The scope of the contract covers the management of leisure facilities including Bitterne Leisure Centre, The Quays, Chamberlayne Leisure Centre, Woodmill, Southampton Water Activities Centre, the Outdoor Sports Centre, Ski Centre and seven outlying sports pitches.

The contract includes provision for the Provider to invest £4.5M of capital expenditure over the contract term through a lifecycle budget. The current annual expenditure for the Management Fee is £1.3M.

### I) Southampton Guildhall

The Council entered into a contract on 10 February 2003 with Live Nation to manage Southampton Guildhall. The initial term was ten years, extendible by agreement to twenty five years i.e. until 2028. The Council elected to extend the contract in 2013 for the further ten years and retained the option to extend by a further five years. The net cost of the contract is £0.3M p.a. which consists of a management fee or subsidy of £0.5M less service and energy charges

The assumptions made around Council Tax and NDR are reflected initially in the Collection Fund Account, which is a statutory account that records the collection and distribution of taxation.

The forecast position for Southampton City Council's share of the Collection Fund, utilising the Key Assumptions is shown in Table 10 below.

### 3.7 Housing Revenue Account

The national self-financing regime for the Housing Revenue Account (HRA) was introduced in April 2012. A 30 year HRA Business Plan, covering both capital and revenue expenditure projections, has been prepared using the planning principles agreed by Council in November 2011 and amended by subsequent budget reports.

The main points to note are:

- All HRA debt can be repaid over the 30 year life of the Plan.
- The capital spending plans include provision to maintain and improve all existing dwellings and feature an increase in the level of planned expenditure in the early years.

### 3.6 Collection Fund

The assumptions made around Council Tax and NDR are reflected initially in the Collection Fund Account, which is a statutory account that records the collection and distribution of taxation.

**TABLE 10 COLLECTION FUND ASSUMPTIONS**

	2018/19 £M	2019/20 £M	2020/21 £M	2021/22 £M
<b>Council Tax - General Precept</b>	88.94	91.43	93.39	95.39
<b>Council Tax - Adult Social Care Precept</b>	6.99	7.04	7.04	7.04
<b>Business Rates</b>	99.21	54.69	57.15	58.33

\*It should be noted that 2018/19 is a 100% business rate retention pool pilot year.

## SECTION 3. The financial challenge

- This investment can be achieved within the Government's borrowing limit of £199.6M, also known as the 'debt cap'. Additionally, a reserve of at least £6M borrowing headroom is retained throughout. In the Autumn Budget 2017 the Government announced plans to lift debt caps to allow councils to build more homes in areas of high affordability pressure (see section 1.4.13 for further details).
- A provision of £93M is set aside for stock replacement, which will support the renewal of any of the existing dwellings that may be required over the next 30 years. This provision has been phased between year 7 and year 30 of the Plan.
- The revenue budget meets the minimum balances of £2M over the life of the Plan.

The HRA Business Plan has consistently shown revenue balances that increase above minimum levels within the 30 year period. This remains the case, although in the proposed updated plan for 2016/17 onwards the year 30 projected revenue balance will be reduced to £3.1M. The surpluses are liable to change annually, either favourably or not, and will reflect the annual review of stock investment needs and estimated unit rates. The predicted revenue surpluses do however begin to significantly exceed minimum levels in 2035/36, rather than 2022/23 in the previous plan. This is linked to the additional fire safety works of £14.9M required as a consequence of the Grenfell

Tower disaster which have increased the cost of the capital programme.

The Welfare Reform & Work Bill 2015 - 16 imposed a 1% per annum reduction in rents charged to tenants for a 4 year period from 2016 to 2020. Savings proposals were agreed by Council in Feb 2016 to close the gap in 2016/17 and 2017/18. However, for 2018/19, there is a budget gap of £3.94M and increasing to £7.84M (a further £4.13M) in 2019/20. A budget savings proposal was put to Cabinet for approval in February 2018 to take effect for the 2018/19 financial year.

There is currently a Government consultation on the funding for supported housing from 2019/20 onwards. The results of this will need to be reflected in the future HRA Business Plans. A response to the consultation is currently being carried out by SCC officers.

### 3.8 Capital

Planned Capital Expenditure and the associated financing is detailed within the Capital Programme report for approval by Council in February 2018. The impact of revenue saving proposals for 2018/19 and future years along with the Executive Commitments on the Capital Programme have been considered by the Council's Capital Board and have been integrated into the proposed Capital Programme for 2018/19 to 2021/22. The proposed Programme includes £194.4M for the General Fund and £216.9M for the HRA. The General Fund Capital Programme includes the

following major commitments:

- £67.4M for the secondary schools expansion programme;
- £8.0M for road improvements; and
- £2.0M for investment in phases 2 and 3 of the Digital Strategy.

Consideration has also been given to the most appropriate use of Capital Resources in supporting the programme and meeting the Executive Commitments and the desired Outcomes for the City. All the revenue implications of the capital projects are built into both the General Fund Estimates and Housing Revenue Account Business Plan.

### 3.9 General Fund Balance

In accordance with the best practice guidance issued by CIPFA, the minimum level of General Fund balances is reviewed and risk assessed on an annual basis.

The Service Director Finance & Commercialisation recommends that the minimum level of the General Fund Balances should be £11.3M. This is derived by taking a risk-based approach to assessing the overall General Fund Revenue Account, including reviewing income volatility, interest rate exposure, new contracts, potential overspends in demand led areas such as social care and safeguarding for both adults and children and any other potential issues which may need to be taken into consideration.

## SECTION 3. The financial challenge

Balances should only be used to fund one-off revenue expenditure; any one-off draw from balances should be prudent, and subject to agreement by the Chief Financial Officer. Annex 1 details the expected level of General Fund Balance going forward after contributions have been made to fund the capital programme and to support the revenue programme. The balance is forecast to be £11.3M at the end of 2017/18.

### 3.10 Earmarked Reserves

As well as maintaining a risk based General Fund balance the Council can also set aside Earmarked Reserves (for these purposes earmarked reserves excludes school balances) for specific items.

The financial risks facing the Council in the medium term are assessed within the MTFS. This includes assessing the risk of continuing reductions in Central Government funding; the subsequent budget shortfalls that the Council then faces and overall local and national economic factors which can affect the financial stability of the Council.

In light of the increasing level of risk and uncertainty identified within the MTFS and the increased probability of resources being required to support its delivery, a full review of useable reserves and provisions has been undertaken. Each year as part of closing the accounts a view is taken on maintaining and strengthening, where necessary, those reserves specifically earmarked to support the

highest areas of risk resulting in the rationalisation of reserves and provisions where possible and in some cases additional funding being set aside. The most significant risk reserves are listed below:

#### Medium Term Financial Risk Reserve

Following on from the compilation of the Council's MTFS, and the identification of the risks that are currently in the funding system, demand pressures and the potential for savings to be delayed as the Council goes through a period of major change, monies have been set aside to mitigate these risks on a non-recurrent basis.

#### Taxation Reserve

Due to the volatile nature of business rates, the possible recession in 2019/20, the intended move to 100% Business Rate Retention (originally assumed from 2019/20 but now 2020/21), and the unknown consequences of Brexit, monies have been set aside to mitigate against any loss of income from both this and council tax, to enable a smoothing of the impact should the anticipated level of income not be achieved.

#### Capital Funding Risk Reserve

The Council now has a number of options available for the use of capital receipts to meet the cost of both revenue and capital projects. Monies have been put aside to meet the potential shortfall in or timing of receipt of capital funding to mitigate the impact on the general fund revenue account.

#### Transformation Reserve

To ensure the Council can continue to transform and innovate in order to reduce costs whilst improving outcomes, a reserve is set aside to pump prime this transformation. This reserve is currently earmarked to support the Digitalisation Programme, including the introduction of an Enterprise Resource Planning System.

#### Organisational Design Reserve

The reserve holds monies to meet the financial cost of redundancies as a result of organisation design changes for the period of the MTFS.

Bearing in mind the current pressures detailed in the report it is recommended that should any underspends or additional monies become available during each financial year they are applied to the key risk reserves identified in paragraph 3.10 in the order listed.

A further review of reserves and balances will be undertaken each year as part of the budget setting and final accounts process to ensure the council has adequate resources to cover uncertainty and risk.

### 3.11 Efficiency Plan

As part of the Local Government Finance Settlement announced in December 2015 the Government gave local authorities the offer of a 4 year settlement and additional flexibility regarding the use of capital receipts, providing the Council publish an Efficiency Plan.

## SECTION 3. The financial challenge

Full Council gave approval to the Efficiency Plan and to accept the 4 year funding settlement at its meeting in September 2016. The MHCLG was informed of the acceptance of this offer on the 14th October 2016. It should be noted that this is a minimum funding guarantee.

The full efficiency plan is contained in Annex 2 of this strategy. However the Efficiency Strategy is included within the next section.

### 3.11.1 EFFICIENCY STRATEGY

Considering the continued financial challenge facing the Council there has been an increased need for fundamental, transformational change across the organisation, in both the services it delivers and how it delivers them. This programme has in part been achieved with elements, such as digitalisation and commercialisation, currently in the early stages of progress. These are the main drivers to ensuring the council has a balanced and sustainable set of services.

The Efficiency Strategy can be seen as a number of streams:

#### Operating Model

A new operating model has been introduced and included the implementation of a new organisation structure to support outcome based budgeting and reduce budget envelopes. This was achieved by

reducing the top layers of the Council so the Council's structure reflects a smaller number of management layers with broader spans of control. The Council is, in the main, a people driven organisation, with a large proportion of our expenditure is linked to staff costs. As such, the restructuring in support of the new operating model extended beyond the management tiers mentioned above. Further phases of staff consultation and restructures have been and are being undertaken and implemented linked to the Outcome Based Planning & Budgeting process to identify level and needs for services and support.

#### Digital

A fundamental review of the Council's use of technology, with the objective of positioning this not merely as an essential tool for the delivery of services, but rather an intrinsic part of the Council's future 'DNA'. The Council aims for its customers to have an increased and better ability to self-serve, online, at a time that suits them, while ensuring that the requisite support is available for customers who do not have the skills or means to interact with us digitally. The 'Digital' programme comprises two elements. The first focused on 'digitising' high volume, high cost services in order to drive efficiencies through the automation of process and enhanced levels of integrated workflow solutions. The second element will build on this fundamental step to position the Council as a 'digital' organisation by facilitating better integration of services across

departments, ensuring better and more seamless customer journeys. These initiatives will enable the Council to operate a leaner structure, whilst also delivering savings in third party spend (with contractors and suppliers) and assets (such as property and office accommodation). These will be through enabled reductions in facility requirements, customer contact structures, consolidation of back office and corporate service functions and retirement of old IT legacy. This is currently being progressed through the implementation of an Enterprise Resource Planning System.

#### Service Excellence & Prioritisation

A Service Excellence review has enabled an 'organisational development' programme that looks to address the need for efficiencies through the deployment of performance management and improvement processes aimed at freeing up staffing capacity as well as addressing service standards, through a planned and better focus on service objective setting, KPI management and measurement, workflow, and agile team based working.

#### HR policies and procedures

Various efficiency improvement initiatives relating to staffing considerations, including vacancy management, the management of temporary and agency staff, sickness and absence management, and exit process.

## SECTION 3. The financial challenge

### Procurement & Contract Management

A review of the Council's expenditure on third party service provision, including the re-procurement of services to secure better market rates, as well as a more fundamental look and consideration of the actual need for future services and the introduction of measures that can help suppress demand in the first place. As part of this workstream, negotiations are ongoing with the Council's strategic service delivery partners to deliver further contract efficiencies and savings.

### Commercialisation

A Commercialisation Strategy has been developed and is in the process of being implemented to ensure that there is a co-ordinated, focused approach to maximise commercial opportunities where available, providing a positive contribution to the Council's overall financial sustainability whilst enhancing the reputation of the Council in the provision of its services.

The Commercialisation strategy is intended to be an overarching strategy that aims to support the provision of high to medium quality services at a competitive price, but in most instances the price needs to cover the total cost of providing the service. The Council will provide the right services, to the right markets, at the right time and at the right price. It is also recognised that in some areas a valid commercialisation strategy will be to retreat from provision.

The strategy is to ensure where possible that the Council is maximising profit either through increasing use of profitable services delivered and/or minimising costs at the same time as utilising the council's brand and enhancing its reputation leading to sustainable growth.

The use of a Local Authority Trading Company will play an essential role in achieving this strategy.

### Council Companies & Partnership Arrangements

As part of the review of the partnership arrangement with the Councils strategic partner Capita, a new company has been set up to provide the majority of services delivered previously by Capita as part of a fixed charging mechanism. The purpose of this is to provide greater transparency of costs and benefits to the Council for the services received.

The new company was incorporated on 31st May 2016 and became operational on 1st October 2016. Southampton City Council holds 20% of the equity shares in the company;

Additionally, Southampton City Council on the 15th of September 2014 entered into a limited liability partnership with PSP Facilitating Limited and PSP Southampton LLP for a minimum period of 10 years. The aims and aspirations of the Partnership are as follows:

- Overall to be a facilitating organisation and development partner for the Council enabling it to better realise the efficient management of its assets by unlocking value and reducing liabilities in

relation to the Council's operation properties and investment properties;

- To undertake specific regeneration opportunities by entering into land transactions that achieve the success Criteria in a way that maximises the commercial benefits of the Sites;
- To act as a facilitating organisation giving the Council choice as to how it pursues its asset management plans; and
- To assist in achieving broader social, economic and environmental outcomes.

A partnership sharing agreement is drawn up for each specific opportunity that developed through the LLP and will be dependent on the nature of the activity to be undertaken.

Further, the Council is currently reviewing options to set up further companies as required to support large scale development opportunities working in collaboration with funding partners. In particular to support the affordable housing programme.

### Prevention and Early Intervention Approach

The Council has also embarked on a programme of reshaping its resources to invest in prevention and early intervention to achieve better outcomes for residents and reduce costs in the longer term. The first areas of focus are social care services for children and adults.

## SECTION 3. The financial challenge

### 3.12 Outcomes Based Planning and Budgeting

The Council introduced a focused approach on Outcomes Based Planning and Budgeting in 2017/18 which looks at utilising decreasing resources towards agreed priorities and outcomes. Work will continue to further implement this process.

The Council has reviewed its current expenditure on an outcomes basis and from this baseline point has now determined what the appropriate level of spend needs to be to deliver on its agreed priorities, within the financial envelope available.

Implementing an outcome based budgeting approach is not a quick process. Whilst work has progressed, this will continue in 2018/19 to further refine the process.

### 3.13 Addressing the Budget Gap

The Council has a current budget gap of £7.4M up to the end of 2021/22. The approach to addressing this gap can be seen within a number of work programmes;

- Business as usual monitoring and budget reviews throughout the year;
- Progressing the Service Transformation Programmes providing regular updates to members;
- The implementation of outcome based budgeting to clearly link business planning and budgeting and focus on service outcomes;
- The progression of the Council's digitalisation agenda; and
- The implementation of the Commercialisation Strategy.

### 3.14 Managing Budgets and Forecasting

In setting the annual budget and the MTFS the Council will ensure potential risks are assessed and managed so that their impact is minimised or accounted for either via Contingencies, Balances or Earmarked Reserves as is necessary.

In year, the Council will monitor its revenue and capital budgets (including the HRA) on a monthly basis and report to Cabinet on a quarterly basis.

### Accountability and Responsibility

Whilst the responsibility lies with the Service Director for Finance & Commercialisation for reporting to Cabinet the financial position, the responsibility and accountability for the financial position of the services lies with the budget holder.

All budget holders are responsible for ensuring external income is maximised for their service and for seeking out new opportunities to generate income.

If the budget holder cannot resolve issues within their own service area budgets these should be dealt with by Service Directors and Chief Officers.

Where pressures are identified action plans are required to be agreed and implemented in year which look to address in year pressures and identify ongoing pressures that may need to be addressed as part of setting the budgets over the medium term. A series of 'intensive care' meetings have been established to allow the Senior Leadership Team the opportunity to ensure action plans are robust and being delivered.

### Finance Business Partnering

The Finance Service restructured in July 2017. One of the aims of the restructure is to implement a Finance Business Partnering Service in order to support Service Directors and Managers in the financial management of their services.

## SECTION 3. The financial challenge

This service provision is currently being implemented as is expected to be substantially implemented from April 2018.

The main focus of the Finance Business partner in supporting services is to:

- Look at a specific business problem and propose solutions based on research and insight;
- Perform and analyse benchmarking against other areas and services to drive business decision making;
- Work with business intelligence to understand activity and cost drivers;
- Support services to look at the totality of investment against objectives;
- Support services to focus on being sustainable;
- Support services in developing business cases;
- Work to better understand, manipulate and extract better outcomes from contracts – improving deliverables and forward planning procurement exercises;
- Perform sensitivity analysis across whole systems to understand links between variables and support to make optimal interventions; and
- Support with project managing change through greater involvement in strategic decision making.

### 3.15 Governance Framework for Updating and Monitoring the Medium Term Financial Model

The Medium Term Financial model is a dynamic model and as such will be changing constantly. It is anticipated that this model will be updated on a quarterly basis via the Quarterly Financial Monitoring Reports. A major review will be undertaken each year following the announcement of the Council's settlement funding, when a review of the financial model and assumptions will need to be undertaken.

## Conclusion

This MTFS marks a significant change in the way the Council operates the financial processes and introduced a two year budget for 2017/18 & 2018/19 and has a strong focus on the medium term. The current forecast position is still very challenging.

The Council will have seen a significant reduction in its grant funding alongside increasing demand for services and funding reducing at an unprecedented rate. This has, however, given the opportunity for the Council to reshape how it currently operates and interact with its customers and to develop the Outcomes and Priorities for the Council in the provision of services to the City. Additionally, the opportunity to be part of a Business Rates Pilot for 100% Business Rate Retention affords the council some Insight into the funding opportunities in the medium term and the potential for additional growth funding to support the wider Solent Region.

## ANNEX 2. SOUTHAMPTON CITY COUNCIL Efficiency Plan 2018/19 to 2021/22

### Background

The Council's City Efficiency Plan for the period 2018/19 to 2021/22 incorporates the detail contained within the Medium Term Financial Strategy (MTFS) and its Capital Strategy. These are framed by the overarching City Vision and Council Strategy.

The four key outcomes for the Council are:

- Southampton is an attractive and modern city where people are proud to live and work;
- Children and Young People in Southampton get a good start in life;
- Southampton is a city with strong sustainable economic growth; and
- People in Southampton live safe, healthy independent lives.

The Council Strategy summaries these Outcomes and the priorities of the Council, how we expect to deliver the services that support those priorities, and who the Council will work in partnership with to deliver those services.

### Medium Term Financial Strategy

The MTFS focuses on determining the financial position for the period up to and including 2021/22 and takes into account major issues affecting the Council's finances, including international, national and regional economic influences as well as local factors and priorities. It identifies risks and looks to mitigate those risks through provisions within reserves and balances to ensure the council has adequate resources to cover the uncertainty and risk.

This MTFS forms part of the base assumptions for developing the overall budget, together with unavoidable service pressures agreed by the Cabinet and the Council's Management Team (CMT) that need to be taken into account in the overall budget deliberations.

The MTFS recognises the key role that financial resources play in the future delivery of services, and enabling the effective planning, management and delivery of those services. A sustainable MTFS is therefore key to the effective delivery of the Council's overall aims of achieving better outcomes for residents.

### Addressing the Budget Gap

The Council has a current budget gap of £11.1M up to the end of 2021/22. The approach to addressing this gap can be broadly seen within three work programmes;

- Business as usual monitoring and budget reviews throughout the year;
- Progressing the Service Transformation Programmes providing regular updates to members;
- The implementation of outcome based budgeting to clearly link business planning and budgeting and focus on service outcomes;
- The progression of the Council's digitalisation agenda; and
- The implementation of the Commercialisation Strategy.

### Efficiency Strategy

Considering the continued financial challenge facing the Council there has been an increased need for fundamental, transformational change across the organisation, in both the services it delivers and how it delivers them. This programme has in part been achieved with elements, such as digitalisation and commercialisation, currently in the early stages of progress.

## ANNEX 2. SOUTHAMPTON CITY COUNCIL Efficiency Plan 2018/19 to 2021/22

These are the main drivers to ensuring the council has a balanced and sustainable set of services.

The Efficiency Strategy can be seen as a number of streams:

### Operating Model

A new operating model has been introduced and included the implementation of a new organisation structure to support outcome based budgeting and reduce budget envelopes. This was achieved by reducing the top layers of the Council so the Council's structure reflects a smaller number of management layers with broader spans of control. The Council is, in the main, a people driven organisation, with a large proportion of our expenditure linked to staff costs. As such, the restructuring in support of the new operating model extended beyond the management tiers mentioned above. Further phases of staff consultation and restructures have been and are being undertaken and implemented linked to the Outcome Based Planning & Budgeting process to identify level and needs for services and support.

### Digital

A fundamental review of the Council's use of technology, with the objective of positioning this not merely as an essential tool for the delivery of services, but rather an intrinsic part of the Council's future 'DNA'. The Council aims for its customers

to have an increased and better ability to self-serve, online, at a time that suits them, while ensuring that the requisite support is available for customers who do not have the skills or means to interact with us digitally. The 'Digital' programme comprises two elements. The first focuses on 'digitising' high volume, high cost services in order to drive efficiencies through the automation of process and enhanced levels of integrated workflow solutions. The second element will build on this fundamental step to position the Council as a 'digital' organisation by facilitating better integration of services across departments, ensuring better and more seamless customer journeys. These initiatives will enable the Council to operate a leaner structure, whilst also delivering savings in third party spend (with contractors and suppliers) and assets (such as property and office accommodation). These will be through enabled reductions in facility requirements, customer contact structures, consolidation of back office and corporate service functions and retirement of old IT legacy. This is currently being progressed through the implementation of an Enterprise Resource Planning System.

### Service Excellence and Prioritisation

A Service Excellence review has enabled an 'organisational development' programme that looks to address the need for efficiencies through the deployment of performance management and improvement processes aimed at freeing up staffing capacity as well as addressing service standards,

through a planned and better focus on service objective setting, KPI management and measurement, workflow, and agile team based working.

### HR Policies and Procedures

Various efficiency improvement initiatives relating to staffing considerations, including vacancy management, the management of temporary and agency staff, sickness and absence management, and exit process.

### Procurement & Contract Management

A review of the Council's expenditure on third party service provision, including the re-procurement of services to secure better market rates, as well as a more fundamental look and consideration of the actual need for future services and the introduction of measures that can help suppress demand in the first place. As part of this workstream, negotiations are ongoing with the Council's strategic service delivery partners to deliver further contract efficiencies and savings.

### Commercialisation

A Commercialisation Strategy has been developed and is in the process of being implemented to ensure that there is a co-ordinated, focused approach to maximise commercial opportunities where available, providing a positive contribution to the Council's overall financial sustainability whilst enhancing the reputation of the Council in the provision of its services.

## ANNEX 2. SOUTHAMPTON CITY COUNCIL Efficiency Plan 2018/19 to 2021/22

The Commercialisation strategy is intended to be an overarching strategy that aims to support the provision of high to medium quality services at a competitive price, but in most instances the price needs to cover the total cost of providing the service. The Council will provide the right services, to the right markets, at the right time and at the right price. It is also recognised that in some areas a valid commercialisation strategy will be to retreat from provision.

The strategy is to ensure where possible that the Council is maximising profit either through increasing use of profitable services delivered and/or minimising costs at the same time as utilising the council's brand and enhancing its reputation leading to sustainable growth.

The use of a Local Authority Trading Company will play an essential role in achieving this strategy.

### **Council Companies & Partnership Arrangements**

As part of the review of the partnership arrangement with the Councils strategic partner Capita, a new company has been set up to provide the majority of services delivered previously by Capita as part of a fixed charging mechanism. The purpose of this is to provide greater transparency of costs and benefits to the Council for the services received. The new company was incorporated on 31st May 2016 and became operational on 1st October 2016.

Southampton City Council holds 20% of the equity shares in the company;

Additionally, Southampton City Council on the 15th of September 2014 entered into a limited liability partnership with PSP Facilitating Limited and PSP Southampton LLP for a minimum period of 10 years. The aims and aspirations of the Partnership are as follows:

- Overall to be a facilitating organisation and development partner for the Council enabling it to better realise the efficient management of its assets by unlocking value and reducing liabilities in relation to the Council's operation properties and investment properties;
- To undertake specific regeneration opportunities by entering into land transactions that achieve the success Criteria in a way that maximises the commercial benefits of the Sites;
- To act as a facilitating organisation giving the Council choice as to how it pursues its asset management plans; and
- To assist in achieving broader social, economic and environmental outcomes.

A partnership sharing agreement is drawn up for each specific opportunity that developed through the LLP and will be dependent on the nature of the activity to be undertaken.

Further, the Council is currently reviewing options to set up further companies as required to support large scale development opportunities working in collaboration with funding partners. In particular to support the affordable housing programme.

### **Prevention and Early Intervention Approach**

The Council has also embarked on a programme of reshaping its resources to invest in prevention and early intervention to achieve better outcomes for residents and reduce costs in the longer term. The first areas of focus are social care services for children and adults.

### **Outcomes Based Budgeting**

The Council introduced a focused approach on Outcomes Based Planning and Budgeting in 2017/18 which looks at utilising decreasing resources towards agreed priorities and outcomes. Work will continue to further implement this process.

The Council has reviewed its current expenditure on an outcomes basis and from this baseline point has now determined what the appropriate level of spend needs to be to deliver on its agreed priorities, within the financial envelope available.

Implementing an outcome based budgeting approach is not be a quick process, Whilst work has progressed, this will continue In 2018/19 to further refine the process.

## ANNEX 2. SOUTHAMPTON CITY COUNCIL Efficiency Plan 2018/19 to 2021/22

### Earmarked Reserves

As well as maintaining a risk based General Fund balance the Council can also set aside Earmarked Reserves (for these purposes earmarked reserves excludes school balances) for specific items.

The financial risks facing the Council in the medium term are assessed within the MTFS. This includes assessing the risk of continuing reductions in Central Government funding; the subsequent budget shortfalls that the Council then faces and overall local and national economic factors which can affect the financial stability of the Council.

In light of the increasing level of risk and uncertainty identified within the MTFS and the increased probability of resources being required to support its delivery, a full review of useable reserves and provisions has been undertaken. Each year as part of closing the accounts a view is taken on maintaining and strengthening, where necessary, those reserves specifically earmarked to support the highest areas of risk resulting in the rationalisation of reserves and provisions where possible and in some cases additional funding being set aside. The most significant risk reserves are listed below:

### Medium Term Financial Risk Reserve

Following on from the compilation of the Council's MTFS, and the identification of the risks that are currently in the funding system, demand pressures and the potential for savings to be delayed as the Council goes through a period of major change, monies have been set aside to mitigate these risks on a non-recurrent basis.

### Organisational Design Reserve

The reserve holds monies to meet the financial cost of redundancies as a result of organisation design changes for the period of the MTFS.

### Taxation Reserve

Due to the volatile nature of business rates, the possible recession in 2019/20 and the expected move to 100% Business Rate Retention from 2020/21, and the unknown consequences of Brexit, monies have been set to mitigate against any loss of income from both this and council tax, to enable a smoothing of the impact should the anticipated level of income not be achieved.

### Capital Funding Risk Reserve

The Council now has a number of options available for the use of capital receipts to meet the cost of both revenue and capital projects. Monies have been put aside to meet the potential shortfall in or timing of receipt of capital funding to mitigate the impact on the general fund revenue account.

### Transformation Reserve

To ensure the Council can continue to transform and innovate in order to reduce costs whilst improving outcomes, a reserve is set aside to pump prime this transformation. This reserve is currently earmarked to support the Digitalisation Programme, including the introduction of an Enterprise Resource Planning System.

### Organisational Design Reserve

The reserve holds monies to meet the financial cost of redundancies as a result of organisation design changes for the period of the MTFS.

Bearing in mind the current pressures detailed in the report, it is recommended that should any underspends or additional monies become available during each financial year they are applied to the key risk reserves in the order listed above.

A further review of reserves and balances will be undertaken each year as part of the budget setting and final accounts process to ensure the council has adequate resources to cover uncertainty and risk.

### **STATUTORY POWER TO UNDERTAKE PROPOSALS IN THE REPORT**

#### **1. INTRODUCTION**

It is important that Members are fully aware of the full legal implications of the entire budget and Council Tax making process, when they consider any aspect of setting the Council's Budget. Formal and full advice to all Members of the Council protects Members, both in their official and personal capacity, as well as the Council. If Members have received the appropriate professional legal and financial advice and act reasonably, generally the courts will not interfere in their decisions.

#### **2. GENERAL POSITION**

- a. The first and overriding legal duty on Members is their fiduciary duty to weigh the needs of service users against the interests of local taxpayers. In planning the budget, Members are under a fiduciary duty to act prudently, responsibly, in a businesslike manner and in their view of what constitutes the best interests of the general body of local taxpayers. In deciding upon expenditure, the Council must fairly hold a balance between recipients of the benefits of services provided by the Council and its local taxpayers. Members should note that their fiduciary duty includes consideration of future local taxpayers as well as present local taxpayers.
- b. There is a general requirement in administrative law that a local authority decision must be rational, authorised by law and must take account of all relevant considerations, whilst ignoring any irrelevant ones. It should also be noted that the concept of proportionality, given great emphasis in the Human Rights Act 1998, is also becoming a relevant factor for determining the reasonableness of any decision and should be borne in mind by Members.
- c. An authority commits an illegal act if it acts beyond or in abuse of its statutory powers or in breach of its fiduciary duty. It will also act illegally if it fails to take relevant considerations into account or acts in outrageous defiance of reason.

#### **3. OBLIGATION TO MAKE A COUNCIL TAX**

- a. The legal significance of the Annual Budget and setting a Council Tax derives from the Council's duty under the Local Government Finance Act 1992 (the 1992 Act) and Part 5 Chapter 1 of the Localism Act 2011 to set a balanced budget and Part 5 Chapter 1 of the Localism Act 2011. This is achieved by calculating the aggregate of:
  - i. the expenditure it estimates it will incur in the year in performing its functions in the year (including an allowance for contingencies),

- ii. the payments it estimates it will make in the year in defraying expenditure already incurred and
  - iii. expenditure it will incur in funding costs before a transfer of funds is made from the Collection Fund and then deducting such sums as will be paid into the General Fund, i.e. income. Calculations made under this section must be made before 11 March in the preceding financial year.
- b. In order to fulfil this duty, the Council must prepare detailed estimates of its expenditure for the coming year and of the resources that will be available to meet this expenditure. Account must be taken of any deficit brought forward from a previous year and the amount needed to cover contingencies. The resources include income from rents, fees and charges and any available balances. All of these issues must be addressed in the budget report. The estimation of the detailed resource and expenditure items is the main reason for the budget process. The budget must balance, i.e. proposed expenditure must be met from proposed income from all sources, with any shortfall being the precept on the Collection Fund.
- c. Failure to make a lawful Council Tax on or before 11 March could have serious financial results for the Council and make the Council vulnerable to an Order from the Courts requiring it to make a Council Tax.
- d. Section 151 of the Local Government Act 1972 places a general duty on local authorities to make arrangements for "the proper administration of their financial affairs".
- e. Information must be published and included in the Council Tax demand notice. The Secretary of State has made regulations, which require charging authorities to issue demand notices in a form and with contents prescribed by these regulations.
- f. There is also a duty under Section 65 of the 1992 Act to consult persons or bodies appearing to be representative of persons subject to non-domestic rates in each area about proposals for expenditure (including capital expenditure) for each financial year.

#### **4. DEFICIT BUDGETING**

- a. A deficit budget, one which does not cover all anticipated expenditure with resources reasonably expected to be available, is unlawful. Any Council Tax which rests on such a budget will be invalid. Councils are constrained to make a Council Tax before all the separate elements, which will constitute available resources or anticipated expenditure, have been identified and quantified fully. Best estimates have to be employed.
- b. Where these best estimates include sums for unallocated savings or unidentified expectations of income, extreme care must be taken to ensure

that the estimates are reasonable and realistic and do not reflect an unlawful intention to incur a deficit. It might be appropriate at budget setting time to require regular monitoring throughout the financial year of such estimated savings or income. Prompt action to reduce spending must be taken, if at any stage it seems likely that a balance between income and expenditure will not be achieved.

## **5. BORROWING**

The rules and regulations governing a local authority's ability to borrow money were altered significantly by the introduction of the Local Government and Housing Act 1989 and subsequent regulations. This has now been abolished and replaced by the self-regulating Prudential Code.

## **6. OTHER RELEVANT LEGISLATION**

- a. The Local Government Finance Act 1988 (the 1988 Act) created the (now repealed) Community Charge and the current National Non- Domestic Rating regime and deals with grants, funds, capital expenditure and the financial administration of a local authority.
- b. Under Section 114 (2) and 114 (3) of the 1988 Act, the Chief Financial Officer is required to make a report, if it appears to him/her that a decision or course of action the Council or an officer has agreed or is about to make is unlawful, or that expenditure is likely to exceed resources available.
- c. Members have a duty to determine whether they agree with the Chief Financial Officer's statutory report issued under Section 26 Local Government Act 2003. If Members were to disagree, they would need to set out cogent reasons for so doing. Unless such reasons could be set forward, Members' action in disagreeing with the Chief Financial Officer's views on the basis of his/her professional judgement would be likely to be held unreasonable and constitute wilful misconduct. It should be noted that under the Members' Code of Conduct, Members are required to take account of any advice issued by Chief Financial Officer (and the Monitoring Officer) acting in their statutory capacities.

## **7. BEST VALUE: LOCAL GOVERNMENT ACT 1999**

The Local Government Act 1999 (the 1999 Act) introduced a duty of Best Value, which came into force on 1st April 2000. Members need to be aware of and take account of the impact on the Council of this duty.

## **8. THE CONSTITUTIONAL POSITION: LOCAL GOVERNMENT ACT 2000 (THE 2000 ACT)**

- a. The 2000 Act has had a fundamental effect on the governance of the Council and in particular has resulted in a change to the working arrangements of Council, with the requirement for a Constitution setting out executive (Cabinet) and scrutiny and overview arrangements. The 2000 Act also provides a power for Councils to promote the economic, social and environmental well being of their areas and develop community strategies. In addition, the 2000 Act establishes an ethical framework.
- b. Of particular importance to the Council Tax setting process and Budget Meeting of the Full Council is the Council's Budget and Policy Framework Procedure Rules set out in Part 4 of the City Council's Constitution. These provide a legal framework for the decision making process whereby the Budget of the City Council is determined, and the Council Tax is set. In addition, Members need to be aware that these Rules provide a route whereby the Leader may require the Full Council to reconsider their position if they do not accept the Executive's recommended budget without amendment.
- c. In addition, the Constitution contains a range of further material relevant to the setting of the Council Tax and the Budget Setting meeting:
  - i. Article 12 contains guidance on decision making and the law.
  - ii. The Council Procedure Rules in Part 4 regulate the conduct of the Full Council meeting (although traditionally, some of the rules relating to the conduct of the debate are suspended to allow different arrangements during the budget debate).
  - iii. The Members' Code of Conduct must be followed by Members.
  - iv. The Officer/Member Protocol contains guidance both on pre-budget discussions, but also on how officers and Members should interact with specific guidance about budget preparation issues.

## **9. PERSONAL LIABILITY AND SURCHARGE**

The 2000 Act abolished the local government surcharge provisions and replaced them with a new statutory offence of 'misuse of public office'. This new statutory offence covers two situations, namely unlawfully incurring expenditure or incurring expenditure as a result of wilful misconduct. It also covers the exercise of a public function in a manner that involves dishonesty or oppression or malice. The Courts (rather than the District Auditor) would impose penalties. The Council could sue for losses/deficiencies sustained.

## **10. LEGAL STATUS OF POLITICAL PROMISES AND DOCUMENTS**

- a. It is appropriate for Members to consider their own position as some Members may have expressed support publicly for policies that are not policies of the Council.

- b. Political documents do not represent a legal commitment on behalf of the Council. To treat any political document as a legal commitment by the Council would be illegal. Where there is a valid choice before Members, then, at that stage and only at that stage, Members may take political documents into account.
- c. All decisions must be taken within the framework of the formal decision making process of the Authority. Members must take into account all relevant matters and disregard all irrelevant ones. Decisions taken at a political meeting, such as a political group meeting, have no status within this process. A Member, who votes in accordance with a group decision which has been reached, having regard to relevant factors and who has addressed their mind independently to those factors and to the decision itself, will be acting within the law.
- d. The Courts have also advised on the balancing exercise to be undertaken by a Council when deciding whether to pursue a particular policy:

*A local authority must exercise its statutory powers in the public interest and for the purpose of which those powers have been conferred. Political views, as to the weight to be attached to the various relevant considerations and as to what is appropriate in the public interest in the light of those considerations may properly influence the exercise of a statutory discretion. A decision will not be unlawful merely because some political advantage, such as electoral popularity, is expected to flow from it, so long as the decision is made for a legitimate purpose or purposes. Because at some stage in the evolution of a policy an improper political purpose has been espoused, does not mean that the policy ultimately adopted is necessarily unlawful. However, a political purpose extraneous to the statutory purpose can taint a decision with impropriety. Where there is more than one purpose:*

- a) *The decision will generally be lawful provided that the permitted purpose is the true and dominant purpose behind the act. This is so even though some secondary or incidental advantage may be gained for some purpose, which is outside the authority's powers.*
- b) *The decision will be invalid if there are two purposes one ultra vires and one intra vires and the ultra vires purpose is a (even if not the) major purpose of the decision. Accordingly a decision substantially influenced by a wish to alter the composition of the electorate would be unlawful.*
- c) *Where there is some evidence justifying enquiry, the Court will consider whether an apparently lawful purpose e.g. home ownership is merely a colourable device to conceal an illegitimate purpose e.g. electoral advantage.*
- d) *Even if those voting for a particular policy at a Council meeting have perfectly proper reasons in mind, the policy can be tainted by the improper motives of others who have taken part in the formulation of that policy although not actually present to vote. As a matter of law it is possible for a corrupt principal to cause a result through an innocent agent.*

## **11. OTHER LEGAL IMPLICATIONS**

The financial forecasts contained in this report have been prepared and are submitted as part of the budget process set out in the Council's Constitution.

### KEY FINANCIAL RISKS

The following table identifies the key financial risks to the council's financial position over the short to medium term together with a summary of the mitigating actions in place and planned. These financial risks are reflected in the assessment of the adequacy of estimates and reserves. The assessment of risk is based on the following risk scoring criteria:

LIKELIHOOD (Probability)	
A - Almost Certain > 95%	Highly likely to occur
B - Likely ↑	Will probably occur
C - Possible 50%	Might occur
D - Unlikely ↓	Could occur but unlikely
E - Very Unlikely < 5%	May only occur in exceptional circumstances

IMPACT (Consequence)	
1 - Extreme	Loss or loss of income > £20m
2 - Major	Loss or loss of income £10m < £20m
3 - Significant	Loss or loss of income £5m < £10m
4 - Moderate	Loss or loss of income £500k < £5m
5 - Minor	Loss or loss of income £10k < £500k

#### • Robustness of estimates

	Key Financial Risk	INHERENT RISK		Comments/Mitigating Actions in place	RESIDUAL RISK	
		Likelihood	Impact		Likelihood	Impact
FE1.	Pay Inflation - underestimated in the original estimates.	Possible	Moderate	<ul style="list-style-type: none"> <li>The MTFs model approved in February 2017 is based on a pay award of 1% over the medium term - this is following the July 2015 budget and the announcement to cap public sector pay awards at 1%</li> <li>It should be noted that the current offer is 2% per annum for 2018/19 and 2019/20. The MTFs model has been updated to reflect this.</li> <li>Reliance placed on market intelligence provided by Treasury Management advisors.</li> <li>Treasury Management Strategy is aligned with CIPFA Code and the CLG Guidance re investing funds prudently and having regard to the security and liquidity of its investments before seeking the highest rate of return.</li> </ul>	Unlikely	Minor
FE2.	Interest rates are underestimated.	Possible	Moderate	<ul style="list-style-type: none"> <li>As part of the estimate setting process we are reviewing all fees and charges on an basis, to reset these if necessary. If there are 'in year' shortfalls these form part of the budget monitoring processes.</li> <li>Lower risk as existing income streams are known and are therefore more predictable</li> </ul>	Possible	Moderate
FE3.	Existing fees and charges: Projected levels of income within the period are not achieved and/or maintained.	Possible	Moderate	<ul style="list-style-type: none"> <li>Income generating activity has been identified as part of savings proposals for 2017-18 and onwards. There is a risk that in light of the economic backdrop and Brexit that these levels of income will not be achieved.</li> <li>Higher risk as it is based on new sources of income</li> </ul>	Possible	Moderate
FE4.	New income streams: Projected levels of income within the period are not achieved.	Possible	Moderate	<ul style="list-style-type: none"> <li>The Valuations Office has undertaken a reset of rateable values from 2017/18. The provision has been reviewed in light of the revaluation and known current appeals and will be reviewed on a regular basis, at present this is deemed to be adequate.</li> <li>Appeals can be backdated and as a consequence of this the Council has set aside a provision to deal with this element of the financial impact.</li> <li>In December 2014 the Government announced it was closing the appeals window and that appeals received on or after 1 April 2015 will only be backdated until this date.</li> </ul>	Unlikely	Minor
FE5.	Volatility of Business Rates funding given the uncertainty around impact of successful appeals (SCC retains almost half the risk from the volatile nature of the receipts).	Likely	Significant			

• Robustness of estimates

	Key Financial Risk	INHERENT RISK		Comments/Mitigating Actions in place	RESIDUAL RISK	
		Likelihood	Impact		Likelihood	Impact
FE6.	Increase in demand led spending pressures (including impact of Welfare Reform, social care, safeguarding) over and above the current budget provision.	Possible	Significant	<ul style="list-style-type: none"><li>Annual budget setting process developed in consultation with service managers</li><li>Monitoring of capital (quarterly) and revenue (monthly) budgets, reported to CMT and Cabinet (Quarterly).</li><li>Action plans to address any significant in year budget variances are agreed with CMT with the status of the agreed actions reported to CMT on a monthly basis</li><li>Action plans in place that are intended to manage/reduce the number of Looked After Children</li></ul>	Possible	Moderate
FE7a.	Third party provider costs will increase as a result of the introduction of the National Living Wage	Almost certain	Moderate	<ul style="list-style-type: none"><li>As each contract is procured any impact of this will need to be assessed and addressed to ensure services are procured within budget.</li></ul>	Possible	Moderate
FE7b.	Third party provider costs increase as result of SCC having to 'step in' in the event of potential provider failure (social care providers)	Possible	Moderate	<ul style="list-style-type: none"><li>ICU contract monitoring arrangements and general market oversight and intelligence</li></ul>	Unlikely	Minor
FE8.	Legal challenge to savings proposals that could result in the proposal being either discontinued or revised.	Possible	Moderate	<ul style="list-style-type: none"><li>Budget consultation process in place.</li></ul>	Unlikely	Minor
FE9.	Pressure on returns from investment properties in both the short and longer term.	Possible	Significant	<ul style="list-style-type: none"><li>There is a full and robust process around the financial and legal analysis of the individual investments.</li><li>Investments are not confined to the Southampton area</li></ul>	Possible	Moderate
FE10.	Voluntary sector is either unwilling or unable to support the delivery of certain services or activities	Possible	Significant	<ul style="list-style-type: none"><li>Review the overall expectation and co-ordination of the services required of the voluntary sector.</li><li>Consideration is given to this risk in deciding whether to design services around the voluntary sector</li></ul>	Possible	Moderate
FE11.	The council's service delivery partners seek to exit an agreement or are no longer able to deliver the required service.	Unlikely	Significant	<ul style="list-style-type: none"><li>Central Contracts Team monitors and work closely with the council significant service delivery partners.</li><li>Contractual obligations on both parties that set out the respective roles and responsibilities.</li></ul>	Very Unlikely	Moderate

• Adequacy of proposed financial reserves

Key Financial Risk		INHERENT RISK		Comments/Mitigating Actions	RESIDUAL RISK	
		Impact	Likelihood		Impact	Likelihood
FR1.	Business Rate Retention & Council Tax Growth - the council fails to collect, retain and grow business rate income	Possible	Significant	<ul style="list-style-type: none"> <li>• The assumption built into the MTFS is based on an annualised CPI Rate reflecting the uplift set by government.</li> <li>• The current MTFS includes assumptions on growth which have been developed in conjunction with the Growth service area and recognise pipeline developments and their assumed operation dates. These will be monitored on a monthly basis as part of the standard monitoring.</li> </ul>	Possible	Moderate
FR2.	Delivery of all of the agreed savings is not achieved.	Possible	Major	<ul style="list-style-type: none"> <li>• Progress and delivery of the overall Programme and individual projects is monitored at Service Director level, and thereafter by SLT and CMT, with any non achievement forming part of the normal budget monitoring action plan process.</li> <li>• CMT and SLT review the validity and achievability of projects and provide approval (or not) to projects</li> </ul>	Unlikely	Significant
FR3.	The Government could impose a lower Council Tax referendum threshold (currently 2.99%) and/or reduce or remove the Adult Social Care Levy (3%)	Possible	Moderate	<ul style="list-style-type: none"> <li>• Assumption is that Council Tax rises will be set at just below the 3% referendum limit in 2018/19 at 2.99% and future years at 1.99% (excluding the Adult Social Care Levy).</li> <li>• The Adult Social Care Levy was only introduced as part of the Autumn 2015 Spending Review and allows local authorities with social care responsibilities to increase Council Tax by a further 3% (17-18 &amp; 18-19). No further assumptions have been made beyond 2019-20 for any increase in this income over and above the 6%.</li> <li>• The MTFS assumes this levy will be taken in all years as the calculated increase in funding for adult social care far outweighs the income gained from this levy.</li> </ul>	Unlikely	Moderate
FR4.	Slippage in capital receipts (not accompanied by a slippage in spend).	Possible	Moderate	<ul style="list-style-type: none"> <li>• Net receipt of any planned income will require a permanent draw from balances, additional borrowing or for savings to be found in the capital programme.</li> <li>• Impact reflects the cost of borrowing in short term (the interest payments).</li> </ul>	Possible	Minor
FR5.	If building inflation was to exceed general inflation over a prolonged period, this would have a significant adverse impact on HRA balances and, in turn, the business model in respect of the redevelopment and refurbishment of the SCC Housing stock.	Possible	Significant	<ul style="list-style-type: none"> <li>• Surpluses are liable to change annually, either favourably or not, and this will be reflected in the annual review of stock investment needs and estimated unit rates.</li> <li>• Monitoring and assessment of potential impact with business model sufficiently flexible to allow for reassessment of priority outcomes against available budget</li> </ul>	Possible	Moderate
FR6.	As schools transfer to Academy status the council's share of the retained and general element of the Education Services Grant may reduce.	Almost certain	Moderate	<ul style="list-style-type: none"> <li>• Costs need to be reduced in line with reductions in funding.</li> <li>• Development of a strategy in terms of whether / what services SCC may choose to still offer to Academy Schools</li> </ul>	Possible	Minor
FR7.	The level of funds within the internal insurance provisions is inadequate to meet current or future demand	Possible	Moderate	<ul style="list-style-type: none"> <li>• The adequacy of the provision is informed by the output from periodical (at least triennial) external actuarial reviews of the funds.</li> <li>• The level of funding is required to be reviewed as part of annual budget setting process and the position, in respect of potential liabilities is reviewed on a monthly basis.</li> </ul>	Unlikely	Moderate

• Adequacy of proposed financial reserves

Key Financial Risk		INHERENT RISK		Comments/Mitigating Actions	RESIDUAL RISK	
FR	Key Financial Risk	Impact	Likelihood		Impact	Likelihood
FR8.	Ad hoc or unforeseen events / emergencies.	Possible	Significant	<ul style="list-style-type: none"> <li>The Council's Reserves may be utilised in respect of the financial impact of such an event.</li> <li>Subject to the nature of the event alternative sources of funding might be available e.g. Bellwin Scheme.</li> </ul>	Possible	Significant
FR9.	The cost of implementing the Care Act 2014 is greater than anticipated.	Unlikely	Moderate	<ul style="list-style-type: none"> <li>Current assumption is for the cost of this new burden to be met by the funding allocation provided within the Better Care Fund and the new Carers and Care Act implementation grant.</li> <li>This funding has now been included within the Revenue Support Grant and the main implications of the Care Act have been deferred until 2019-20.</li> </ul>	Unlikely	Moderate
FR10.	CCG could seek to reduce its level of contribution to the 'pooled budgeting' arrangement with SCC	Possible	Significant	<ul style="list-style-type: none"> <li>Ongoing relationship and dialogue with CCG re shared objectives and outcomes.</li> </ul>	Unlikely	Moderate
FR11.	The council is unable to quantify the financial impact on both vulnerable individuals and key council services arising from implementation of welfare reforms	Possible	Moderate	The impact of Welfare Reform on all service areas will be difficult to monitor or to mitigate against.	Possible	Moderate
FR12.	Inflation increases at a higher rate than anticipated	Possible	Moderate	<ul style="list-style-type: none"> <li>Assumptions have been made in the forecast about the likely level of general inflation that will apply from April 2018. Current indications are that an increase is likely. CPI is likely to increase to 2.4% in 2018/19 reducing to 2.0% over the medium term. This has been assumed in the MTFS model.</li> <li>Market intelligence provided by Arlingclose - independent treasury advisors</li> <li>An amount is included in the MTFS to cover key elements of inflation, for example in relation to fuel and energy costs, which can be volatile.</li> <li>Beyond this provision, it would be managed as an 'in year' issue and services would be expected to absorb the difference.</li> </ul>	Unlikely	Minor
FR13.	Brexit - Uncertainty and economic forces, at least in the short term, within both the local business and wider business sector may have an adverse impact on investment decisions and local employment which, in turn, would impact on business rate income.	Likely	Moderate	<ul style="list-style-type: none"> <li>National and local modelling in respect of the future approach to business rate retention will need to reflect changes in the financial environment.</li> <li>There may be either pressure or incentives for non UK owned business to move operations back to within an EU country.</li> <li>Treasury Management advisors are regularly updating the Council on the economic impact of Brexit, the strength of the pound, inflation and interest rates.</li> </ul>	Likely	Moderate
FR14.	There are unplanned and unforeseen consequences (and costs) arising from the implementation of new, or changed, systems and processes across service areas within the organisation	Possible	Moderate	<ul style="list-style-type: none"> <li>A Programme Management Office has been established and will be liaising with Finance to track benefits and unintended consequences. A full programme management process is being put in place including planning and risk assessment.</li> </ul>	Unlikely	Moderate
FR15.	New accounting rules for financial investments may result in adverse valuation movements being charged to the General Fund in year that they occur.	Possible	Moderate	<ul style="list-style-type: none"> <li>New accounting rules require gains/losses from valuation movements for certain types of financial investments to be recognised in the year they occur, rather than when the investments are sold. The Risk Reserve will be used to manage the volatility that the timing difference may cause.</li> </ul>	Possible	Moderate

## STATEMENT OF CONFIDENTIALITY

NOT APPLICABLE

## BRIEF SUMMARY

The purpose of this report is to update the Capital Strategy and to inform Council of any major changes in the overall General Fund and HRA Capital Programme for the period of 2017/18 to 2021/22, highlighting the changes in the programme since the last reported position to Cabinet in November 2017.

The net result of the changes since the previous report is that the current overall programme has increased by £86.27M, £52.26M within the General Fund programme and £34.01M within the HRA programme.

## RECOMMENDATIONS:

**It is recommended that Cabinet:**

	(i)	Notes the revised General Fund Capital Programme, which totals £194.43M (as detailed in paragraph 77) and the associated use of resources.
	(ii)	Notes the revised Housing Revenue Account (HRA) Capital Programme, which totals £216.89M (as detailed in paragraph 77) and the associated use of resources.
	(iii)	Notes that £1.21M has been added to the programme, with approval to spend, either under delegated powers or by Cabinet subject to the relevant financial limits. These additions are detailed in paragraph 7 and Appendix 1.
	(iv)	Notes the addition of £0.25M to the Communities, Culture & Leisure programme and the request for approval to spend £0.25M as detailed in paragraphs 9 - 10 and Appendix 1.
	(v)	Notes the addition of £67.45M to the Education & Children's Social Care programme and the request for approval to spend

		£67.45M as detailed in paragraph 11 and Appendix 1.
	(vi)	Notes the virement of £1.53M within the Education & Childrens Social Care programme as detailed in paragraph 11 and Appendix 1.
	(vii)	Notes the addition of £0.16M to the E&T – City Services programme and the request for approval to spend £0.16M as detailed in paragraph 12 and Appendix 1.
	(viii)	Notes the addition of £1.20M to the Finance programme and the request for approval to spend £1.20M as detailed in paragraph 13 and Appendix 1.
	(ix)	Notes the reduction of £1.50M to the Housing & Adult Social Care programme as detailed in paragraph 14 and Appendix 1.
	(x)	Notes the addition of £0.09M to the Leaders programme and the request for approval to spend £0.09M as detailed in paragraph 15 and Appendix 1.
	(xi)	Notes the virement of £7.13M within the Leaders programme as detailed in paragraph 16 and Appendix 1.
	(xii)	Notes the reduction of £20.10M to the Leaders programme as detailed in paragraphs 17 – 18 and Appendix 1.
	(xiii)	Notes the addition of £11.97M to the Transport – E&T programme and the request for approval to spend £11.97M as detailed in paragraphs 19 - 21 and Appendix 1.
	(xiv)	Notes the addition of £34.01M to the HRA programme and the request for approval to spend £34.01M as detailed in paragraphs 22 - 26 and Appendix 1.
	(xv)	Notes the slippage and re-phasing as set out in paragraph 27 – 70 and as detailed in Appendix 2.
	(xvi)	Notes that the capital programme remains fully funded up to 2021/22 based on the latest forecast of available resources although the forecast can be subject to change; most notably with regard to the value and timing of anticipated capital receipts and the use of prudent assumptions of future Government Grants to be received.
	(xvii)	Note that a review of the Council's capital strategy has been undertaken as detailed in Appendix 4.

**It is recommended that Council:**

	(i)	Approve the revised General Fund Capital Programme, which totals £194.43M (as detailed in paragraph 77) and the associated use of resources.
	(ii)	Approve the revised HRA Capital Programme, which totals £216.89M (as detailed in paragraph 77) and the associated use of resources.
	(iii)	Note that £1.21M has been added to the programme, with approval to spend either under delegated powers or by Cabinet

		subject to the relevant financial limits. These additions are detailed in paragraph 7 and Appendix 1.
	(iv)	Approve the addition of £0.25M to the Communities, Culture & Leisure programme and the request for approval to spend £0.25M as detailed in paragraph 10 and Appendix 1.
	(v)	Approve the addition of £67.45M to the Education & Childrens Social Care programme and the request for approval to spend £67.45M as detailed in paragraph 11 and Appendix 1.
	(vi)	Approve the reduction of £1.53M to the Education & Childrens Social Care programme as detailed in paragraph 11 and Appendix 1.
	(vii)	Approve the addition of £0.16M to the E&T – City Services programme and the request for approval to spend £0.16M as detailed in paragraph 12 and Appendix 1.
	(viii)	Approve the addition of £1.20M to the Finance programme and the request for approval to spend £1.20M as detailed in paragraph 13 and Appendix 1.
	(ix)	Approve the reduction of £1.50M to the Housing & Adult Social Care programme as detailed in paragraph 14 and Appendix 1.
	(x)	Notes the addition of £0.09M to the Leaders programme and the request for approval to spend £0.09M as detailed in paragraph 15 and Appendix 1.
	(xi)	Approve the virement of £7.13M within the Leaders programme as detailed in paragraph 16 and Appendix 1.
	(xii)	Approve the reduction of £20.10M to the Leaders programme as detailed in paragraphs 17 – 18 and Appendix 1.
	(xiii)	Approve the addition of £11.97M to the Transport – E&T programme and the request for approval to spend £11.97M as detailed in paragraphs 19 - 21 and Appendix 1.
	(xiv)	Approve the addition of £34.01M to the HRA programme and the request for approval to spend £34.01M as detailed in paragraphs 22 - 26 and Appendix 1.
	(xv)	Approve the slippage and re-phasing as set out in paragraph 27 – 70 and as detailed in Appendix 2.
	(xvi)	Notes that the capital programme remains fully funded up to 2021/22 based on the latest forecast of available resources although the forecast can be subject to change; most notably with regard to the value and timing of anticipated capital receipts and the use of prudent assumptions of future Government Grants to be received.
	(xvii)	Approve the Capital Strategy as detailed in Appendix 4.
<b>REASONS FOR REPORT RECOMMENDATIONS</b>		

1.	The Capital Programme is reviewed on a quarterly basis in accordance with the Council’s Capital Strategy. The forecast position is reported to the Council Capital Board with any required programme update reported to Cabinet and Council for approval. This is required to enable schemes in the programme to proceed and to approve additions and changes to the programme.																												
<b>ALTERNATIVE OPTIONS CONSIDERED AND REJECTED</b>																													
2.	The update of the Capital Programme is undertaken within the resource constraints imposed on it. No new schemes can be added unless specific additional resources are identified. Alternative options for new capital spending are considered as part of the budget setting process in the light of the funding available and the overall financial position.																												
<b>DETAIL (Including consultation carried out)</b>																													
	<b>CONSULTATION</b>																												
3.	Service Directors, Service Leads and Project Managers have been consulted in preparing the reasons for variations contained in this report. The General Fund and HRA capital programme monitoring report summarises additions to the capital programme and slippage and rephasing since the last approved programme reported in November 2017. Each addition has been subject to the relevant consultation process which reflects the role played by Council Capital Board. The content of this report has been subject to consultation with Finance Officers for each service.																												
	<b>THE FORWARD CAPITAL PROGRAMME</b>																												
4.	Table 1 shows a comparison of the latest capital expenditure for the period 2017/18 to 2021/22 compared to the previously reported programme.																												
	<p><u>Table 1 – Programme Comparison</u></p> <table><tr><td></td><td><b>2017/18 £M</b></td><td><b>2018/19 £M</b></td><td><b>2019/20 £M</b></td><td><b>2020/21 £M</b></td><td><b>2021/22 £M</b></td><td><b>Total £M</b></td></tr><tr><td>Latest Programme</td><td>93.36</td><td>121.90</td><td>65.13</td><td>67.44</td><td>63.49</td><td>411.32</td></tr><tr><td>Previous Programme</td><td>162.27</td><td>78.87</td><td>39.69</td><td>44.22</td><td>0.00</td><td>325.05</td></tr><tr><td><b>Variance</b></td><td><b>(68.91)</b></td><td><b>43.03</b></td><td><b>25.44</b></td><td><b>23.22</b></td><td><b>63.49</b></td><td><b>86.27</b></td></tr></table>		<b>2017/18 £M</b>	<b>2018/19 £M</b>	<b>2019/20 £M</b>	<b>2020/21 £M</b>	<b>2021/22 £M</b>	<b>Total £M</b>	Latest Programme	93.36	121.90	65.13	67.44	63.49	411.32	Previous Programme	162.27	78.87	39.69	44.22	0.00	325.05	<b>Variance</b>	<b>(68.91)</b>	<b>43.03</b>	<b>25.44</b>	<b>23.22</b>	<b>63.49</b>	<b>86.27</b>
	<b>2017/18 £M</b>	<b>2018/19 £M</b>	<b>2019/20 £M</b>	<b>2020/21 £M</b>	<b>2021/22 £M</b>	<b>Total £M</b>																							
Latest Programme	93.36	121.90	65.13	67.44	63.49	411.32																							
Previous Programme	162.27	78.87	39.69	44.22	0.00	325.05																							
<b>Variance</b>	<b>(68.91)</b>	<b>43.03</b>	<b>25.44</b>	<b>23.22</b>	<b>63.49</b>	<b>86.27</b>																							
5.	The overall increase in the programme of £86.27M includes a decrease of £37.20M primarily due to budget allocations to alternative projects within the programme, which is offset by an increase of £123.47M relating to additions to the programme either approved under delegated powers, by Cabinet or requested within this report as detailed in appendix 1.																												
6.	Table 2 below shows that the Capital Programme has increased by £86.27M, £52.26M within the General Fund and £34.01M in the HRA. Appendix 1 provides details of each variation by portfolios.																												

CHANGES TO THE OVERALL PROGRAMME

	Total Capital Programme	411.32	325.05	86.27
7.	<p>Appendix 1 summarises the changes by individual portfolio programmes to new schemes and changes to existing schemes, both where approval has been previously given by Council, Cabinet or made under delegated authority to amend the programme since the last reported position in November 2017 and where approval is sought as part of this report. The changes, where approval has already been given total £1.21M.</p> <p>The proposed programme includes the following net additions, totalling £85.06M, which require approval as part of this report. Approval is being sought where the overall scheme value is greater than the Delegated Decision Notice approval limit, as set out in the Financial Procedure Rules (FPR). These are summarised in Appendix 1.</p>			
8.	<p>The capital strategy, attached as appendix 4, provides further details of how the proposed capital spend supports the Outcomes and priorities of the Council. The following table summarises the items of major spend by Outcome.</p>

	<b><u>Communities, Culture &amp; Leisure</u></b>
9.	<p><u>Outdoor Sports Centre (Addition of £0.05M in 2017/18)</u></p> <p>A grant has been awarded by the Park Life Programme for 60% funding towards the cost of development designs to install an all-weather football pitch at the Sports Centre. The scheme already includes funding for the remainder of this cost. Approval is sought for the addition of £0.05M to the Communities, Culture &amp; Leisure Programme and for approval to spend this sum in 2017/18, to be funded by grant monies. (see paragraph 30)</p>
10.	<p><u>Ancient Scheduled Monuments (Addition of £0.20M in 2018/19)</u></p> <p>A number of Ancient Scheduled Monuments (ASM) currently require investment. Works will be undertaken on the 'Walk the City Walls' experience, ahead of the Mayflower 400<sup>th</sup> anniversary. In order to carry out the conservation across the city, approval is sought for the addition of £0.20M to the Communities, Culture &amp; Leisure Programme and for approval to spend this sum in 2018/19, to be funded by Direct Revenue Financing (DRF).</p>

	<b><u>Education &amp; Childrens Social Care</u></b>
11.	<p><u>Secondary Schools Expansion Programme (Addition of £67.45M)</u></p> <p>Southampton, like many other LAs, is currently facing an increase in the number of secondary age pupils it will have to accommodate in its schools, peaking around 2023/24. In order to achieve this a substantial secondary school expansion programme will be required. Plans are currently been finalised and will require further consultation, for which a separate paper will be presented to Cabinet/Council as appropriate. Approval is sought for the addition £67.45M to the Education &amp; Children's Social Care Programme, phased £2.81M in 2018/19, £14.63M in 2019/20, £20.53M in 2020/21 and £29.48M in 2021/22, and for approval to spend this sum, to be funded by £20.92M grant monies and £46.53M council resources (which includes a virement of £1.53M from the schools programme).</p>
	<b><u>E&amp;T - City Services</u></b>
12.	<p><u>Mechanical Sweeper (Addition of £0.16M in 2018/19)</u></p> <p>To support additional street cleaners within the City Centre, an additional mechanical sweeper is required. Approval is sought for an additional £0.16M to the Environment &amp; Transport – City Services Programme and for approval to spend this sum in 2018/19. The sweeper will be funded by Direct Revenue Financing (DRF).</p>
	<b><u>Finance</u></b>
13.	<p><u>Civic Centre Upgrade (Addition of £1.20M in 2018/19)</u></p> <p>In order to gain maximum efficiency from recent restructures, an environment that facilitates flexible working is required. This project will allow the creation of a working environment that will facilitate efficient working practices, and improve retention of staff. Approval is sought for the addition of £1.20M to the Finance Programme and for approval to spend this sum in 2018/19, to be funded from reserves specifically held for that purpose.</p>

	<b><u>Housing &amp; Adult Care</u></b>
14.	<p><u>Holcroft House (Reduction of £1.50M in 2017/18)</u></p> <p>Following a detailed review this project is no longer a viable option due to time limited funding constraints. Alternative options are currently being examined in which the associated Integrated Better Care Fund funding can be used, with further approval to be obtained once confirmed.</p> <p>Approval is sought for the reduction £1.50M from the Housing &amp; Adult Care Programme in 2017/18, which was to be funded by grant monies.</p>
	<b><u>Leaders</u></b>
15.	<p><u>Water Fountains (Addition of £0.09M in 2018/19)</u></p> <p>In support of the recent initiative to reduce plastic waste, by providing refill stations, a number of water fountains are planned to be installed across the City. Approval is sought for the addition £0.09M to the Leaders Programme and for approval to spend this sum in 2018/19, to be funded by Community Infrastructure Levy contributions.</p>
16.	<p><u>Car Park Acquisition (Virement of £7.13M from 2017/18 to 2018/19)</u></p> <p>An opportunity has arisen to acquire of a strategic site linked to the Central Business District Project. Approval is sought for the addition £7.13M to the Leaders Programme and for approval to spend this sum in 2018/19, to be funded by a virement of council resources from the Property Investment Fund project, reducing this project in 2017/18. This acquisition will generate income initially to offset revenue costs.</p>
17.	<p><u>Property Investment Fund (Reduction of £35.00M in 2017/18)</u></p> <p>Due to market conditions early in 2017/18, there was a lack of suitable opportunities to invest in property. In line with the Property Investment Fund (PIF) strategy, an investment was therefore made into a managed property fund, CCLA Investment Management Ltd.</p> <p>Therefore the £20m funds are not available for direct property investment. Approval is sought for the reduction of £20.00M, funded by council resources, to the Leaders programme in 2017/18.</p> <p>In addition, as detailed in paragraphs 16 and 19, virements totalling £15.13M have been identified to support other capital schemes.</p>
18.	<p><u>Station Quarter Southside (Reduction of £0.10M in 2018/19)</u></p> <p>This project has not yet commenced and has been reviewed. The review proposes that the project is not progressed in isolation, but should be incorporated into future plans for a Central Business District. Therefore approval is sought for the reduction of £0.10M, funded by council resources, to the Leaders programme in 2018/19.</p>
	<b><u>Transport – E&amp;T</u></b>
19.	<p><u>Additional Roads Programme (Addition of £8.00M in 2018/19)</u></p> <p>An additional programme of works is planned to address roads that currently have a concrete surface, by replacing the existing surfaces with a more durable coverage. Approval is sought for an addition of £8.00M to the Transport – E&amp;T Programme and for approval to spend this sum in 2018/19. It will be funded by a £6.94M virement of council resources from the Property Investment Fund project and £1.06M through S106 contributions. Revenue</p>

	implications associated with this project have been reflected in the MTFs.
20.	<p><u>Thomas Lewis / Stoneham Lane (Addition of £1.28M in 2018/19 and £2.44M in 2019/20)</u></p> <p>Improvements through widening local junctions and installing new traffic signals will ease congestion and improve journey times, as well as improving air quality in support of the Clean Air Zone. The creation of new cycle ways and pedestrian points will improve safety. Approval is sought for the addition of £3.72M to the Transport – E&amp;T Programme and for approval to spend this sum, phased £1.28M in 2018/19 and £2.44M in 2019/20, to be funded by grant monies.</p>
21.	<p><u>Anti-terrorist Measures (Addition of £0.25M in 2017/18)</u></p> <p>The scope of the project has been expanded to include the installation of bollards at Guildhall Square. Approval is sought for the addition £0.25M to the Transport – E&amp;T Programme and for approval to spend this sum in 2017/18, to be funded by the On Street Reserve (DRF).</p>
	<b><u>HRA</u></b>
22.	<p><u>Estate Regeneration and New Build (Addition of £4.13M in 2021/22)</u></p> <p>In line with the HRA 30 year business plan an additional £4.13M is needed for Estate Regeneration and New Build in 2021/22. Approval is sought for the addition £4.13M to the HRA Programme and for approval to spend this sum in 2021/22, to be fully funded by the Major Repairs Allowance (MRA – This is a funding provision within the HRA 30 year business plan needed to ensure that the housing stock is properly maintained).</p>
23.	<p><u>Safe Wind &amp; Weather Tight (Addition of £12.62M in 2021/22)</u></p> <p>In line with the HRA 30 year business plan an additional £12.62M is needed for Safe Wind &amp; Weather Tight in 2021/22. Approval is sought for the addition £12.62M to the HRA Programme and for approval to spend this sum in 2021/22, to be fully funded by MRA.</p>
24.	<p><u>Modern Facilities (Addition of £11.70M in 2021/22)</u></p> <p>In line with the HRA 30 year business plan an additional £11.70M is needed for Modern Facilities in 2021/22. Approval is sought for the additional £11.70M to the HRA Programme and for approval to spend this sum in 2021/22, to be funded by £6.01M MRA and £5.69M Direct Revenue Financing (DRF).</p>
25.	<p><u>Well Maintained Communal Facilities (Addition of £2.12M in 2021/22)</u></p> <p>In line with the HRA 30 year business plan an additional £2.12M is needed for Well Maintained Communal Facilities in 2021/22. Approval is sought for the additional £2.12M to the HRA Programme and for approval to spend this sum in 2021/22, to be fully funded by DRF.</p>
26.	<p><u>Warm &amp; Energy Efficient (Addition of £3.44M in 2021/22)</u></p> <p>In line with the HRA 30 year business plan an additional £3.44M is needed for Warm &amp; Energy Efficient in 2021/22. Approval is sought for the additional £3.44M to the HRA Programme and for approval to spend this sum in 2021/22, to be fully funded by Direct Revenue Financing (DRF).</p>

	<b>SLIPPAGE AND REPHASING</b>																		
27.	The proposed programme identifies £34.30M of net slippage and rephasing from 2017/18 into future years as summarised in Table 4 below and detailed by scheme in Appendix 2. The reason for the major items of slippage and rephasing are detailed below.																		
	<p><u>Table 4 – Slippage and Rephasing by Portfolio</u></p> <table> <tr> <th></th><th><b>(Slippage)/ Rephasing £M</b></th></tr> <tr> <td>Communities, Culture &amp; Leisure</td><td>(0.55)</td></tr> <tr> <td>Education &amp; Childrens Social Care</td><td>(9.23)</td></tr> <tr> <td>Finance</td><td>(2.14)</td></tr> <tr> <td>Leaders</td><td>(0.42)</td></tr> <tr> <td>Transport - E&amp;T</td><td>(6.82)</td></tr> <tr> <td><b>Total General Fund</b></td><td><b>(19.16)</b></td></tr> <tr> <td><b>Total HRA</b></td><td><b>(15.14)</b></td></tr> <tr> <td><b>Total Slippage/Rephasing</b></td><td><b>(34.30)</b></td></tr> </table>		<b>(Slippage)/ Rephasing £M</b>	Communities, Culture & Leisure	(0.55)	Education & Childrens Social Care	(9.23)	Finance	(2.14)	Leaders	(0.42)	Transport - E&T	(6.82)	<b>Total General Fund</b>	<b>(19.16)</b>	<b>Total HRA</b>	<b>(15.14)</b>	<b>Total Slippage/Rephasing</b>	<b>(34.30)</b>

<b>Total HRA</b>	<b>(15.14)</b>																		
<b>Total Slippage/Rephasing</b>	<b>(34.30)</b>																		
	<b><u>Communities, Culture &amp; Leisure</u></b>																		
28.	<p><u>Tudor House Museum (Slippage of £0.03M from 2017/18 to 2018/19)</u></p> <p>An Archaeology report is required as part of the planning conditions attached to this project. It is anticipated that this report will be compiled in the 2018/19 financial year.</p>																		
29.	<p><u>Water Ingress Project at Westgate and Tudor House (Slippage of £0.02M from 2017/18 to 2018/19)</u></p> <p>Delays have arisen whilst specialists and specific materials required for a Grade 1 listed building are sourced.</p>																		
30.	<p><u>Outdoor Sports Centre Improvements (Slippage of £0.50M from 2017/18 to 2018/19)</u></p> <p>Development designs are being produced and will be completed in the current financial year. The project has been on hold whilst additional funding options have been explored. It is now moving forward following a successful grant award. Improvements works will commence in 2018/19. (see paragraph 9)</p>																		
	<b><u>Education &amp; Childrens Social Care</u></b>																		
31.	<p><u>Springwell School Main Expansion (Slippage of £4.31M for 2017/18 to 2018/19)</u></p> <p>Due to variations in sequence of works, Phase 1 works on site was delayed in agreement with the school for noise and disturbance to pupils. Phase 1 has now been completed. The Phase 2 planning application has been submitted and design is progressing but there will a slippage into 2018/19.</p>																		
32.	<u>R&amp;M Programme for School (Slippage of £3.42M for 2017/18 to 2018/19)</u>																		

	An estimation of £3.42M is set to be the cost for the delivery and resource of the programme. In comparison to previous years, this is a significant increase. Design capacity has restricted the number of projects able to be planned and delivered within the summer holiday period to avoid disruption to the school during term time.
33.	<u>Solar PV Resources Project (Slippage of £0.10M for 2017/18 to 2018/19)</u> Retention monies for the scheme will be released in 2018/19.
34.	<u>Bitterne Park Autism Resource Base (Slippage of £0.15M for 2017/18 to 2018/19)</u> The project is being developed and is forecast to go ahead in 2018/19.
35.	<u>School Access Initiative (Slippage of £0.28M for 2017/18 to 2018/19)</u> The budget meets the demand for suitable alterations and access improvements to school buildings to facilitate mobility needs of a pupils that has been offered places at schools. The requirement for this general provision is being reviewed.
36.	<u>Asbestos (Slippage of £0.45M for 2017/18 to 2018/19)</u> This is a general allocation set aside to deal with asbestos risk. As a result of contractual underspends, a review of this and the access budget will be undertaken in the capital review. Until then profiling is being proposed.
37.	<u>Early Years Expansion (Slippage of £0.41M for 2017/18 to 2018/19)</u> Delays due to the late notification of the Early Years entitlement of 30 hours allocation changes and the TUPE transfer of property staff from Capita have led to a delay in two of the projects resulting in slippage into 2018/19. All other projects will be delivered as planned.
	<b><u>Finance</u></b>
38.	<u>Desktop Refresh Programme (Slippage of £0.11M from 2017/18 to 2018/19)</u> Current year spend is on hold pending completion of the desktop estate and volumes review which could impact the phasing and cost of the refresh programme. The refresh programme will recommence once future plans for the desktop estate are agreed, to include the management of any future pressure from potential price increases.
39.	<u>Digital Investment Phase 2 (Slippage of £2.03M from 2017/18 to 2018/19)</u> Having delivered the first wave of digital transformation the council is now looking to reprioritise its capital investment on broader organisational wide initiatives with a focus on deeper integration of systems and applications that will significantly increase efficiency, e.g. further investment in an holistic Enterprise Resource Planning Platform (ERP) solution, a refocus of customer relationship platforms and applications and a rationalisation of infrastructure, data storage and software applications. Slippage is therefore anticipated pending completion of the reprioritisation and planning process. The current year forecast reflects pending spend on an ERP solution, the update on which was the subject of a report to Cabinet on 19th Dec 2017.
	<b><u>Leaders</u></b>

40.	<u>West Quay Phase 3 WWQ – (Slippage of £0.10M from 2017/18 to 2018/19)</u> Phase 1 of West Quay 3 construction work is now complete and costs expected to be incurred in 2017/18 are in respect of dealing with the final account and progression of phase 2. The remaining budget will be slipped into 2018/19 to progress phase 2.
41.	<u>QE2 Mile Bargate Square – (Slippage of £0.10M from 2017/18 to 2018/19)</u> No further spend on this project is expected this year as this project will be delivered in line with the shopping centre development in 2019. The remaining budget will be slipped into 2018/19.
42.	<u>Town Depot – (Slippage of £0.06M from 2017/18 to 2018/19)</u> The development at Chapel Riverside will require costs to be incurred in 2017/18 to progress the scheme and agree the grant of the building lease to the developer. The remaining budget will be slipped into 2018/19.
43.	<u>Royal Pier – (Slippage of £0.10M from 2017/18 to 2018/19)</u> The development proposals for this site are complex and are taking longer to resolve than originally anticipated, requiring the current year budget to be slipped to 2018/19.
44.	<u>Mayflower Park Spitfire Memorial – (Slippage of £0.01M from 2017/18 to 2018/19)</u> Due to the delay in the Royal Pier development proposals, the budget will be slipped to 2018/19.
45.	<u>West Quay Phase 3 Site B – (Slippage of £0.05M from 2017/18 to 2018/19)</u> The development is proceeding and enabling works have commenced. However work on this scheme will extend into 2018/19 therefore slippage is required into 2018/19.
	<b><u>Transport – E&amp;T</u></b>
46.	<u>Bassett Avenue Road Improvement (Rephase £1.00M from 2018/19 to 2017/18)</u> £1.00M of the Bassett Avenue Road Improvement Scheme has been brought forward from 2018/19 to 2017/18. Resources were available to progress this scheme ahead of schedule.
47.	<u>Millbrook Roundabout (Slippage of £3.45M from 2017/18 to 2018/19)</u> This is due to the delay in programme delivery of adjacent major works. The Millbrook Roundabout scheme is likely to start in September 2018, following completion of the Redbridge Roundabout Scheme, which is due to commence in March 2018. It is not feasible to work on 2 major roundabouts at the same time.
48.	<u>Bitterne Park Triangle (Slippage of £0.09M from 2017/18 to 2018/19)</u> Works at Bitterne Park Triangle will now be linked with a project for St Denys Corridor and the delivery date for both projects has slipped to 2018/19.
49.	<u>Bus Corridor Minor Works (Slippage of £0.35M from 2017/18 to 2018/19)</u> Bus Corridor Minor Works funding comes from various S.106 contributions from adjoining developments. The amounts received do not cover the costs of construction, and in reality construction of these schemes can only occur when there are adjoining works. As such, the budget is required to be slipped

	into 2018/19 to await adjoining projects to be carried out.
50.	<p><u>Cycling (Slippage of £0.35M from 2017/18 to 2018/19)</u></p> <p>Many of the proposed routes will be required as diversion routes for Millbrook Roundabout project in September 2018. Therefore, to minimise disruption, these have been put on hold until 2018/19.</p>
51.	<p><u>Electric Vehicle Action Plan (Slippage of £1.08M from 2017/18 to 2018/19)</u></p> <p>The Electric Vehicle Action Plan has been slipped due to complications with the Hampshire County Council framework used to procure services. This has now been addressed and delivery of the project is scheduled for 2018/19.</p>
52.	<p><u>Improved Safety – Engineering (Slippage of £0.15M from 2017/18 to 2018/19)</u></p> <p>Awaiting further design work to be carried out meaning that the delivery of the project is likely to be delayed.</p>
53.	<p><u>Intelligent Transport System (Slippage of £0.39M from 2017/18 to 2018/19)</u></p> <p>Redbridge Village Traffic Management has been slipped to 2018/19 following discussions with the Redbridge Residents Association and The Leader, where the suggestion to consult on proposals to mitigate the impact of a development will occur in 2018/19. A study for St Denys corridor has now been combined with the Bitterne Park Triangle scheme to increase economies of scale.</p>
54.	<p><u>Northern Cycle Route: Ave East Lodge Rd – Dorset St (Slippage of £0.08M from 2017/18 to 2018/19)</u></p> <p>This project has been delayed due to complications with planning approval. The route will impact on Common Land, thus requiring substantial ecological consultation which was not anticipated at the time of project creation</p>
55.	<p><u>Platform for Prosperity (Slippage of £0.11M from 2017/18 to 2018/19)</u></p> <p>The residual retention costs are expected to be paid in 2018/19.</p>
56.	<p><u>School &amp; Workplace Travel Plan Measures (Slippage of £0.05M from 2017/18 to 2018/19)</u></p> <p>School Travel Plan – The match funding from the Department for Transport in respect of this project was secured later than anticipated, which led to a delay in scheme delivery. The project is now progressing.</p> <p>Workplace Travel Plan – A delay in recruitment required to deliver the project resulted in a delay in identifying suitable schemes to implement. The position is now in place and works have commenced. Delivery will continue into 2018/19.</p>
57.	<p><u>Thomas Lewis Way/Stoneham Lane (Slippage of £0.73M from 2017/18 to 2018/19)</u></p> <p>Thomas Lewis Way/Stoneham Lane project has been delayed while grant funding for the project was secured. Although construction will commence in 2017/18, the project will continue into 2018/19.</p>
58.	<p><u>Travel to School (Slippage of £0.09M from 2017/18 to 2018/19)</u></p> <p>The Millbrook Travel Hub project is still awaiting a suitable location to be identified, and will also be delayed due to the adjoining works required on Millbrook Roundabout. A site will be found for implementation in 2018/19.</p>
59.	<p><u>Urban Freight Strategy - Delivery Service Plans (Slippage of £0.06M from 2017/18 to 2018/19)</u></p>

	The original external partner for the Urban Freight Study project has been replaced, which caused a delay in delivering the new site selected for the project.
60.	<u>WCR: Phase 2 – 2nd Ave (Slippage of £0.54M from 2017/18 to 2018/19)</u> Second Avenue has been delayed due to complications with a planning application lodged by an adjoining land owner. This issue needs to be resolved with a target date of construction in 2018/19.
61.	<u>Mobile Working (Slippage of £0.05M from 2017/18 to 2018/19)</u> Work is on hold, pending some urgent work in the planning policy partnership with Eastleigh Borough Council. The Masterplan needs to be completed before work can be carried out in 2018/19.
62.	<u>Footways (Slippage of £0.25M from 2017/18 to 2018/19)</u> Delays to works have been caused by difficulties sourcing the highly reflective lining materials required for cycle ways. Minor works on footways have been delayed due to insufficient feedback received to date via social media and the cycling community.
	<b><u>HRA</u></b>
63.	<u>Estate Regeneration - Woodside / Wimpson Scheme (Slippage of £8.29M from 2017/18 to 2019/20 and £2.64M from 2017/18 to 2020/21)</u> Tendering process completed in May 2017 but the agreed workflow projection from the supplier is for main works to commence in Quarter 4 and thus creating slippage in this scheme.
64.	<u>ECO Project (Slippage of £6.04M from 2017/18 to 2018/19)</u> ECO Project has been put on hold because British Gas have withdrawn from the contract. Awaiting a revaluation of options for this project.
65.	<u>Estate Regeneration City Wide Framework (Slippage of £0.10M from 2017/18 to 2018/19)</u> Work on Modular Housing has been postponed until 2018/19, due to supporting external funding from the Solent Local Enterprise Partnership being delayed. Resources have been prioritised on projects that have started.
66.	<u>Roads/Paths/Hard Standing (Slippage of £0.24M from 2017/18 to 2018/19)</u> This is due to delays arising from an ongoing dispute with the supplier over additional costs to provide design and cost information included as part of the agreed retainer.
67.	<u>Townhill Park Regeneration (Rephase £1.94M from 2018/19 to 2017/18)</u> Building work has started on Plot 1 sooner than anticipated so necessary to bring forward funds into 2017/18.
68.	<u>Supported Housing Area Programme (Slippage of £0.25M from 2017/18 to 2018/19)</u> Delay to this programme is due to re-designation of some SHAP schemes. The plan is to lower the qualifying age for Supported Housing.
69.	<u>Decent Neighbourhood: Cuckmere Lane (Rephase £0.70M from 2018/19 to</u>

	<u>2017/18)</u> Drainage issues have been resolved so work was able to take place in 2017/18.																														
70.	<u>Decent Neighbourhoods Schemes (Slippage of £0.22M from 2017/18 to 2018/19)</u> Delays in the programme delivery have occurred as a result of lack of specific internal resources. A new landscape architect is due to be appointed, allowing works to progress as planned in 2018/19.																														
	<b>CAPITAL RESOURCES</b>																														
71.	The resources which can be used to fund the capital programme are as follows: <ul style="list-style-type: none"><li>• Council Resources - Borrowing</li><li>• Council Resources - Capital Receipts from the sale of HRA assets</li><li>• Council Resources - Capital Receipts from the sale of General Fund assets</li><li>• Contributions from third parties</li><li>• Central Government Grants and from other bodies</li><li>• Revenue Financing</li></ul>																														
72.	Capital Receipts from the sale of Right to Buy (RTB) properties are passed to the General Fund capital programme to support the Private Sector Housing schemes within the Sustainability Portfolio.																														
73.	It should be noted that the revised General Fund Capital Programme is based on prudent assumptions of future Government Grants to be received. The majority of these grants relate to funding for schools and transport and are unringfenced. However in 2017/18 these grants have been passported to these areas.																														
	Table 5 shows the current level of available resources.  <u>Table 5 – Available Capital Funding</u> <table><tr><th>Resource</th><th>Balance B/Fwd £M</th><th>Received to Date 2017/18 £M</th><th>Allocated To Current Programme £M</th><th>Available Funding £M</th><th>Anticipated Receipts 2017/18 £M</th></tr><tr><td>Capital Receipts</td><td>(13.54)</td><td>0.00</td><td>12.60</td><td>(0.94)</td><td>(4.16)</td></tr><tr><td>CIL</td><td>(5.84)</td><td>(3.77)</td><td>2.80</td><td>(6.81)</td><td>(2.23)</td></tr><tr><td>S106</td><td>(9.24)</td><td>(1.85)</td><td>6.13</td><td>(4.96)</td><td>(0.25)</td></tr><tr><td></td><td><b>(28.62)</b></td><td><b>(5.62)</b></td><td><b>21.53</b></td><td><b>(12.71)</b></td><td><b>(6.64)</b></td></tr></table>	Resource	Balance B/Fwd £M	Received to Date 2017/18 £M	Allocated To Current Programme £M	Available Funding £M	Anticipated Receipts 2017/18 £M	Capital Receipts	(13.54)	0.00	12.60	(0.94)	(4.16)	CIL	(5.84)	(3.77)	2.80	(6.81)	(2.23)	S106	(9.24)	(1.85)	6.13	(4.96)	(0.25)		<b>(28.62)</b>	<b>(5.62)</b>	<b>21.53</b>	<b>(12.71)</b>	<b>(6.64)</b>

74.	The table shows that the largest resource currently available is Community Infrastructure Levy (CIL) funding. A review has been undertaken of all S106 and CIL monies to ensure that programmes of work are matched to the appropriate funding and to identify areas where business cases are required for new projects. This work will be ongoing as part of the monitoring process.																														
75.	Funding for the capital programme has previously been heavily reliant on capital receipts from the sale of Council properties. These receipts have always had a degree of uncertainty regarding their amount and timing, but the																														

	economic climate has increased the Council’s risk in this area.																																																																																																																																												
76.	Table 6 below shows the previous and current capital receipt assumptions, together with the actual receipts received in year for the General Fund. There has been no movement since the last reported position.

	<b>Total Financing</b>	<b>(93.36)</b>	<b>(121.90)</b>	<b>(65.13)</b>	<b>(67.44)</b>	<b>(63.49)</b>	<b>(411.32)</b>
	<i>*CR – Council Resources</i>						
78.	Table 8 demonstrates that the most significant amount of funding for the General fund programme is provided by Council Resources, which at present, will be mainly through borrowing. Borrowing costs are in the main met within a central provision. The HRA programme is primarily funding by MRA.						
	<b>CAPITAL STRATEGY</b>						
79.	The Council needs to have a fit for purpose Capital Strategy to ensure that all the priorities within the Council Strategy are accounted for in the allocation of resources to the capital programme. A review has therefore been undertaken to update the Capital Strategy for the period 2017/18 to 2021/22 and this is attached in Appendix 4.						
80.	As part of the December 2017 update of the Prudential Code for Capital Finance in Local Authorities a requirement to produce a capital strategy has been introduced. The guidance outlines a number of key factors which they recommend be included in a capital strategy. Due to short timeframe between issuing the guidance and preparing a strategy to be approved before 31st March 2018, the Treasury and Capital Management Panel have issued a statement recognising that full implementation may not be possible until 2019/20. Southampton City Council already fulfil the requirement to produce a capital strategy, and have been doing so for a number of years. Additional information as required by the updated code will assessed over the coming months and update as appropriate.						
<b>RESOURCE IMPLICATIONS</b>							
<b><u>Capital/Revenue</u></b>							
81.	This report principally deals with capital and the implications are set out in the main body of the report. However, the revenue implications arising from borrowing to support the capital programme are considered as part of the General Fund revenue budget. In addition any revenue consequences arising from new capital schemes are considered as part of the approval process for each individual scheme.						
<b><u>Property/Other</u></b>							
82.	There are no specific property implications arising from this report other than the schemes already referred to within the main body of the report.						
<b>LEGAL IMPLICATIONS</b>							
<b><u>Statutory power to undertake proposals in the report:</u></b>							
83.	Financial reporting is consistent with the Chief Financial Officer’s duty to ensure good financial administration within the Council. The Capital Programme update is prepared in accordance with the Local Government Acts 1972 – 2003.						
<b><u>Other Legal Implications:</u></b>							
84.	None directly, but in preparing this report, the Council has had regard to the Human Rights Act 1998. the Equality Act 2010. the duty to achieve best value						

	and statutory guidance issued associated with that, and other associated legislation.
<b>RISK MANAGEMENT IMPLICATIONS</b>	
85.	None.
<b>POLICY FRAMEWORK IMPLICATIONS</b>	
86.	The update of the Capital Programme forms part of the overall Budget Strategy of the Council.

<b>KEY DECISION?</b>	Yes/No	
<b>WARDS/COMMUNITIES AFFECTED:</b>	NONE

## SECTION 1 - THE SOUTHAMPTON CAPITAL STRATEGY

### Aims of the Strategy and its links to the Council's budget framework

The overarching aim of the Southampton Capital Strategy is to provide a framework within which the Council's Capital Investment plans will be prioritised and delivered. These plans are driven by the Southampton City Council Strategy, the City Strategy and the City Vision - "Southampton - a city of opportunity where everyone thrives"

Reflecting the ambition and vision above the Council's priority outcomes are:

These objectives reflect the on-going commitment to ensure the Council puts residents and the customers at the heart of everything we do, reflecting the city's diversity. Strong leadership is essential if the Council is to meet the immediate and the medium term challenges in sustainable way and make the most of future opportunities.

We have moved to outcomes based planning and budgeting as an approach and as a result, to manage our resources effectively to deliver these priority outcomes, we have allocated resources against each of them. We have considered what is being achieved from the services provided and focused on what makes the most difference to residents, customers and businesses. Under each outcome, we then identified proposals to reduce costs in the following areas:

- Business as usual - being more efficient in how we manage and deliver our services on a day-to-day basis
- Digital savings - changing and improving how we deliver services, making better use of online channels
- Service delivery changes - redesigning, sharing, stopping, reducing or changing services

We expect the shape of the Council, including the types of services we deliver and how we will deliver them, will be very different over the coming years. The Council Strategy sets out that this will be achieved through:

- Taking personal responsibility
- Working through and with others
- Embracing change
- Balancing commercial demands
- Being customer orientated

## The Capital Strategy

The Council's Capital Strategy is to ensure the Council is able to plan and allocate the available resources for capital projects and programmes that contribute to the delivery of priority outcomes in the Council Strategy. . The principles of the strategy are as follows:

- The Council Capital Board (CCB), chaired by the Cabinet Member for Finance, leads on the strategic direction of capital investment for the Council. The CCB operates on a commissioning basis. This will enable funding to be better aligned with other partners and funding sources and ensure a city wide approach is taken.  
  
The commissioning approach will be of greater importance with the increased requirement for links to regional and sub-regional strategies and programmes and the need to apply for funds on a regional basis. As a result, the Council must also ensure that its Capital Strategy reflects the vision set out by the LEP, PUSH, and Transport for South Hampshire. These partnerships aim to work together with other stakeholders to secure a more prosperous and sustainable future for the Solent area.
- The first call on capital resources will always be the financing of any over programming from previous years. In addition, all projects already approved in the capital programme or contractually committed will be supported and sufficient resources will be provided to enable them to proceed or complete.
- A capital project sponsor must also be able to demonstrate that a rigorous process of options appraisal has been followed, requiring evidence of need, cost, risk, outcomes and methods of financing. Capital investment proposals which will result in a revenue cost saving or efficiency are encouraged.
- All capital investment decisions will be made with reference to Council outcomes, priorities, Executive commitments and regional strategies and, only after a positive contribution to one or more of the objectives has been demonstrated, will a project be considered for resource allocation.
- The CCB will ensure that the Council can take full advantage of the increased freedom and flexibility afforded by the removal of ring fencing from most funding allocations to facilitate the achievement of the Council's priority outcomes. This funding will be allocated as the CCB feel is appropriate to achieve these outcomes, following receipt of a robust business case. Regard will however be had to obligations around the transport agenda, and asset management plans for schools and corporate assets, particularly around health and safety issues.
- The un-ring fenced and corporate resources will managed by the CCB and it will review all bids for resources, evaluate them and then agree on the prioritisation of resources accordingly. A proposal will be prioritised in accordance with criteria set out in Section Four of this Strategy.
- The CCB will also review the use of any ring fenced resources to ensure alignment with other spending plans and the maximisation of benefits to the Council and achievement of Council outcomes, priorities and Executive commitments.
- The CCB will recommend the use of both un-ring fenced and ring-fenced resources and also the general prioritisation of resources so that Cabinet/Council can make well

informed final decisions on the utilisation of resources, as per the timeline set out in Section Five.

- There will be no ring-fencing of capital receipts to specific projects unless the use of the receipt is governed by legislation or by a specific agreement. For example, the Council signed an agreement on the use of retained Right to Buy (RTB) receipts in June 2012 (amended in June 2013) which stipulates that any receipts held by the Council under the agreement, which are not used for the specific purpose of providing replacement affordable housing, must be returned to Ministry of Housing, Communities and Local Government.
- There will be an annual review of the individual capital schemes undertaken to:
  - a) Ensure that schemes still meet strategic priorities and outcomes;
  - b) Review their continued relevance in the context of a dynamic and constantly developing organisation;
  - c) Consider the progress of schemes including any reasons for delayed starts or variations to approved budgetary allocations and re-phasing of planned expenditure; and
  - d) Identify any unutilised or underutilised resources.
  - e) Consider any reallocation of resources.
- All applications/bids for external capital grant funding will be presented to the CCB prior to submission to ensure they are in line with agreed priorities and outcomes and that all capital and revenue consequences have been considered. The Council is conscious that the Government is likely to introduce a range of grant funding opportunities for which bids must be submitted at short notice, some of which may have a matched funding requirement. The Council's strategy will be to respond as it considers appropriate to these in line with priorities and outcomes.

## The Wider Region

### Solent Local Enterprise Partnership

With a population of more than 1.3 million and over 50,000 businesses, the Solent area is an internationally recognised key economic hub anchored around the Southampton, Portsmouth, the Isle of Wight, the M27 corridor and the Solent waterway.

The Solent Local Enterprise Partnership (LEP) was formed after the Government offered local areas the opportunity to take control of their future economic development. It is a locally-owned partnership between businesses and local authorities and plays a central role in determining local economic priorities and undertaking activities to drive economic growth and the creation of local jobs.

The Solent LEP is led by the business community and supported by three university partners, the further education sector, three unitary councils, eight district councils, one county council and the voluntary and community sector – all working together to secure a more prosperous and sustainable future for the Solent area.

The vision for the Solent was set out in the updated growth strategy, *Transforming Solent Growth Strategy*, in January 2015:

*“Our vision is to create an environment that will bring about sustainable economic growth and private sector investment in the Solent. It will assist this globally-competitive area reach its full potential, enabling existing businesses to grow, become more profitable and to be greener; enabling the creation of new businesses and attracting new businesses to the region.”*

Within the broader vision, the Solent LEP strategy includes the following objectives:

- Maximise the economic impact of our economic assets in the area and sectors with the potential for growth. Promoting the area as the UK’s leading growth hub for advanced manufacturing, marine and aerospace both at home and, more importantly, in the global marketplace. Developing the advanced engineering and manufacturing sector through a business-led approach and supporting the visitor economy;
- Unlock critical employment sites to enable the Solent businesses, particularly the marine, maritime and advanced manufacturing sectors of their economy, to expand;
- Provide new housing to support the growing workforce;
- Ensure people have the right skills to access employment and support growing sectors;
- Provide effective support to small and medium-sized enterprises (SMEs) to enable them to grow – including marine and maritime SMEs; and
- Unlock innovation led growth to engage more businesses in knowledge transfer and innovation, develop links to wider Higher Education Institutions (HEIs) and demonstrate the benefits of working with knowledge based partners.

Targets to 2020 include the following:

- In addition to current forecasts, create an additional 15,500 new jobs in the Solent LEP area;
- Achieve GVA growth of 3%;

- Increase GVA per job by an additional £6,879 per job;
- Improve productivity (GDP per head) closer to the South East average;
- Increase employment rates to 80% from the current 78% and improve economic activity rates from 80% to 81%;
- Enable the delivery of 24,000 new homes;
- Raise the business birth rate from 3.6% to 4.1% (and create 1000 new businesses);
- Improve the business survival rate from 61.4% to 62.5%;
- Raise the proportion of the population with Level 4 and above skills to 36% of the working age population from the current 32%;
- Support the raising of education attainment rates to above the UK average and
- Increase inward investment into Solent attracting at least 5% of FDI projects entering the UK.

Supporting the Strategic Economic Plan is an Investment Plan for the Solent which brings to together:

- Local assets to unlock resources to be re invested in growth, including the Southampton – Portsmouth City Deal - a £953 million investment plan;
- European Union Strategic Investment Funding of £78.9 million including private and public sector match funding;
- Local growth deal –a £124.8 million package of Government funding, together with £360 million of public and private sector leverage;
- A £16.7 million Growing Places capital fund;
- A £24 million across a range of Regional Growth Fund programmes;
- An Enterprise Zone capital grant worth £7 million.

Solent LEP prioritisation for capital programmes uses a scored methodology including the number jobs created, private sector leverage, growth, productivity and deliverability.

Portsmouth City Council takes the Lead Accountable Body role for Solent LEP in terms of financial procedures and accounting, overseen by governance arrangements including a Board and separate panels.

### Economic Development

The City Council is working with key partners including Solent LEP, Solent LAs Business South, Chamber of Commerce, FSB, Higher Education and UK Trade and Investment, training providers and businesses to generate economic growth in the city and to strengthen Southampton's reputation as a place that welcomes and supports business growth.

The current focus is on supporting the attraction of new businesses to the VIP development schemes included in the City Centre Masterplan, development of commercial property, sectors and businesses support services to maximise the potential of the City through the enhanced cultural, retail and hospitality offer, improving productivity, and ensuring that all residents can benefit from, and contribute to the City's growth. The Economic Development and Skills team has an active programme for working with developers and occupiers to ensure that residents of the city are given the opportunity to gain employment created by major development schemes. It also levers significant external funding for labour market interventions.

## Estate Regeneration

Southampton City Council launched its Estate Regeneration programme in 2009. Its vision to create successful communities on its estates where people will want to live in the future.

Estate regeneration schemes completed to date include an initial pilot at Hinkler Way, and then projects at Laxton Close, Exford Avenue, Meggeson Avenue, Cumbrian Way and Weston. These projects were delivered on the basis of marketing an 'oven ready' site with preparation funded by the HRA (with some of this funding being repaid through grants and land receipts). A mixture of homes for sale and Housing Association funded affordable homes (for rent) were provided.

In February 2012 Cabinet agreed to move forward with a programme of 'city-wide' estate regeneration. Looking sequentially at the Millbrook and Maybush, Northam, Thornhill and Weston Estates.

In August 2013, the administration outlined an aspiration for estate regeneration development to be council led with the HRA acquiring new homes for rent (at Affordable Rent levels). The initial focus of this work has been Townhill Park, the council's first area of comprehensive regeneration.

Construction of 56 affordable homes commenced in 2017 on Plot 1 at Townhill Park, with completion planned for March 2019. The homes will be developed and owned by the council and will be available for rent at affordable rents. The council's £10M investment in Plot 1 is supported by a £750,000 grant from the Homes and Communities Agency and money received in Section 106 payments from private housing developers.

Direct procurement has been significantly quicker than procuring a Developer or Development Partner for the whole of Phase 1 and had financial benefits including reduced cost of procuring these units, avoiding double stamp duty and associated transaction costs and developers profit. Whilst construction risk sits with the Council it has been mitigated by using an experienced partner as Development Manager.

The Council's wider plans for Townhill Park will deliver around 665 new homes. Plans for the next plot are being progressed and are expected to include around 213 homes, with a mix of about 45-55% affordable housing and the remainder let for private rental.

In February 2018 the Chancellor confirmed Southampton's successful bid for £3.75M from the Housing Infrastructure Fund towards Townhill Park Regeneration.

The Chancellor's Autumn 2017 Budget contained a provision of £400 million of loan funding for estate regeneration to transform run-down neighbourhoods and provide new homes in high-demand areas.

Previous announcements by the Government, in the Summer 2015 Budget, the Comprehensive Spending Review in November 2015 and Housing and Planning Bill, contained a number of measures affecting current and future social housing provision:

- The announcement that rents in the social rented sector will be reduced by one percent per year until 2020;

- The compulsory introduction of “pay to stay” requiring higher income social housing tenants to pay market rents and for councils to handover to the exchequer the additional rents collected;
- A review of the use of lifetime tenancies in social housing “to limit their use and ensure households are offered tenancies that match their needs and ensure best use is made of social housing”;
- The extension of the Right to Buy to Housing Associations;
- The compulsory sale of “high value voids” in the Local Authority sector to support, in part, the RTB for Housing Associations; and
- The removal of obligatory section 106 requirements for the provision of affordable housing in favour of lower cost home ownership products. Effectively changing the definition of what is considered affordable housing in favour of home ownership particularly ‘Starter Homes’ as opposed to affordable rent.

The Council reviewed its Estate Regeneration Strategy and objectives in September 2016. This recognised that accelerating investment in the redevelopment and or major refurbishment of the Council’s housing stock will require, at least initially, greater capital expenditure than can currently be funded either from within the Housing Revenue Account or through borrowing on the account. Over time as the Council’s older stock is replaced or refurbished, the cost of repairs and maintenance as a proportion of income is expected to fall releasing more funding for regeneration and new housing development.

A range of models for development and funding are therefore being pursued. These include :-

- Direct Development within the HRA.
- Use of the Council’s Development and Investment Companies that will allow the Council to develop and invest in housing for sale and offer at market rent in order to reinvest development proceeds in the delivery of affordable homes.
- The sale of sites to Housing Association Partners.
- The sale of sites to institutional funding partners make completed units available to the Council through finance leases with options to purchase.

It is proposed that the Council will develop ongoing relationships with a number of development and funding partners with models replicated across the city.

## **Key Priority Issues**

### Housing

The Southampton Core Strategy identifies a housing requirement for the city of 16,300 by 2026. Local Plans for homes include delivery of priority home categories including affordable, starter home for first time buyers, council new-build and extra care, by making use of exception sites including redundant public land. A commitment has been made to develop at least 2,000 new starter homes within the city. This has been supported to date by additional government funding including;

- The Help to Buy scheme which has been in place since 2013, to ensure that working people who were doing the right thing and saving for a deposit could achieve their

aspiration of buying their own home through Government support.

- The Help to Buy ISA was introduced from 1<sup>st</sup> December 2015 whereby first-time buyers can save up to £200 a month towards their first home and the government will boost their savings by 25%, or £50 for every £200, up to a £3,000 bonus.
- Additional funding streams, such as for low-cost home ownership are intended to be available for councils as well as housing associations and private developers. Councils are encouraged to think creatively about the homes they could deliver.

As part of the Autumn Budget 2017 the government confirmed its commitment to delivering 300,000 homes per year and announced:

- A further £630 million through the National Productivity Investment Fund (NPIF) to accelerate the building of homes on small, stalled sites, by funding on-site infrastructure and land remediation. Further details are expected by mid-2018.
- Support to industry to help ensure that there is a workforce to build additional homes, providing £34 million to scale up innovative training models across the country. The government is working with industry to finalise a Construction Sector Deal that will support innovation and skills in the sector, including £170 million of investment through the Industrial Strategy Challenge Fund. Construction skills will also be a focus for the National Retraining Scheme.
- Plans to consult on planning policy changes to increase housing density in urban areas and ensure efficient land use.

### Affordable Housing

The Autumn Budget 2017, confirmed the announcement that an addition £2bn will be added to the Affordable Housing Programme. This in addition to the £7bn announced on 5<sup>th</sup> January 2017 will increase the total budget to £9.1bn for the period up to 2020/21. The programme aims to meet the diverse housing needs of the country with the intention of delivering an additional 250,000 homes.

It should be noted that the £7bn is compiled of previous announcements:

- £4.7bn Grants announced in April 2016 (2016 – 2021 Shared Ownership and Affordable Homes Programme including affordable rent and rent to buy homes);
- £1.4bn announced in the Autumn Statement 2016 (to build 40,000 affordable homes and give flexibility around the above); and
- £0.9bn allocated under the previous affordable homes programme.

Alongside this funding, the government is expanding the existing affordable homes programme to offer a wider range of ways to help people into home ownership and to provide support for those that need affordable housing such as Affordable Rent, Shared Ownership and Rent to Buy.

## Southampton Business Improvement District

In November 2016, City Centre businesses voted in favour of the establishment of a Business Improvement District (BID). Over £1M will be generated for each year from 2017/18 -2021/22, through a levy of 1.5% of business' rateable value in the specified BID area (with some concessions). The funds will be overseen by the businesses via a Board, and allocated for activities to improve the marketing and experience of the City Centre. Delivery must add value to Council services, for which a baseline agreement will be in place. The BID has the potential to match fund and augment existing services, to consider alternative delivery models in the future, and to lever additional resources to the City. This will support the Councils outcomes and priorities, particularly in relation to economic growth.

## Public Sector Plc (PSP)

Southampton City Council on the 15<sup>th</sup> of September 2014 entered into a limited liability partnership with PSP Facilitating Limited and PSP Southampton LLP for a minimum period of 10 years.

It provides the Council with an additional option with regard to the disposal, sale or use of its assets to maximise income and opportunity. The relationship brings funding opportunities which are not traditionally available and the formed LLP is required to demonstrate its value to the Council before projects are agreed for delivery.

The aims and aspirations of the Partnership are as follows:

- Overall to be a facilitating organisation and development partner for the Council enabling it to better realise the efficient management of its assets by unlocking value and reducing liabilities in relation to the Council's operation properties and investment properties;
- To undertake specific regeneration opportunities by entering into land transactions that achieve the success criteria in a way that maximises the commercial benefits of the Sites;
- To act as a facilitating organisation giving the Council choice as to how it pursues its asset management plans; and
- To assist in achieving broader social, economic and environmental outcomes through true partnership working incorporating the insourcing principle which optimises the use of Council staff and infrastructure where it is practical and prior to the appointment of any third party.

To date option agreements have been entered into with the partnership in respect of land at Drivers Wharf, 160 -164 Above Bar (The Scholars Arms) and 150 – 162 High Street.

## Flood Defence

Parts of the city are currently at risk from tidal flooding. The city centre is particularly at risk, where major new development is needed. The council is committed to protecting existing and new developments through the development of flood defences along the River Itchen, which will be designed to integrate with the city's infrastructure.

A report was presented to Capital Board and Council in March 2016 providing details of the River Itchen Flood Alleviation Scheme (RIFAS) identifying the need to strengthen flood defences in that vicinity to:

- Provide strategic flood defence infrastructure that will reduce the tidal flood risk for existing commercial (775) and residential properties (1434) in this area over the next 100 years which will avoid approx. £1.39BN of flood damages in present day cash terms (which is equivalent to £249M present value); and
- Provide strategic flood defence infrastructure that will be future proofed to enable future redevelopment in the area when these aspirations are realised.

It was envisaged that this project will be a collaboration between the Council, the Environment Agency, Solent LEP, private companies and landowners.

Due to the large scale of the project work is still ongoing to assess potential additional external funds, along with alternative proposals should funding not be secured.

#### Local Authority Trading Company (LATCo)

Considering the continued financial challenge facing the Council there is an increased need for fundamental, transformational change across the organisation, in both the services it delivers and how it delivers them.

Cabinet approved at its meeting in December 2016 to undertake the necessary works to explore option for a LATCo. Following public consultation, the Council is now seeking to establish a LATCo which will have a number of objectives, including:

- To enable the on-going transformation of a range of in-scope council services, particularly the need for a new operating model that supports cost efficiency in the delivery of services back to the Council together with further commercialisation and potential trading opportunities.
- To maximise the effective, efficient and economic management and operation of the in-scope services.
- To develop a commercial capacity that can, where appropriate and in the public interest, profitably trade the services with other councils, public sector organisations, businesses and, where relevant, residents of the City and the broader commercial market.
- To support the Council in achieving its aim of continuing to grow the local economy, bringing investment into the city and increasing employment opportunities for local people.

Work has been progressing and following an initial Best Value consultation undertaken in 2017, Cabinet agreed to proceed with the option of establishing a LATCo without an external partner as this is in the best interests of the Council.

In January 2018 a report was presented to Cabinet outline the proposed governance arrangements and company structure, along with proposed phasing of the migration of services. A Best Value consultation has now been launched and will run until April 2018. Following the outcome a final report with the proposals and business plans for the LATCo will be presented for consideration and approval by Council in May/June 2018.

## Demographic Pressures

The Medium Term Financial Strategy details the significant demographic pressures that are impacting the financial position of the authority both now or are likely to in the future. Whilst the revenue implications are being captured there are also likely to be significant capital spend requirements.

A key pressure has been identified as a result of the need to expand secondary school places. Following the primary school expansion programme, there is now a requirement to expand the secondary schools to meet the need for additional year 7 places in the future. It is forecast that the current surplus of year 7 places within the City's secondary schools will be insufficient to meet both demand and the DfE requirement for a 5% surplus. The level of capital Basic Needs grant, which is provided to Local Authorities to increase school places, is based on the differential between the forecast number of children and the number of places within the city. Across the secondary sector the total number of places exceeds demand in the city until 2023, which in turn will likely delay the allocation of any further Basic Needs funding to 2020/21. Therefore during this period any required works to increase the Published Admission Numbers (PAN) of Secondary schools, in order to accommodate the increase in year 7 children, will need to be funded from Council resources.

## Property Investment Fund

Local Authorities face a difficult financial climate with ever decreasing funding from Central Government. This has necessitated in councils looking at innovative ways to generate regular revenue streams so they can reduce reliance on Central Government funding.

Many councils are acting to strengthen their funding base and reduce their reliance on Government grant by building asset portfolios that provide a commercial return. They have made the decision to expand their investment property portfolio, which provides an important and substantial revenue income stream, in order to generate a higher level of income by acquiring additional properties.

The Council's strategy for undertaking 'Property Investment' activities was approved by Cabinet on 19<sup>th</sup> April 2016. The key themes of the Property Investment Strategy are to:

- Set criteria for making investments;
- Identify the types of investment and vehicles that would allow for a balanced investment portfolio. Examples which will be considered include direct investment, i.e. properties that already produce income; indirect investment i.e. investing in property investment vehicles such as investment funds; and corporate investment i.e. investment in or acquisition of property management, trading or investment companies.
- Highlight the main property sectors as retail, office, industrial and leisure/healthcare. The portfolio will aim to spread its investment across the sectors to limit exposure to any volatility in a particular area:
- Maximise rental income and minimise management cost thus maximising returns;
- Pursue opportunities to increase commercial return and improve investment value of commercial assets;

- Choose property in locations driven by financial criteria, so may not be in Southampton although property in Southampton will be considered if it meets the relevant criteria; and
- Set the governance and decision structure
- Define a clear exit strategy.

To date £40M has been invested, £20M in 3 commercial properties (with a return on investment of 5.9%) and £20M invested in the CCLA, to manage risk through diversification.

No further investments are planned at this time. The outcome of Central Government's review of the guidance surrounding Local Authority investments has been released. This will now need to be considered by the CCB with a review of the current investments being undertaken in line with the new code of practice recommendations.

### The Digital Agenda

A fundamental review has been undertaken of the Council's use of technology, with the objective of positioning this not merely as an essential tool for the delivery of services, but rather an intrinsic part of the Council's future 'DNA'.

The Council aims for its customers to have an increased and better ability to self-serve, online, at a time that suits them, while ensuring that the requisite support is available for customers who do not have the skills or means to interact with us digitally.

The 'Digital' programme comprises two elements.

- The first focuses on 'digitising' high volume, high cost services in order to drive efficiencies through the automation of process and enhanced levels of integrated workflow solution; and
- The second element will build on this fundamental step to position the Council as a 'digital' organisation by facilitating better integration of services across departments, ensuring better and more seamless customer journeys.

These initiatives will enable the Council to operate a leaner structure, whilst also delivering savings in third party spend (with contractors and suppliers) and assets (such as property and office accommodation). These will be through enabled reductions in facility requirements, customer contact structures, consolidation of back office and corporate service functions and retirement of old IT legacy. This is currently being progressed through the implementation of an Enterprise Resource Planning System.

## **SERVICE PRIORITIES**

### Schools

The Council has a statutory duty to ensure that there are sufficient school places in the City, promote high educational standards, ensure fair access to educational opportunity and promote the fulfilment of every child's educational potential. This is reflected within the Council's priority outcome of children and young people getting a good start in life.

To support the achievement of this outcome a comprehensive Capital Programme is essential to ensure that there are sufficient places available, which enables parental choice

and that are of appropriate quality fabric to promote a safe and suitable environment for educational attainment.

The programme is developed in line with the City's Education Strategy and considers both the expansion of school places through development of existing sites and new build projects in conjunction with local need and preference. In addition the maintenance and fabric of the existing buildings is a high priority to ensure all children continue to receive their education in a safe and supportive environment.

After undertaking a programme of Primary school expansions in recent years there is now a need to expand the number of Secondary school places to accommodate the additional pupils currently at Primary age. As part of the February 2018 Capital Programme update approval is being sought for a £67M project to deliver the places required. This is in addition to the £10M already committed for improvements to 3 Secondary schools.

The Council does not currently have sufficient special school places to meet the demand and needs of the Special Educational Needs and Disability ('SEND') population. On 16th March 2016 Council approved plans to expand Springwell School and work has begun on 10 classrooms, a hydrotherapy pool which will be available out of school hours to parents of SEND children, a sensory room, hall, catering kitchen and associated supporting facilities for 128 children. This expansion will assist a number of children and young people get a good start in life, which is crucial to enabling them to go on to fulfil their potential and become successful adults who are engaged in their communities. The work is due to be completed in 2018.

## Transport

The Council's Transport Asset Management Plan (TAMP) remains the backbone of investment decisions on the maintenance of the highways assets, and is instrumental in determining the appropriate level of investment required to maintain the condition of the roads and pavements in the City. The overall condition of the highway network and ability to assist in providing high quality transport links for all modes is seen to be a key priority in terms of providing an indication of the health and vitality of the City.

Additionally, a programme of Integrated Transport Schemes is determined by the Local Transport Plan (Implementation Plan). These schemes also aim to improve the economic vitality of the City through the delivery of transport based schemes for the benefit of the wider economy. As such schemes are prioritised through a series of criteria to identify what schemes will be delivered as part of the capital programme each year. In 2016/17 the Council committed to utilising the full LTP Integrated Transport grant over a 5 year period with plans to invest in schemes such as Electric Vehicle Technology.

Further, a need has been identified to make improvements to the roundabout infrastructure in Millbrook and Redbridge. The Millbrook project is now moving forward after the successful award of government funding. The Council is working with Highways England to deliver traffic improvements around the M271 motorway and A35 Redbridge Roundabout.

Highways England is also consulting on proposals to improve the Eastern Access Corridor from the motorway into the City Centre, including a package of highway junction improvements aimed at boosting productivity and supporting delivery of housing and jobs by

easing congestion and improving journey time for all modes along the A3024 corridor in Southampton.

### E&T – City Services

One of the Council Executive commitments was to provide three state of the art play areas at Southampton Common, Mayfield Park and the Veracity Ground, to contribute towards the priority outcome to help children and young people in Southampton get a good start in life. All three projects have been successfully completed.

Within Southampton local recycling rates have plateaued and waste growth is expected in line with increased housing numbers. Therefore a new Materials Recycling Facility will be required to future proof capacity and realise efficiencies. Work will need to be undertaken to assess viable options along with potential funding sources.

### Leisure

Southampton strives to be a healthy place to live and work with strong, active communities. To accomplish this a number of proposals for the City's leisure facilities are being investigated; including provision of an integrated water sports facility to capitalise on the City's waterfront location, revised sustainable facility at the Quays Leisure Centre and redevelopment of the Sports Centre.

### Housing

In line with the Executive commitment to develop council owned buildings that are empty work is underway around the Central Station for starter homes, to be sold to young people who want to get on the property ladder at a discount. An opportunity for refurbishment/redevelopment of the Nelson Gate site to provide some residential element alongside office use is currently being appraised. A draft masterplan has been produced to assess land on the south of the station, to include a mix of offices, retail and housing.

Through its LATCo proposals, the Council is committed to setting up a letting agency as a 'fair deal' competitor to expensive commercial letting agencies. The proposal is focused on expanding the capacity and capability of the current lettings function the council provides to tenants, to include other properties and tenures including market rented property. This may develop alongside estate regeneration and city development proposals as PRS providers / investors are engaged.

### Leader's Portfolio

There is an outline concept for the creation of a new Public Sector Community Hub in the east of the city incorporating a Leisure Facility, Health Primary Care 'Cluster Hub', Library and a Police Public Access point, in a new purpose built building in a central location. This project aims to contribute to the council priority of a modern, attractive city where people are proud to live and work.

Feasibility work has been commissioned and whilst the desire is to promote financially self-supporting regeneration and redevelopment of the area by working with One Public Estate and Public Sector Partners, it is unlikely that the value of released sites alone will generate sufficient funds to establish the Public Sector Community Hub. Alternative funding sources are being investigated as part of the feasibility study, including possible grants.

Southampton is progressing plans for a Business Incubator which will provide office space to small businesses, groups and individuals. This will benefit small and start-up businesses to grow without having to invest heavily up front. The vision of the Business Incubator is to nurture and encourage innovation, whilst supporting strong and sustainable economic growth.

## HRA

To achieve the priority outcome of people in Southampton leading safe, healthy, independent lives, the Executive have committed to build Extra Care housing so that older people can live independent lives in a supported environment. In pursuant of this objective, the Council has recently delivered the successful conversion and new build projects at Manston, Rosebrook and Erskine Courts, with detailed design of a further facility at Woodside Lodge well under way. It is estimated that there is demand/need for between 500 and 600 units across the City with a potential capital cost of up to £120M (excluding land). Options being investigated will include sharing or passing this cost to development/management partners.

In light of advice from Hampshire Fire and Rescue Service and specialist fire safety consultants, a need has been identified to install sprinkler systems in all tower blocks. Work is currently underway to establish the full programme of works required in 2018/19.

## SECTION 2 - CAPITAL RESOURCES

### Current Capital Priorities and Potential Investment levels

The table below identifies the major priorities of the capital programme for 2017/18 to 2021/22.

Outcome	Major Project	2017/18 £M	2018/19 £M	2019/20 £M	2020/21 £M	2021/22 £M
Children and young people getting a good start in life	Primary Review & Expansion	2.18	1.74	0.10	0.00	0.00
	School Capital Maintenance	2.94	4.27	0.00	0.00	0.00

The capital programme report details all the projects currently being undertaken.

## **Methods of funding the Capital Programme**

### Government Grants

Capital resources from Central Government can be split into two categories:

- a) Non-ring fenced – resources which are delivered through grant that can be utilised on any project (albeit that there may be an expectation of use for a specific purpose). This now encompasses the vast majority of Government funding and the Council will initially allocate these resources to a general pool from which prioritised schemes can be financed.
- b) Ring-fenced – resources which are ring fenced to particular areas and therefore have restricted uses, specified by the funder.

### Non-Government Contributions

Where there is a requirement to make an application to an external agency to receive external funding, and when appropriate to commit Council resources as matched funding to any bid for external resources, a business case should first be presented for consideration to the CCB. The business case must demonstrate how the project aligns to Council's priorities and how matched funding and any revenue consequences can be managed within the context of the capital and revenue budget.

### Local Enterprise Partnership Funding

Priorities are largely as set by the Government Department concerned and jobs created, private sector leverage and deliverability. The process to award funding is led by the LEP Executive and agreed by Board. The lead accountable body is Portsmouth City Council.

### Prudential Borrowing

The Council will investigate opportunities to resource capital projects using prudential borrowing where plans are sustainable, affordable and prudent. Full appraisal will take place to ensure that, where appropriate, sufficient revenue returns are generated to cover the cost of borrowing. Prudential Borrowing will also be utilised to cover the cost of initiatives, such as redundancy capitalisation (on receipt of appropriate Government directions), where the reduction in costs is a corporate issue.

Where it is considered that prudential borrowing is the appropriate method of funding, but it requires additional revenue financing, the cost will be built into the revenue budget planning process. There are various debt instruments available for financing prudential borrowing and these are explored in detail in the Treasury Management Strategy.

The PWLB remains the Council's preferred source of long term borrowing given the transparency and control that its facilities continue to provide. The Council qualified for borrowing at the 'Certainty Rate' (0.20% below the PWLB standard rate) for a 12 month period from 01/11/2017, through its application via the 2017/18 Capital Estimates Return.

An alternative debt instrument is the UK Municipal Bonds Agency plc, established in 2014 by the Local Government Association as an alternative to the PWLB. It issues bonds on the capital markets and lends the proceeds to local authorities. This is a more complicated source of finance than the PWLB for two reasons: borrowing councils may be required to provide bond investors with a joint and several guarantees over the very small risk that other local authority borrowers default on their loans; and there will be a lead time of several months between committing to borrow and knowing the interest rate payable. This is explored in further detail in the Treasury Management Strategy.

The Council Capital Board will try to secure all other sources of funding before this source of funding is utilised unless a clear invest to save case can be made.

### Capital Receipts

Capital Receipts come from the sale of the Council's assets. If the disposal is Housing Revenue Account land or property then not all of the receipt is available to support the capital programme as a percentage has to be paid over to the MHCLG.

Where the sale of an asset leads to the requirement to repay grant, the capital receipt will be utilised for this purpose. Once this liability has been established and provided for, capital receipts will be available to support the capital programme as a corporate resource.

Where the asset has been funded from prudential borrowing a review will be undertaken to determine whether the most cost effective option is to utilise the receipt to repay debt, considering the balance sheet position of the authority.

The current strategy for the use of capital receipts is to:

- Provide for an MRP holiday to the value of external loan payments generating a revenue budget saving;
- Consider use to meet the costs of equal pay claims as detailed below;
- Consider forgoing the immediate capital receipt for longer term and sustainable income stream through development of sites;
- Consider flexible use to meet the costs of reform projects as detailed below; and
- Capital Board approved that in future, assumed receipts from sale of assets not currently on the market will not be taken into consideration when assessing the total value of receipts available to fund the capital programme.

### Flexible use of Capital Receipts

The 2015 Comprehensive Spend Review (CSR) announced that local authorities will be allowed to spend up to 100% of capital receipts (excluding Right to Buy receipts) on the revenue costs of reform projects. Instead of holding assets that could be made surplus, councils will be able to sell them to reinvest in their services. Guidance relating to specific conditions, number of years that this will be offered and the qualifying criteria for a 'reform' project was issued as part of the Final Local Government Settlement on 11th March 2016.

The key points included:

- The direction only relates to new receipts received in the period 1<sup>st</sup> April 2016 to 31<sup>st</sup> March 2019 that could be applied to meet the revenue costs of reform incurred in the same timeframe;
- The key criteria to use when deciding whether expenditure can be funded by the capital receipts flexibility is that it is forecast to generate ongoing savings to the authority's net service expenditure and is expenditure on a project where incurring up-front costs will generate ongoing savings; and
- Individual authorities demonstrate the highest standards of accountability and transparency. The guidance recommends that each authority should prepare a strategy that includes separate disclosure of the individual projects that will be funded or part funded through capital receipts flexibility and that the strategy is approved by full Council or the equivalent. This strategy can be included as part of the annual budget documentation and approved by full Council or the equivalent at the same time

as the annual budget. The guidance provides detail of the content of the strategy and that this strategy does need full council approval in advance of the intended financial year of application. If the strategy is updated during the financial year MHCLG must be notified.

- Examples of qualifying expenditure include the sharing of back office and administrative services; investment in service reform feasibility work; collaboration between central and local government to free up land for economic use; funding the cost of service reconfiguration or restructuring leading to ongoing efficiencies; sharing Chief Executives; driving a digital approach; aggregating procurement on common goods; improving systems and processes to tackle fraud; setting up commercial or alternative delivery models to deliver services more efficiently or increase revenue income; and integrating public facing services across two or more public sector bodies.

It should be noted that, whilst not a recent change, that the Local Authorities (Capital Finance and Accounting) (England) (Amendment) Regulations 2013 were amended to allow the financial implications of meeting backdated Equal Pay claims from capital receipts in order to reduce the additional pressure the Council's revenue budget position. It provides for any capital receipt received after the 1<sup>st</sup> April 2012. It is possible that surplus capital receipts could be used to mitigate the impact of this for Southampton City Council.

#### HRA Right to Buy Receipts

In most cases there will be no ring fencing of capital receipts to specific projects. One exception to this is the retained Right to Buy (RTB) receipts held by the Council under the agreement signed in June 2012 and amended in June 2013. Under this agreement any retained RTB receipts, which are not used for the specific purpose of providing replacement affordable housing, must be returned to MHCLG.

#### Revenue Contributions

An element of the revenue budget can be set aside to fund the capital programme (Direct Revenue Financing). The Capital Programme Update Report will detail any amount that is forecast to be available for the next five years, however with increasing General Fund revenue pressures these amounts available will need to be regularly reviewed.

A service or school may wish to offer some of its revenue budget to support the financing of a capital project. This is acceptable if it can be demonstrated that this funding is unfettered.

#### Use of Leasing

The Council does have the option to lease assets utilising an operating lease arrangement, with the advent of Prudential Borrowing this source of financing is becoming less attractive. The International Accounting Standards Board have reviewed how leased assets are treated and in January 2016 issued a new standard for annual periods starting on or after the 1<sup>st</sup> January 2019. This will need to be reflected as part of any future business cases.

#### Tax Increment Financing (TIF)

The Local Government Finance Act 2012 which received Royal assent on 1 November 2012 provided the legislative framework for the introduction of TIF. This initiative was first announced in October 2010 as an incentive to grow local economies and attract new businesses to areas and has been the subject of a consultation process.

In essence TIF allows councils to borrow against future increases in Business Rate revenues generated as a result of local developments and growth. By capturing predicted increases in income from business rates, it will create an income stream that can be used to borrow against, repay existing borrowing incurred under existing borrowing powers or to reimburse costs to a developer for the initial lay out of infrastructure work. This alternative financing for the infrastructure work is aimed at kick-starting regeneration and thereby supporting locally driven development and growth.

This approach has been successfully used in the USA for a number of years and the American experience (both positive and negative) has been used to inform the debate on the implementation of TIF.

### S106 Agreements

S106 agreements are made with developers / landowners as part of the planning approval process to ensure that new development mitigates its own impact and provides the necessary site specific infrastructure to support it.

These contributions are site specific or can be 'pooled' for a maximum of 5 site specific projects. Any contributions received are 'ring-fenced' for the purpose as set out in the relevant S106 agreement and are applied to fund schemes within the relevant capital programme once an eligible scheme has been identified.

S106 contribution agreements have covered all types of infrastructure including transport, affordable housing, play areas, open spaces, playing fields, public realm and public art. However, since the Council adopted CIL the planning obligations sought within S106 agreements have been scaled back to deal with only site specific requirements, as required by the CIL Regulations. Pooled contributions previously sought for strategic transport, public realm and public open space related obligations are now dealt with by CIL.

The S106 contributions are time limited in that if they are not spent within an agreed timescale, typically 5 – 10 years, dependent on what has been agreed in the S106 agreement and any funds not spent in line with the agreement would have to be repaid to the developer, which, may include interest.

Consideration of available S106 funding should be taken into consideration when agreeing, for example, the roads programme for future years to maximise the use of the available funding and reduce the reliance on other sources of funding, predominantly borrowing. With the exception of funding for affordable housing the other pooled S106 obligations, such as Strategic Transport, Public Realm and Public Open Space will become zero over time as the CIL continues to be applied.

### Community Infrastructure Levy (CIL)

CIL was adopted by the Council in September 2013. CIL contributions are determined by set rates as detailed within the Council's CIL Charging Schedule, and based on the amount of floor space being created by the development. CIL can be used to fund a wide range of infrastructure that is needed as a result of new development but is not site specific, giving more flexibility in where the funding can be used in geographical terms.

The CIL does not replace the requirement of S106 contributions. S106 contributions will still be relevant and will be sought alongside CIL.

The Planning Act and subsequent Community Infrastructure Levy Regulations 2010 (as amended) says that authorities can only spend CIL on providing infrastructure to support the development of their areas. This includes flood defence, open space, recreation and sport,

roads and transport facilities, education and health facilities. However, it does not include affordable housing, which will continue to be funded by S106 obligations. In addition, SCC have opted to continue to seek S106 contributions for transport. All other S106s contributions are now agreed through CIL.

The Localism Act also clarifies that CIL can be spent on the ongoing costs of providing infrastructure, including maintenance works. The funding can be used towards a significant number of the Council's current programmes i.e. School Expansion and the Roads Programme.

The CIL funding can be used to fund existing schemes within the current General Fund capital programme that meet the definition of infrastructure. Capital Board approved, at its meeting on the 22nd October 2015, to treat the CIL monies as a central pot of funding to be allocated as overall council resources to fund the capital programme.

However, it should be noted that 15% (25% if a Neighbourhood Plan is in place) of receipts need to be applied to schemes in the ward that the receipt originated from, in consultation and agreement with the local community.

CIL monies will be allocated to fund key infrastructure schemes within the overall capital programme, future potential investment sites will be identified and options for utilising CIL monies at these sites will be considered within the overarching capital strategy which supports the achievement of Council outcomes, priorities and Executive commitments.

#### Private Finance Initiative (PFI)

Although PFI schemes are not shown within the capital programme as they are not financed by capital resources, PFI is a means by which the Council can facilitate major new infrastructure projects. PFI schemes involve partnerships between the public and private sector to fund public sector infrastructure projects with private capital.

Under PFI, a private sector contractor agrees to accept the risks associated with the design, construction and maintenance of the asset over the contract term, which is typically for a 25 year period. The public sector partner pays an annual fixed price during the contract term, part of which is subject to inflation. At the end of the term, the asset is wholly owned by the Council. The Government has provided significant support for PFI schemes although this has recently reduced in line with the general reduction in funding for the public sector.

No additional PFI projects are anticipated. Any such proposals would be presented to the CCB for evaluation before presentation for Members approval.

## **Resourcing Strategy**

The Council's strategy for deploying resources is to ensure that all resources are being utilised to achieve the Council outcomes, priorities and Executive commitments. As most capital financing can be used for projects at the Council's discretion, then the Council is able to address its own outcomes and priorities to shape the capital programme to a locally rather than a nationally driven agenda.

The Council will ensure that it takes full advantage of the freedom and flexibility arising from the removal of ring fencing of resources to facilitate the achievement of council objectives. All non-ring fenced capital funding and other non-specific Council capital resources, will be considered a Council resource and allocated via the Council Capital Board. This resource will then be managed so that only schemes which can demonstrate the attainment of Council outcomes and priorities will be allocated funds. The Council Capital Board (CCB) will review

the Council Strategy and the Capital Strategy each year to ensure the priorities are aligned making recommendations to Cabinet/Council on the prioritisation of resources for:

- a) The initial capital programme; and
- b) Any subsequent revisions to the capital programme.

Cabinet/Council will make the final decision on the overarching capital programme and will subsequently delegate the updating of the programme and revisions to projects to the Leader of the Council and Cabinet Member for Finance, in conjunction with the Service Director - Finance and Commercialisation (S151 Officer), in order to minimise delays in the capital programme.

The CCB will review the usage of any ring fenced resources to ensure alignment with other spending plans and the maximisation of benefits to the Council.

In determining how non-ring-fenced resources will be allocated the CCB will have regard to:

- The preparation of the statutory Local Transport Plan, and Transport Asset Management Plan (TAMP);
- The preparation of the Asset Management Plan for Schools and Council Buildings to ensure health and safety issues have been dealt with appropriately; and
- The Council's obligation to finance adaptations to the homes of disabled residents. Funding is passported directly to the Better Care Fund along with the Adults Personal Social Services grant. It has been agreed with the CCG that these monies will be retained by the Council, as part of the S75 pooling arrangement detailed in the Revenue Budget Report.

Grant funding allocations notified to the Council also include information about capital maintenance funding for Voluntary Aided (VA) schools. This grant is paid directly to the Church of England and Roman Catholic diocese respectively and is not therefore included within the Councils capital programme. Expenditure undertaken by the Council on VA schools is planned with regard to the availability of contributions from this grant and diocesan resources.

### **SECTION 3 - CAPITAL INVESTMENT AND DISPOSAL APPRAISAL PROCESS**

All capital investment is commissioned by the CCB. This enables all expenditure and it's funding to be better aligned with the Council and City outcomes and priorities as well as that of other partners and funding sources. These partners, from both the public and private sector will be at a regional and district level.

Once initial strategic capital requirements have been identified and prioritised, full business cases are commissioned for the highest priority projects.

For proposals initially commissioned by the CCB the following approvals process will be put in place:

1. Outline Business Case (OBC) which will focus on options appraisal and quantifiable outcomes.
2. Full Business Case (FBC) – the final investment decision. This will focus on the how the priorities set out in the OBC will be delivered, including:
  - a) Project description
  - b) Consultation

- c) Expenditure and funding including whole life costs and revenue implications
- d) Outputs
- e) Any further option appraisal
- f) Value for Money
- g) Delivery
- h) Timescales
- i) Risk Management
- j) Sustainability, Forward strategy and evaluation
- k) Asset Management
- l) Procurement
- m) Equality Impact Assessment
- n) Environmental Impact Assessment

3. Change Requests where delegated tolerance levels will be exceeded.

For proposals that are identified by officers there will be an initial extra step in the process, a 'Bid on a Page' will be a Concept Outline. This will cover the initial concept idea, potential costs and funding sources, links to the Council Strategy and the City Plan, how outcomes will be improved.

The main focus is on projects commissioned by the CCB and therefore, these will be the exceptions.

Where there is already an agreed asset management plan the CCB can choose to request elements of the above business case to come forward as they see fit.

#### How projects are appraised

Capital Projects are appraised using the following criteria:

1. Does the project deliver or facilitate the delivery of a strategic priority outcome?
2. Is it worth planning – is it value for money?
3. Can we afford to progress the project and commit funding?
4. Does the project stimulate or add to economic growth?

Business cases are presented to CCB on the basis that they have had the appropriate clearance by finance, legal, property, and strategy.

## **SECTION 4 - HOW THE CAPITAL REQUIREMENTS ARE PRIORITISED**

Once a project has demonstrated that it meets the Council's strategic outcomes, priorities and Executive commitments and it has been agreed that it is suitable for capital investment, the strategic requirements will be prioritised using the following criteria (it should be noted that these are not mutually exclusive or in ranking order):

The criteria examines if the proposal is:

1. Related to mandatory, contractual or legislative service delivery requirements;
2. Required to achieve the delivery of a specific revenue budget saving within the revenue budget setting process;
3. Required to support Outcome Plan priorities and achieve key objectives;
4. Linked into other regional objectives;
5. Supporting the evolving localism agenda;
6. Reducing costs or backlog maintenance of assets management/estate management;

7. Providing a general revenue saving (not directly linked to the budget cycle) or offering the delivery of a more efficient service;
8. Fully funded from external resources (including project management etc.);
9. Bringing in substantial external resources for which Council matched funding is required

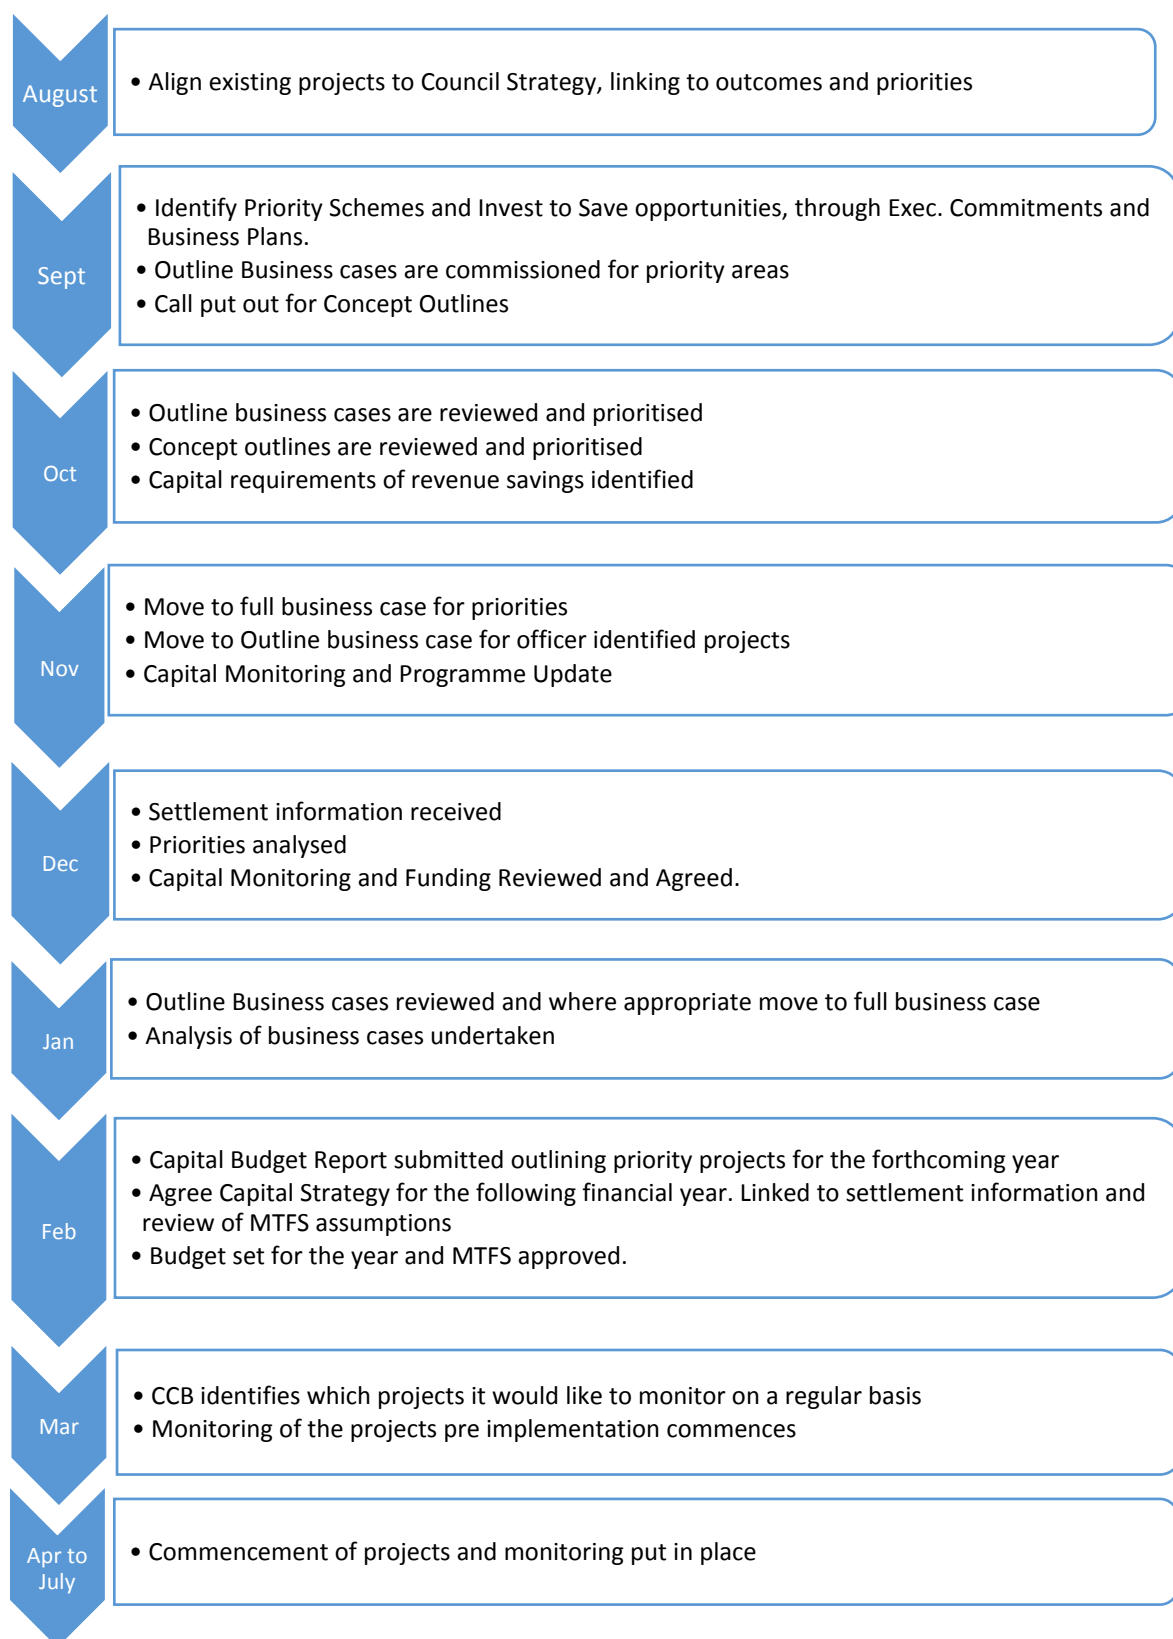

This criteria are reviewed and any changes reported each year in line with the Council Strategy. Following this, a process of commissioning alongside officer requests for funding are undertaken and presented to Members each year as part of the process for approving the capital programme, or during the year if projects come forward outside the normal timeframe.

All projects have to demonstrate that they:

- Deliver the highest impact in achieving the required outcomes;
- Are financially sustainable and any adverse revenue implications can be dealt with within existing budgets, and the whole life cost of the project has been considered;
- Have identified risks and appropriate actions to negate these risks;
- Have identified key milestones;
- Have a full exit strategy identified where the project involves a disposal; and
- Have a method of procurement identified and represents value for money.

## SECTION 5 - CAPITAL PROGRAMME DECISION MAKING CYCLE

The diagram below illustrates the decision making cycle for capital projects and the link to the revenue budget, the Medium Term Financial Strategy, and the Council Strategy

## **SECTION 6 - HOW THE COUNCIL PROCURES ITS CAPITAL PROJECTS**

In January 2018, the Cabinet approved the Council's Procurement Strategy and the Southampton First Policy. The implementation Strategy will ensure that the principles and practices associated with procuring works, goods and services consistently achieve value-for-money and actively contribute to the council's priority outcomes as well as to support the achievement of a modern, sustainable Council.

The Strategy helps to ensure that procurement becomes an enabler of the business and is sufficiently flexible and agile to support the Council to operate in an efficient, compliant and ethical manner to deliver capital projects on time, on budget and to specified quality standards.

Future procurement within the Council will consider the whole of the third party spend across capital and revenue categories and budgets to ensure that the total spend and demand are driven downwards to support the budget challenges. Opportunities to consolidate and aggregate spend and achieve economies of scale will be a key focus. There will be an underpinning principle of commercial focus and a drive to better understand and adapt our approach to the markets through risk and reward strategies and utilising commercial mechanisms which incentivise suppliers.

The Council's strategic partner, Capita, has a specialist procurement function containing experienced procurement professionals who will support the Council's project managers in delivering effective and compliant sourcing of services and works.

This will be coupled with a new and more effective approach to contract management which will ensure the performance of Council's strategic contracts is managed by a specialist team and other key contracts are actively managed by Capita. The Council will ensure that the procurement - contract management – re-procurement process is treated as a linked cycle to help embed a commissioning-style approach to all forms of procurement.

Regional, joint and framework options will be utilised where value for money, an appropriate structure, compliance with the Council's ethical procurement strategy and innovation can be demonstrated.

## **SECTION 7 - HOW THE COUNCIL MONITORS AND MEASURES THE PERFORMANCE OF THE CAPITAL PROGRAMME**

The CCB reviews the financial performance of the capital programme on a monthly basis. Financial monitoring reports are therefore considered by Cabinet on a quarterly basis together with a capital outturn report. Issues that have been considered and recommended by the CCB are reported to Cabinet as necessary via the regular financial monitoring reports. Where a potential cost overrun has been identified, the CCB will explore possible solutions in detail. It will also consider any underspending or identified surplus resources which can be reallocated to other priorities.

Where there is a delay in the commitment of programme/project resources, the CCB requires project managers to report the reasons for the delay and consider whether it would be appropriate to recommend the decommissioning of the project and the reallocation of non-ring-fenced resources to other projects. It is recognised that there may be a potential revenue consequences of doing this due to the capital accounting requirement to transfer abortive costs to revenue.

The Local Capital Board for the Education and HRA programme meet to monitor the implementation and delivery of the individual projects they are responsible for. The CCB decides which projects and programmes it would like to receive a regular progress and performance update on, based around strategic importance and associated risk.

The performance of the capital programme is also measured by the prudential indicators which are reported to Cabinet and Council as part of the Treasury Management Strategy, the Treasury Management half yearly review, and the post year-end review.

## **SECTION 8 - THE COUNCIL CAPITAL BOARD**

The Council Capital Board will be made up of the following members:

- Cabinet Member for Finance (Chair)
- Leader of the Council
- Chief Executive
- Chief Strategy Officer
- Chief Operating Officer
- Service Director - Finance and Commercialisation (S151)
- Cabinet Members
- Service Lead – Corporate Planning & Commercialisation
- Head of Capital Assets

By invite:

- Service Directors
- Project/Programme Managers

The Board meets on a monthly basis to:

- Discuss and recommend actions around developing capital issues;
- Develop the capital strategy;
- Commission the coming years capital programme;
- Review the capital receipts position;
- Review the assets disposal plan;
- Monitor the performance of the capital programme overall;
- Monitor the performance of strategic and high risk projects;
- Periodically review the strategic fit of projects; and
- On an annual basis recommend the tolerance levels for project variations in time to allow the Financial Procedure Rules to be updated and approved by Council.

The full Terms of Reference for the Board are included in the Financial Procedure Rules and will be updated annually to reflect any changes to the Council Capital Board. These are attached as Annex 1.

It should be noted that projects maybe proposed through other boards such as the Joint Commissioning Board. Whilst funding, with the exception of the requirement of Council capital resources, can be approved by these boards, the requests to changes and additions to the programme should still follow the proposed process detailed in the sections above.

**COUNCIL CAPITAL BOARD TERMS OF REFERENCE**

**General**

1. To oversee and endorse the Council's Capital Strategy.
2. To own and oversee the development of, the Council's Capital Programme for both the General Fund and the Housing Revenue Account. Through doing so, and taking a long-term view, the Board should ensure that both individual projects and the programme as a whole is affordable and fits with the Council's vision, priorities and outcomes as laid out in the Council Plan and other inter linked plans and strategies.
3. To develop and regularly review the processes to support a strategic approach to capital investment planning which will justify investment decisions, taking account of the Council priorities within the resources available.
4. To operate according to the approved processes for consideration of all capital expenditure and for new proposed capital projects.
5. To operate as a critical gateway for capital projects put forward for endorsement of concept and for ultimate commitment by the Council.

**On an Annual Basis**

6. To receive bids for inclusion in the Council's Capital Programme.
7. To prioritise all bid submissions.
8. To format a multiyear capital programme taking into account projected available resources for submission to Cabinet and or Council.
9. Receive capital monitoring reports (financial and performance information).
10. Receive asset disposal programme update.

**On a Monthly Basis**

11. Consider all requests for in - year additions and changes to the Capital Programme that are not Officer delegated decisions, in accordance with the limits set out in the Financial Procedure Rules.
12. To review all in - year additions and changes to the Capital Programme that have been made as Officer delegated decisions, in accordance with the limits set out in the Financial Procedure Rules.
13. To oversee, monitor and authorise the progression of capital projects through key stages (to include receiving reports from established project, programme or capital boards as appropriate, and approving variations to schemes).

**On an Adhoc Basis**

14. Review prioritisation and adequacy of existing scoring mechanism.
15. Review systems of pre-project evaluation including project appraisal and business case justification.

16. Review systems of post project evaluation and application to all completed schemes.
17. To review at appropriate points major projects during the construction stage.
18. To receive post-implementation review presentations after the completion of major projects.

The Council Capital Board will be made up of the following members:

- Cabinet Member for Finance (Chair)
- Leader of the Council
- Chief Executive
- Chief Operating Officer
- Chief Strategy Officer
- Service Director - Finance and Commercialisation (S151)
- Cabinet Members
- Service Lead – Corporate Planning & Commercialisation
- Head of Capital Assets

By invite:

- Service Directors
- Project/Programme Managers

<b>DECISION-MAKER:</b>	GOVERNANCE COMMITTEE COUNCIL		
<b>SUBJECT:</b>	TREASURY MANAGEMENT STRATEGY AND PRUDENTIAL LIMITS 2018/19 TO 2021/22		
<b>DATE OF DECISION:</b>	12 FEBRUARY 2018 21 FEBRUARY 2018		
<b>REPORT OF:</b>	SERVICE DIRECTOR FINANCE AND COMMERCIALISATION (S151)		
<b><u>CONTACT DETAILS</u></b>			
<b>AUTHOR:</b>	<b>Name:</b>	<b>Sue Cuerden</b>	<b>Tel: 023 8083 4153</b>
	<b>E-mail:</b>	<b>sue.cuerden@southampton.gov.uk</b>	
<b>Director</b>	<b>Name:</b>	<b>Mel Creighton</b>	<b>Tel: 023 8083 4897</b>
	<b>E-mail:</b>	<b>mel.creighton@southampton.gov.uk</b>	
<b>STATEMENT OF CONFIDENTIALITY</b>			
NOT APPLICABLE			
<b>BRIEF SUMMARY</b>			
<p>With overall annual expenditure in excess of £600M and an extensive capital programme, the Council is required to actively manage its cash-flows on a daily basis. The requirement to invest or to borrow monies to finance capital programmes, and to cover daily operational needs is an integral part of daily cash and investment portfolio management.</p>			
<p>This report explains the context within which the Council's treasury management activity operates and sets out a proposed strategy for the coming year in relation to the Council's cash flow, investment and borrowing, and the management of the numerous risks related to this activity.</p>			
<p>The core elements of the 2018/19 strategy are :</p> <ul style="list-style-type: none"> <li>• To continue to make use of short term variable rate debt to take advantage of the current market conditions of low interest rates.</li> <li>• To constantly review longer term forecasts and to lock into longer term rates through a variety of instruments as appropriate during the year, in order to provide a balanced portfolio against interest rate risk.</li> <li>• To secure the best short term rates for borrowing and investments consistent with maintaining flexibility and liquidity within the portfolio.</li> <li>• To invest surplus funds prudently, the Council's priorities being: <ul style="list-style-type: none"> <li>- Security of invested capital</li> <li>- Liquidity of invested capital</li> <li>- An optimum yield which is commensurate with security and liquidity.</li> </ul> </li> <li>• To approve borrowing limits that provide for debt restructuring opportunities and to pursue debt restructuring where appropriate and within the Council's risk boundaries.</li> </ul>			

<ul style="list-style-type: none"> <li>To approve the 2018 Minimum Revenue Provision (MRP) Statement</li> </ul>		
<b>RECOMMENDATIONS:</b>		
<b>GOVERNANCE COMMITTEE</b>		
<b>It is recommended that Governance Committee:</b>		
	(i)	Endorse the Treasury Management (TM) Strategy for 2018/19 as outlined in the report.
	(ii)	Endorse the 2018 Minimum Revenue Provision (MRP) Statement as detailed in paragraphs 85 to 94.
	(iii)	Note that the indicators as reported have been set on the assumption that the recommendations in the Capital update report will be approved by Council on 21 February 2018. Should the recommendations change, the Prudential Indicators may have to be recalculated.
	(iv)	Note that due to the timing of this report, changes may still be required following the finalisation of capital and revenue budgets and therefore any significant changes to this report will be highlighted in the final version that is presented to Full Council.
<b>COUNCIL</b>		
<b>It is recommended that Council:</b>		
	(i)	Approve the Council's Treasury Management (TM) Strategy and Prudential Indicators for 2018/19, 2019/20, 2020/21 and 2021/22, as detailed within the report.
	(ii)	Approve the 2018 Minimum Revenue Provision (MRP) Statement as detailed in paragraphs 85 to 94 and to delegate authority to the Chief Financial Officer (CFO) to approve any changes necessary that aid good financial management whilst maintaining a prudent approach.
	(iii)	Approve the Annual Investment Strategy as detailed in paragraphs 43 to 66.
	(iv)	Note that at the time of writing this report the recommendations in the Capital update report, submitted to Council on the 21 February 2018, have not yet been approved. The indicators in the report are based on the assumption that they will be approved, but should the recommendations change, the Prudential Indicators may have to be recalculated.
	(v)	Continue to delegate authority to the Chief Financial Officer (CFO) to approve any changes to the Prudential Indicators, Minimum Revenue Provision or borrowing limits that will aid good treasury management. For example, agreeing an increase in the percentage for variable rate borrowing to take advantage of the depressed market for short term rates. Any amendments will be reported to cabinet as part of quarterly financial and performance monitoring and in revisions to the TM Strategy.
<b>REASONS FOR REPORT RECOMMENDATIONS</b>		
1.	In order to comply with Part 1 of the Local Government Act 2003, and the established TM procedures that have been adopted by the Council, each year the	

	<p>Council must set certain borrowing limits and approve TM Strategy which includes:</p> <ul style="list-style-type: none"> <li>• Treasury Management Strategy for 2018/19: <ul style="list-style-type: none"> <li>○ Borrowing – Paragraphs 30 to 41,</li> <li>○ Debt Rescheduling – Paragraph 42</li> <li>○ Investments – Paragraphs 43 to 66</li> </ul> </li> <li>• Treasury Management Indicators – Paragraphs 67 to 83</li> <li>• MRP Statement – Paragraphs 85 to 94</li> <li>• Other Prudential Indicators – Paragraphs 95 to 117</li> </ul>
<b>ALTERNATIVE OPTIONS CONSIDERED AND REJECTED</b>	
2.	Alternative options for borrowing would depend on decisions taken on the review of the General Fund & Housing Revenue Account Capital Strategy and Programme update report being taken at Full Council on 21 February 2018.
<b>DETAIL (Including consultation carried out)</b>	
	<b>CONSULTATION</b>
3.	The proposed General Fund & Housing Revenue Account Capital Strategy and Programme Update report on which this report is based has been subject to separate consultation processes.
	<b>BACKGROUND</b>
4.	The Local Government Act 2003 introduced a system for borrowing based largely on self-regulation by local authorities themselves. The basic principle of the new system is that local authorities will be free to borrow as long as their capital spending plans are affordable, prudent and sustainable.
5.	As per the requirements of the Prudential code, the Council adopted the CIPFA Treasury Management Code at its Council meeting on 19 February 2003 and all its subsequent updates. The latest one being <i>Treasury Management in the Public Services: Code of Practice 2011 Edition</i> in February 2012.
6.	<p>CIPFA published revised editions of the Treasury Management and Prudential Codes in December 2017.</p> <p>The Council is currently considering the changes from the 2011 Code for incorporation into future Treasury Management Strategies and monitoring reports. However, Minimum Revenue Provision (MRP) changes have been incorporated into the Medium Term Financial Strategy &amp; Budget report which will be reported to Council February 2018, as the changes result in a pressure in 2018/19 and future years.</p>
7.	In addition, the Ministry of Housing, Communities and Local Government (MHCLG) issued revised <i>Guidance on Local Authority Investments</i> in March 2010 that requires the Council to approve an investment strategy before the start of each financial year.
8.	This report fulfils the Council's legal obligation under the Local Government Act 2003 to have regard to both the CIPFA code and the MHCLG guidance.
9.	Overall responsibility for treasury management remains with the Council. No TM activity is without risk; the effective identification and management of risk are integral to the Council's treasury management objectives. The council has

	<p>borrowed and invested substantial sums of money and is therefore exposed to financial risks including the loss of invested funds and the revenue effect of changing interest rates. Our current policy is shown in appendix 1. This report covers treasury activity and the associated monitoring and control of risk.</p>		
10.	<p>The purpose of this Treasury Management Strategy (TMS) is to allow Council to approve:</p> <ul style="list-style-type: none"> <li>• Treasury Management Strategy for 2018/19</li> <li>• Annual Investment Strategy 2018/19</li> <li>• Prudential Indicators for 2018/19 to 2021/22</li> <li>• 2018 MRP Statement</li> </ul>		
11.	<p>The strategy takes into account the impact of the Council's Revenue Budget and Capital Programme on the Balance Sheet position, the Prudential Indicators and the current and projected Treasury position (Appendix 2). The outlook for interest rates (Appendix 3) has also been taken into account in developing this strategy</p>		
12.	<p>The Council acknowledges that effective TM will provide support towards the achievement of its business and service objectives. It is therefore committed to the principles of achieving value for money in TM, and to employing suitable comprehensive performance measurement techniques, within the context of effective risk management. To aid the Council in carrying out its TM function, it has appointed TM Advisors (Arlingclose), who advise the Council on strategy and provide market information to aid decision making. However it should be noted that the decisions are taken independently by the CFO taking into account this advice and other internal and external factors.</p>		
13.	<p>In accordance with the MHCLG Guidance, the Council will be asked to approve a <i>revised Treasury Management Strategy Statement</i> should the assumptions on which this report is based change significantly. Such circumstances would include, for example, a large unexpected change in interest rates; material change to the Council's capital programme or in the level of its investment balance.</p> <p>It should be noted that once the arrangements regarding the Local Authority Trading Company (LATCo) have been finalised it is expected that the strategy will need to be updated.</p>		
14.	<p>The MHCLG Guidance and the CIPFA Code do not prescribe any particular treasury management strategy for local authorities to adopt. The Council believes that the above strategy represents an appropriate balance between risk management and cost effectiveness. Some alternative strategies, with their financial and risk management implications, are listed below.</p>		
	Options	Impact on income and expenditure	Impact on risk management
	Invest in a narrower range of counterparties and/or for shorter times	Interest income will be lower	Lower chance of losses from credit related defaults, but any such losses may be greater
	Invest in a wider range of counterparties and/or for longer times	Interest income will be higher	Increased risk of losses from credit related defaults, but any such losses will be smaller

	Borrow additional sums at long-term fixed interest rates	Debt interest costs will rise; this is unlikely to be offset by higher investment income	Higher investment balance leading to a higher impact in the event of a default; however long-term interest costs will be more certain
	Borrow short-term or variable loans instead of long-term fixed rates	Debt interest costs will initially be lower	In the medium term, increases in debt interest costs will be broadly offset by rising investment income in but long term costs will be less certain
	Reduce level of borrowing	Saving on debt interest is likely to exceed lost investment income	Reduced investment balance leading to a lower impact in the event of a default; however long-term interest costs will be less certain
<b><u>Economic Background</u></b>			
15.	The major external influence on the Council's treasury management strategy for 2018/19 will be the UK's progress in negotiating it's exit from the European Union and agreeing future trading arrangements.		
16.	The domestic economy has remained relatively robust since the outcome of the 2016 referendum, but there are indications that uncertainty over the future is now weighing on growth. Transitional arrangements may prevent a cliff-edge, but will also extend the period of uncertainty for several years. Economic growth is therefore forecast to remain sluggish throughout 2018/19.		
17.	Consumer price inflation reached 3.0% in September 2017 as the post-referendum devaluation of sterling continued to feed through to imports. Unemployment continued to fall and the Bank of England's Monetary Policy Committee judged that the extent of spare capacity in the economy seemed limited and the pace at which the economy can grow without generating inflationary pressure had fallen over recent years. With its inflation-control mandate in mind, the Bank of England's Monetary Policy Committee raised official interest rates to 0.5% in November 2017.		
18.	In contrast, the US economy is performing well and the Federal Reserve is raising interest rates in regular steps to remove some of the emergency monetary stimulus it has provided for the past decade. The European Central Bank is yet to raise rates, but has started to taper its quantitative easing programme, signalling some confidence in the Eurozone economy.		
<b><u>Credit Outlook</u></b>			
19.	High profile bank failures in Italy and Portugal have reinforced concerns over the health of the European banking sector. Sluggish economies and fines for pre-crisis behaviour continue to weigh on bank profits, and any future economic slowdown will exacerbate concerns in this regard.		
20.	Bail-in legislation, which ensures that large investors including local authorities will rescue failing banks instead of taxpayers in the future, has now been fully implemented in the European Union, Switzerland and USA, while Australia and Canada are progressing with their own plans. In addition, the largest UK banks will ring-fence their retail banking functions into separate legal entities during 2018. There remains some uncertainty over how these changes will impact upon the credit strength of the residual legal entities.		

21.	The credit risk associated with making unsecured bank deposits has therefore increased relative to the risk of other investment options available to the Council; returns from cash deposits however remain very low.
	<b><u>Interest Rate Forecast</u></b>
22.	The Council's treasury management advisor's, Arlingclose, central case is for UK Bank Rate to remain at 0.50% during 2018/19, following the rise from the historic low of 0.25%. The Monetary Policy Committee re-emphasised that any prospective increases in Bank Rate would be expected to be at a gradual pace and to a limited extent.
23.	Future expectations for higher short term interest rates are subdued and on-going decisions remain data dependant and negotiations on exiting the EU cast a shadow over monetary policy decisions. The risks to Arlingclose's forecast are broadly balanced on both sides. The Arlingclose central case is for gilt yields to remain broadly stable across the medium term.
24.	A more detailed economic and interest rate forecast provided by Arlingclose is attached at Appendix 3
25.	For the purpose of setting the budget, it has been assumed that new investments will be made at an average rate of 0.39% for short term and 4.50% for long term (average of 2.8%) , and that new long-term loans taken over the period of the strategy will be borrowed at an average rate of 2.92%.
	<b>BALANCE SHEET SUMMARY AND FORECAST</b>
26.	The underlying need to borrow for capital purposes is measured by the Capital Financing Requirement (CFR), while usable reserves and working capital are the underlying resources available for investment. The Council's current strategy is to maintain borrowing and investments below their underlying levels, sometimes known as internal borrowing.
27.	At 31/12/2017 the Council held £321M of debt (£244M borrowing plus £77M other long term liabilities) and £69M investments which is set out in further detail in Appendix 2.
28.	Forecast changes in these sums are shown in the balance sheet analysis in <b>Table 1</b> below.
29.	<p><b>Table 1</b> shows that the Council will:</p> <ul style="list-style-type: none"> <li>• Comply with this recommendation;</li> <li>• That the Council has an increasing CFR due to the impact of the capital programme;</li> <li>• Decreasing investments; and</li> <li>• Will need to borrow over the forecast period.</li> </ul>

	<b>Table 1: Balance sheet Summary and Forecast</b>

	<b>BORROWING STRATEGY</b>																																																																														
30.	<p>The Council currently holds £244M of loans a decrease of £16M since the 31<sup>st</sup> March 2017 and reflects the current strategy of only borrowing when cash flows dictate, thus lowering both borrowing costs and investment risk. The estimated forecast as shown in Appendix 4, table 4 is that based on the current capital programme and expected cash flows, the Council expects to borrow £266M by 31<sup>st</sup> March 2018, this is an additional £22M (see appendix 2) and a further £41M in 2018/19 bringing estimated borrowing to £307M.</p> <p>If it was cost effective the Council could also borrow additional sums to pre-fund future years' requirements, providing this does not exceed the authorised limit for borrowing.</p>																																																																														
	<b><u>Objectives</u></b>																																																																														
31.	<p>The Council's chief objective when borrowing money is to strike an appropriately low risk balance between securing low interest costs and achieving certainty of those costs over the period for which funds are required. The flexibility to renegotiate loans should the Council's long-term plans change is a secondary objective.</p>																																																																														
	<b><u>Strategy</u></b>																																																																														
32.	<p>Given the significant cuts to public expenditure and in particular to local government funding, the Council's borrowing strategy continues to address the key issue of affordability without compromising the longer-term stability of the debt portfolio. With short-term interest rates currently much lower than long-term rates, it is likely to be more cost effective in the short-term to either use internal resources, or to borrow short-term loans instead.</p>																																																																														
33.	<p>Affordability and the "cost of carry" remain important influences on the Council's borrowing strategy alongside the consideration that, for any borrowing undertaken ahead of need, the proceeds would have to be invested in the money markets at rates of interest significantly lower than the cost of borrowing. As short-term interest rates are likely to remain, at least over the period of 2017/18 and 2018/19, lower than long-term rates, the Council determines it will be more cost effective in the short-term to use internal resources and will look to</p>																																																																														

	borrow short-term loans instead From 2019/20 the Medium Term Financial Strategy assumes that the majority of new borrowing will be on a long term basis.
34.	By doing so, the Council is able to reduce net borrowing costs (despite foregone investment income) and reduce overall treasury risk. The benefits of internal and short-term borrowing will be monitored regularly against the potential for incurring additional costs by deferring borrowing into future years when long-term borrowing rates are forecast to rise modestly. Arlingclose will assist the Council with this 'cost of carry' and breakeven analysis. Its output may determine whether the Council borrows additional sums at long-term fixed rates in 2018/19 with a view to keeping future interest costs low, even if this causes additional cost in the short-term.
35.	Alternatively, the Council may arrange forward starting loans during 2018/19, where the interest rate is fixed in advance, but the cash is received in later years. This would enable certainty of cost to be achieved without suffering a cost of carry in the intervening period.  In addition, the Council may borrow further short-term loans to cover unexpected cash flow shortages.
	<b><u>Sources</u></b>
36.	The approved sources of long-term and short-term borrowing are: <ul style="list-style-type: none"> <li>• Public Works Loan Board (PWLB) and any successor body</li> <li>• any institution approved for investments (see below)</li> <li>• any other bank or building society authorised to operate in the UK</li> <li>• UK public and private sector pension funds (except HCC Pension Fund)</li> <li>• capital market bond investors</li> <li>• UK Municipal Bonds Agency plc and other special purpose companies created to enable local Council bond issues</li> </ul>
37.	In addition, capital finance may be raised by the following methods that are not borrowing, but may be classed as other debt liabilities: <ul style="list-style-type: none"> <li>• operating and finance leases</li> <li>• hire purchase</li> <li>• Private Finance Initiative</li> <li>• sale and leaseback</li> </ul>
38.	The Council has previously raised the majority of its long-term borrowing from the PWLB but it continues to investigate other sources of finance, such as local Council loans and bank loans which may be available at more favourable rates.
39.	UK Municipal Bonds Agency plc (MBA) was established in 2014 by the Local Government Association as an alternative to the PWLB. It plans to issue bonds on the capital markets and lend the proceeds to local authorities. This will be a more complicated source of finance than the PWLB for two reasons: <ul style="list-style-type: none"> <li>• Borrowing authorities may be required to provide bond investors with a joint and several guarantee over the very small risk that other local Council borrowers default on their loans; and</li> <li>• There will be a lead time of several months between committing to borrow and knowing the interest rate payable.</li> </ul>

	A report setting out in full the details, options and risks of the MBA was considered by full Council on 10 February 2016 and any initial proposal to borrow from the Agency will therefore need to be the subject of a separate report to both Governance Committee and Full Council.
	<b><u>Lender's Option Borrower's Option Loans (LOBOs)</u></b>
40.	The Council holds £9M of LOBO loans where the lender has the option to propose an increase in the interest rate at set dates, following which the Council has the option to either accept the new rate or to repay the loan at no additional cost. All of these LOBOS have options during 2018/19 and although the Council understands that lenders are unlikely to exercise their options in the current low interest rate environment, there remains an element of refinancing risk. The Council will take the option to repay LOBO loans at no cost if it has the opportunity to do so.
	<b><u>Short Term and Variable Rates</u></b>
41.	Included within the PWLB portfolio is £35M of variable rate Loans, which are currently averaging 0.45% and are helping to keep the overall cost of borrowing down. Whilst in the current climate of low interest rates this remains a sound strategy, these loans leave the Council exposed to the risk of short-term interest rate rises and are therefore subject to the limit on the net exposure to variable interest rates in the treasury management indicators (paragraph 70), the Council review these regularly and if appropriate will switch into fixed rate loans.
	<b><u>Debt Rescheduling</u></b>
42.	The PWLB allows authorities to repay loans before maturity and either pay a premium or receive a discount according to a set formula based on current interest rates. Other lenders may also be prepared to negotiate premature redemption terms. The Council may take advantage of this and replace some loans with new loans, or repay loans without replacement, where this is expected to lead to an overall cost saving or a reduction in risk.
	<b>INVESTMENT STRATEGY</b>
43.	The Council holds significant invested funds, representing income received in advance of expenditure plus balances and reserves held. During the financial year the Council's investment balances have ranged between £58M and £101M and are currently £69M as at 31 <sup>st</sup> December 2017. Projected balances indicate that on present levels of spend balances will be lower than last year, but this will be dependent on any borrowing decisions taken. Where balances are expected to be invested for more than one year, the Council will aim to achieve a total return that is equal or higher than the prevailing rate of inflation, in order to maintain the spending power of the sum invested, however it should be noted that a lower rate is an acceptable offset for higher credit and less risk, for example a covered bond.
44.	As a result of the second Markets in Financial Instruments Directive (MiFID II), from 3rd January 2018 local authorities will be treated as retail clients but can "opt up" to professional client status, providing that they meet certain criteria which includes having an investment balance of at least £10 million and the person(s) authorised to make investment decisions on behalf of the Council have at least a year's relevant professional experience. In addition, the regulated financial services firms to whom this directive applies must assess that

	that person(s) have the expertise, experience and knowledge to make investment decisions and understand the risks involved. The Council has met the conditions to opt up to professional status and has done so in order to maintain its MiFID II status prior to January 2018. As a result, the Council will continue to have access to products including money market funds, pooled funds, treasury bills, bonds, shares and to financial advice.
	<b><u>Objectives</u></b>
45.	Both the CIPFA Code and the MHCLG Guidance require the Council to invest its funds prudently, and to have regard to the security and liquidity of its investments before seeking the highest rate of return, or yield. The Council's objective when investing money is to strike an appropriate balance between risk and return, minimising the risk of incurring losses from defaults and the risk of receiving unsuitably low investment income. Where balances are expected to be invested for more than one year, the Council will aim to achieve a total return that is equal or higher than the prevailing rate of inflation, in order to maintain the spending power of the sum invested, however it should be noted that a lower rate is an acceptable offset for higher credit and less risk, for example a covered bond.
	<b><u>Negative Interest Rates</u></b>
46.	If the UK enters into a recession in 2018/19, there is a small chance that the Bank of England could set its Bank Rate at or below zero, which is likely to feed through to negative interest rates on all low risk, short-term investment options. This situation already exists in many other European countries. In this event, security will be measured as receiving the contractually agreed amount at maturity, even though this may be less than the amount originally invested.
	<b><u>Strategy</u></b>
47.	Given the increasing risk and very low returns from short-term unsecured bank investments, the Council aims to continue to diversify into more secure and/or higher yielding asset classes during 2018/19. This is especially the case for the estimated £40M that is available for longer-term investment. Appendix 2 shows the makeup of the Council's current investments.
	<b><u>Approved Counterparties</u></b>
48.	The Council may invest its surplus funds with any of the following counterparty types, subject to the cash limits (per counterparty) and time limits detailed below. This is the absolute limit and the working limit will be monitored against actual cash flows and movement on reserves together with advice from our financial advisors and will be adjusted each quarter as necessary in agreement with the CFO.

	<b>Table 2: Approved Investment counterparties and Limits</b>

49.	<b>Credit Rating:</b> Investment limits are set by reference to the lowest published long-term credit rating from Fitch, Moody’s or Standard & Poor’s. Where available, the credit rating relevant to the specific investment or class of investment is used, otherwise the counterparty credit rating is used. However, investment decisions are never made solely based on credit ratings, and all other relevant factors including external advice will be taken into account.																																																																								
50.	<b>Banks Unsecured:</b> Accounts, deposits, certificates of deposit and senior unsecured bonds with banks and building societies, other than multilateral development banks. These investments are subject to the risk of credit loss via a bail-in should the regulator determine that the bank is failing or likely to fail. See paragraph 56 for arrangements relating to operational bank accounts.																																																																								
51.	<b>Banks Secured:</b> Covered bonds, reverse repurchase agreements and other																																																																								

	collateralised arrangements with banks and building societies. These investments are secured on the bank's assets, which limits the potential losses in the unlikely event of insolvency, and means that they are exempt from bail-in. Where there is no investment specific credit rating, but the collateral upon which the investment is secured has a credit rating, the highest of the collateral credit rating and the counterparty credit rating will be used to determine cash and time limits. The combined secured and unsecured investments in any one bank will not exceed the cash limit for secured investments.
52.	<b>Government:</b> Loans, bonds and bills issued or guaranteed by national governments, regional and local authorities and multilateral development banks. These investments are not subject to bail-in, and there is an insignificant risk of insolvency. Investments with the UK Central Government may be made in unlimited amounts for up to 50 years.
53.	<b>Corporates:</b> Loans, bonds and commercial paper issued by companies other than banks and registered providers. These investments are not subject to bail-in, but are exposed to the risk of the company going insolvent. Loans to unrated companies will only be made either following an external credit assessment or to a maximum of £1M per company as part of a diversified pool in order to spread the risk widely.
54.	<b>Registered Providers:</b> Loans and bonds issued by, guaranteed by or secured on the assets of Registered Providers of Social Housing, formerly known as Housing Associations. These bodies are tightly regulated by the Homes and Communities Agency and, as providers of public services, they retain the likelihood of receiving government support if needed.
55.	<p><b>Pooled Funds:</b> Shares in diversified investment vehicles consisting of any of the above investment types, plus equity shares and property. These funds have the advantage of providing wide diversification of investment risks, coupled with the services of a professional fund manager in return for a fee. Short-term Money Market Funds that offer same-day liquidity very low or no volatility will be used as an alternative to instant access bank accounts, while pooled funds whose value changes with market prices and/or have a notice period will be used for longer investment periods.</p> <p>Bond, equity and property funds offer enhanced returns over the longer term, but are more volatile in the short term. These allow the Council to diversify into asset classes other than cash without the need to own and manage the underlying investments. Because these funds have no defined maturity date, but are available for withdrawal after a notice period, their performance and continued suitability in meeting the Council's investment objectives will be monitored regularly.</p> <p>The Council has invested £27M in property funds. These offer the potential for enhanced returns over the longer term, but may be more volatile in the shorter term and are managed by professional fund managers which allows the Authority to diversify into asset classes.</p>
56.	<b>Operational bank accounts:</b> The Council may incur operational exposures, for example through current accounts, collection accounts and merchant acquiring services, to any UK bank with credit ratings no lower than BBB- and with assets greater than £25 billion. These are not classed as investments, but are still subject to the risk of a bank bail-in, and balances will therefore be kept to a

	<p>minimum. The Bank of England has stated that in the event of failure, banks with assets greater than £25 billion are more likely to be bailed-in than made insolvent, increasing the chance of the Council maintaining operational continuity.</p>
57.	<p>The Chief Financial Officer (CFO), under delegated powers, will undertake the most appropriate form of investments in keeping with the investment objectives, income and risk management requirements and Prudential Indicators. Decisions taken on the core investment portfolio will be reported quarterly to Cabinet.</p>
	<p><b><u>Risk Assessment and Credit Ratings</u></b></p>
58.	<p>Credit ratings are obtained and monitored by the Council's treasury advisers, who will notify changes in ratings as they occur. Where an entity has its credit rating downgraded so that it fails to meet the approved investment criteria then:</p> <ul style="list-style-type: none"> <li>• no new investments will be made,</li> <li>• any existing investments that can be recalled or sold at no cost will be, and</li> <li>• full consideration will be given to the recall or sale of all other existing investments with the affected counterparty.</li> </ul> <p>Where a credit rating agency announces that a rating is on review for possible downgrade (also known as "rating watch negative" or "credit watch negative") so that it may fall below the approved rating criteria, then only investments that can be withdrawn on the next working day will be made with that organisation until the outcome of the review is announced. This policy will not apply to negative outlooks, which indicate a long-term direction of travel rather than an imminent change of rating.</p>
	<p><b><u>Other Information on the Security of Investments</u></b></p>
59.	<p>The Council understands that credit ratings are good, but not perfect, predictors of investment default. Full regard will therefore be given to other available information on the credit quality of the organisations in which it invests, including credit default swap prices, financial statements, information on potential government support and reports in the quality financial press. No investments will be made with an organisation if there are substantive doubts about its credit quality, even though it may meet the credit rating criteria.</p>
60.	<p>When deteriorating financial market conditions affect the creditworthiness of all organisations, as happened in 2008 and 2011, this is not generally reflected in credit ratings, but can be seen in other market measures. In these circumstances, the Council will restrict its investments to those organisations of higher credit quality and reduce the maximum duration of its investments to maintain the required level of security. The extent of these restrictions will be in line with prevailing financial market conditions. If these restrictions mean that insufficient commercial organisations of high credit quality are available to invest the Council's cash balances, then the surplus will be deposited with the UK Government, via the Debt Management Office or invested in government treasury bills for example or with other local authorities. This will cause a reduction in the level of investment income earned, but will protect the principal sum invested.</p>
	<p><b><u>Specified Investments</u></b></p>

61.	<p>The MHCLG Guidance defines specified investments as those:</p> <ul style="list-style-type: none"> <li>• denominated in pound sterling,</li> <li>• due to be repaid within 12 months of arrangement,</li> <li>• not defined as capital expenditure by legislation, and</li> <li>• invested with one of: <ul style="list-style-type: none"> <li>○ the UK Government,</li> <li>○ a UK local Council, parish council or community council, or</li> <li>○ a body or investment scheme of “high credit quality”.</li> </ul> </li> </ul> <p>The Council defines “high credit quality” organisations as those having a credit rating of A- or higher that are domiciled in the UK or a foreign country with a sovereign rating of AA+ or higher. For money market funds and other pooled funds “high credit quality” is defined as those having a credit rating of A- or higher.</p>												
	<b><u>Non-Specified Treasury Investments</u></b>												
62.	<p>Any investment not meeting the definition of a specified investment is classed as non-specified. The Council does not intend to make any investments denominated in foreign currencies, nor any that are defined as capital expenditure by legislation, such as company shares. Non-specified Treasury investments will therefore be limited to long-term investments, i.e. those that are due to mature 12 months or longer from the date of arrangement, and investments with bodies and schemes not meeting the definition on high credit quality. Limits on non-specified investments are shown in Table 3 below.</p>												
	<p><b>Table 3 – Non Specified Investment Limits</b></p> <table> <tr> <th></th><th><b>Cash Limit</b></th></tr> <tr> <td>Total long-term investments</td><td>£20M</td></tr> <tr> <td>Total investments without credit ratings or rated below A-</td><td>£30M</td></tr> <tr> <td>Total investments in foreign countries rated below AA+</td><td>£5M</td></tr> <tr> <td></td><td></td></tr> <tr> <td><b>Total non-specified investments</b></td><td><b>£55M</b></td></tr> </table>		<b>Cash Limit</b>	Total long-term investments	£20M	Total investments without credit ratings or rated below A-	£30M	Total investments in foreign countries rated below AA+	£5M			<b>Total non-specified investments</b>	<b>£55M</b>

Total investments without credit ratings or rated below A-	£30M												
Total investments in foreign countries rated below AA+	£5M												
<b>Total non-specified investments</b>	<b>£55M</b>												
63.	<p><b>Investment Limits:</b> The Council’s revenue reserves and balances available to cover investment losses (excluding Schools, capital and HRA) are forecast to be £69.7M at 31st March 2018. In order that there is no immediate pressure on available reserves in the case of a single default, the maximum that will be lent to any one organisation (other than the UK Government and property funds) will be £10M. A group of banks under the same ownership will be treated as a single organisation for limit purposes. Limits will also be placed on fund managers, investments in brokers’ nominee accounts, foreign countries and industry sectors in table 4 below. Investments in pooled funds and multilateral development banks do not count against the limit for any single foreign country, since the risk is diversified over many countries.</p>												

<b>Table 4 –Investment Limits</b>

Loans to unrated corporates	£1M in total																						
Money Market Funds**	£10M* per fund and no more than 0.50% of any investments fund in total for non-government funds																						
<p><i>*This is the absolute limit and the working limit will be monitored against actual cash flows and movement on reserves together with advice from our financial advisors and will be adjusted each quarter as necessary in agreement with the CFO.</i></p> <p><i>**We would not normally invest more than 50% of our overall investment portfolio in MMF on the advice of our advisors, however as part of our revised strategy to reduce short term investments and move into longer term investments, there will be occasions as bonds mature when this limit is exceeded. This advice is with regards to cash flow risk, however we feel this is mitigated by spreading over a number of funds and not just the highest yielding ones and having funds in other instant access accounts. In addition money can be borrowed short term from the market on the day.</i></p>																							
<b><u>Liquidity Management</u></b>																							
64.	The Council undertakes high level cash flow forecasting to determine the maximum period for which funds may prudently be committed. The forecast is compiled on a prudent basis to minimise the risk of the Council being forced to borrow on unfavourable terms to meet its financial commitments. Limits on long-term investments are set by reference to the Council's medium term financial plan and cash flow forecast.																						
<b><u>Non Treasury Investments</u></b>																							
65.	Although not classed as treasury management activities and therefore not covered by the existing CIPFA Code or the MHCLG Guidance, the Council may																						

	also purchase property for investment purposes and may also make loans and investments for service purposes. As part of the new code which is being considered by the Council there will be a need to include indicators for these investments in future reports.																				
66.	Such loans and investments will be subject to the Council's normal approval processes for revenue and capital expenditure and at the time of writing need not comply with this treasury management strategy.																				
	<b><u>TREASURY MANAGEMENT INDICATORS</u></b>																				
67.	The Council measures and manages its exposure to treasury management risks using the following indicators.																				
	<b><u>Security</u></b>																				
68.	<p>The Council has adopted a voluntary measure of its exposure to credit risk by monitoring the value-weighted average credit rating of its investment portfolio. This is calculated by applying a score to each investment (AAA=1, AA+=2, etc.) and taking the arithmetic average, weighted by the size of each investment. Unrated investments are assigned a score based on their perceived risk.</p> <table><tr><td></td><td><b>Target</b></td></tr><tr><td>Portfolio average credit rating</td><td>A</td></tr></table>		<b>Target</b>	Portfolio average credit rating	A																
	<b>Target</b>																				
Portfolio average credit rating	A																				
	<b><u>Liquidity</u></b>																				
69.	The Council has adopted a voluntary measure of its exposure to liquidity risk by monitoring the amount of cash available to meet unexpected payments and has set a £10M minimum threshold on cash available in instant access accounts, if balances were to fall below this limit we would consider taking short term loans which are available without given prior notice and at competitive rates.																				
	<b><u>Interest Rate Exposure</u></b>																				
70.	This indicator is set to control the Council's exposure to interest rate risk. The upper limits on fixed and variable rate interest rate exposures. Fixed rate investments and borrowings are those where the rate of interest is fixed for at least 12 months, measured from the start of the financial year or the transaction date if later. All other instruments are classed as variable rate.																				
	<b>Table 5– Upper Limits for Fixed and Variable Interest Rate Exposure</b>																				
	<table><tr><th></th><th>2018/19 Estimate</th><th>2019/20 Estimate</th><th>2020/21 Estimate</th><th>2021/22 Estimate</th></tr><tr><th></th><th>%</th><th>%</th><th>%</th><th>%</th></tr><tr><td>Upper Limit for Fixed Interest Rate Exposure</td><td>100</td><td>100</td><td>100</td><td>100</td></tr><tr><td>Upper Limit for Variable Interest Rate Exposure</td><td>50</td><td>50</td><td>50</td><td>50</td></tr></table>		2018/19 Estimate	2019/20 Estimate	2020/21 Estimate	2021/22 Estimate		%	%	%	%	Upper Limit for Fixed Interest Rate Exposure	100	100	100	100	Upper Limit for Variable Interest Rate Exposure	50	50	50	50

			<b>244.15</b>	<b>3.30</b>	<b>100.00</b>																																																																	
	<b><u>Principal Sums Invested for Periods Longer than 364 days</u></b>																																																																					
74.	The purpose of this indicator is to control the Council’s exposure to the risk of incurring losses by seeking early repayment of its investments. The limits on the long-term principal sum invested to final maturities beyond the period end is shown in <b>Table 8</b> .																																																																					

	<b>Table 8 – Principal Sums Invested for Periods Longer than 364 days</b>

Limit on principal invested beyond year end	40.60	37.60	33.00	30.00	30.00								
	<b><u>OTHER ITEMS</u></b>												
75.	There are a number of additional items that the Council is obliged by CIPFA or MHCLG to include in its Treasury Management Strategy.												
	<b><u>Policy on Use of Financial Derivatives</u></b>												
76.	Local authorities have previously made use of financial derivatives embedded into loans and investments both to reduce interest rate risk (e.g. interest rate collars and forward deals) and to reduce costs or increase income at the expense of greater risk (e.g. LOBO loans and callable deposits). The general power of competence in Section 1 of the Localism Act 2011 removes much of the uncertainty over local authorities' use of standalone financial derivatives (i.e. those that are not embedded into a loan or investment).												
77.	The Council will only use standalone financial derivatives (such as swaps, forwards, futures and options) where they can be clearly demonstrated to reduce the overall level of the financial risks that the Council is exposed to. Additional risks presented, such as credit exposure to derivative counterparties, will be taken into account when determining the overall level of risk. Embedded derivatives, including those present in pooled funds and forward starting transactions, will not be subject to this policy, although the risks they present will be managed in line with the overall treasury risk management strategy.												
78.	Financial derivative transactions may be arranged with any organisation that meets the approved investment criteria. The current value of any amount due from a derivative counterparty will count against the counterparty credit limit and the relevant foreign country limit.												
	<b><u>Housing Revenue Account Self-Financing</u></b>												
79.	On 1st April 2012, the Council notionally split each of its existing long-term loans into General Fund and HRA pools. In the future, new long-term loans borrowed will be assigned in their entirety to one pool or the other. Interest payable and other costs/income arising from long-term loans (e.g. premiums and discounts on early redemption) will be charged/ credited to the respective revenue account.												
80.	Differences between the value of the HRA loans pool and the HRA's underlying need to borrow (adjusted for HRA balance sheet resources available for investment) will result in a notional cash balance. This balance will be measured and interest transferred between the General Fund and HRA at an agreed rate. Housing Legislation does not allow impairment losses to be charged to the HRA and consequently any credit related losses on the Council's												

	investments will be borne by the General Fund alone. It is therefore appropriate that the General Fund is compensated for bearing this risk, and all interest transferred to the HRA should be adjusted downwards. The rate will be based on investments with the Debt Management Office. The rate of return on comparable investments with the government is lower and often referred to as the risk-free rate.
	<b><u>Training</u></b>
81.	<p>CIPFA's Code of Practice requires the CFO to ensure that all Members tasked with TM responsibilities, including scrutiny of the TM function, receive appropriate training relevant to their needs and understand fully their roles and responsibilities.</p> <p>The Council adopts a continuous performance and development programme to ensure staff are regularly appraised and any training needs addressed. Relevant staff also attend regular training sessions, seminars and workshops which ensure their knowledge is up to date. Details of training received are maintained as part of the performance and development process.</p>
	<b><u>Treasury Management Advisors</u></b>
82.	<p>The MHCLG's Guidance on local government investments recommends that the Investment Strategy should state:</p> <p>Whether and, if so, how the Council uses external contractors offering information, advice or assistance relating to investment and</p> <p>How the quality of any such service is controlled.</p> <p>The Council has a contract in place with Arlingclose Limited as treasury advisory service and receives the following services:</p> <ul style="list-style-type: none"> <li>• Credit advice</li> <li>• Investment advice</li> <li>• Technical advice</li> <li>• Economic &amp; interest rate forecasts</li> <li>• Workshops and training events</li> <li>• HRA support</li> <li>• Ad hoc advice</li> </ul> <p>The Council maintains the quality of the service with its advisors by holding quarterly meetings and tendering periodically. It should also be noted that decisions are taken independently by the CFO taking into account this advice and other internal and external factors.</p>
	<b><u>Investment of Money Borrowed in Advance of Need</u></b>
83.	<p>The Council may, from time to time, borrow in advance of need, where this is expected to provide the best long term value for money. Since amounts borrowed will be invested until spent, the Council is aware that it will be exposed to the risk of loss of the borrowed sums, and the risk that investment and borrowing interest rates may change in the intervening period. These risks will be managed as part of the Council's overall management of its treasury risks. The total amount borrowed will not exceed the authorised borrowing limit for the period. The maximum period between borrowing and expenditure is expected to be two years, although the Council is not required to link particular loans with</p>

	particular items of expenditure.
--	----------------------------------

	<b><u>FINANCIAL IMPLICATIONS</u></b>
84.	<p>The budget for borrowing costs in 2018/19 is £14.6M. This is made up of borrowing of £8.2M based on an average debt portfolio of £310.5M at an average interest rate of 2.63% plus MRP and other costs of £6.4M. Investment income for 2018/19 is budgeted at £1.4M based on an average portfolio of £50M at an average of 2.80%.</p> <p>If actual levels of investments and borrowing, and/or interest rates differ from those forecast, performance against budget will be correspondently different.</p>
	<b><u>2018/19 MINIMUM REVENUE PROVISION (MRP) STATEMENT</u></b>
85.	<p>Where the Council finances capital expenditure by debt, it must put aside resources to repay that debt in later years. The amount charged to the revenue budget for the repayment of debt is known as Minimum Revenue Provision (MRP), although there has been no statutory minimum since 2008. The Local Government Act 2003 requires the Council to have regard to the Department for Communities and Local Government's Guidance on Minimum Revenue Provision (the MHCLG Guidance) most recently issued in 2012.</p>
86.	<p>The broad aim of the MHCLG guidance is to ensure that debt is repaid over a period that is either reasonably commensurate with that over which the capital expenditure provides benefits, or, in the case of borrowing supported by Government Revenue Support Grant, reasonably commensurate with the period implicit in the determination of that grant. This guidance is currently subject to consultation and any subsequent amendments required will be built into future reports.</p>
87.	<p>The MHCLG Guidance requires the Council to approve an Annual MRP Statement each year. For borrowing prior to the prudential regime we use the regulatory method (over a 50 year life) and for prudential borrowing the asset life method.</p>
88.	<p>The exception to this is investment properties acquired as part of the Property Investment Fund which have been purchased with a view to generating long term rental income streams to support the delivery of Council services in the future and reduce dependence on Central Government funding, in this case we have adopted the depreciation method.</p> <p>As investment properties these assets are valued each year and any downward movement in the value for the year (i.e. depreciation) will be spread over the remaining life of the asset as a charge to revenue in lieu of MRP.</p> <p>Following the update of the Treasury Management Code of Practice, which comes into effect from 2018/19, it will no longer be possible to charge a 'nil' MRP for these properties. The assets will revert back to the regularity method detailed in paragraph 87 above. The Financial impact of this has been built into the update of the Medium Term Financial Strategy and Budget Update report being reported to Council in February 2018.</p>
89.	<p>We will continue to review MRP and it is proposed that delegated powers should be given to the CFO to change the proposed methods to aid good financial</p>

	management whilst maintaining a prudent approach. Any changes to the original MRP Statement during the year will be reported as part of quarterly financial and performance monitoring and in revisions to the TM strategy as part of the year end and midyear reviews.																																																												
90.	Following the HRA self-financing settlement, HRA debt increased from £100M to £174M with a borrowing cap of £200M. There is no requirement for the HRA to make debt repayments but it has opted to make voluntary repayments relating to debt inherited at the split and provision has been made within its business plan to show that it can pay down the remaining debt over the life of the 30 year business plan.																																																												
91.	MRP in respect of leases and Private Finance Initiative schemes brought on Balance Sheet under the International Financial Reporting Standards (IFRS) based Accounting Code of Practice will match the annual principal repayment for the associated deferred liability.																																																												
92.	Capital expenditure incurred during 2018/19 and funded from borrowing will not be subject to a MRP charge until 2019/20.																																																												
93.	Based on the Council's latest estimate of its Capital Financing Requirement on 31 March 2018 the budget for MRP has been set on the assumption that we will be using the regulatory method for borrowing prior to the prudential regime (over the remainder of a 50 year life) and using the asset life method for prudential borrowing where it applies. As previously reported the Council has been taking a holiday from MRP payments due to over provision in the past, the balance of which will be used during 2018/19.																																																												
94.	The current and estimated levels of MRP and CFR are shown in <b>Table 9</b> below:																																																												
	<table><tr><th></th><th>31/03/2017 Actual CFR £M</th><th>2017/18 MRP Liability £M</th><th>31/03/2018 Estimated CFR £M</th><th>2018/19 Estimated MRP £M</th></tr><tr><td>Capital expenditure before 01.04.2008</td><td>97.78</td><td>1.70</td><td>97.78</td><td>1.70</td></tr><tr><td>Unsupported capital expenditure after 31.03.2008</td><td>147.61</td><td>3.65</td><td>162.12</td><td>4.01</td></tr><tr><td>Transferred debt</td><td>14.92</td><td>0.36</td><td>14.55</td><td>0.36</td></tr><tr><td>Finance leases and Private Finance Initiative</td><td>62.25</td><td>1.84</td><td>60.42</td><td>2.10</td></tr><tr><td><b>Total General Fund CFR and MRP Liability</b></td><td><b>322.56</b></td><td><b>7.55</b></td><td><b>334.87</b></td><td><b>8.17</b></td></tr><tr><td>MRP Holiday</td><td></td><td>(5.35)</td><td></td><td>(0.67)</td></tr><tr><td><b>Net General Fund CFR and MRP Liability (Table 11)</b></td><td><b>322.56</b></td><td><b>2.20</b></td><td><b>334.87</b></td><td><b>7.50</b></td></tr><tr><td>Assets in the Housing Revenue Account</td><td>126.86</td><td>Nil</td><td>140.95</td><td>Nil</td></tr><tr><td>HRA subsidy reform payment</td><td>36.40</td><td>5.51</td><td>30.89</td><td>5.50</td></tr><tr><td><b>Total Housing Revenue Account (Table 17)</b></td><td><b>163.26</b></td><td><b>5.51</b></td><td><b>171.84</b></td><td><b>5.50</b></td></tr><tr><td><b>Total</b></td><td><b>485.82</b></td><td><b>7.71</b></td><td><b>506.71</b></td><td><b>13.00</b></td></tr></table>		31/03/2017 Actual CFR £M	2017/18 MRP Liability £M	31/03/2018 Estimated CFR £M	2018/19 Estimated MRP £M	Capital expenditure before 01.04.2008	97.78	1.70	97.78	1.70	Unsupported capital expenditure after 31.03.2008	147.61	3.65	162.12	4.01	Transferred debt	14.92	0.36	14.55	0.36	Finance leases and Private Finance Initiative	62.25	1.84	60.42	2.10	<b>Total General Fund CFR and MRP Liability</b>	<b>322.56</b>	<b>7.55</b>	<b>334.87</b>	<b>8.17</b>	MRP Holiday		(5.35)		(0.67)	<b>Net General Fund CFR and MRP Liability (Table 11)</b>	<b>322.56</b>	<b>2.20</b>	<b>334.87</b>	<b>7.50</b>	Assets in the Housing Revenue Account	126.86	Nil	140.95	Nil	HRA subsidy reform payment	36.40	5.51	30.89	5.50	<b>Total Housing Revenue Account (Table 17)</b>	<b>163.26</b>	<b>5.51</b>	<b>171.84</b>	<b>5.50</b>	<b>Total</b>	<b>485.82</b>	<b>7.71</b>	<b>506.71</b>	<b>13.00</b>

	<p><b><u>MONITORING AND REPORTING ON THE ANNUAL TREASURY OUTTURN AND OTHER PRUDENTIAL INDICATORS</u></b></p>																																																												

95.	<p>The Chief Financial Officer will report to the Governance Committee on TM activity / performance as follows:</p> <ul style="list-style-type: none"> <li>(a) A mid-year review against the strategy approved for the year.</li> <li>(b) An outturn report on its treasury activity, no later than 30 September after the financial year end.</li> </ul>
96.	In addition, a quarterly update will be presented to Cabinet as part of Quarterly Revenue Financial Monitoring.

	<b><u>PRUDENTIAL INDICATORS</u></b>
	<b><u>Background</u></b>
97.	<p>The Local Government Act 2003 requires the Council to have regard to the Chartered Institute of Public Finance and Accountancy's Prudential Code for Capital Finance in Local Authorities (the Prudential Code) when determining how much money it can afford to borrow. The objectives of the Prudential Code are to ensure, within a clear framework, that the capital investment plans of local authorities are affordable, prudent and sustainable, and that treasury management decisions are taken in accordance with good professional practice. To demonstrate that the Council has fulfilled these objectives, the Prudential Code sets out the following indicators that must be set and monitored each year.</p>
	<b><u>Gross Debt and the Capital Financing Requirement</u></b>
98.	<p>This is a key indicator of prudence. In order to ensure that over the medium term debt will only be for a capital purpose, the local Council should ensure that debt does not, except in the short term, exceed the total of CFR in the preceding year plus the estimates of any additional capital financing requirement for the current and next two financial years. This view takes into account current commitments, existing plans and the proposals in the approved budget.</p>
99.	<p>There is a significant difference between the gross external borrowing requirement and the net external borrowing requirement represented by the Council's level of balances, reserves, provisions and working capital. The Council's current strategy is only to borrow to the level of its net borrowing requirement. The reasons for this are to reduce credit risk, take pressure off the Council's lending list and also to avoid the cost of carry existing in the current interest rate environment.</p>
100.	<p>The estimated gross debt and capital financing requirement is shown in the tables below:</p> <p><b>Table 10 – Current and Estimated Movement in Gross Debt</b></p>

	<table><tr><th>Gross Debt</th><th>31/03/2017 Actual £M</th><th>31/03/2018 Forecast £M</th><th>31/03/2019 Forecast £M</th><th>31/03/2020 Forecast £M</th><th>31/03/2021 Forecast £M</th><th>31/03/2022 Forecast £M</th></tr><tr><td>Borrowing B/Fwd</td><td>96.40</td><td>96.40</td><td>94.51</td><td>124.18</td><td>127.55</td><td>144.72</td></tr><tr><td>Maturing Debt</td><td></td><td>(21.15)</td><td>(25.21)</td><td>(73.87)</td><td>(20.02)</td><td>(11.43)</td></tr><tr><td>New Borrowing Requirement (<i>Appendix 4 Table 1</i>)</td><td></td><td>19.26</td><td>54.88</td><td>77.24</td><td>37.19</td><td>40.22</td></tr><tr><td><b>Total General Fund Borrowing</b></td><td><b>96.40</b></td><td><b>94.51</b></td><td><b>124.18</b></td><td><b>127.55</b></td><td><b>144.72</b></td><td><b>173.51</b></td></tr><tr><td>HRA Borrowing B/Fwd</td><td>163.25</td><td>163.25</td><td>171.84</td><td>182.69</td><td>181.40</td><td>182.25</td></tr><tr><td>Maturing Debt</td><td></td><td>(20.35)</td><td>(34.43)</td><td>(62.78)</td><td>(9.25)</td><td>(1.32)</td></tr><tr><td>New Borrowing Requirement (<i>Appendix 4 Table 2</i>)</td><td></td><td>28.94</td><td>45.28</td><td>61.49</td><td>10.10</td><td>0.00</td></tr><tr><td><b>Total HRA Borrowing</b></td><td><b>163.25</b></td><td><b>171.84</b></td><td><b>182.69</b></td><td><b>181.40</b></td><td><b>182.25</b></td><td><b>180.93</b></td></tr><tr><td><b>Total Borrowing</b></td><td><b>259.65</b></td><td><b>266.35</b></td><td><b>306.87</b></td><td><b>308.95</b></td><td><b>326.97</b></td><td><b>354.44</b></td></tr><tr><td>Finance leases and Private Finance Initiatives</td><td>62.26</td><td>60.42</td><td>58.32</td><td>55.30</td><td>52.13</td><td>48.56</td></tr><tr><td>Transferred Debt</td><td>14.92</td><td>14.55</td><td>14.19</td><td>13.82</td><td>13.46</td><td>13.07</td></tr><tr><td><b>Total Debt</b></td><td><b>336.83</b></td><td><b>341.32</b></td><td><b>379.38</b></td><td><b>378.07</b></td><td><b>392.56</b></td><td><b>416.07</b></td></tr></table>	Gross Debt	31/03/2017 Actual £M	31/03/2018 Forecast £M	31/03/2019 Forecast £M	31/03/2020 Forecast £M	31/03/2021 Forecast £M	31/03/2022 Forecast £M	Borrowing B/Fwd	96.40	96.40	94.51	124.18	127.55	144.72	Maturing Debt		(21.15)	(25.21)	(73.87)	(20.02)	(11.43)	New Borrowing Requirement ( <i>Appendix 4 Table 1</i> )		19.26	54.88	77.24	37.19	40.22	<b>Total General Fund Borrowing</b>	<b>96.40</b>	<b>94.51</b>	<b>124.18</b>	<b>127.55</b>	<b>144.72</b>	<b>173.51</b>	HRA Borrowing B/Fwd	163.25	163.25	171.84	182.69	181.40	182.25	Maturing Debt		(20.35)	(34.43)	(62.78)	(9.25)	(1.32)	New Borrowing Requirement ( <i>Appendix 4 Table 2</i> )		28.94	45.28	61.49	10.10	0.00	<b>Total HRA Borrowing</b>	<b>163.25</b>	<b>171.84</b>	<b>182.69</b>	<b>181.40</b>	<b>182.25</b>	<b>180.93</b>	<b>Total Borrowing</b>	<b>259.65</b>	<b>266.35</b>	<b>306.87</b>	<b>308.95</b>	<b>326.97</b>	<b>354.44</b>	Finance leases and Private Finance Initiatives	62.26	60.42	58.32	55.30	52.13	48.56	Transferred Debt	14.92	14.55	14.19	13.82	13.46	13.07	<b>Total Debt</b>	<b>336.83</b>	<b>341.32</b>	<b>379.38</b>	<b>378.07</b>	<b>392.56</b>	<b>416.07</b>

	<b>Total Financing &amp; Funding</b>	<b>93.36</b>	<b>121.90</b>	<b>65.13</b>	<b>67.44</b>	<b>63.49</b>
	<b><u>Ratio of Financing Costs to Net Revenue Stream</u></b>					
103.	This is an indicator of affordability and highlights the revenue implications of existing and proposed capital expenditure by identifying the proportion of the revenue budget required to meet borrowing costs. The ratio is based on the forecast of net revenue expenditure in the medium term financial model. The upper limit for this ratio is currently set at 10% and will remain so for the General Fund to allow for known borrowing decisions in the next two years and to allow for additional borrowing affecting major schemes. The table below shows the likely position based on the proposed capital programme.					
104.	This indicator is not so relevant for the HRA, especially since the introduction of self-financing, as financing costs have been built into their 30 year business plan, including the voluntary payment of MRP, which is the main contributor for the increase in 2019/20 and 2020/21. No problem is seen with the affordability but if problems were to arise then the HRA would have the option not to make principle repayments in the early years.					
	<b>Table 13 – Ratio of Financing Costs to Net Revenue Stream</b>					
105.	<b>Ratio of Financing Costs to Net Revenue Stream</b>	<b>2016/17* Actual %</b>	<b>2017/18* Forecast %</b>	<b>2018/19* Forecast %</b>	<b>2019/20 Forecast %</b>	<b>2020/21 Forecast %</b>
	General Fund	8.56	7.79	8.06	9.74	9.90
	HRA	14.12	15.02	15.86	33.04	20.96
	<b>Total</b>	<b>11.17</b>	<b>10.59</b>	<b>11.06</b>	<b>17.47</b>	<b>14.28</b>
	<i>*Includes MRP due for the year to reflect true impact of borrowing, they have not been adjusted to reflect the MRP holiday taken.</i>					
	<b><u>Incremental Impact of Capital Investment Decisions</u></b>					
106.	This is an indicator of affordability that shows the impact of capital investment decisions on Council Tax and Housing Rent levels. The incremental impact is calculated by comparing the total revenue budget requirement (i.e. Interest and MRP) of the current approved capital programme with an equivalent calculation arising from the proposed programme. The incremental impact of capital investments decisions are shown below. These figures exclude any borrowing taken for Invest to Save schemes, as borrowing costs will be offset by income					

	generation.						
	Table 14– Incremental Impact of Capital Investment Decisions						
107.	Incremental Impact of Capital Investment Decisions	2017/18 Forecast	2018/19 Estimate	2018/19 Estimate	2019/20 Estimate	2020/21 Estimate	
		£	£	£	£	£	
	Increase / (Decrease) per average number of equivalent band D properties for Council Tax purposes	(3.01)	(9.95)	(4.25)	3.51	16.15	
	Increase / (Decrease) in Average Weekly Housing Rents	(34.48)	(25.57)	(11.32)	(40.65)	(22.30)	
108.	It should be noted that these indicators are for illustrative purposes only and show the amount per equivalent band D properties that this change would equate to since the last capital update reported in November2017.						
109.	As per the General Fund these indicators are illustrative as HRA rent levels are currently set under the Government’s rent restructuring formula, which is independent of the level of capital investment and borrowing. The calculation of the indicator ignores this factor.						
	Authorised Limit and Operational Boundary for External Debt						
110.	The Council has an integrated treasury management strategy and manages its treasury position in accordance with its approved strategy and practice. Overall borrowing will therefore arise as a consequence of all the financial transactions of the Council and not just those arising from capital spending reflected in the CFR.						
111.	<p>The <b>Authorised Limit</b> sets the maximum level of external borrowing on a gross basis (i.e. excluding investments) for the Council. It is measured on a daily basis against all external borrowing items on the Balance Sheet (i.e. long and short term borrowing, overdrawn bank balances and long term liabilities). This Prudential Indicator separately identifies borrowing from other long term liabilities such as finance leases. It is consistent with the Council’s existing commitments, its proposals for capital expenditure and financing and its approved treasury management policy statement and practices.</p> <p>The Authorised Limit has been set on the estimate of the most likely, prudent but not worst case scenario with sufficient headroom over and above this to allow for unusual cash movements, for example a complete debt restructure which requires monies to be borrowed in advance of repayment of existing debt. The Authorised Limit is the statutory limit determined under Section 3(1) of the Local Government Act 2003 (referred to in the legislation as the Affordable Limit).</p>						
	Table 15 – Authorised Limit for External Debt						
112.	Authorised Limit for External Debt	Actual 31 December 2017	2017/18 Approved	2018/19 Estimate	2019/20 Estimate	2020/21 Estimate	2021/22 Estimate
		£M	£M	£M	£M	£M	£M
	Borrowing	244	817	785	657	650	794

	Other Long-term Liabilities	77	81	75	73	70	66
	<b>Total</b>	<b>321</b>	<b>898</b>	<b>860</b>	<b>730</b>	<b>720</b>	<b>860</b>
113.	The <b>Operational Boundary</b> is linked directly to the Council's estimates of the CFR and estimates of other day to day cash flow requirements. This indicator is based on the same estimates as the Authorised Limit reflecting the most likely, prudent but not worst case scenario but without the additional headroom included within the Authorised Limit which allows for a full debt restructure if a favourable opportunity arose.						
	<b>Table 16—Operational Boundary for External Debt</b>						
114.	<b>Operational Boundary for External Debt</b>	<b>Actual 31 December 2017 £M</b>	<b>2017/18 Approved £M</b>	<b>2018/19 Estimate £M</b>	<b>2019/20 Estimate £M</b>	<b>2020/21 Estimate £M</b>	<b>2021/22 Estimate £M</b>
	Borrowing	263	566	705	599	602	658
	Other Long-term Liabilities	78	81	75	73	70	66
	<b>Total</b>	<b>341</b>	<b>647</b>	<b>780</b>	<b>672</b>	<b>672</b>	<b>724</b>
115.	The CFO has delegated authority, within the above limits for any individual year, to effect movement between the separately agreed limits for borrowing and other long term liabilities. Decisions will be based on the outcome of financial option appraisals and best value considerations. Council will be notified of any use of this delegated Authority.						
	<b>HRA Limit on Indebtedness</b>						
116.	Local authorities are required to report the level of the HRA CFR compared to the level of debt which is imposed (or subsequently amended) by the MHCLG at the time of implementation of self – financing. The HRA is still within the HRA Debt Cap set by MHCLG of £199.6M.

<b>RESOURCE IMPLICATIONS</b>							

<b><u>Capital/Revenue</u></b>	
118.	The revenue and capital implications are considered as part of ongoing monitoring which is reported to Cabinet each quarter and as part of the budget setting process.
<b><u>Property/Other</u></b>	
119.	None
<b>LEGAL IMPLICATIONS</b>	
<b><u>Statutory power to undertake proposals in the report:</u></b>	
120.	Local Authority borrowing is regulated by Part 1, of the Local Government Act 2003, which introduced the new Prudential Capital Finance System.

121.	<p>From 1 April 2004, investments are dealt with, not in secondary legislation, but through guidance. Similarly, there is guidance on prudent investment practice, issued by the Secretary of State under Section 15(1) (a) of the 2003 Act.</p> <p>A local authority has the power to invest for "any purpose relevant to its functions under any enactment or for the purposes of the prudent management of its financial affairs". The reference to the "prudent management of its financial affairs" is included to cover investments, which are not directly linked to identifiable statutory functions but are simply made in the course of treasury management.</p> <p>This also allows the temporary investment of funds borrowed for the purpose of expenditure in the reasonably near future; however, the speculative procedure of borrowing purely in order to invest and make a return remains unlawful.</p>
<b><u>Other Legal Implications:</u></b>	
122.	None
<b>POLICY FRAMEWORK IMPLICATIONS</b>	
123.	This report has been prepared having regard with the CIPFA Code of Practice on Treasury Management.

<b>KEY DECISION?</b>	No	
<b>WARDS/COMMUNITIES AFFECTED:</b>	None	
<b><u>SUPPORTING DOCUMENTATION</u></b>

## **TREASURY MANAGEMENT POLICY STATEMENT**

### **1. INTRODUCTION AND BACKGROUND**

- 1.1. In accordance with CIPFA's Code of Practice for Treasury Management in the Public Services the Council has regard to the key recommendations when determining the current strategy.
- 1.2. Accordingly, the Council will create and maintain, as the cornerstones for effective treasury management:-
  - A treasury management policy statement, stating the policies, objectives and approach to risk management of its treasury management activities
  - Suitable Treasury Management Practices (TMPs), setting out the manner in which the Council will seek to achieve those policies and objectives, and prescribing how it will manage and control those activities.
- 1.3. The Council (i.e. full Council) will receive reports on its treasury management policies, practices and activities including, as a minimum, an annual strategy and plan in advance of the year, a mid-year review and an annual report after its close, in the form prescribed in its TMPs.
- 1.4. The Council delegates responsibility for the implementation and monitoring of its treasury management policies and practices to Governance Committee and for the execution and administration of treasury management decisions to the Chief Financial Officer, who will act in accordance with the organisation's policy statement and TMPs and CIPFA's Standard of Professional Practice on Treasury Management.
- 1.5. The Council nominates Governance Committee to be responsible for ensuring effective scrutiny of the treasury management strategy and policies.

### **2. POLICIES AND OBJECTIVES OF TREASURY MANAGEMENT ACTIVITIES**

- 2.1. The Council defines its treasury management activities as:

*"The management of the Council's investments and cash flows, its banking, money market and capital market transactions; the effective control of the risks associated with those activities; and the pursuit of optimum performance consistent with those risks."*

- 2.2. This Council regards the successful identification, monitoring and control of risk to be the prime criteria by which the effectiveness of its treasury management activities will be measured. Accordingly, the analysis and reporting of treasury

management activities will focus on their risk implications for the organisation, and any financial instruments entered into to manage these risks.

- 2.3. This Council acknowledges that effective treasury management will provide support towards the achievement of its business and service objectives. It is therefore committed to the principles of achieving value for money in treasury management, and to employing suitable performance measurement techniques, within the context of effective risk management.
- 2.4. The Council's borrowing will be affordable, sustainable and prudent and consideration will be given to the management of interest rate risk and refinancing risk. The source from which the borrowing is taken and the type of borrowing should allow the Council transparency and control over its debt.
- 2.5. The Council's primary objective in relation to investments remains the security of capital. The liquidity or accessibility of the Authority's investments followed by the yield earned on investments remain important but are secondary considerations.

### ECONOMIC AND INTEREST OUTLOOK

The economic interest rate outlook provided by the Council's treasury advisor, Arlingclose Ltd, for January 2018 is detailed in table 1 below. The Council will reappraise its strategy from time to time and, if needs be, realign it with evolving market conditions and expectations for future interest rates.

**Table 1 – Economic Interest Rate Outlook**

### Underlying Assumptions:

- In a 7-2 vote, the MPC increased Bank Rate in November 2017 in line with market expectations to 0.5%. Market rate expectations are broadly unchanged since the rise and policymakers continue to emphasise that any prospective increases in Bank Rate would be expected to be at a gradual pace and to a limited extent.
- Further potential movement in Bank Rate is reliant on economic data and the likely outcome of the EU negotiations. Policymakers have downwardly assessed the supply capacity of the UK economy, suggesting inflationary growth is more likely. However, the MPC will be wary of raising rates much further amid low business and household confidence.
- The UK economy faces a challenging outlook as the government continues to negotiate the country's exit from the European Union. While recent economic data has improved, it has done so from a low base: UK Q3 2017 GDP growth was 0.4%, after a 0.3% expansion in Q2. Forecasts for future GDP growth have generally been revised downwards.

- Household consumption growth, the driver of recent UK GDP growth, has softened following a contraction in real wages, despite both saving rates and consumer credit volumes indicating that some households continue to spend in the absence of wage growth. Policymakers have expressed concern about the continued expansion of consumer credit; any action taken will further dampen household spending.
- More recent labour market data suggested that employment has plateaued, although house prices (outside London) appear to be relatively resilient. However, both of these factors can also be seen in a negative light, displaying the structural lack of investment in the UK economy post financial crisis.
- The depreciation in sterling may assist the economy to rebalance away from spending. Export volumes will increase, helped by a stronger Eurozone economic expansion.
- Near-term global growth prospects have continued to improve and broaden, and expectations of inflation are subdued. Central banks are moving to reduce the level of monetary stimulus.

#### **Forecast:**

- The MPC has increased Bank Rate but future expectations for higher short term interest rates are subdued. On-going decisions remain data dependant and negotiations on exiting the EU cast a shadow over monetary policy decisions.
- The Arlingclose central case for Bank Rate is 0.5% over the medium term. The risks to the forecast are broadly balanced on both sides.
- The Arlingclose central case is for gilt yields to remain broadly stable across the medium term. Upward movement will be limited, although the UK government's seemingly deteriorating fiscal stance is an upside risk.

### GLOSSARY OF TREASURY TERMS

#### **Amortised Cost Accounting:**

Values the asset at its purchase price, and then subtracts the premium/adds back the discount linearly over the life of the asset. The asset will be valued at par at its maturity.

#### **Asset Life Method - MRP:**

As detailed under MRP, this is a charge to revenue to repay capital expenditure financed by borrowing. There are a number of options for a prudent provision for new borrowing under the Prudential system (for which no Government support is being given and is therefore self-financed) including the option to make provision over the estimated life of the asset for which the borrowing is undertaken.

#### **Authorised Limit (Also known as the Affordable Limit):**

A statutory limit that sets the maximum level of external borrowing on a gross basis (i.e. not net of investments) for the Council. It is measured on a daily basis against all external borrowing items on the Balance Sheet (i.e. long and short term borrowing, overdrawn bank balances and long term liabilities).

#### **Balances and Reserves:**

Accumulated sums that are maintained either earmarked for specific future costs or commitments or generally held to meet unforeseen or emergency expenditure.

#### **Bail - in Risk:**

Following the financial crisis of 2008 when governments in various jurisdictions injected billions of dollars into banks as part of bail-out packages, it was recognised that bondholders, who largely remained untouched through this period, should share the burden in future by making them forfeit part of their investment to "bail in" a bank before taxpayers are called upon.

A bail-in takes place before a bankruptcy and under current proposals, regulators would have the power to impose losses on bondholders while leaving untouched other creditors of similar stature, such as derivatives counterparties. A corollary to this is that bondholders will require more interest if they are to risk losing money to a bail-in.

#### **Bank Rate:**

The official interest rate set by the Bank of England's Monetary Policy Committee and what is generally termed at the "base rate". This rate is also referred to as the 'repo rate'.

#### **Basis Point:**

A unit of measure used in finance to describe the percentage change in the value or rate of a financial instrument. One basis point is equivalent to 0.01% (1/100th of a percent). In most cases, it refers to changes in **interest rates** and **bond yields**. For example, if interest rates rise by 25 basis points, it means that rates have risen by 0.25% percentage points. If rates were at 2.50%, and rose by 0.25%, or 25 basis points, the new interest rate would be 2.75%. In the bond market, a basis point is used to refer to the yield that a bond pays to the investor. For example, if a bond yield moves from 5.45% to 5.65%, it is said to have risen by 20 basis points. The usage of the basis point measure is primarily used in respect to yields and interest rates, but it may also be used to refer to the percentage change in the value of an asset such as a stock.

**Bond:**

A certificate of debt issued by a company, government, or other institution. The bond holder receives interest at a rate stated at the time of issue of the bond. The repayment date is also set at the onset but can be traded during its life, but this will affect the price of a bond which may vary during its life.

**Capital Expenditure:**

Expenditure on the acquisition, creation or enhancement of capital assets.

**Capital Financing Requirement (CFR):**

The CFR is simply the total historic outstanding capital expenditure which has not yet been paid for from either revenue or capital resources. It is essentially a measure of the Council's underlying borrowing need.

**Certainty Rate:**

The government has reduced by 20 basis points (0.20%) the interest rates on loans via the Public Works Loan Board (PWLb) to principal local authorities who provide information as specified on their plans for long-term borrowing and associated capital spending.

**CD's:**

Certificates of Deposits with banks and building societies

**Capital Receipts:**

Money obtained on the sale of a capital asset.

**Comprehensive Spending Review (CSR):**

Comprehensive Spending Review is a governmental process in the United Kingdom carried out by **HM Treasury** to set firm expenditure limits and, through public service agreements, define the key improvements that the public can expect from these resources. Spending Reviews typically focus upon one or several aspects of public spending while the CSR focuses upon each government department's spending requirements from a zero base (i.e. without reference to past plans or, initially, current expenditure).

**Constant Net Asset Value (CNAV)**

These are Money Market Funds which maintain a stable price of £1 per share when investors redeem or purchase shares which mean that any investment will not fluctuate in value.

**Corporate Bonds:**

Corporate bonds are bonds issued by companies. The term is often used to cover all bonds other than those issued by governments in their own currencies and includes issues by companies, supranational organisations and government agencies.

**Cost of Carry:**

The "cost of carry" is the difference between what is paid to borrow compared to the interest which could be earned. For example, if one takes out borrowing at 5% and invests the money at 1.5%, there is a cost of carry of 3.5%.

**Counterparty List:**

List of approved financial institutions with which the Council can place investments with.

**Covered Bond:**

Covered bonds are debt securities backed by cash flows from mortgages or public sector loans. They are similar in many ways to asset-backed securities created in securitisation, but covered bond assets remain on the issuer's consolidated balance sheet (usually with an appropriate capital charge). The covered bonds continue as obligations of the issuer (often a bank); in essence, the investor has recourse against the issuer and the collateral, sometimes known as "dual recourse."

**CPI :**

Consumer Price Index – the UK's main measure of inflation.

**CPIH:**

Additional measure of consumer price inflation including a measure of owner occupiers' housing costs

**Credit Rating:**

Formal opinion by a registered rating agency of a counterparty's future ability to meet its financial liabilities; these are opinions only and not guarantees.

**Department for Communities and Local Government (DCLG) :**

The DCLG is the UK Government department for Communities and Local Government in England. It was established in May 2006 and is the successor to the Office of the Deputy Prime Minister, established in 2001.

**Debt Management Office (DMO):**

The DMO is an Executive Agency of Her Majesty's Treasury and provides direct access for local authorities into a government deposit facility known as the **DMADF**. All deposits are guaranteed by HM Government and therefore have the equivalent of a sovereign triple-A credit rating.

**Diversification /diversified exposure:**

The spreading of investments among different types of assets or between markets in order to reduce risk.

**European Investment Bank (EIB):**

The European Investment Bank is the European Union's non-profit long-term lending institution established in 1958 under the Treaty of Rome. It is a "policy driven bank" whose shareholders are the member states of the EU. The EIB uses its financing operations to support projects that bring about European integration and social cohesion.

**Federal Reserve:**

The US central bank. (Often referred to as "the Fed").

**Floating rate notes (FRNs) :**

Floating rate notes (FRNs) are debt securities with payments that are reset periodically against a benchmark rate, such as the three-month Treasury bill or the three-month London inter-bank offer rate (LIBOR). FRNs can be used to balance risks incurred through other interest rate instruments in an investment portfolio.

**FTSE 100 Index:**

The FTSE 100 Index is a share index of the 100 companies listed on the London Stock Exchange with the highest market capitalisation. It is one of the most widely used stock indices and is seen as a gauge of business prosperity for business regulated by UK company law. The index is maintained by the FTSE Group, a subsidiary of the London Stock Exchange Group.

**General Fund:**

This includes most of the day-to-day spending and income.

**Gilts:**

Gilts are bonds issued by the UK Government. They take their name from 'gilt-edged': being issued by the UK government, they are deemed to be very secure as the investor expects to receive the full face value of the bond to be repaid on maturity.

**Gross Domestic Product (GDP):**

Gross Domestic Product measures the value of goods and services produced within a country. GDP is the most comprehensive overall measure of economic output and provides key insight as to the driving forces of the economy.

**The G7:**

The G7, is a group consisting of the finance ministers of seven industrialised nations: namely the US, UK, France, Germany, Italy, Canada and Japan. They are seven of the eight (China excluded) wealthiest nations on Earth, not by GDP but by global net wealth. The G7 represents more than the 66% of net global wealth (\$223 trillion), according to Credit Suisse Global Wealth Report September 2012.

**IFRS:**

International Financial Reporting Standards.

**International Labour Organisation (ILO):**

The ILO Unemployment Rate refers to the percentage of economically active people who are unemployed by ILO standard and replaced the Claimant Unemployment Rate as the international standard for unemployment measurement in the UK.. Under the ILO approach, those who are considered as unemployed are either out of work but are actively looking for a job or out of work and are waiting to start a new job in the next two weeks. ILO Unemployment Rate is measured by a monthly survey, which is called the Labour Force Survey in United Kingdom. Approximately 40,000 individuals are interviewed each month, and the unemployment figure reported is the average data for the previous three months.

**LIBID:**

The London Interbank Bid Rate (LIBID) is the rate bid by banks on Eurocurrency deposits (i.e. the rate at which a bank is willing to borrow from other banks). It is "the opposite" of the LIBOR (an offered, hence "ask" rate, the rate at which a bank will lend). Whilst the British Bankers' Association set LIBOR rates, there is no correspondent official LIBID fixing.

**LIBOR:**

The London Interbank Offered Rate (LIBOR) is the rate of interest that banks charge to lend money to each other. The British Bankers' Association (BBA) work with a small group of large banks to set the LIBOR rate each day. The wholesale markets allow banks who need money to be more fluid in the marketplace to borrow from those with surplus amounts. The banks with surplus amounts of money are keen to lend so that they can generate interest

which it would not otherwise receive.

**LOBO:**

Stands for Lender Option Borrower Option. The underlying loan facility is typically very long-term - for example 40 to 60 years - and the interest rate is fixed. However, in the LOBO facility the lender has the option to call on the facilities at pre-determined future dates. On these call dates, the lender can propose or impose a new fixed rate for the remaining term of the facility and the borrower has the 'option' to either accept the new imposed fixed rate or repay the loan facility. The upshot of this is that on the option exercise date, the lender could propose an extreme fixed rate, say 20 per cent, which would effectively force the repayment of the underlying facility. The borrower's so called 'option' is only the inalienable right to accept or refuse a new deal such as a fixed rate of 20 per cent.

**Maturity:**

The date when an investment or borrowing is repaid.

**Maturity Structure / Profile:**

A table or graph showing the amount (or percentage) of debt or investments maturing over a time period. The amount or percent maturing could be shown on a year-by-year or quarter-by quarter or month-by-month basis.

**Minimum Revenue Provision (MRP):**

An annual provision that the Council is statutorily required to set aside and charge to the Revenue Account for the repayment of debt associated with expenditure incurred on capital assets.

**Money Market Funds (MMF):**

An open-end mutual fund which invests only in money markets. These funds invest in short term debt obligations such as short-dated government debt, certificates of deposit and commercial paper. The main goal is the preservation of principal, accompanied by modest dividends. The fund's net asset value remains constant (eg £1 per unit) but the interest rate does fluctuate. These are liquid investments, and therefore, are often used by financial institutions to store money that is not currently invested. Risk is extremely low due to the high rating of the MMFs; many have achieved AAA credit status from the rating agencies:

- **Constant net asset value (CNAV)** refers to funds which use amortised cost accounting to value all of their assets. They aim to maintain a net asset value (NAV), or value of a share of the fund, at €1/£1/\$1 and calculate their price to two decimal places known as "penny rounding". Most CNAV funds distribute income to investors on a regular basis (distributing share classes), though some may choose to accumulate the income, or add it on to the NAV (accumulating share classes). The NAV of accumulating CNAV funds will vary by the income received.
- **Variable net asset value (VNAV)** refers to funds which use mark-to-market accounting to value some of their assets. The NAV of these funds will vary by a slight amount, due to the changing value of the assets and, in the case of an accumulating fund, by the amount of income received.

This means that a fund with an unchanging NAV is, by definition, CNAV, but a fund with a NAV that varies may be accumulating CNAV or distributing or accumulating VNAV.

**Multilateral Development Banks:**

See Supranational Bonds below.

**Municipal Bonds Agency**

An independent body owned by the local government sector that seeks to raise money on the capital markets at regular intervals to on-lend to participating local authorities.

**Non Specified Investment:**

Investments which fall outside the CLG Guidance for **Specified investments** (below).

**Operational Boundary:**

This linked directly to the Council's estimates of the CFR and estimates of other day to day cash flow requirements. This indicator is based on the same estimates as the Authorised Limit reflecting the most likely prudent but not worst case scenario but without the additional headroom included within the Authorised Limit.

**Premiums and Discounts:**

In the context of local authority borrowing,

(a) the premium is the penalty arising when a loan is redeemed prior to its maturity date and

(b) the discount is the gain arising when a loan is redeemed prior to its maturity date.

If on a £1 million loan, it is calculated that a £150,000 premium is payable on premature redemption, then the amount paid by the borrower to redeem the loan is £1,150,000 plus accrued interest. If on a £1 million loan, it is calculated\* that a £50,000 discount receivable on premature redemption, then the amount paid by the borrower to redeem the loan is £950,000 plus accrued interest. PWLB premium/discount rates are calculated according to the length of time to maturity, current market rates (plus a margin), and the existing loan rate which then produces a premium/discount dependent on whether the discount rate is lower/higher than the coupon rate.

*\*The calculation of the total amount payable to redeem a loan borrowed from the Public Works Loans Board (PWLB) is the present value of the remaining payments of principal and interest due in respect of the loan being repaid prematurely, calculated on normal actuarial principles. More details are contained in the PWLB's lending arrangements circular.*

**Property:**

Investment property is property (land or a building or part of a building or both) held (by the owner or by the lessee under a finance lease) to earn rentals or for capital appreciation or both.

**Prudential Code:**

Developed by CIPFA and introduced on 01/4/2004 as a professional code of practice to support local authority capital investment planning within a clear, affordable, prudent and sustainable framework and in accordance with good professional practice.

**Prudential Indicators:**

Indicators determined by the local authority to define its capital expenditure and asset management framework. They are designed to support and record local decision making in a manner that is publicly accountable; they are not intended to be comparative performance indicators

**Public Works Loans Board (PWLB):**

This is a statutory body operating within the United Kingdom Debt Management Office, an Executive Agency of HM Treasury. The PWLB's function is to lend money from the National Loans Fund to local authorities and other prescribed bodies, and to collect the

repayments.

**Quantitative Easing (QE):**

In relation to the UK, it is the process used by the Bank of England to directly increase the quantity of money in the economy. It *“does not involve printing more banknotes. Instead, the Bank buys assets from private sector institutions – that could be insurance companies, pension funds, banks or non-financial firms – and credits the seller’s bank account. So the seller has more money in their bank account, while their bank holds a corresponding claim against the Bank of England (known as reserves). The end result is more money out in the wider economy”*. Source: Bank of England.

**Regularity Method - MRP:**

As detailed under MRP, this is a charge to revenue to repay capital expenditure financed by borrowing. There are a number of options for a prudent provision and this is for debt prior to 2008 which is supported by the Government through the RSG system. Although regulation 28 is revoked by regulation 4(1) of the 2008 Regulations, authorities are able to calculate MRP as if it were still in force.

**Repo Rate:**

The interest rate at which the central bank in a country repurchases government securities (such as Treasury securities) from commercial banks. The central bank raises the repo rate when it wishes to reduce the money supply in the short term, while it lowers the rate when it wishes to increase the money supply and stimulate growth.

**Revenue Expenditure:**

Expenditure to meet the continuing cost of delivery of services including salaries and wages, the purchase of materials and capital financing charges.

**RPI:**

Retail Prices Index is a monthly index demonstrating the movement in the cost of living as it tracks the prices of goods and services including mortgage interest and rent. Pensions and index-linked gilts are uprated using the RPI index.

**(Short) Term Deposits:**

Deposits of cash with terms attached relating to maturity and rate of return (Interest).

**Specified Investments:**

Term used in the CLG Guidance and Welsh Assembly Guidance for Local Authority Investments. Investments that offer high security and high liquidity, in sterling and for no more than one year. UK government, local authorities and bodies that have a high credit rating.

**Supported Borrowing:**

Borrowing for which the costs are supported by the government or third party.

**Supranational Bonds:**

Instruments issued by supranational organisations created by governments through international treaties (often called **multilateral development banks**). The bonds carry a AAA rating in their own right. Examples of supranational organisations are the European Investment Bank, the International Bank for Reconstruction and Development.

**Treasury (T) -Bills:**

Treasury Bills are short term Government debt instruments and, just like temporary loans used by local authorities, are a means to manage cash flow. Treasury Bills (T-Bills) are issued by the Debt Management Office and are an eligible sovereign instrument, meaning that they have a AAA-rating.

**Temporary Borrowing:**

Borrowing to cover peaks and troughs of cash flow, not to fund capital spending.

**Treasury Management Code:**

CIPFA's Code of Practice for Treasury Management in the Public Services, initially brought in 2003, subsequently updated in 2009 and 2011.

**Treasury Management Practices (TMP):**

Treasury Management Practices set out the manner in which the Council will seek to achieve its policies and objectives and prescribe how it will manage and control these activities.

**Unsupported Borrowing:**

Borrowing which is self-financed by the local authority. This is also sometimes referred to as Prudential Borrowing.

**Variable Net Asset Value (VNAV):**

Redemptions and investments in Money Market Funds (MMF's) are on the basis of the fund's Net Asset Value (NAV) per share. The NAV of any money market fund is the market value of the fund's assets minus its liabilities and is stated on a per share basis. The net value of the assets held by an MMF can fluctuate, and the market value of a share may not always be exactly the amount that has been invested.

**Yield:**

The measure of the return on an investment instrument.
