BRIEF SUMMARY

Southampton City Council’s policies and conditions for Hackney Carriages and Private Hire trades have been reviewed and updated to address additional areas in the Department for Transport Statutory Taxi and Private Hire Standards document and to address some areas of concern raised by the taxi trades in Southampton.

RECOMMENDATIONS:

	(i)	To approve the draft Statement of Taxi Licensing Policy and appendices with any amendments to go out to consultation for a period of three months.
	(ii)	To delegate authority to the Licensing Manager in consultation with Communications to agree appropriate questions to be used in the consultation correspondence.

REASONS FOR REPORT RECOMMENDATIONS

1.	In July 2020 the Department for Transport published their Statutory Taxi and Private Hire Standards document which requires the licensing authority to publish a cohesive policy document that brings together all their procedures on taxi and private hire vehicle licensing.
2.	This document set recommendations to be implemented unless there is a compelling local reason not to.
3.	Southampton City Council currently has numerous documents covering the policy and conditions set for the taxi trades licensed by Southampton City Council. There is no overarching taxi policy document. This process will ensure that all relevant information is contained in one coherent policy.

ALTERNATIVE OPTIONS CONSIDERED AND REJECTED	
4.	Not considering changes or a review of current policy is contrary to the DfT Statutory guidance and will leave the authority at risk of challenge and reputational damage.
DETAIL (Including consultation carried out)	
5.	<p>A new Hackney Carriage and Private Hire Policy Statement has been drafted, see appendix 2. This is an overarching policy statement with appendices detailing the policy and conditions for the five strands of taxi licensing</p> <ul style="list-style-type: none"> • Hackney Carriages • Hackney Carriage Drivers • Private hire vehicles • Private hire drivers • Private hire operators. <p>It should be noted it is not lawful to impose conditions on hackney carriage drivers. To address this imbalance the policy includes a driver code of conduct.</p> <p>There are other appendices covering:-</p> <ul style="list-style-type: none"> • Taxi trade consultation group code of conduct • Suitability guidance for determining hackney carriage and private hire licences • Medical standards for drivers • Medical exemptions under the Equality Act
6.	A list of the changes to current policy are attached at appendix 3
7.	The driver policy and conditions reflect changes to legislation, administration process changes and the new guidance. The most significant change is a requirement to be subject to a 6 monthly enhanced DBS check, currently it is every three years. This change is in line with the recommendations in the DfT document.
8.	<p>There are significant additions to the vehicle conditions.</p> <ul style="list-style-type: none"> • A requirement for proprietors to undertake DBS checks • Demonstrate they are a safe and suitable person to hold such a licence • A requirement to produce documents when asked • Requirement to notify licensing authority of any conviction • No smoking in the vehicle. <p>These bring the policy in line with the DfT Standards</p>
9.	The private hire vehicle conditions have an option with regards to door signage. The current condition requires the door signage to display either the domain name or phone number of the operator, this prevents drivers from being able to work with more than one operator at a time and a section of the trade have been seeking a change in this policy. However, it is not supported by all of the trade.
10.	Displaying the operator details is a safety feature as it assists in identifying the vehicle booked by the customer. It clearly provides a point of contact for any issue that needs raising with an operator. Operators will know the vehicles available to them so they can ensure they fulfil their bookings, if no

	operator details are required then drivers can work for more than one operator and they will be able to flit from one to another and, in effect, cherry pick their work. Overall, whatever outcome is reached, the amount of work available to the trade as a whole will remain unchanged. Drivers do have a choice of which operator they work for. Removal of the operator detail will provide individual drivers a greater choice of work.
11.	The use of magnetic or removable door signs for private hire vehicles (see para 8 to 10 above) was suggested as a solution. These have a poor track record of falling off at speed or being stolen. Items falling from the vehicle amount to an offence of insecure load and present a hazard to other road users. The theft of signs is an easy opportunity for the unscrupulous to use either as a trophy or for dressing an unlicensed vehicle to appear licensed for unlawful purposes, including taking trade away from licensed vehicles.
12.	By leaving the option in the draft report it is hoped will result in meaningful responses to the proposal.
13.	There are additional conditions for the operator licences as well <ul style="list-style-type: none"> • Provide DBS certificate • Maintain a register of staff working with sensitive data • Provide a policy on dealing with ex-offenders • To require employees to undergo DBS checks • Detailed booking records • Restrictions on the use of PCVs These bring the policy in line with the DfT Standards
14.	It is anticipated the formal consultation process will start in February 2021 for a period of 3 months. Officers will then consider the responses and prepare a report to be submitted back to the licensing committee in the second half of June after the May elections and member training, arranged for 11 th June 2021.
RESOURCE IMPLICATIONS	
<u>Capital/Revenue</u>	
14.	There is no significant or long term resource or capital implication to the proposal to consult on these changes
<u>Property/Other</u>	
15.	Nil
LEGAL IMPLICATIONS	
<u>Statutory power to undertake proposals in the report:</u>	
16.	Town police Clauses Act 1847 (Hackney Carriages) and The Local Government (Miscellaneous Provisions) Act 1976 (Private Hire Vehicles).
<u>Other Legal Implications:</u>	
	Crime and Disorder Act 1998

	Section 17 of the Crime and Disorder Act 1998 places the Council under a duty to exercise its various functions with due regard to the likely effect of the exercise of those functions on, and the need to do all that it reasonably can to prevent, crime and disorder in its area.
	<p>Human Rights Act 1998</p> <p>The Act requires UK legislation to be interpreted in a manner consistent with the European Convention on Human Rights. It is unlawful for the Council to act in a way that is incompatible (or fail to act in a way that is compatible) with the rights protected by the Act. Any action undertaken by the Council that could have an effect upon another person's Human Rights must be taken having regard to the principle of Proportionality – the need to balance the rights of the individual with the rights of the community as a whole. Any action taken by the Council which affect another's rights must be no more onerous than is necessary in a democratic society. The matter set out in this report must be considered in light of the above obligations.</p>
	<p>The Policing and Crime Act 2017</p> <p>Enables the Secretary of State for Transport to issue statutory guidance on exercising taxi and private hire vehicle licensing functions to protect children and vulnerable individuals who are over 18 from harm when using these services.</p>
RISK MANAGEMENT IMPLICATIONS	
	<p>This report does not impact on service delivery and there is no financial impact for the authority, hence there is little to no risk in these areas.</p> <p>The DfT has advised that it will check with each authority on their progress to adopt these measures, at the end of January 2021 and will expect authorities to either have a compliant policy or be a significant way along the path to adopting such a policy. As such the risk of reputational damage is significant if we do not start this process.</p>
POLICY FRAMEWORK IMPLICATIONS	
	The changes proposed are in line with the policy framework of the council.

1. Introduction

- 1.1 There is evidence to support the view that taxis and private hire vehicles are a high-risk environment. In terms of risks to passengers, this can be seen in abuse and exploitation of children and vulnerable adults facilitated and in some cases perpetrated by the trade and the number of sexual crimes reported which involve taxi and private hire vehicle drivers. Links between the trade and child sexual abuse and exploitation have been established in many areas and other investigations continue. Data on reported sexual assaults by taxi and private hire vehicle drivers evidence the risk to passengers; data from [Greater Manchester](#) and [Merseyside](#) suggest that, if similar offence patterns are applied across England, 623 sexual assaults per year are reported. These figures do not however account for the under reporting of crime which is estimated to be as high as 83 percent in the [Crime Survey for England and Wales](#).
- 1.2 The Policing and Crime Act 2017 enables the Secretary of State for Transport to issue statutory guidance on exercising taxi and private hire vehicle licensing functions to protect children and vulnerable individuals who are over 18 from harm when using these services. For the purposes of this document, a child is defined as anyone who has not yet reached their 18th birthday; and the term “vulnerable individual” has the same meaning as the definition of a ‘vulnerable adult’ for the purpose of section 42 of the [Care Act 2014](#), which applies where a local authority has reasonable cause to suspect that an adult in its area (whether or not ordinarily resident there):
- (a) has needs for care and support (whether or not the authority is meeting any of those needs),
 - (b) is experiencing, or is at risk of, abuse or neglect, and
 - (c) as a result of those needs is unable to protect himself or herself against the abuse or neglect or the risk of it.
- 1.3 Whilst the focus of the Statutory Taxi and Private Hire Vehicle Standards is on protecting children and vulnerable adults, all passengers will benefit from the recommendations contained in it. There is consensus that common core minimum standards are required to regulate better the taxi and private hire vehicle sector, and the recommendations in this document are the result of detailed discussion with the trade, regulators and safety campaign groups. **The Department therefore expects these recommendations to be implemented unless there is a compelling local reason not to.**
- 1.4 It should be noted that as policing and criminal justice is not a devolved matter, the Statutory Taxi and Private Hire Vehicle Standards issued under the Policing and Crime Act 2017 will continue to have effect in Wales although responsibility for taxi and private hire vehicle policy was devolved to the Welsh Assembly in April 2018. Should the Welsh Government introduce legislation to regulate on these issues, the standards in this document would, cease to apply.

- 1.5 All local authorities and district councils that provide children's and other types of services, including licensing authorities, have a statutory duty to make arrangements to ensure that their functions and any services that they contract out to others are discharged having regard to the need to safeguard and promote the welfare of children. This means that licensing authorities should have in place arrangements that reflect the importance of safeguarding and promoting the welfare of children. This includes clear whistleblowing procedures, safe recruitment practices and clear policies for dealing with allegations against people who work with children, as set out in the [Working Together to Safeguard Children](#) statutory guidance.
- 1.6 The Statutory Taxi and Private Hire Vehicle Standards reflect the significant changes in the industry and lessons learned from experiences in local areas since the 2010 version of the Department's Best Practice Guidance. This includes extensive advice on checking the suitability of individuals and operators to be licensed; safeguarding children and vulnerable adults; the Immigration Act 2016 and Common Law Police Disclosure (which replaced the Notifiable Occupations Scheme).
- 1.7 The standards in this document replace relevant sections of the Best Practice Guidance issued by the Department in 2010, where there is a conflict between the Statutory Taxi and Private Hire Vehicle Standards and the Best Practice Guidance the Department issue on taxi and private hire vehicle licensing, the standards in this document take precedence.

Terminology

Taxis are referred to in legislation, regulation and common language as 'hackney carriages', 'black cabs' and 'cabs'. The term '**taxi**' is used throughout this document and refers to all such vehicles. Taxis can be hired immediately by hailing on the street or at a rank.

Private hire vehicles include a range of vehicles including minicabs, executive cars, chauffeur services, limousines and some school and day centre transport services. All private hire vehicle journeys must be pre-booked via a licensed private hire vehicle operator and are subject to a 'triple licensing lock' i.e. the operator fulfilling the booking must use vehicles and drivers licensed by the same authority as that which granted its licence. The term 'private hire vehicle' is used throughout this document to refer to all such vehicles.

2. Consideration of the Statutory Taxi and Private Hire Vehicle Standards

- 2.1 The past failings of licensing regimes must never be repeated. The Department has carefully considered the measures contained in the Statutory Taxi and Private Hire Vehicle Standards and recommend that these should be put in to practice and administered appropriately to mitigate the risk posed to the public. The purpose of setting standards is to protect children and vulnerable adults, and by extension the wider public, when using taxis and private hire vehicles.
- 2.2 The Government set out in the [Modern Crime Prevention Strategy](#) the evidence that where Government, law enforcement, businesses and the public work together on prevention, this can deliver significant and sustained cuts in certain crimes. That is good news for victims and communities and it makes clear economic sense too. Educating the public on the risks of using unlicensed drivers and vehicles, how to identify the licensed trade and appropriate measure to take when using these services will protect help all passengers, more information is annexed to this document (Annex - Staying safe: guidance for passengers).
- 2.3 The Strategy committed to protect children and young people from the risk of child sexual abuse and exploitation (CSAE), by working with local authorities to introduce rigorous taxi and private hire vehicle licensing regimes. Both the [Jay](#) and [Casey](#) reports on CSAE highlighted examples of taxi/private hire vehicle drivers being directly linked to children that were abused, including instances when children were picked up from schools, children's homes or from family homes and abused, or sexually exploited.
- 2.4 The Casey Report made clear that weak and ineffective arrangements for taxi and private hire vehicle licensing had left the children and public at risk. The Department for Transport has worked with the Home Office, Local Government Association (LGA), personal safety charities, trade unions and trade bodies,

holding workshops, forums, and sharing evidence and good practice with local authorities to assist in the setting of the standards.

- 2.5 This document is published by the Secretary of State for Transport under section 177(1) of the Policing and Crime Act 2017 following consultation in accordance with section 177(5).
- 2.6 The document sets out a framework of policies that, under section 177(4), licensing authorities “**must have regard**” to when exercising their functions. These functions include developing, implementing and reviewing their taxi and private hire vehicle licensing regimes. “Having regard” is more than having a cursory glance at a document before arriving at a preconceived conclusion.
- 2.7 “Having regard” to these standards requires public authorities, in formulating a policy, to give considerations the weight which is proportionate in the circumstances. **Given that the standards have been set directly to address the safeguarding of the public and the potential impact of failings in this area, the importance of thoroughly considering these standards cannot be overstated.** It is not a question of box ticking; the standards must be considered rigorously and with an open mind.
- 2.8 Although it remains the case that licensing authorities must reach their own decisions, both on overall policies and on individual licensing matters in light of the relevant law, it may be that the Statutory Taxi and Private Hire Vehicle Standards might be drawn upon in any legal challenge to an authority’s practice, and that any failure to adhere to the standards without sufficient justification could be detrimental to the authority’s defence. **In the interest of transparency, all licensing authorities should publish their consideration of the measures contained in Statutory Taxi and Private Hire Vehicle Standards, and the policies and delivery plans that stem from these.** The Department has undertaken to monitor the effectiveness of the standards in achieving the protection of children and vulnerable adults (and by extension all passengers).
- 2.9 The Statutory Taxi and Private Hire Vehicle Standards does not purport to give a definitive statement of the law and any decisions made by a licensing authority remain a matter for that authority.

3. Administering the Licensing Regime

Licensing policies

- 3.1 The Department recommends all licensing authorities make publicly available a cohesive policy document that brings together all their procedures on taxi and private hire vehicle licensing. This should include but not be limited to policies on convictions, a 'fit and proper' person test, licence conditions and vehicle standards.
- 3.2 When formulating a taxi and private hire vehicle policy, the primary and overriding objective must be to protect the public. The importance of ensuring that the licensing regime protects the vulnerable cannot be overestimated. This was highlighted in the [report by Dame Louise Casey CB](#) of February 2015 on safeguarding failings.

“It will be evident from this report that in many cases the activities of perpetrators take place in spheres which are regulated by the Council – taxis have been the focus of particular concern. Persistent and rigorous enforcement of the regulatory functions available to the council, including the placing of conditions on private hire taxi operator licences where appropriate, would send a strong signal that the trade is being monitored and would curtail the activities of opportunistic perpetrators whereby taxi drivers have solicited children to provide sex in return for cigarettes, alcohol or a fare free ride.”

- 3.3 The long-term devastation caused by CSAE was summarised in the same report:

“Victims suffer from suicidal feelings and often self-harm. Many become pregnant. Some have to manage the emotional consequences of miscarriages and abortions while others have children that they are unable to parent appropriately. The abuse and violence continues to affect victims into adulthood. Many enter violent and abusive relationships. Many suffer poor mental health and addiction.”

- 3.4 Rotherham Metropolitan Borough Council ('Rotherham Council') provides an example of how the systematic review of policies and procedures and the implementation of a plan to drive improvements in practice can result in a well-functioning taxi and private hire vehicle sector that is rebuilding local confidence in the industry. The history of past failings here and elsewhere is well known, but it is the transparency and resolution that Rotherham Council has demonstrated and the high standards they now require that are rebuilding public confidence.
- 3.5 One of the key lessons learned is that it is vital to review policies and reflect changes in the industry both locally and nationally. **Licensing authorities should review their licensing policies every five years, but should also consider interim reviews should there be significant issues arising in their area, and their performance annually.**

Duration of licences

- 3.6 A previous argument against issuing licences for more than a year was that a criminal offence might be committed, and not notified, during this period; this can of course also be the case during the duration of a shorter licence. This risk can be mitigated for drivers by authorities to undertaking regular interim checks. To help authorities monitor licensees' suitability, licensing authorities should engage with their police force to ensure that when the police believe a licensee presents a risk to the travelling public they use their Common Law Police Disclosure powers (see paragraphs 4.9 - 4.11) to advise them.
- 3.7 The Local Government (Miscellaneous Provisions) Act 1976 (as amended) sets a standard length at three years for taxi and private hire vehicle drivers and five years for private hire vehicle operators. Any shorter duration licence should only be issued when the licensing authority thinks it is appropriate in the specific circumstances of the case, if a licensee has requested one or where required (e.g. when the licence holder's leave to remain in the UK is time-limited) or when the licence is only required to meet a short-term demand; they should not be issued on a 'probationary' basis.

Whistleblowing

- 3.8 It is in the application of licensing authority's policies (and the training and raising of awareness among those applying them) that protection will be provided. Where there are concerns that policies are not being applied correctly, it is vital that these can be raised, investigated and remedial action taken if required. **Licensing authorities should have effective internal procedures in place for staff to raise concerns and for any concerns to be dealt with openly and fairly.**

A report into the licensing of drivers by South Ribble Borough Council highlights the implications of not applying the agreed policies. In early August 2015, concerns were raised regarding decisions to renew the licences of drivers where there were potential incidents of child sexual exploitation. An internal review concluded that there had been failings in local investigatory procedures which might have affected the ability of the General Licensing Committee to make proper decisions, and information sharing with the police and data recording was not satisfactory.

- 3.9 The external investigation in South Ribble concluded “that there had been a lack of awareness and priority given to safeguarding and the safety of taxi [and private hire vehicle] passengers in the manner in which licensing issues were addressed”. We are pleased to note that the [report](#) concludes, “The Council have been active at every stage in responding to issues and concerns identified. It has taken steps to address operational issues in the licensing function and has engaged fully with other agencies in so doing. In the light of the above, it is not necessary to make any further recommendations.”
- 3.10 It is hoped that all licensing authorities will have learnt from these mistakes but to prevent a repeat, **local authorities should ensure they have an effective ‘whistleblowing’ policy and that all staff are aware of it.** If a worker is aware of, and has access to, effective internal procedures for raising concerns then ‘whistleblowing’ is unlikely to be needed.
- 3.11 The Public Interest Disclosure Act 1998 (PIDA), commonly referred to as whistleblowing legislation, provides protection for those that have a reasonable belief of serious wrongdoing, including failure to comply with professional standards, council policies or codes of practice/conduct. The PIDA is part of employment law. In the normal course of events, if a worker reveals information that his employer does not want revealed it may be a disciplinary offence. If someone leaked their employer’s confidential information to the press, they might expect to be dismissed for that. The PIDA enables workers who ‘blow the whistle’ about wrongdoing to complain to an employment tribunal if they are dismissed or suffer any other form of detriment for doing so. It is a qualified protection and certain conditions would have to be met for the worker to be protected. More information is available online for [employees](#) and [employers](#).

Consultation at the local level

- 3.12 Licensing authorities should consult on proposed changes in licensing rules that may have significant impacts on passengers and/or the trade. Such consultation should include not only the taxi and private hire vehicle trades but also groups likely to be the trades’ customers. Examples are groups representing disabled people, Chambers of Commerce, organisations with a wider transport interest (e.g. the Campaign for Better Transport and other transport providers), women’s groups, local traders, and the local multi-agency safeguarding arrangements. It may also be helpful to consult with night-time economy groups (such as Pubwatch) if the trade is an important element of dispersal from the local night-time economy’s activities.
- 3.13 Any decision taken to alter the licensing regime is likely to have an impact on the operation of the taxi and private hire vehicle sector in neighbouring areas; and **licensing authorities should engage with these areas to identify any concerns and issues that might arise from a proposed change.** Many areas convene regional officer consultation groups or, more formally, councillor liaison meetings; this should be adopted by all authorities.

Changing licensing policy and requirements

- 3.14 **Any changes in licensing requirements should be followed by a review of the licences already issued.** If the need to change licensing requirements has been identified, this same need is applicable to those already in possession of a licence. That is not however to suggest that licences should be automatically revoked overnight, for example if a vehicle specification is changed it is proportionate to allow those that would not meet the criteria to have the opportunity to adapt or change their vehicle. The same pragmatic approach should be taken to driver licence changes - if requirements are changed to include a training course or qualification, a reasonable time should be allowed for this to be undertaken or gained. The implementation schedule of any changes that affect current licence holders must be transparent and communicated promptly and clearly.
- 3.15 Where a more subjective change has been introduced, for example an amended policy on previous convictions, a licensing authority must consider each case on its own merits. Where there are exceptional, clear and compelling reasons to deviate from a policy, licensing authorities should consider doing so. Licensing authorities should record the reasons for any deviation from the policies in place.

4. Gathering and Sharing Information

- 4.1 Licensing authorities must consider as full a range of information available to them when making a decision whether to grant a licence and to meet their ongoing obligation to ensure a licensee remains suitable to hold a licence.

The Disclosure and Barring Service

- 4.2 The Disclosure and Barring Service (DBS) provides access to criminal record information through its disclosure service for England and Wales. The DBS also maintains the lists of individuals barred from working in regulated activity with children or adults. The DBS makes independent barring decisions about people who have harmed, or where they are considered to pose a risk of harm to a child or vulnerable person within the workplace. The DBS enables organisations in the public, private and voluntary sectors to make safer employment decisions by identifying candidates who may be unsuitable for certain work, especially that which involves vulnerable groups including children.
- 4.3 Enhanced certificates with a check of the barred lists include details of spent and unspent convictions recorded on the Police National Computer (PNC), any additional information which a chief officer of police believes to be relevant and ought to be disclosed, as well as indicating whether the individual is barred from working in regulated activity with children or adults. Spent convictions and cautions are disclosed on standard and enhanced certificates according to rules set out in legislation. Convictions which resulted in a custodial sentence, and convictions or cautions for a specified serious offence such as those involving child sexual abuse will always be disclosed on a standard or enhanced certificate. Full details of the disclosure rules, and those offences which will always be disclosed, are available from the [DBS](#). As well as convictions and cautions, an enhanced certificate may include additional information which a chief police officer reasonably believes is relevant and ought to be disclosed. Chief police officers must have regard to the [statutory guidance](#) issued by the Home Office when considering disclosure. A summary of the information provided at each level of DBS checks is annexed to this document (Annex – Disclosure and Barring Service information).
- 4.4 It should be noted that licensing authorities must not circumvent the DBS process and seek to obtain details of previous criminal convictions and other information that may not otherwise be disclosed on a DBS certificate. Whilst data protection legislation (not just the Data Protection Act 2018 or General Data Protection Regulation (GDPR)) gives individuals (or data subjects) a 'right of access' to the personal data that an organisation holds about them, it is a criminal offence to require an individual to exercise their subject access rights so as to gain information about any convictions and cautions. This could potentially lead to the authority receiving information to which it is not entitled. The appropriate way of accessing an individual's criminal records is through an enhanced DBS and barred lists check.

The Disclosure and Barring Service Update Service

- 4.5 Subscription to the DBS Update Service allows those with standard and enhanced certificates to keep these up to date online and, with the individual's consent, allows nominees to check the status of a certificate online at any time. Subscription to the service removes the need for new certificates to be requested, reduces the administrative burden and mitigates potential delays in relicensing.
- 4.6 The DBS will search regularly to see if any relevant new information has been received since the certificate was issued. The frequency varies depending on the type of information; for criminal conviction and barring information, the DBS will search for updates on a weekly basis. For non-conviction information, the DBS will search for updates every nine months.
- 4.7 Licensing authorities are able to request large numbers of status checks on a daily basis. The DBS has developed a Multiple Status Check Facility (MSCF) that can be accessed via a web service. The MSCF enables organisations to make an almost unlimited number of Status Checks simultaneously. Further information on the MSCF is available from the [DBS](#).
- 4.8 Should the MSCF advise that new information is available the DBS certificate should no longer be relied upon and a new DBS certificate requested.

Common Law Police Disclosure

- 4.9 The DBS is not the only source of information that should be considered as part of a fit and proper assessment for the licensing of taxi and private hire vehicle drivers. Common Law Police Disclosure ensures that where there is a public protection risk, the police will pass information to the employer or regulatory body to allow them to act swiftly to mitigate any danger.
- 4.10 Common Law Police Disclosure replaced the Notifiable Occupations Scheme (NOS) in March 2015 and focuses on providing timely and relevant information which might indicate a public protection risk. Information is passed on at arrest or charge, rather than on conviction which may be some time after, allowing any measures to mitigate risk to be put in place immediately.
- 4.11 This procedure provides robust safeguarding arrangements while ensuring only relevant information is passed on to employers or regulatory bodies. **Licensing authorities should maintain close links with the police to ensure effective and efficient information sharing procedures and protocols are in place and are being used.**

Licensee self-reporting

- 4.12 Licence holders should be required to notify the issuing authority within 48 hours of an arrest and release, charge or conviction of any sexual offence, any offence involving dishonesty or violence and any motoring offence. An arrest for any of the offences within this scope should result in a review by the issuing authority as to whether the licence holder is fit to continue to do so. This must not

however be seen as a direction that a licence should be withdrawn; it is for the licensing authority to consider what, if any, action in terms of the licence should be taken based on the balance of probabilities. Should an authority place an obligation on licensees to notify under these circumstances, authorities should also ensure appropriate procedures are in place to enable them to act in a suitable timeframe if and when needed.

- 4.13 Importantly, a failure by a licence holder to disclose an arrest that the issuing authority is subsequently advised of might be seen as behaviour that questions honesty and therefore the suitability of the licence holder regardless of the outcome of the initial allegation.

Referrals to the Disclosure and Barring Service and the Police

- 4.14 In some circumstances it may be appropriate under the Safeguarding Vulnerable Groups Act 2006 for licensing authorities to make referrals to the DBS. **A decision to refuse or revoke a licence as the individual is thought to present a risk of harm to a child or vulnerable adult, should be referred to the DBS.** The power for the licensing authority to make a referral in this context arises from the undertaking of a safeguarding role. Further guidance has been provided by the [DBS](#).

- 4.15 The Department recommends that licensing authorities should make a referral to the DBS when it is thought that:

- an individual has harmed or poses a risk of harm to a child or vulnerable adult;
- an individual has satisfied the '[harm test](#)'; or
- received a caution or conviction for a relevant offence and;
- the person they are referring is, has or might in future be working in regulated activity;

if the above conditions are satisfied, the DBS may consider it appropriate for the person to be added to a barred list.

- 4.16 These referrals may result in the person being added to a barred list and enable other licensing authorities to consider this should further applications to other authorities be made. Further information on referrals to DBS is [available](#).

Working with the Police

- 4.17 The police are an invaluable source of intelligence when assessing whether a licensing applicant is a 'fit and proper' person. It is vital that licensing authorities have a partnership with the police service to ensure that appropriate information is shared as quickly as possible. As part of building an effective working relationship between the licensing authority and the police, **action taken by the licensing authority as a result of information received should be fed-back to the police.** Increasing the awareness among police forces of the value licensing authorities place on the information received, particularly on non-conviction intelligence, will assist furthering these relationships and reinforce the benefits of greater sharing of information.
- 4.18 This relationship can be mutually beneficial, assisting the police to prevent crime. The police can gain valuable intelligence from drivers and operators, for example, the identification of establishments that are selling alcohol to minors or drunks, or the frequent transportation of substance abusers to premises.
- 4.19 To aid further the quality of the information available to all parties that have a safeguarding duty, a revocation or refusal on public safety grounds should also be advised to the police.

Sharing licensing information with other licensing authorities

- 4.20 As has been stated elsewhere in this document, obtaining the fullest information minimises the doubt as to whether an applicant or licensee is 'fit and proper'. An obvious source of relevant information is any previous licensing history. **Applicants and licensees should be required to disclose if they hold or have previously held a licence with another authority. An applicant should also be required to disclose if they have had an application for a licence refused, or a licence revoked or suspended by any other licensing authority.** Licensing authorities should explicitly advise on their application forms that making a false statement or omitting to provide the information requested may be a criminal offence.
- 4.21 The LGA's Councillors' [Handbook on taxi and private hire vehicle licensing](#) advises that those responsible for licensing should "*communicate regularly with licensing committees and officers in neighbouring councils to ensure critical information is shared and that there is a consistency and robustness in decision-making. By working together, local government can make sure that this vital service is safe, respected, and delivering for local communities.*". While this approach may aid consistency and robustness in decision-making within regions, it has obvious inherent limitations as it is unlikely such protocols could be established between all licensing authorities. The LGA commissioned the National Anti-Fraud Network to develop a national register of taxi and private hire vehicle driver licence refusals and revocations (the register is known as 'NR3'). **Tools such as NR3 should be used by licensing authorities to share information on a more consistent basis to mitigate the risk of non-disclosure of relevant information by applicants.**

- 4.22 For these processes to be beneficial, all licensing authorities must keep a complete and accurate record as to the reasons for refusal, suspension or revocation of a licence in order that this might be shared if requested and appropriate to do so.
- 4.23 Data protection legislation provides exemption from the rights of data subjects for the processing of personal data in connection with regulatory activities. This includes taxi and private hire vehicle licensing. The exemption applies only to information processed for the core regulatory activities of appropriate organisations; it may not be used in a blanket manner. The exemption applies only to the extent that the application of the rights of data subjects to the information in question would be likely to prejudice the proper discharge of the regulatory functions. The Information Commissioner's Office has published [guidance](#) to assist organisations to fully understand their obligations and suggest good practice.
- 4.24 If notification under paragraph 4.20 or 4.21 of a refused or revoked licence is disclosed, the relevant licensing authority should be contacted to establish when the licence was refused, suspended or revoked and the reasons why. In those circumstances, the relevant licensing authority must consider whether it should disclose any information in relation to the previous decision, consistent with its obligations under data protection legislation. If information is disclosed, it can then be taken into account in determining the applicant's fitness to be licensed. The relevance of the reason for refusing/revoking a licence must be considered. For example, if any individual was refused a licence for failing a local knowledge test, it does not have any safeguarding implications. Conversely, a revocation or refusal connected to indecency would. Licensing authorities should not simply replicate a previous decision, authorities must consider each application on its own merits and with regard to its own policies.
- 4.25 Should a licensing authority receive information that a licence holder did not disclose the information referred to in paragraph 4.20, for example by checking the NR3 register, the authority should consider whether the non-disclosure represents dishonesty and should review whether the licence holder remains 'fit and proper'.

Multi-agency Safeguarding Hub (MASH)

- 4.26 Multi-Agency Safeguarding Hubs are a way to improve the safeguarding response for children and vulnerable adults through better information sharing and high quality and timely safeguarding responses. MASHs (or similar models) should operate on three common principles: information sharing, joint decision making and coordinated intervention.
- 4.27 The Home Office report on [Multi Agency Working and Information Sharing](#) recommended that effective multi-agency working still needs to become more widespread. The Children's Commissioner's 2013 [Inquiry into Child Sexual Exploitation in Gangs and Groups](#) found that both police and local authorities still identified the inability to share information as a key barrier to safeguarding children from sexual abuse and exploitation.

4.28 All licensing authorities should operate or establish a means to facilitate the objectives of a MASH (i.e. the sharing of necessary and relevant information between stakeholders). As has been emphasised throughout this document, one of the most effective ways to minimise the risk to children and vulnerable adults when using taxis and private hire vehicles is to ensure that decisions on licensing individuals are made with the fullest knowledge possible.

Complaints against licensees

4.29 Complaints about drivers and operators provide a source of intelligence when considering the renewal of a licence or to identify problems during the period of the licence. Patterns of behaviour such as complaints against drivers, even when they do not result in further action in response to an individual complaint, may be indicative of characteristics that raise doubts over the suitability to hold a licence. **All licensing authorities should have a robust system for recording complaints, including analysing trends across all licensees as well as complaints against individual licensees.** Such a system will help authorities to build a fuller picture of the potential risks an individual may pose and may tip the 'balance of probabilities' assessment that licensing authorities must take.

4.30 Licensees with a high number of complaints made against them should be contacted by the licensing authority and concerns raised with the driver and operator (if appropriate). Further action in terms of the licence holder must be determined by the licensing authority, which could include no further action, the offer of training, a formal review of the licence, or formal enforcement action.

4.31 To ensure that passengers know who to complain to, licensing authorities should produce guidance for passengers on making complaints directly to the licensing authority that should be available on their website. Ways to make complaint to the authority should be displayed in all licensed vehicles. This is likely to result in additional work for the licensing authority but has the advantage of ensuring consistency in the handling of complaints. Currently, it is more likely that a complaint against a taxi driver would be made directly to the licensing authority whereas a complaint against a private hire vehicle driver is more likely to be made to the operator. An effective partnership in which operators can share concerns regarding drivers is also encouraged.

4.32 Importantly, this approach will assist in the directing of complaints and information regarding the behaviour of drivers who may be carrying a passenger outside of the area in which the driver is licensed to the authority that issued the licence. In order for this to be effective licensing authorities must ensure that drivers are aware of a requirement to display information on how to complain and take appropriate sanctions against those that do not comply with this requirement.

4.33 In terms of investigating complaints CCTV footage of an incident can provide an invaluable insight, providing an 'independent witness' to an event. This can assist in the decision whether to suspend or revoke a licence. The potential benefits of mandating CCTV in vehicles is discussed in paragraphs 7.7 - 7.12.

Overseas convictions

- 4.34 The DBS cannot access criminal records held overseas, only foreign convictions that are held on the Police National Computer may, subject to the disclosure rules, be disclosed. Therefore, a DBS check may not provide a complete picture of an individual's criminal record where there have been periods living or working overseas; the same applies when an applicant has previously spent an extended period (three or more continuous months) outside the UK. It should however be noted that some countries will not provide an 'Certificate of Good Character' unless the individual has been resident for six months or more
- 4.35 Licensing authorities should seek or require applicants to provide where possible criminal records information or a 'Certificate of Good Character' from overseas in this circumstance to properly assess risk and support the decision-making process (. It is the character of the applicant as an adult that is of particular interest, therefore an extended period outside the UK before the age of 18 may be less relevant. As with all licensing decisions, each case must be considered on its own merits. For information on applying for overseas criminal record information or 'Certificates of Good Character' please see the Home Office [guidance](#).
- 4.36 Where an individual is aware that they have committed an offence overseas which may be equivalent to those listed in the annex to this document (Annex – Assessment of previous convictions), licensing authorities should advise the applicant to seek independent expert or legal advice to ensure that they provide information that is truthful and accurate.

5. Decision Making

Administration of the licensing framework

- 5.1 A policy is only effective if it is administered properly. The taxi and private hire vehicle licensing functions of local councils are non-executive functions i.e. they are functions of the council rather than the executive (such as the Cabinet). The functions include the determination of licence applications, reviews and renewals, along with the attachment of conditions when considered appropriate. The function may be delegated to a committee, a sub-committee or an officer – which should be set out within a clear scheme of delegation. In London the taxi and private hire vehicle licensing function is undertaken by Transport for London.
- 5.2 Licensing authorities should ensure that all individuals that determine whether a licence is issued or refused are adequately resourced to allow them to discharge the function effectively and correctly.

Training decision makers

- 5.3 **All individuals that determine whether a licence is issued should be required to undertake sufficient training.** As a minimum, training for a member of a licensing committee should include: licensing procedures, natural justice, understanding the risks of CSAE, disability and equality awareness and the making of difficult and potentially controversial decisions. Training should not simply relate to procedures, but should include the use of case study material to provide context and real scenarios. All training should be formally recorded by the licensing authority and require a signature from the person that has received the training. Training is available from a number of organisations including the Institute of Licensing and Lawyers in Local Government; the LGA may also be able to assist in the development of training packages.
- 5.4 Public safety is the paramount consideration but the discharge of licensing functions must be undertaken in accordance with the following general principles:
- policies should be used as internal guidance, and should be supported by a member/officer code of conduct.
 - any implications of the Human Rights Act should be considered.
 - the rules of natural justice should be observed.
 - decisions must be reasonable and proportionate.
 - where a hearing is required it should be fairly conducted and allow for appropriate consideration of all relevant factors.
 - decision makers must avoid bias (or even the appearance of bias) and predetermination.
 - data protection legislation.

5.5 When a decision maker has a prejudicial interest in a case, whether it be financial or a personal relationship with those involved they should declare their interest at the earliest opportunity; this must be prior to any discussions or votes and, once declared, they must leave the room for the duration of the discussion or vote.

The regulatory structure

5.6 It is recommended that councils operate with a Regulatory Committee or Board that is convened at periodic intervals to determine licensing matters, with individual cases being considered by a panel of elected and suitably trained councillors drawn from a larger Regulatory Committee or Board. This model is similar to that frequently adopted in relation to other licensing matters. To facilitate the effective discharge of the functions, less contentious matters can be delegated to appropriately authorised council officers via a transparent scheme of delegation.

5.7 It is considered that this approach also ensures the appropriate level of separation between decision makers and those that investigate complaints against licensees, and is the most effective method in allowing the discharge of the functions in accordance with the general principles referred to in 5.4. In particular, the Committee/Board model allows for:

- Each case to be considered on its own merits. It is rare for the same councillors to be involved in frequent hearings – therefore the councillors involved in the decision making process will have less knowledge of previous decisions and therefore are less likely to be influenced by them. Oversight and scrutiny can be provided in relation to the licensing service generally, which can provide independent and impartial oversight of the way that the functions are being discharged within the authority.
- Clear separation between investigator and the decision maker – this demonstrates independence, and ensures that senior officers can attempt to resolve disputes in relation to service actions without the perception that this involvement will affect their judgement in relation to decisions made at a later date.

5.8 Avoidance of bias or even the appearance of bias is vital to ensuring good decisions are made and instilling and/or maintaining confidence in the licensing regime by passengers and licensees.

5.9 Unlike officers, elected members are not usually involved in the day to day operation of the service and as such do not have relationships with licence holders that may give the impression that the discharge of a function is affected by the relationship between the decision maker and the licence holder.

5.10 Some licensing authorities may decide to operate a system whereby all matters are delegated to a panel of officers; however, this approach is not recommended and caution should be exercised. Decisions must be, and be seen to be, made objectively, avoiding any bias. In addition, it may be more difficult to demonstrate compliance with the principles referred to above due to the close

connection between the officers on the panel, and those involved in the operational discharge of the licensing functions.

- 5.11 Whether the structure proposed is introduced or an alternative model is more appropriate in local circumstances, the objective should remain the same - to separate the investigation of licensing concerns and the management of the licence process. Regardless of which approach is adopted, **all licensing authorities should consider arrangements for dealing with serious matters that may require the immediate revocation of a licence.** It is recommended that this role is delegated to a senior officer/manager with responsibility for the licensing service.

Fit and proper test

- 5.12 Licensing authorities have a duty to ensure that any person to whom they grant a taxi or private hire vehicle driver's licence is a 'fit and proper' person to be a licensee. It may be helpful when considering whether an applicant or licensee is fit and proper to pose oneself the following question:

Without any prejudice, and based on the information before you, would you allow a person for whom you care, regardless of their condition, to travel alone in a vehicle driven by this person at any time of day or night?

- 5.13 If, on the balance of probabilities, the answer to the question is 'no', the individual should not hold a licence.
- 5.14 Licensing authorities have to make difficult decisions but (subject to the points made in paragraph 5.4) the safeguarding of the public is paramount. All decisions on the suitability of an applicant or licensee should be made on the balance of probability. This means that an applicant or licensee should not be 'given the benefit of doubt'. If the committee or delegated officer is only "50/50" as to whether the applicant or licensee is 'fit and proper', they should not hold a licence. The threshold used here is lower than for a criminal conviction (that being beyond reasonable doubt) and can take into consideration conduct that has not resulted in a criminal conviction.

Criminal convictions and rehabilitation

- 5.15 In considering an individual's criminal record, licensing authorities must consider each case on its merits, but they should take a particularly cautious view of any offences against individuals with special needs, children and other vulnerable groups, particularly those involving violence, those of a sexual nature and those linked to organised crime. In order to achieve consistency, and to mitigate the risk of successful legal challenge, licensing authorities should have a clear policy for the consideration of criminal records. This should include, for example, which offences would prevent an applicant from being licenced regardless of the period elapsed in all but truly exceptional circumstances. In the case of lesser offences, a policy should consider the number of years the authority will require to have elapsed since the commission of particular kinds of offences before they will grant a licence.

- 5.16 Annexed to this document are the Department's recommendations on the assessment of previous convictions (Annex – Assessment of previous convictions). This draws on the work of the Institute of Licensing, in partnership with the LGA, the National Association of Licensing Enforcement Officers (NALEO) and Lawyers in Local Government, in publishing its guidance on determining the suitability of taxi and private hire vehicle licensees.
- 5.17 These periods should be taken as a starting point in considering whether a licence should be granted or renewed in all cases. The Department's view is that this places passenger safety as the priority while enabling past offenders to sufficiently evidence that they have been successfully rehabilitated so that they might obtain a licence. Authorities are however reminded that applicants are entitled to a fair and impartial consideration of their application.

6. Driver Licensing

Criminality checks for drivers

- 6.1 Licensing authorities are entitled to request an enhanced criminal record certificate with check of the barred lists from the DBS for all driver licence holders or applicants. The DfT's 2019 [survey of taxi and private hire vehicle licensing authorities](#) shows that all licensing authorities in England and Wales have a requirement that an enhanced DBS check is undertaken at first application or renewal.
- 6.2 All individuals applying for or renewing a taxi or private hire vehicle drivers licence licensing authorities should carry out a check of the children and adult Barred Lists in addition to being subject to an enhanced DBS check (in section x61 of the DBS application 'Other Workforce' should be entered in line 1 and 'Taxi Licensing' should be entered at line 2). All licensed drivers should also be required to evidence continuous registration with the DBS update service to enable the licensing authority to routinely check for new information every six months. Drivers that do not subscribe up to the Update Service should still be subject to a check every six months.
- 6.3 Driving a taxi or private hire vehicle is not, in itself, a regulated activity for the purposes of the barred list. This means that an individual subject to barring would not be legally prevented from being a taxi or private hire vehicle driver but the licensing authority should take an individual's barred status into account alongside other information available. **In the interests of public safety, licensing authorities should not, as part of their policies, issue a licence to any individual that appears on either barred list.** Should a licensing authority consider there to be exceptional circumstances which means that, based on the balance of probabilities they consider an individual named on a barred list to be 'fit and proper', the reasons for reaching this conclusion should be recorded.
- 6.4 Drivers working under an arrangement to transport children may be working in 'regulated activity' as defined by the [Safeguarding Vulnerable Groups Act 2006](#). It is an offence to knowingly allow a barred individual to work in regulated activity. The [guidance on home-to-school travel and transport](#) issued by the Department for Education should be considered alongside this document. Please see [guidance](#) on driver DBS eligibility and how to apply.

Safeguarding awareness

- 6.5 Licensing authorities should consider the role that those in the taxi and private hire vehicle industry can play in spotting and reporting the abuse, exploitation or neglect of children and vulnerable adults. As with any group of people, it is overwhelmingly the case that those within the industry can be an asset in the detection and prevention of abuse or neglect of children and vulnerable adults. However, this is only the case if they are aware of and alert to the signs of potential abuse and know where to turn to if they suspect that a child or vulnerable adult is at risk of harm or is in immediate danger.

6.6 All licensing authorities should provide safeguarding advice and guidance to the trade and should require taxi and private hire vehicle drivers to undertake safeguarding training. This is often produced in conjunction with the police and other agencies. These programmes have been developed to help drivers and operators:

- provide a safe and suitable service to vulnerable passengers of all ages;
- recognise what makes a person vulnerable; and
- understand how to respond, including how to report safeguarding concerns and where to get advice.

6.7 Since 2015, the Department for Education (DfE) has run a nationwide campaign – *‘Together, we can tackle child abuse’* which aims to increase public understanding of how to recognise the signs to spot and encourage them to report child abuse and neglect. The DfE continues to promote and raise awareness of the campaign materials through its [online toolkit](#), for local authorities, charities and organisations for use on their social media channels.

‘County lines’ exploitation

6.8 County lines is a term used to describe gangs and organised criminal networks involved in exporting illegal drugs (primarily crack cocaine and heroin) into one or more importing areas [within the UK], using dedicated mobile phone lines or other form of “deal line”.

6.9 Exploitation is an integral part of the county lines offending model with children and vulnerable adults exploited to transport (and store) drugs and money between locations. Children aged between 15-17 make up the majority of the vulnerable people involved in county lines, but they may also be much younger. We know that both girls and boys are groomed and exploited and offenders will often use coercion, intimidation, violence (including sexual violence) and weapons to ensure compliance of victims. Children exploited by county lines gangs may have vulnerabilities besides their age, such as broader mental health issues, disrupted or chaotic homes, substance misuse issues, being excluded from school or frequently going missing.

6.10 The National Crime Agency’s 2018 county lines threat assessment set out that the national road network is key to the transportation of county lines victims, drugs and cash; with hire vehicles being one of the methods used for transportation between locations.

6.11 Safeguarding awareness training should include the ways in which drivers can help to identify county lines exploitation. Firstly, they should be aware of the following warning signs:

- Children and young people travelling in taxis or private hire vehicles alone;

- travelling at unusual hours (during school time, early in the morning or late at night);
- travelling long distances;
- unfamiliar with the local area or do not have a local accent;
- paying for journeys in cash or prepaid.

6.12 The Home Office is working with partners to raise awareness of county lines and has provided [material](#) to help taxi and private vehicle hire staff to identify victims and report concerns to protect those exploited through this criminal activity.

6.13 Drivers (or any person) should be aware of what to do if they believe a child or vulnerable person is at risk of harm. If the risk is immediate they should contact the police otherwise they should:

- use the local safeguarding process, the first step of which is usually to contact the safeguarding lead within the local authority;
- call Crime Stoppers on 0800 555 111.

Language proficiency

6.14 A lack of language proficiency could impact on a driver's ability to understand written documents, such as policies and guidance, relating to the protection of children and vulnerable adults and applying this to identify and act on signs of exploitation. Oral proficiency will be of relevance in the identification of potential exploitation through communicating with passengers and their interaction with others.

6.15 A licensing authority's test of a driver's proficiency should cover both oral and written English language skills to achieve the objectives stated above.

7. Vehicle Licensing

7.1 As with driver licensing, the objective of vehicle licensing is to protect the public, who trust that the vehicles dispatched are above all else safe. It is important therefore that licensing authorities are assured that those granted a vehicle licence also pose no threat to the public and have no links to serious criminal activity. Although vehicle proprietors may not have direct contact with passengers, they are still entrusted to ensure that the vehicles and drivers used to carry passengers are appropriately licensed and so maintain the safety benefits of the licensing regime.

Criminality checks for vehicle proprietors

7.2 Enhanced DBS and barred list checks are not available for vehicle licensing. **Licensing authorities should require a basic disclosure from the DBS and that a check is undertaken annually.** Any individual may apply for a basic check and the certificate will disclose any unspent convictions recorded on the Police National Computer (PNC). Licensing authorities should consider whether an applicant or licence holder with a conviction for offences provided in the annex to this document (Annex – Assessment of previous convictions), other than those relating to driving, meet the ‘fit and proper’ threshold.

7.3 However, it is important that authorities acknowledge that in many cases individuals that license a vehicle may already be licensed as a driver. An authority which undertakes the biannual DBS checks recommended for its drivers should not require those seeking to licence a vehicle to provide a basic DBS check as part of the application process; a basic DBS would not provide any information in addition to that disclosed under the enhanced DBS and barred lists check used for the driver assessment. In these circumstances, the authority should instead rely on the fact that the applicant is considered as fit and proper to hold a driver licence when considering their suitability to hold a vehicle licence. Should the individual cease to hold a driver licence a basic certificate should be required immediately.

7.4 A refusal to license an individual as a driver or to suspend or revoke a driver licence does not automatically mean that that individual cannot be issued or continue to hold a vehicle or private hire vehicle operator licence; these decisions must be independent of a driver licence refusal and based on the appropriate information i.e. it should not consider information that would only be available via an enhanced DBS check but instead that which would be disclosed on a basic check. DBS certificate information can only be used for the specific purpose for which it was requested and for which the applicant’s full consent has been given.

7.5 Private hire vehicle operator and vehicle licences may be applied for by a company or partnership; licensing authorities should apply the ‘fit and proper’ test to each of the directors or partners in that company or partnership. For this to be effective private hire vehicle operators and those to whom a vehicle licence should be required to advise the licensing authority of any change in directors or partners.

7.6 As explained earlier in the context of driver licensing, the DBS cannot access criminal records held overseas so other checks must be considered where and applicant has lived or worked overseas (see paragraph 4.34 - 4.36).

In-vehicle visual and audio recording – CCTV

7.7 Government has acknowledged the potential risk to public safety when passengers travel in taxis and private hire vehicles. It is unfortunately the case that no matter how complete the information available to licensing authorities is when assessing whether to issue any taxi or private hire vehicle licence, nor how robust the policies in place are and the rigor with which they are applied, it will never completely remove the possibility of harm to passengers by drivers.

7.8 The Department's view is that CCTV can provide additional deterrence to prevent this and investigative value when it does. The use of CCTV can provide a safer environment for the benefit of taxi/private hire vehicle passengers and drivers by:

- deterring and preventing the occurrence of crime;
- reducing the fear of crime;
- assisting the police in investigating incidents of crime;
- assisting insurance companies in investigating motor vehicle accidents.

7.9 All licensing authorities should consult to identify if there are local circumstances which indicate that the installation of CCTV in vehicles would have either a positive or an adverse net effect on the safety of taxi and private hire vehicle users, including children or vulnerable adults, and taking into account potential privacy issues.

7.10 While only a small minority of licensing authorities have so far mandated all vehicles to be fitted with CCTV systems, the experience of those authorities that have has been positive for both passengers and drivers. In addition, the evidential benefits of CCTV may increase the level of reporting of sexual offences. According to the [Crime Survey for England and Wales](#) only 17 percent of victims report their experiences to the police, 28 percent of rape or sexual assault victims indicated that a fear they would not be believed as a factor in them not reporting the crime. The evidential benefits CCTV could provide are therefore an important factor when considering CCTV in vehicles.

7.11 The mandating of CCTV in vehicles may deter people from seeking a taxi or private hire vehicle licence with the intent of causing harm. Those that gain a licence and consider perpetrating an opportunistic attack against a vulnerable unaccompanied passenger may be deterred from doing so. It is however unfortunately the case that offences may still occur even with CCTV operating.

7.12 CCTV systems that are able to record audio as well as visual data may also help the early identification of drivers that exhibit inappropriate behaviour toward passengers. Audio recording should be both overt (i.e. all parties should be aware when recordings are being made) and targeted (i.e. only when passengers (or

drivers) consider it necessary). The recording of audio should be used to provide an objective record of events such as disputes or inappropriate behaviour and must not be continuously active by default and should recognise the need for privacy of passengers' private conversations between themselves. Activation of the audio recording capability of a system might be instigated when either the passenger or driver operates a switch or button.

- 7.13 Imposition of a blanket requirement to attach CCTV as a condition to a licence is likely to give rise to concerns about the proportionality of such an approach and will therefore require an appropriately strong justification and must be kept under regular review. More information and guidance on assessing the impacts of CCTV and on an authority mandating CCTV is annexed to this document (Annex – CCTV guidance).

Stretched Limousines

- 7.14 Licensing authorities are sometimes asked to license small (those constructed or adapted to carry fewer than nine passengers) limousines as private hire vehicles, these vehicles may be used for transport to 'school proms' as well as for adult bookings. It is suggested that licensing authorities should approach such requests on the basis that these vehicles – where they have fewer than nine passenger seats - have a legitimate role to play in the private hire trade, meeting a public demand. It is the Department's view that it is not a legitimate course of action for licensing authorities to adopt policies that exclude limousines as a matter of principle thereby excluding these services from the scope of the private hire vehicle regime and the safety benefits this provides. A blanket policy of excluding limousines may create an unacceptable risk to the travelling public, as it may lead to higher levels of unsupervised operation. Public safety considerations are best supported by policies that allow respectable, safe operators to obtain licences on the same basis as other private hire vehicle operators.
- 7.15 Stretched large limousines which clearly seat more than eight passengers should not be licensed as private hire vehicles because they are outside the licensing regime for private hire vehicles. However, in some circumstances a vehicle with space for more than eight passengers can be licensed as a private hire vehicle where the precise number of passenger seats is hard to determine. In these circumstances, the authority should consider the case on its merits in deciding whether to license the vehicle under the strict condition that the vehicle will not be used to carry more than eight passengers, bearing in mind that refusal may encourage illegal private hire operation.

8. Private Hire Vehicle Operator Licensing

8.1 As with driver licensing, the objective in licensing private hire vehicle operators is to protect the public, who may be using operators' premises and trusting that the drivers and vehicles dispatched are above all else safe. It is important therefore that licensing authorities are assured that those that are granted a private hire vehicle operator also pose no threat to the public and have no links to serious criminal activity. Although private hire vehicle operators may not have direct contact with passengers, they are still entrusted to ensure that the vehicles and drivers used to carry passengers are appropriately licensed and so maintain the safety benefits of the driver licensing regime.

Criminality checks for private hire vehicle operators

8.2 Enhanced DBS and barred list checks are not available for private hire vehicle operator licensing. **Licensing authorities should request a basic disclosure from the DBS and that a check is undertaken annually.** Any individual may apply for a basic check and the certificate will disclose any unspent convictions recorded on the Police National Computer (PNC). Licensing authorities should consider whether an applicant or licence holder with a conviction for offences provided in the annex to this document (Annex – Assessment of previous convictions), other than those relating to driving, meet the 'fit and proper' threshold.

8.3 However, it is important that authorities acknowledge that in many cases individuals that license as a private hire vehicle operator may already be licensed as a driver. An authority which undertakes the biannual DBS checks recommended for its drivers should not require those seeking a private hire vehicle operator licence to provide a basic DBS check as part of the application process; a basic DBS would not provide any information in addition to that disclosed under the enhanced DBS and barred lists check used for the driver assessment. In these circumstances, the authority should instead rely on the fact that the applicant is considered as fit and proper to hold a driver licence when considering their suitability to hold a vehicle licence. Should the individual cease to hold a driver licence a basic certificate should be required immediately

8.4 Refusal to license an individual as a driver or to suspend or revoke a driver licence does not automatically mean that that individual cannot be issued or continue to hold a private hire vehicle operator licence; this decision must be independent of a driver licence refusal and based on the appropriate information i.e. it should not consider information that would only be available via an enhanced DBS check but instead that which would be disclosed on a basic check. DBS certificate information can only be used for the specific purpose for which it was requested and for which the applicant's full consent has been given.

8.5 A private hire vehicle operator licence may be applied for by a company or partnership; licensing authorities should apply the 'fit and proper' test to each of the directors or partners in that company or partnership. For this to be effective

private hire vehicle operators should be required to advise the licensing authority of any change in directors or partners.

- 8.6 As explained earlier in the context of driver licensing, the DBS cannot access criminal records held overseas. Further information on assessing the suitability of those that have spent extended periods in overseas is provided in paragraphs 4.34 - 4.36.

Booking and dispatch staff

- 8.7 Private hire vehicle drivers are not the only direct contact that private hire vehicle users have with private hire vehicle operators' staff, for example a person taking bookings (be it by phone or in person). A vehicle dispatcher decides which driver to send to a user, a position that could be exploited by those seeking to exploit children and vulnerable adults. It is therefore appropriate that all staff that have contact with private hire vehicle users and the dispatching of vehicles should not present an undue risk to the public or the safeguarding of children and vulnerable adults.
- 8.8 Licensing authorities should be satisfied that private hire vehicle operators can demonstrate that all staff that have contact with the public and/or oversee the dispatching of vehicles do not pose a risk to the public. **Licensing authorities should, as a condition of granting an operator licence, require a register of all staff that will take bookings or dispatch vehicles is kept.**
- 8.9 Operators should be required to evidence that they have had sight of a Basic DBS check on all individuals listed on their register of booking and dispatch staff and to ensure that Basic DBS checks are conducted on any individuals added to the register and that this is compatible with their policy on employing ex-offenders. DBS certificates provided by the individual should be recently issued when viewed, alternatively the operator could use a '[responsible organisation](#)' to request the check on their behalf. When individuals start taking bookings and dispatching vehicles for an operator they should be required, as part of their employment contract, to advise the operator of any convictions while they are employed in this role.
- 8.10 The register should be a 'living document' that maintains records of all those in these roles for the same duration as booking records are required to be kept, this will enable cross-referencing between the two records. A record that the operator has had sight of a basic DBS check certificate (although the certificate itself should not be retained) should be retained for the duration that the individual remains on the register. Should an employee cease to be on the register and later re-entered, a new basic DBS certificate should be requested and sight of this recorded.
- 8.11 Operators may outsource booking and dispatch functions but they cannot pass on the obligation to protect children and vulnerable adults. Operators should be required to evidence that comparable protections are applied by the company to which they outsource these functions.

8.12 Licensing authorities should also require operators or applicants for a licence to provide their policy on employing ex-offenders in roles that would be on the register as above. As with the threshold to obtaining a private hire vehicle operators' licence, those with a conviction for offences provided in the annex to this document (Annex – Assessment of previous convictions), other than those relating to driving, may not be suitable to decide who is sent to carry a child or vulnerable adult unaccompanied in a car.

Record keeping

8.13 Section 56 of the [Local Government \(Miscellaneous Provisions\) Act 1976](#) requires private hire vehicle operators to keep records of the particulars of every booking invited or accepted, whether it is from the passenger or at the request of another operator. **Licensing authorities should as a minimum require private hire vehicle operators to record the following information for each booking:**

- the name of the passenger;
- the time of the request;
- the pick-up point;
- the destination;
- the name of the driver;
- the driver's licence number;
- the vehicle registration number of the vehicle;
- the name of any individual that responded to the booking request;
- the name of any individual that dispatched the vehicle.

8.14 This information will enable the passenger to be traced if this becomes necessary and should improve driver security and facilitate enforcement. It is suggested that booking records should be retained for a minimum of six months.

8.15 Private hire vehicle operators have a duty under data protection legislation to protect the information they record. The Information Commissioner's Office provides comprehensive on-line guidance on registering as a data controller and how to meet their obligations.

Use of passenger carrying vehicles (PCV) licensed drivers

8.16 PCV licensed drivers are subject to different checks from taxi and private hire vehicle licensed drivers as the work normally undertaken, i.e. driving a bus, does not present the same risk to passengers. Members of the public are entitled to expect when making a booking with a private hire vehicle operator that they will receive a private hire vehicle licensed vehicle and driver. **The use of a driver who holds a PCV licence and the use of a public service vehicle (PSV) such**

as a minibus to undertake a private hire vehicle booking should not be permitted as a condition of the private hire vehicle operator's licence without the informed consent of the booker.

- 8.17 Where a private hire vehicle is unsuitable, for example where a larger vehicle is needed because more than eight passenger seats required or to accommodate luggage, the booker should be informed that a PSV is necessary, and that a PCV licenced driver will be used who is subject to different checks and not required to have an enhanced DBS check.

9. Enforcing the Licensing Regime

9.1 Implementing an effective framework for licensing authorities to ensure that as full a range of information made available to suitably trained decision makers that are supported by well-resourced officials is essential to a well-functioning taxi and private hire vehicle sector. These steps will help prevent the licensing of those that are not deemed 'fit and proper' but does not ensure that those already licensed continue to display the behaviours and standards expected.

Joint authorisation of enforcement officers

9.2 Licensing authorities should, where the need arises, jointly authorise officers from other authorities so that compliance and enforcement action can be taken against licensees from outside their area. An agreement between licensing authorities to jointly authorise officers enables the use of enforcement powers regardless of which authority within the agreement the officer is employed by and which issued the licence. This will mitigate the opportunities for drivers to evade regulation. Such an agreement will enable those authorities to take action against vehicles and drivers that are licensed by the other authority when they cross over boundaries. A model for agreeing joint authorisation is contained in the [LGA Councillors' handbook](#).

Setting expectations and monitoring

9.3 Licensing authorities should ensure that drivers are aware of the policies that they must adhere and are properly informed of what is expected of them and the repercussions for failing to do so. Some licensing authorities operate a points-based system, which allows minor breaches to be recorded and considered in context while referring those with persistent or serious breaches to the licensing committee. This has the benefit of consistency in enforcement and makes better use of the licensing committee's time.

9.4 The provision of a clear, simple and well-publicised process for the public to make complaints about drivers and operators will enable authorities to target compliance and enforcement activity (see paragraphs 4.29 - 4.33). This will provide a further source of intelligence when considering the renewal of licences and of any additional training that may be required. It is then for the licensing authority to consider if any intelligence indicates a need to suspend or revoke a licence in the interests of public safety.

Suspension and revocation of driver licences

9.5 Section 61 of the Local Government (Miscellaneous Provisions) Act 1976 provides a licensing authority with the ability to suspend or revoke a driver's licence on the following grounds: -

(a) that he has since the grant of the licence—

- (i) been convicted of an offence involving dishonesty, indecency or violence; or
- (ii) been convicted of an offence under or has failed to comply with the provisions of the Act of 1847 or of this Part of this Act;
- (aa) that he has since the grant of the licence been convicted of an immigration offence or required to pay an immigration penalty; or
- (b) any other reasonable cause

9.6 Licensing authorities have the option to suspend or revoke a licence should information be received that causes concern over whether a driver is a fit and proper person. Where the licence holder has been served an immigration penalty or convicted of an immigration offence the licence should be revoked immediately. [Guidance for licensing authorities](#) to prevent illegal working in the taxi and private hire vehicle sector has been issued by the Home Office. As with the initial decision to license a driver, this determination must be reached based on the balance of probabilities, not on the burden of beyond reasonable doubt.

9.7 Before any decision is made, the licensing authority must give full consideration to the available evidence and the driver should be given the opportunity to state his or her case. If a period of suspension is imposed, it cannot be extended or changed to revocation at a later date.

9.8 A decision to revoke a licence does not however prevent the reissuing of a licence should further information be received that alters the balance of probability of a decision previously made. The decision to suspend or revoke was based on the evidence available at the time the determination was made. New evidence may, of course, become available later.

9.9 New evidence may be produced at an appeal hearing that may result in the court reaching a different decision to that reached by the council or an appeal may be settled by agreement between the licensing authority and the driver on terms which, in the light of new evidence, becomes the appropriate course. If, for example, the allegations against a driver were now, on the balance of probability, considered to be unfounded, a suspension could be lifted or, if the licence was revoked, an expedited re-licensing process used.

9.10 A suspension may still be appropriate if it is believed that a minor issue can be addressed through additional training. In this instance the licence would be returned to the driver once the training has been completed without further consideration. This approach is clearly not appropriate where the licensing authority believes that, based on the information available at that time, on the balance of probability it is considered that the driver presents a risk to public safety.

Annex – Assessment of Previous Convictions

Legislation specifically identifies offences involving dishonesty, indecency or violence as a concern when assessing whether an individual is 'fit and proper' to hold a taxi or private hire vehicle licence. The following recommendations to licensing authorities on previous convictions reflect this.

Authorities must consider each case on its own merits, and applicants/licensees are entitled to a fair and impartial consideration of their application. Where a period is given below, it should be taken to be a minimum in considering whether a licence should be granted or renewed in most cases. The Department's view is that this places passenger safety as the priority while enabling past offenders to sufficiently evidence that they have been successfully rehabilitated so that they might obtain or retain a licence.

Crimes resulting in death

Where an applicant or licensee has been convicted of a crime which resulted in the death of another person or was intended to cause the death or serious injury of another person they will not be licensed.

Exploitation

Where an applicant or licensee has been convicted of a crime involving, related to, or has any connection with abuse, exploitation, use or treatment of another individual irrespective of whether the victim or victims were adults or children, they will not be licensed. This includes slavery, child sexual abuse, exploitation, grooming, psychological, emotional or financial abuse, but this is not an exhaustive list.

Offences involving violence against the person

Where an applicant has a conviction for an offence of violence against the person, or connected with any offence of violence, a licence will not be granted until at least 10 years have elapsed since the completion of any sentence imposed.

Possession of a weapon

Where an applicant has a conviction for possession of a weapon or any other weapon related offence, a licence will not be granted until at least seven years have elapsed since the completion of any sentence imposed.

Sexual offences

Where an applicant has a conviction for any offence involving or connected with illegal sexual activity, a licence will not be granted.

In addition to the above, the licensing authority will not grant a licence to any applicant who is currently on the Sex Offenders Register or on any barred list.

Dishonesty

Where an applicant has a conviction for any offence where dishonesty is an element of the offence, a licence will not be granted until at least seven years have elapsed since the completion of any sentence imposed.

Drugs

Where an applicant has any conviction for, or related to, the supply of drugs, or possession with intent to supply or connected with possession with intent to supply, a licence will not be granted until at least 10 years have elapsed since the completion of any sentence imposed.

Where an applicant has a conviction for possession of drugs, or related to the possession of drugs, a licence will not be granted until at least five years have elapsed since the completion of any sentence imposed. In these circumstances, any applicant may also have to undergo drugs testing for a period at their own expense to demonstrate that they are not using controlled drugs.

Discrimination

Where an applicant has a conviction involving or connected with discrimination in any form, a licence will not be granted until at least seven years have elapsed since the completion of any sentence imposed.

Motoring convictions

Hackney carriage and private hire drivers are professional drivers charged with the responsibility of carrying the public. It is accepted that offences can be committed unintentionally, and a single occurrence of a minor traffic offence would not prohibit the granting of a licence. However, applicants with multiple motoring convictions may indicate that an applicant does not exhibit the behaviours of a safe road user and one that is suitable to drive professionally.

Any motoring conviction while a licensed driver demonstrates that the licensee may not take their professional responsibilities seriously. However, it is accepted that offences can be committed unintentionally, and a single occurrence of a minor traffic offence may not necessitate the revocation of a taxi or private hire vehicle driver licence providing the authority considers that the licensee remains a fit and proper person to retain a licence.

Drink driving/driving under the influence of drugs

Where an applicant has a conviction for drink driving or driving under the influence of drugs, a licence will not be granted until at least seven years have elapsed since the completion of any sentence or driving ban imposed. In the case of driving under the influence of drugs, any applicant may also have to undergo drugs testing at their own expense to demonstrate that they are not using controlled drugs.

Using a hand-held device whilst driving

Where an applicant has a conviction for using a held-hand mobile telephone or a hand-held device whilst driving, a licence will not be granted until at least five years have elapsed since the conviction or completion of any sentence or driving ban imposed, whichever is the later.

Annex – CCTV Guidance

It is important to note that, in most circumstances, a licensing authority which mandates the installation of CCTV systems in taxis and private hire vehicles will be responsible for the data – the data controller. It is important that data controllers fully consider concerns regarding privacy and licensing authorities should consider how systems are configured, should they mandate CCTV (with or without audio recording). For example, vehicles may not be exclusively used for business, also serving as a car for personal use - it should therefore be possible to manually switch the system off (both audio and visual recording) when not being used for hire. Authorities should consider the Information Commissioner's view on this matter that, in most cases, a requirement for continuous operation is unlikely to be fair and lawful processing of personal data.

The Home Office '[Surveillance Camera Code of Practice](#)' advises that government is fully supportive of the use of overt surveillance cameras in a public place whenever that use is:

- in pursuit of a legitimate aim;
- necessary to meet a pressing need;
- proportionate;
- effective, and;
- compliant with any relevant legal obligations

The Code also sets out 12 guiding principles which, as a 'relevant authority' under section 33(5) of the [Protection of Freedoms Act 2012](#), licensing authorities must have regard to. It must be noted that, where a licence is granted subject to CCTV system conditions, the licensing authority assumes the role and responsibility of 'System Operator'. The role requires consideration of all guiding principles in this code. The failure to comply with these principles may be detrimental to the use of CCTV evidence in court as this may be raised within disclosure to the Crown Prosecution Service and may be taken into account.

The Surveillance Camera Commissioner (SCC) has provided guidance on the Surveillance Camera Code of Practice in its '[Passport to Compliance](#)' which provides guidance on the necessary stages when planning, implementing and operating a surveillance camera system to ensure it complies with the code. The Information Commissioner's Office (ICO) has also published a [code of practice](#) which, in this context, focuses on the data governance requirement associated with the use of CCTV such as data retention and disposal, which it is important to follow in order to comply with the data protection principles. The SCC provides a [self-assessment tool](#) to assist operators to ensure compliance with the principles set out in the Surveillance Camera Code of Practice. The SCC also operate a [certification scheme](#); authorities that obtain this accreditation are able to clearly demonstrate that their systems conform to the SCC's best practice and are fully compliant with the Code and increase public confidence that any risks to their privacy have been fully considered and mitigated.

The [Data Protection Act 2018](#) regulates the use of personal data. Part 2 of the Data Protection Act applies to the general processing of personal data, and references and supplements the General Data Protection Regulation. Licensing authorities, as data controllers, must comply with all relevant aspects of data protection law. Particular attention should be paid to the rights of individuals which include the right to be informed, of access

and to erasure. The ICO has provided detailed [guidance](#) on how data controllers can ensure compliance with these.

It is a further requirement of data protection law that before implementing a proposal that is likely to result in a high risk to the rights and freedoms of people, an impact assessment on the protection of personal data shall be carried out. The ICO recommends in [guidance](#) that if there is any doubt as to whether a Data Protection Impact Assessment (DPIA) is required one should be conducted to ensure compliance and encourage best practice. A DPIA will also help to assess properly the anticipated benefits of installing CCTV (to passengers and drivers) and the associated privacy risks; these risks might be mitigated by having appropriate privacy information and signage, secure storage and access controls, retention policies, training for staff how to use the system, etc.

It is essential to ensure that all recordings made are secure and can only be accessed by those with legitimate grounds to do so. This would normally be the police if investigating an alleged crime or the licensing authority if investigating a complaint or data access request. Encryption of the recording to which the licensing authority, acting as the data controller, holds the key, mitigates this issue and protects against theft of the vehicle or device. It is one of the guiding principles of data protection legislation, that personal data (including in this context, CCTV recordings and other potentially sensitive passenger information) is handled securely in a way that 'ensures appropriate security', including protection against unauthorised or unlawful processing and against accidental loss, destruction or damage, using appropriate technical or organisational measures.

All passengers must be made fully aware if CCTV is operating in a vehicle. Given that audio recording is considered to be more privacy intrusive, it is even more important that individuals are fully aware and limited only to occasions when passengers (or drivers) consider it necessary. The recording of audio should be used to provide an objective record of events such as disputes or inappropriate behaviour and must not be continuously active by default and should recognise the need for privacy of passengers' private conversations between themselves. Activation of the audio recording capability of a system might be instigated when either the passenger or driver operates a switch or button. As well as clear signage in vehicles, information on booking systems should be introduced. This might be text on a website, scripts or automated messages on telephone systems; the Information Commissioner's Office (ICO) has issued guidance on privacy information and the right to be informed on its website.

Annex - Staying Safe: Guidance for Passengers

Licensing authorities should provide guidance to assist passengers in identifying licensed vehicles and the increased risks of using unlicensed vehicles. The guidance might include advice on:

- how to tell if a taxi or private hire vehicle is licensed.

Educate the public in the differences between taxis and private hire vehicles e.g.:

- a taxi can be flagged down or pre-booked.
- a private hire vehicle that has not been pre-booked should not be used as it will not be insured and may not be licensed.
- what a private hire vehicle should look like e.g. colour, signage, licence plates etc.
- the benefit of pre-booking a return vehicle before going out.
- arrange to be picked up from a safe meeting point.
- requesting at the time of booking what the fare is likely to be.

When using a private hire vehicle, passengers should always:

- book with a licensed operator.
- confirm their booking with the driver when s/he arrives.
- note the licence number.
- sit in the back, behind the driver.
- let a third party know details of their journey.

When using a taxi, passengers should where possible:

- use a taxi rank and choose one staffed by taxi marshals if available.

HACKNEY CARRIAGE AND PRIVATE HIRE POLICY STATEMENT

1. VISION STATEMENT

- 1.1 The overriding factor in licensing is the safety of the public. This policy sets out how Southampton City Council will apply legislation to maintain public safety, to ensure users of licensed vehicles receive a safe and pleasant service and those providing the service are appropriately rewarded and protected.

2. INTRODUCTION

- 2.1 The Council and those who provide taxi and private hire services share the aim of providing a safe, reliable and efficient service. This document and its appendices set out the policies and conditions applied to taxi and private hire licensing.
- 2.2 The Council has an overriding duty to protect the public. In setting its policies and licence conditions the Council has to ensure this is done but in such a manner that does not unnecessarily restrict prosperous business within the trades.
- 2.3 It therefore makes sense for the Council and those who drive, operate and own taxis and private hire vehicles to work together. Council officers and members representing the licensing committee will hold regular meetings with taxi trade reps.
- 2.4 The Council is responsible for issuing licences and making policy and conditions. Elected councillors set these. Officers of the council, or their agents, put them into practice. Appendices 1 to 5 set out the specific policy and conditions for the 5 types of licensing. As hackney carriage drivers cannot have conditions applied to their licences the council has adopted a code of conduct for drivers to set standards expected. This is at Appendix 9
- 2.5 Section 177(4) of The Policing and Crime Act 2017 enables the Secretary of State for Transport to issue statutory guidance on exercising taxi and private hire vehicle licensing functions to protect children and vulnerable individuals who are over 18 from harm when using these services.
- 2.6 In carrying out these functions Councillors and officers must have regard to the Statutory guidance. "Having regard" is more than having a cursory glance at a document before arriving at a preconceived conclusion
- 2.7 There is evidence to support the view that taxis and private hire vehicles are a high-risk environment. In terms of risks to passengers, this can be seen in abuse and exploitation of children and vulnerable adults facilitated and, in some cases, perpetrated by the trade and the number of sexual crimes reported which involve taxi and private hire vehicle drivers. For those in the trade they are at risk of abuse, assault and theft.
- 2.8 Although it remains the case that licensing authorities must reach their own decisions, both on overall policies and on individual licensing matters in light of the relevant law, it may be that the Statutory Taxi and Private Hire Vehicle Standards might be drawn upon in any legal challenge to an authority's practice, and that any failure to adhere to the standards without sufficient justification could be detrimental to the authority's defence.
- 2.9 The Statutory Taxi and Private Hire Vehicle Standards does not purport to give a definitive statement of the law and any decisions made by a licensing authority remain a matter for that authority.

- 2.10 The Statutory Guidance recommends all licensing authorities make publicly available a cohesive policy document that brings together all their procedures on taxi and private hire vehicle licensing. This should include but not be limited to policies on convictions, a 'fit and proper' person test, licence conditions and vehicle standards.
- 2.11 When formulating a taxi and private hire vehicle policy, the primary and overriding objective must be to protect the public. The importance of ensuring that the licensing regime protects the vulnerable cannot be overestimated.
- 2.12 Any changes in licensing requirements will be followed by a review of the licences already issued. If the need to change licensing requirements has been identified, this same need is applicable to those already in possession of a licence. Where appropriate licence holders will be given time to meet any new requirements. For more subjective changes such as a change in convictions policy each case will be determined on its own merits. Where there are exceptional, clear and compelling reasons to deviate from policy the authority will consider doing so and record the reasons for doing so.

3. CONSULTATION

- 3.1 Southampton City Council will consult on proposed changes in licensing rules that may have significant impacts on passengers and/or the trade. Such consultation will include not only the taxi and private hire vehicle trades but also groups likely to be the trades' customers.
- 3.2 As any decision taken to alter the licensing regime is likely to have an impact on the operation of the taxi and private hire vehicle sector in neighbouring areas Southampton City Council will engage with these areas to identify any concerns and issues that might arise from a proposed change.
- 3.3 Officers, members of the licensing committee and representatives agreed by the council will meet quarterly to discuss matters relevant to the trade. A code of conduct for these meetings is at appendix 6.
- 3.4 Southampton City Council officers attend the Hampshire and Isle of Wight Licensing Officers Group meetings to discuss licensing matters including taxi matters.

4. DURATION OF LICENCES

- 4.1 The Local Government (Miscellaneous Provisions) Act 1976 (as amended) sets a standard length at three years for taxi and private hire vehicle drivers and five years for private hire vehicle operators. Driver licences will be given an expiry date at the end of the month prior to the birth month. Any shorter duration licence should only be issued when the licensing authority thinks it is appropriate in the specific circumstances of the case, if a licensee has requested one or where required (e.g. when the licence holder's leave to remain in the UK is time-limited) or when the licence is only required to meet a short-term demand; they should not be issued on a 'probationary' basis.
- 4.2 Vehicle licences cannot be for more than one year. To manage the renewal process and spread demand across the year Southampton City Council has allocated plate expiry dates to blocks of licences. See the table below. For new vehicle applications this will mean the grant of the licence will be for a period less than one year. Applicants will always be offered the longest period that is available. For licences that are less than 6 months in duration a reduced fee will be charged.

Southampton City Council has a whistleblowing ([Duty to Act](#)) policy. This sets out the process for staff to report concerns if policies are not being correctly applied.

6. INFORMATION TO BE CONSIDERED FOR APPLICATIONS

- 6.1 The licensing authority will consider all relevant information when determining the suitability of an applicant or current licence holder. The following is not an exhaustive list.
- 6.2 Southampton City Council will require drivers to subscribe to the DBS update service and undertake an enhanced DBS check including both the children and adult barred lists. Other licence holders will be required to undergo standard DBS checks.

- 6.3 Southampton City Council maintain a close link with the police and other regulatory bodies and when necessary share information for the purpose of determining applications.
- 6.4 Licence holders are required to notify the authority within 48 hours of an arrest and release, charge or conviction of any sexual offence, any offence involving dishonesty or violence and any motoring offence. An arrest for any of the offences within this scope will result in a review as to whether the licence holder continues to be fit.
- 6.5 Southampton City Council will share with other authorities and on the National NR3 site details of any licence revoked or refused. The authority will carry out checks of applicants and licence holders on the NR3 database. The authority will only release the reasons for any such decision on an official and legal request from another authority.
- 6.6 Southampton City Council will share with other authorities, upon receipt of the appropriate request, details of any complaints or enquiries received regarding a licence holder.
- 6.7 The licensing team will maintain contacts with various departments within the Council and partners such as Children and Adult Services, School transport commissioning teams and community wardens to assist in identifying and reporting on risks linked to the taxi and private hire trades.
- 6.8 The licensing team will keep a separate record of all complaints and enquiries relating to licence holders, both current and expired. This will include the date, nature of the complaint, the licence complained about and result.
- 6.9 Applicants that have been aboard for a period in excess of 6 months in any one year in the previous 5 years will be required to obtain a certificate of good conduct from the country/countries they visited in that time. Any inability to obtain such a certificate will result in the application being refused.

7. ENFORCING THE LICENSING REGIME

- 7.1 Southampton City Council will work with relevant enforcement agencies such as the police and other local authorities to ensure any licensed vehicle or driver working in Southampton, regardless of the authority that licences them, meets any national standards and is legally compliant.
- 7.2 Complaints and condition breaches will be monitored and considered when assessing the suitability of any applicant.
- 7.3 Southampton City Council will ask for complaints to be submitted either through the [‘How to make a complaint’](#) webpage [or email](#) or letter to:

Licensing Team,
Civic Centre,
Southampton.
SO14 7LY

Verbal complaints will only be accepted in exceptional circumstances.

8. DECISION MAKING

- 8.1 Southampton City Council will ensure any individuals involved in determining licensing applications are appropriately trained. For officers determining to grant licences this will involve training on the legislation, including case law, on taxi and private hire legislation. These officers will be provided with refresher training as and when required.

- 8.2 For officers and any Councillors involved in making a determination whether to suspend, revoke or refuse a licence the training will be annual and delivered by a legal professional well versed in licensing legislation, including, but not limited to, hearing processes, decision making and taxi legislation.
- 8.3 Public safety is the paramount consideration, but the discharge of licensing functions must be undertaken in accordance with the following general principles:
- policies will be used as internal guidance and is supported by a member/officer code of conduct.
 - any implications of the Human Rights Act will be considered.
 - the rules of natural justice will be observed.
 - decisions will be reasonable and proportionate.
 - where a hearing is required it will be fairly conducted and allow for appropriate consideration of all relevant factors.
 - decision makers must avoid bias (or even the appearance of bias) and predetermination.
 - data protection legislation
- 8.4 When a decision maker has a prejudicial interest in a case, whether it be financial or a personal relationship with those involved they must declare their interest at the earliest opportunity; this must be prior to any discussions or votes and, once declared, they will not participate in the determining process.
- 8.5 Each case will be considered on its own merits.

9. REGULATORY STRUCTURE

- 9.1 Southampton City Council's constitution sets out how the functions and responsibilities will be carried out.
- 9.2 The Licensing Committee will determine policy and from the committee it delegates to the Licensing (General) sub committee the determination of licences.
- 9.3 The Service Manager for licensing also has delegated authority to determine licences. The Licensing manager will use this authority
- in urgent cases when the continuance of any licence poses a risk to the public or
 - in cases that are a clear breach of policy or
 - to deal with minor breaches when suspension is considered and the chair of the licensing committee or their deputy agree the licensing manager can make the determination.
- 9.4 In each case the licensing manager will liaise with the chair of the licensing committee or their deputy before making the determination except in urgent cases when it is not practicable to delay making the determination.
- 9.5 The licensing manager will not normally be involved in any investigations, however should the manager be involved in an investigation the decision must be referred to the sub committee.

10. FIT AND PROPER TEST

- 10.1 Licensing authorities have a duty to ensure that any person to whom they grant a taxi or private hire vehicle driver's licence is a 'fit and proper' person to be a licensee. When assessing whether an applicant or licensee is fit and proper the following question will be considered:

Without any prejudice, and based on the information before you, would you allow a person for whom you care, regardless of their condition, to travel alone in a vehicle driven by this person at any time of day or night?

- 10.2 If, on the balance of probabilities, the answer to the question is 'no', the individual should not hold a licence.
- 10.3 Licensing authorities have to make difficult decisions, but the safeguarding of the public is paramount. All decisions on the suitability of an applicant or licensee will be made on the balance of probability. This means that an applicant or licensee should not be 'given the benefit of doubt'. If the committee or delegated officer is only "50/50" as to whether the applicant or licensee is 'fit and proper', they will not hold a licence. The threshold used here is lower than for a criminal conviction (that being beyond reasonable doubt) and can take into consideration conduct that has not resulted in a criminal conviction.

11. SUITABILITY TO HOLD A TAXI OR PRIVATE HIRE LICENCE

- 11.1 To assist in applying the fit and proper test Southampton City Council has taken note of the Department for Transport recommendation in their Statutory Taxi and Private Hire standards and the Institute of Licensing Guidance on determining the suitability of applicants and licensees in the hackney carriage and private hire trades. Appendix 7 has been adopted as the policy for determining the suitability to hold a licence.

12. DRIVER MEDICALS

- 12.1 Southampton City Council have adopted the DVLA Group 2 medical standards for all drivers. See appendix 8

13. EQUALITY ACT 2010

- 13.1 Southampton City Council is committed to an accessible public transport system in which disabled people have the same opportunities to travel as other members of society. Hackney Carriages and Private Hire Vehicles are a vital link in the accessible transport chain, and it is important that people who use wheelchairs or assistance dogs can have confidence that drivers will accept them and their wheelchair or assistance dog and carry them at no extra charge.
- 13.2 Southampton City Council maintains a list of wheelchair accessible vehicles which can be [here](#).
- 13.3 See appendix 10 for the policy for drivers to obtain medical exemptions from the obligations placed upon them by the Equality Act 2010.

ADDITIONAL INFORMATION

Please note that this information does not form part of Southampton City Council's licence policy or conditions

Drivers, proprietors and operators of licensed hackney carriages and private hire vehicles are reminded of the other statutory duties and restriction placed on them, amongst which are the following:

Smoking

The Health Act 2006 prohibits the smoking of tobacco or any other substance by anyone in a licensed hackney carriage or private hire vehicle. The legislation applies at all times whilst the vehicle remains licensed, thus smoking remains prohibited when the vehicle is not hired or not for hire.

Every licensed vehicle is required to carry appropriate signage under the Smoke-free (Signs) Regulations 2007. Guidance and signs are available from: <http://www.smokefreeengland.co.uk/resources/guidance-and-signage.html>

Assistance Dogs

The Equality Act 2010 imposes a duty on licensed drivers and operators to convey any guide, hearing or other assistance dog in a licensed hackney carriage or private hire vehicle. Drivers must:

- carry assistance dogs accompanying disabled people;
- do so without additional charge; and
- allow the dog to remain with the passenger

Operators must:

- accept bookings made by or on behalf of a disabled person who is accompanied by an assistance dog;
- accept bookings made by a person who will be accompanied in a PHV by such a disabled person; and
- not make an additional charge for carrying the assistance dog

If a driver has a medical condition, such as severe asthma, which is aggravated by contact with dogs, or is allergic or has an acute phobia to dogs, it may be possible for them to qualify for an exemption. Please discuss this with the licensing team in the first instance, to whom application for exemption must be made. The driver will be required to produce conclusive medical evidence in support of his application.

Please note that the law does not allow for an exemption to be granted on religious grounds.

Taxi Trade Representatives Code of Conduct

Introduction

There is no legal requirement for the Licensing Authority to have any consultation process with the Taxi and Private Hire trade other than the discreet issues concerning fees for Vehicle and Operators licences and taxi fare revisions where formal notices must be given.

It is, however, considered to be a matter of good practice that a formal framework exists for two way exchange of views.

The purpose of consultation is defined as:

- A two way exchange of information, dialogue and discussion
- To hear views, comments and concerns of the trade
- To receive information, comments, and concerns of the Licensing Team, Members and the Council as a whole.
- Not a decision making forum
- Where matters of a particular concern and where appropriate, matters raised can be referred to the Licensing Committee where a formal decision can be made.

It should be borne in mind that consultation does not necessarily mean agreement with and that consultation meetings cannot be decision making meetings. The Council and the licensing trades are keen to develop a relationship built on trust, openness and honesty.

1. Common Principles

- 1.1 All elements of the Code apply equally to trade representatives, councillors and officers, (called “participants”, unless otherwise stated).
- 1.2 Participants are required at all times to act in a civil manner. Personal attacks, offensive, abusive or racist comments are not acceptable.
- 1.3 In carrying out their role, no participant will discriminate against any person in a manner that is contrary to the Equality Act 2010 and Council’s Equal Opportunities Policy. All participants acknowledge that everybody has the right to be treated with dignity and respect, regardless of ethnic or national origins, disability, gender, marital status, age, sexuality, religion or any other matter which causes people to be treated with injustice.

2. Officer code

- 2.1 At all times, officers shall act in a professional manner and shall treat participants with courtesy and respect.
- 2.2 Officers shall use reasonable endeavours to make themselves available to meet with participants providing reasonable notice is given of the meeting and demands are not excessive.
- 2.3 Officers will, providing sufficient notice has been given, supply information to participants regarding issues raised. This will not include information relating to individuals (except at that

individual's request and with their written consent) which is confidential and data protected. Officers have a responsibility to adhere to the Data Protection Act 2018 and GDPR.

- 2.4 The Council is committed to being open and transparent.
- 2.5 "Reasonable notice" will be at least 14 working days prior to any meeting or information request, unless a shorter timescale has been agreed.
- 2.6 Officers will not provide any more or less favourable services to any participants.

3. Representatives' Code

- 3.1 Representatives shall be courteous at all times in their dealings with each other, officers and councillors.
- 3.2 Representatives have a responsibility to accurately report the views of the persons they represent and to accurately feedback those views to the trade in general. If anyone makes a personal point they must state clearly this is their own personal view and not those of the group.
- 3.3 There may be occasions where officers cannot give their personal views about the policies, management, staff or elected members of the Council and should not be pressed to do so.
- 3.4 Representatives must respect the impartiality of officers and must undertake not to make party political statements.
- 3.5 From time to time representatives will have access to sensitive and confidential information which is not yet in the public domain. When representatives are advised that information is confidential or where it is clear by the nature of the information or the purpose of the meeting that the information is confidential, that information must not be disclosed to others under any circumstances. This includes discussions outside of the meeting(s) or with any participants' partners and/or family/friends. Participants may be required to sign a confidentiality statement before the start of the confidential section of the meeting. The Council will explain why this information is confidential. Such information must not be used for personal gain.

4. All Participants

- 4.1 Participants shall respect all individuals' confidentiality, whether present or not, and should not mention specific individual cases in public meetings which may cause embarrassment to or identification of an individual or a member of that person's family.

5. Standards for meetings

- 5.1 The Chair of the licensing committee will chair the meeting or nominate another member of the licensing committee to chair the meeting in their absence.
- 5.2 The Agenda will be followed unless amended by agreement of the chair. The meetings will last no more than 2 hours.
- 5.3 It is intended to hold four meetings a year, approximately one every three months. The Chair of the licensing committee will determine if there is a need to either cancel or arrange for further meetings.

6. Representatives' contact with the Media

- 6.1 Any participant who wishes to express their own individual views to the media must make it clear that the view being expressed is the participant's own view and not that of any group/body.
- 6.2 Representatives can seek advice from the Council's Communications Team if they would like assistance before making any statement to the media. You can contact the Council's media team on 023 8083 2000
- 6.3 It is recommended that all statements to the media should be in written format to ensure that there is no confusion over what has been said and an audit trail is available. Media contact should be made by email wherever possible.
- 6.4 Information given to the media:–
 - Should not identify any individual or enable any identification of any individual unless that person has consented to their identification.
 - Must be factual and must not be party political.

7. Political affiliation

- 7.1 Individual participants may be affiliated to or be members of a political party but may not represent a political party in their role as a participant of a group.
- 7.2 No party political references should be made during meetings.
8. Breaches of Code of Conduct
 - 8.1 If it comes to the Council's attention that there has been a breach of this Code by a participant, the Licensing Manager and Chair will be informed and the Council will take such action against the individual as appropriate.
 - 8.2 Such action may include but is not limited to:
 - Verbal or written warning;
 - Removal from a specific meeting
 - Time limited suspension
 - Termination as a representative and exclusion from re-election, either permanently or for a fixed period of time.

9. Appeals process

- 9.1 If an individual or group is not satisfied with the Council's decision to suspend or terminate an individual as a representative then they may appeal against the decision through the Council's formal Customer Complaints Procedure.
- 9.2 Until any appeal has been determined by the Customer Complaints Procedure, the decision will remain in force. The time limit for any exclusion will run from the date of the original decision and not the outcome of the appeal process.

GUIDANCE ON DETERMINING THE SUITABILITY OF APPLICANTS IN THE HACKNEY CARRIAGE AND PRIVATE HIRE TRADES

1. There is no evidence which can provide precise periods of time which must elapse after a crime before a person can no longer be considered to be at risk of re-offending, but the risk reduces over time. In light of that, the suggested timescales below are intended to reduce the risk to the public to an acceptable level.
2. Many members of our society use, and even rely on, hackney carriages and private hire vehicles to provide transportation services. This can be on a regular basis, or only occasionally, but in all cases passengers, other road users and society as a whole must have confidence in the safety and suitability of the driver, the vehicle itself and anyone involved with the booking process.
3. All those involved in the hackney carriage and private hire trades (hackney carriage and private hire drivers, hackney carriage and private hire vehicle owners and private hire operators) should be persons of the highest integrity. This is true, of the vast majority of those involved in these trades, they are decent, upstanding, honest and hard-working individuals. Unfortunately, as in any occupation or trade, there are those few who fail to conform to those standards.
4. The purpose of this document is to offer guidance on how licensing authorities can determine whether a particular person is safe and suitable either to be granted a licence in the first place or to retain such a licence. A policy can be robust, and if necessary, say never, and each case is then considered on its own merits in the light of that policy.

Pre-application requirements

5. Licensing authorities are entitled to set their own pre-application requirements. These will vary depending upon the type of licence in question but can include some or all of the following (these are not exhaustive lists):

Vehicles:

- Basic DBS checks;
- Specifications e.g. minimum number of doors, minimum seat size, headroom, boot space etc;
- Mechanical tests and tests of the maintenance of the vehicle e.g. ripped seats etc;
- Emission limits/vehicle age limits;
- Wheelchair accessibility requirements.

Drivers:

- Enhanced DBS checks with update service;
- Checks made to the National Anti Fraud Network database on refusals and revocations of hackney carriage and private hire licences (when available);
- Medical checks;
- Knowledge of the geographic area;
- Spoken and written English tests;
- Disability awareness training;
- Child sexual exploitation and safeguarding training.

Operators:

- Basic DBS checks;
- Details of their vetting procedures for their staff;
- Knowledge of the licensing area.

6. In relation to each of these licences, the licensing authority has discretion as to whether to grant the licence.
7. Drivers and operators cannot be granted a licence unless the authority is satisfied that they are a “fit and proper person” to hold that licence (see Local Government (Miscellaneous Provisions) Act 1976 ss 51 and 59 in respect of drivers; s55 in respect of operators).
8. There are no statutory criteria for vehicle licences, therefore the authority has an absolute discretion over whether to grant either a hackney carriage or private hire proprietor’s licence.
9. “Fit and proper” means that the individual (or in the case of a private hire operator’s licence, the limited company together with its directors and secretary, or all members of a partnership) is “safe and suitable” to hold the licence.
10. In determining safety and suitability the licensing authority is entitled to take into account all matters concerning that applicant or licensee. They are not simply concerned with that person’s behaviour whilst working in the hackney carriage or private hire trade. This consideration is far wider than simply criminal convictions or other evidence of unacceptable behaviour, and the entire character of the individual will be considered. This can include, but is not limited to, the individual’s attitude and temperament.
11. Convictions for attempt or conspiracy will be regarded as convictions for the substantive crime. A caution is regarded in exactly the same way as a conviction. Fixed penalties and community resolutions will also be considered in the same way as a conviction.
12. It is important to recognise that matters which have not resulted in a criminal conviction (whether that is the result of an acquittal, a conviction being quashed, decision not to prosecute or an investigation which is continuing where the individual has been bailed) can and will be taken into account by the licensing authority. In addition, complaints where there was no police involvement will also be considered. Within this document, any reference to “conviction” will also include matters that amount to criminal behaviour, but which have not resulted in a conviction. However appropriate weight must be applied to the evidence available.
13. In the case of any new applicant who has been charged with any offence and is awaiting trial, the determination will be deferred until the trial has been completed or the charges withdrawn. Where an existing licensee is charged, it will be for the licensing authority to decide what action to take in the light of these guidelines.

14. In all cases, the licensing authority will consider the conviction or behaviour in question and what weight should be attached to it, and each and every case will be determined on its own merits, and in the light of these guidelines.
15. Any offences committed, or unacceptable behaviour reported whilst driving a hackney carriage or private hire vehicle, concerning the use of a hackney carriage or private hire vehicle, or in connection with an operator of a private hire vehicle will be viewed as aggravating features, and the fact that any other offences were not connected with the hackney carriage and private hire trades will not be seen as mitigating factors.
16. As the licensing authority will be looking at the entirety of the individual, in many cases safety and suitability will not be determined by a specified period of time having elapsed following a conviction or the completion of a sentence. Time periods are relevant and weighty considerations, but they are not the only determining factor.
17. In addition to the nature of the offence or other behaviour, the quantity of matters and the period over which they were committed will also be considered. Patterns of repeated unacceptable or criminal behaviour are likely to cause greater concern than isolated occurrences as such patterns can demonstrate a propensity for such behaviour or offending.
18. Most applicants or licensees will have no convictions and that is clearly the ideal situation. In relation to other people, it is accepted that human beings do make mistakes and lapse in their conduct for a variety of reasons, and it is further accepted that many learn from experience and do not go on to commit further offences. Accordingly, in many cases an isolated conviction, especially if committed some time ago, may not prevent the grant or renewal of a licence.
19. It is also important to recognise that once a licence has been granted, there is a continuing requirement on the part of the licensee to maintain their safety and suitability. The licensing authority has powers to take action against the holder of all types of licence (driver's, vehicle and operator's) and it must be understood that any convictions or other actions on the part of the licensee which would have prevented them being granted a licence on initial application will lead to that licence being revoked.
20. Any dishonesty by any applicant or other person on the applicant's behalf which is discovered to have occurred in any part of any application process (e.g. failure to declare convictions, false names or addresses, falsified references, cheating in tests) will result in a licence being refused, or if already granted, revoked and may result in prosecution.
21. As the direct impact on the public varies depending upon the type of licence applied for or held, it is necessary to consider the impact of particular offences on those licences separately. However, there are some overriding considerations which will apply in all circumstances.
22. Generally, where a person has more than one conviction, this will raise serious questions about their safety and suitability. The licensing authority is looking for safe and suitable individuals, and once a pattern or trend of repeated offending is apparent, a licence will not be granted or renewed.
23. Where an applicant/licensee is convicted of an offence which is not detailed in this guidance, the licensing authority will take that conviction into account and use these guidelines as an indication of the approach that should be taken.
24. These guidelines do not replace the duty of the licensing authority to refuse to grant a licence where they are not satisfied that the applicant or licensee is a fit and proper person. Where a situation is not covered by these guidelines, the authority must consider the matter from first principles and determine the fitness and propriety of the individual.

Drivers

25. As the criteria for determining whether an individual should be granted or retain a hackney carriage driver's licence are identical to the criteria for a private hire driver's licence, the two are considered together.
26. A driver has direct responsibility for the safety of their passengers, direct responsibility for the safety of other road users and significant control over passengers who are in the vehicle. As those passengers may be alone, and may also be vulnerable, any previous convictions or unacceptable behaviour will weigh heavily against a licence being granted or retained.
27. As stated above, where an applicant has more than one conviction showing a pattern or tendency irrespective of time since the convictions, serious consideration will need to be given as to whether they are a safe and suitable person.
28. In relation to single convictions, the following time periods should elapse following completion of the sentence (or the date of conviction if a fine was imposed) before a licence will be granted.

Crimes resulting in death

29. Where an applicant or licensee has been convicted of a crime which resulted in the death of another person or was intended to cause the death or serious injury of another person they will not be licensed.

Exploitation

30. Where an applicant or licensee has been convicted of a crime involving, related to, or has any connection with abuse, exploitation, use or treatment of another individual irrespective of whether the victim or victims were adults or children, they will not be licensed. This includes slavery, child sexual exploitation, grooming, psychological, emotional, financial or domestic abuse, but this is not an exhaustive list.

Offences involving violence

31. Where an applicant has a conviction for an offence of violence, or connected with any offence of violence, a licence will not be granted until at least 10 years have elapsed since the completion of any sentence imposed.

Possession of a weapon

32. Where an applicant has a conviction for possession of a weapon or any other weapon related offence, a licence will not be granted until at least 7 years have elapsed since the completion of any sentence imposed.

Sex and indecency offences

33. Where an applicant has a conviction for any offence involving or connected with illegal sexual activity or any form of indecency, a licence will not be granted.
34. In addition to the above, the licensing authority will not grant a licence to any applicant who is currently on the Sex Offenders Register or on any 'barred' list.

Dishonesty

35. Where an applicant has a conviction for any offence of dishonesty, or any offence where dishonesty is an element of the offence, a licence will not be granted until at least 7 years have elapsed since the completion of any sentence imposed.

Drugs

36. Where an applicant has any conviction for, or related to, the supply of drugs, or possession with intent to supply or connected with possession with intent to supply, a licence will not be granted until at least 10 years have elapsed since the completion of any sentence imposed.
37. Where an applicant has a conviction for possession of drugs, or related to the possession of drugs, a licence will not be granted until at least 5 years have elapsed since the completion of any sentence imposed. In these circumstances, any applicant will also have to undergo drugs testing at their own expense to demonstrate that they are not using controlled drugs.

Discrimination

38. Where an applicant has a conviction involving or connected with discrimination in any form, a licence will not be granted until at least 7 years have elapsed since the completion of any sentence imposed.

Motoring convictions

39. Hackney carriage and private hire drivers are professional drivers charged with the responsibility of carrying the public. It is accepted that offences can be committed unintentionally, and a single occurrence of a minor traffic offence would not prohibit the granting of a licence or may not result in action against an existing licence. However, applicants or licence holders with multiple motoring convictions may indicate that an applicant or licence holder does not exhibit the behaviours of a safe road user and one that is suitable to drive professionally.
40. Any motoring conviction while a licensed driver demonstrates that the licensee may not take their professional responsibilities seriously. However, it is accepted that offences can be committed unintentionally, and a single occurrence of a minor traffic offence may not necessitate the revocation of a taxi or private hire vehicle driver licence providing the authority considers that the licensee remains a fit and proper person to retain a licence.

Drink driving/driving under the influence of drugs/ using a hand-held telephone or hand-held device whilst driving

41. Where an applicant has a conviction for drink driving or driving under the influence of drugs, a licence will not be granted until at least 7 years have elapsed since the completion of any sentence or driving ban imposed. In these circumstances, any applicant will also have to undergo drugs testing at their own expense to demonstrate that they are not using controlled drugs.
42. Where an applicant has a conviction for using a held-hand mobile telephone or a hand-held device whilst driving, a licence will not be granted until at least five years have elapsed since the conviction or completion of any sentence or driving ban imposed, whichever is the later. .

Other motoring offences

43. A minor traffic or vehicle related offence is one which does not involve loss of life, driving under the influence of drink or drugs, driving whilst using a mobile phone, and has not resulted in injury to any person or damage to any property (including vehicles). New applicants with more than 6 points on their licence will be refused. Any holders of a current driver's licence will be required to undertake a driver awareness course as directed by the licensing authority and pass a driver assessment within 2 months of conviction. Any failure and the licence will be revoked.

44. A major traffic or vehicle related offence is one which is not covered above and also any offence which resulted in injury to any person or damage to any property (including vehicles). It also includes driving without insurance or any offence connected with motor insurance. Where an applicant has a conviction for a major traffic offence or similar offence, a licence will not be granted until at least 7 years have elapsed since the completion of any sentence imposed.

Hackney carriage and private hire offences

45. Where an applicant has a conviction for an offence concerned with or connected to hackney carriage or private hire activity (excluding vehicle use), a licence will not be granted until at least 7 years have elapsed since the completion of any sentence imposed.

Vehicle use offences

46. Where an applicant has a conviction for any offence which involved the use of a vehicle (including hackney carriages and private hire vehicles), a licence will not be granted until at least 7 years have elapsed since the completion of any sentence imposed.

Private Hire Operators

47. A private hire operator (“an operator”) does not have direct responsibility for the safety of passengers, other road users or direct contact with passengers who are in the private hire vehicle (except where they are also licensed as a private hire driver). However, in performing their duties they obtain and hold considerable amounts of personal and private information about their passengers which must be treated in confidence and not revealed to others, or used by the operator or their staff for criminal or other unacceptable purposes.
48. As stated above, where an applicant has more than one conviction, serious consideration will need to be given as to whether they are a safe and suitable person.
49. Operators must ensure that any staff that are used within the business (whether employees or independent contractors) and are able to access any information as described above are subject to the same standards as the operator themselves. This can be effected by means of the individual staff member being required by the operator to obtain a basic DBS certificate. If an operator is found not to be applying the required standards and using staff that do not meet the licensing authority’s overall criteria, that will lead to the operator’s licence being revoked.
50. As public trust and confidence in the overall safety and integrity of the private hire system is vital, the same standards will be applied to operators as those applied to drivers, which are outlined above.

Vehicle proprietors

51. Vehicle proprietors (both hackney carriage and private hire) have two principal responsibilities.
52. Firstly, they must ensure that the vehicle is maintained to an acceptable standard at all times.
53. Secondly, they must ensure that the vehicle is not used for illegal or illicit purposes.
54. As stated above, where an applicant has more than one conviction, serious consideration will need to be given as to whether they are a safe and suitable person to be granted or retain a vehicle licence.
55. As public trust and confidence in the overall safety and integrity of the private hire system is vital, the same standards will be applied to proprietors as those applied to drivers, which are outlined above.

Appendix 8

MEDICAL STANDARDS FOR HACKNEY CARRIAGE OR PRIVATE HIRE DRIVERS

All medical reports must be completed by the General Practitioner with whom you are registered (your Doctor).

Medicals are required by all new applicants for hackney carriage or private hire driver's licences. Current licensed drivers will be required to undertake a medicals at ages 45, 50, 55, 60, 65, and annually thereafter, in line with DVLA best practice guidelines. All medicals need to be completed prior to the relevant date, i.e. date of application or birthday and be no more than 4 months old.

Completed medical forms are to be delivered to the licensing office within 4 weeks of completion.

Drivers may be required to undertake further medical examinations if evidence is presented raising doubt on the fitness of the applicant/driver.

The council has the discretion to seek an independent assessment of any completed medical form to assist in forming their decision on the fitness of an applicant/driver.

The council will suspend driver's licences who do not satisfy the council they continue to meet the required standards, this will include no evidence of a satisfactory medical at the above ages or evidence of an emerging health issue likely to impact on the individual meeting the required standard.

Standards for hackney carriage or private hire drivers, as vocational drivers, are higher than those for ordinary car drivers. In line with recommended good practice, the City Council will expect licensed drivers to meet the **Group 2 vocational driver standards**. Please also refer to the most recent version of leaflet INF4D available via <https://www.gov.uk/government/publications/medical-examination-report-d4-information-and-useful-notes>.

Specific medical conditions which may be a bar to obtaining or holding a hackney carriage or private hire driver's licence are as follows: -

1. **Epilepsy or liability to epileptic attacks**

A diagnosis of epilepsy or spontaneous epileptic attack(s) requires 10 years free of further epileptic attack without taking anti-epilepsy medication during that 10-year period. For conditions that cause an increased liability to epileptic attacks, the risk of attacks must fall to that of the general population. The City Council will refuse or revoke the licence if these conditions cannot be met.

2. **Diabetes**

Applicants with insulin treated diabetes will not normally be able to obtain a licence **unless**:

- they held a hackney carriage or private hire driver's licence valid at 1 April 1991 and the City Council's licensing team had knowledge of the insulin treatment before 1 January 1991
- or
- if they are able to provide documentary evidence that their diabetes is consistently well controlled, with reference to the advice in chapter 3 of the latest edition of the DVLA's "At a Glance Guide to the Current Medical Standards of Fitness to Drive" in respect of Group 2 vocational drivers.

If you have any condition other than insulin treated diabetes your Doctor should be able to advise you as to whether you meet the relevant higher medical standards. Please refer to the section "Other Medical Conditions" in this report.

3. Eyesight

All applicants must be able to read in good light with glasses or corrective lenses if necessary, a number plate at 20 metres (65 feet), (post 1 September 2001 font) and, if glasses or contact lenses are required to do so, these must be worn while driving. In addition: -

(i) Visual Acuity

Applicants must have: -

- a visual acuity of at least 6/7.5 (decimal Snellen equivalent 0.8) in the better eye; and
- a visual acuity of at least 6/60 (decimal Snellen equivalent 0.1) in the worse eye; and
- If glasses are worn, the distance spectacle prescription of either lens used must not be of a corrective power greater than plus 8 (+8) dioptries.
- Applicants to whom the following applies may be considered, exceptionally:
- An applicant who held a Southampton hackney carriage or private hire driver's licence after 1 March 1992 and also held that licence on 31 December 1996 and has an acuity of 6/9 (decimal Snellen equivalent 0.6) in the better eye and 6/12 (decimal Snellen equivalent 0.5) in the worse eye and an uncorrected acuity of 3/60 (decimal Snellen equivalent 0.05) in at least one eye.
- An applicant who held a hackney carriage or private hire driver's licence before 1 March 1992 if they can still meet the Group 2 eyesight standards which applied when they first held a Southampton hackney carriage or private hire driver's licence.

Please contact the licensing team if you require further information.

(ii) Visual field

The horizontal visual field should be at least 160 degrees, the extension should be at least 70 degrees left and right and 30 degrees up and down. No defects should be present within a radius of the central 30 degrees.

(iii) Monocular vision

Drivers who have sight in one eye only or their sight in one eye has deteriorated to less than 0.05 (3/60) cannot normally be licensed to drive. Exceptionally, it may be possible for such a driver to be licensed if the Group 2 standards were met before 1 April 1991. You must have a visual acuity of at least 6/12 (decimal Snellen equivalent 0.5) if you held a Southampton hackney carriage or private hire driver's licence on 1 April 1983 or 6/9 (decimal Snellen equivalent 0.6) if you were licensed after that date.

(iv) Uncontrolled symptoms of double vision

If you have uncontrolled symptoms of double vision, or you have double vision treated with a patch, you will not meet the Group 2 standard.

Please note that a failure to meet the epilepsy, diabetes or eyesight requirements will normally result in the refusal of an application.

4. Other Medical Conditions

In addition to those medical conditions mentioned above, an applicant or licence holder is likely to be refused if they are unable to meet the national recommended guidelines in cases of:-

- Within six weeks of myocardial infarction, an episode of unstable angina, CABG or coronary angioplasty
- Angina, heart failure, or cardiac arrhythmia which remains uncontrolled
- Implanted cardiac defibrillator
- Hypertension where the blood pressure is persistently 180 systolic or more or 100 diastolic or more
- A stroke or TIA within the last 12 months
- Unexplained loss of consciousness with liability to recurrence
- Meniere's and other sudden and disabling vertigo, within the last 12 months, with a liability to recurrence
- Insuperable difficulty in communicating by telephone in an emergency
- Major brain surgery and/or recent severe head injury with serious continuing after effects
- Parkinson's disease, multiple sclerosis or other chronic neurological disorders likely to affect safe driving
- Psychotic illness within the past three years
- Serious psychiatric illness
- If major psychotropic or neuroleptic medication is being taken
- Alcohol and/or drug misuse within the last 12 months or alcohol and/or drug dependency or use in the past three years
- Dementia
- Any malignant condition, within the last 2 years, with a significant liability to metastasise to the brain
- Any other serious medical condition likely to affect the safe driving of a hackney carriage or private hire vehicle

5. Tiredness: Sleep Disorders

Up to one fifth of accidents on motorways and other monotonous roads may be caused by drivers falling asleep at the wheel.

Many accidents are attributed to "driver inattention", but once vehicle faults, traffic offences, poor road or weather conditions, alcohol and specific medical causes are excluded, closer inspection suggests driver sleepiness may be the cause. Evidence for this includes the apparent failure to respond to traffic and road conditions generally and in particular the absence of signs of emergency braking.

Driver sleepiness may be caused by modern lifestyles preventing adequate rest. It may be made worse by shift working combined with the monotonous nature of certain types of driving. Alertness fluctuates naturally throughout the day. Driving between 02:00 and 07:00 increases the risk of a sleep related accident. Most people also tend to be less alert during the mid-afternoon or after a heavy meal. All drivers need to address these problems responsibly.

However, some medical conditions may cause excessive sleepiness. These will greatly increase any normal tendency to sleepiness.

The commonest medical cause is **Obstructive Sleep Apnoea Syndrome (OSA)**. This condition occurs most commonly, but not exclusively, in overweight individuals, particularly those with a large collar size. Partners often complain about the snoring and notice that sufferers seem to have irregular breathing during sleep. Sufferers of OSA rarely wake from sleep feeling fully refreshed and tend to fall asleep easily when relaxing.

OSA is one of the few medical conditions that has been shown to increase significantly the risk of traffic accidents. However, once diagnosed, there is very effective treatment available, normally through specialist centres.

The greatest danger is prior to diagnosis, when the significance of the symptoms is not appreciated. A road traffic accident may be the first clear indication of the condition. All drivers, especially professional drivers, and doctors need to be much more aware of the risks of sleepiness from this treatable cause.

The council may ask you to have an additional medical examination or to produce written confirmation from your own GP or hospital consultant about your continued fitness to drive. The council may also seek an independent assessment of any such report or medical.

MEDICAL EXEMPTION POLICY FOR HACKNEY CARRIAGE AND PRIVATE HIRE DRIVERS UNDER THE EQUALITY ACT 2010

The Equality Act 2010 requires employers and service providers to make ‘reasonable adjustments’ or changes to take account of the needs of disabled employees and customers.

Southampton City Council is committed to an accessible public transport system in which disabled people have the same opportunities to travel as other members of society. Hackney Carriages and Private Hire Vehicles are a vital link in the accessible transport chain and it is important that people who use wheelchairs or assistance dogs can have confidence that drivers will accept them and their wheelchair or assistance dog and carry them at no extra charge.

Section 167 of The Act permits the Licensing Authority to designate Hackney Carriages and Private Hire Vehicles as being wheelchair accessible. The Department for Transport’s Statutory Guidance on Access for wheelchair users recommends that vehicles should only be included in the list if it would be possible for the user of a “reference wheelchair” to enter, leave and travel in the passenger compartment in safety and reasonable comfort whilst seated in their wheelchair. A reference wheelchair is illustrated below:

Vehicles identified as such shall be included on a list of designated vehicles.

Inclusion of a vehicle on the designated list may be appealed under Section 172 to the Magistrates’ Court within 28 days of the vehicles in question being published on the Licensing Authority’s list. Proprietors of all vehicles included on the list will receive a letter detailing the new provisions of the Act and their right of appeal.

The Equality Act 2010 (Section 165) places the following duties on drivers of designated wheelchair accessible Hackney Carriages and Private Hire Vehicles;

- i. To carry the passenger while in the wheelchair;
- ii. Not to make any additional charge for doing so;
- iii. If the passenger chooses to sit in a passenger seat, to carry their wheelchair;
- iv. To take such steps as are necessary to ensure that the passenger is carried in safety and reasonable comfort;
- v. To give the passenger such mobility assistance as is reasonably required

In addition, Sections 168 and 170 places the following duty on drivers of Hackney Carriages and Private Hire vehicles;

- i. To carry the passenger's dog, allowing it to remain with the passenger and not make any additional charge for doing so.

A driver who fails to comply with any of the above is guilty of an offence and may receive a fine if convicted.

In some circumstances a driver of a designated Hackney Carriage or Private Hire vehicle may be unable to fulfil the requirements of the Equality Act 2010 for medical reasons, either short or longer term.

Section 166 of the Act allows licensing authorities to exempt drivers from the duties to assist passengers in wheelchairs if they are satisfied that it is appropriate to do so on medical grounds or because the driver's physical condition makes it impossible or unreasonably difficult for them to comply with the duties.

Sections 169 and 171 of the Act allow licensing authorities to exempt drivers from the duties to transport assistance dogs if they are satisfied that it is appropriate to do so on medical grounds.

To apply for a Medical Exemption Certificate a driver must submit to the Licensing Team an application form along with a medical report from their GP, dated no more than 28 days prior to submission of the application, detailing exactly what duties cannot be undertaken, why they cannot be undertaken and for how long they cannot be undertaken. This assessment will be at the applicant's expense as part of the application process.

Upon receipt the Licensing Manager will consider the evidence and may request further independent medical assessment to decide if the driver is:

- (i) Fit for work
- (ii) Temporarily unfit to carry passengers in wheelchairs and/ or assistance dogs
- (iii) Permanently unfit to carry passengers in wheelchairs and/ or assistance dogs

If the driver is declared fit for work no exemption certificate will be issued and a letter explaining the decision will be given to the driver. If the driver does not agree with the decision to refuse the application for a medical exemption, Section 172 of the Act gives the driver a right to appeal the decision to the Magistrates Court. The driver has 28 days from the date of refusal to appeal.

If the driver is declared temporarily unfit, a temporary exemption certificate of up to three months may be issued. Prior to the expiry of the temporary exemption certificate the driver will contact the Licensing Team to either;

- (i) declare themselves fit, return to normal duties and return the temporary exemption certificate; or
- (ii) arrange a further medical assessment to be submitted for the Licensing Manager to consider extending the exemption certificate.

If the driver is declared permanently unfit to carry passengers in wheelchairs and/ or assistance dogs an Exemption Certificate will be issued. The certificate will include a photograph of the driver who has been granted exemption and must be displayed prominently in the vehicle for public viewing.

The exemption may be reviewed at any time with reference to expert medical evidence, and each case will be reviewed on its own merits. This may result in a further referral to independent medical assessors to determine if the driver remains medically unfit to carry passengers in wheelchairs and/or assistance dogs.

Equality and Safety Impact Assessment

The **Public Sector Equality Duty** (Section 149 of the Equality Act) requires public bodies to have due regard to the need to eliminate discrimination, advance equality of opportunity, and foster good relations between different people carrying out their activities.

The Equality Duty supports good decision making – it encourages public bodies to be more efficient and effective by understanding how different people will be affected by their activities, so that their policies and services are appropriate and accessible to all and meet different people’s needs. The Council’s Equality and Safety Impact Assessment (ESIA) includes an assessment of the community safety impact assessment to comply with Section 17 of the Crime and Disorder Act and will enable the Council to better understand the potential impact of proposals and consider mitigating action.

Name or Brief Description of Proposal	Taxi licensing policy statement and associated conditions
Brief Service Profile (including number of customers)	
<p>Taxi and Private Hire Vehicle (PHV) licensing in Southampton is undertaken by Southampton City Council (the council) as the licensing authority, which have the responsibility for ensuring the public travel in safe, well maintained vehicles driven by competent drivers; as well as providing a fair and reasonable service for the taxi and PHV trade. Currently there are 3,227 licences in the taxi trade amongst approximately 2,000 licence holders issued by the council.</p> <p>To deliver their responsibilities, the councils’ core functions in taxi and PHV licensing can be summarised as:</p> <ul style="list-style-type: none"> • setting the local framework, which can include safeguarding standards, fares, vehicles standards or limits on vehicle numbers, • considering applications and safeguarding the public by issuing, reviewing or revoking licences • undertaking inspection and enforcement activities to ensure the required standards are being maintained. <p>In July 2020 the Department for Transport (DfT) published their Statutory Taxi and Private Hire Standards document which made clear its expectation that the recommendations contained within the document were to be implemented unless there is a compelling local reason not to.</p> <p>The DfT recommends all licensing authorities make publicly available a</p>	

cohesive policy document that brings together all their procedures on taxi and private hire vehicle licensing, with the primary and overriding objective to protect the public. This should include but not be limited to policies on convictions, a 'fit and proper' person test, licence conditions and vehicle standards. The policy should be reviewed every 5 years with interim reviews if appropriate.

The councils' policies and conditions for Hackney Carriages and Private Hire trades have been reviewed to address the recommendations in the DfT standards document and to address some areas of concern raised by the taxi trades in Southampton.

Summary of Impact and Issues

The driver and proprietor policy and conditions reflect changes to legislation and the new guidance, as well as minor technical amends and clarifications. The most significant change is a requirement to be subject to a 6 monthly enhanced DBS check (currently it is every three years). This change is in line with the recommendations in the DfT document.

Other significant additions to the vehicle conditions are:

- A requirement for proprietors to undertake DBS checks;
- Demonstrate they are a safe and suitable person to hold such a licence;
- A requirement to produce documents when asked;
- Requirement to notify licensing authority of any conviction; and
- No smoking in the vehicle.

There are additional conditions for the operator licences as well, which are to:

- Provide DBS certificate;
- Maintain a register of staff working with sensitive data;
- Provide a policy on dealing with ex-offenders;
- To require employees to undergo DBS checks;
- Detailed booking records; and
- Restrictions on the use of PCVs.

Potential Positive Impacts

The statutory taxi and private hire vehicle standard published by the DfT states that licensing authorities must use their licensing powers to protect children and vulnerable adults.

There is evidence to support the view that taxis and private hire vehicles are a high-risk environment. In terms of risks to passengers, this can be seen in abuse and exploitation of children and vulnerable adults and the number of sexual crimes reported which involve taxi and private hire vehicle drivers.

Changed to the policy and conditions therefore reflect the importance of safeguarding and promoting the welfare of children and adults and ensure that all passengers protected.

Poverty	<p>Going from one check every three years to one every 6 months will incur greater costs to drivers.</p> <p>It is the intention of the council to move to an outside contractor providing the checks, this will save some officer time but will be at a cost yet to be determined. This is considered to be the most economical method of providing this service for the trade.</p>	<p>If drivers sign up to the update service and maintain the service there is a reduced cost charged by DBS over the three year period. The cost of the contractor will then need to be borne by the drivers. We anticipate the extra cost to be no more than £20pa for each driver.</p>
