

Person	School	Bassett Green	Bevois Town	St John's	Comments
Parent/carer			Yes / Don't Mind		Concerns in relation to Bevois Town. Will staff ratio stay the same (i.e. double)? Given limited after school provision (after schools clubs, homework clubs) at present at Bevois Town, will this become even less if the school size doubles. Advice has been given one extra building space, but what about outdoor space? Will this become less due to building? Will the plans include how young people at Bevois Town could utilise outdoor space e.g. external grounds? sports centres / secondary schools on a regular basis. Will the expansion give the school the opportunity to improve facilities e.g. IT provision, more up to date learning methods / resources.

Parent	Bassett Green Primary	Yes	Don't mind	Don't mind	I think that expanding Bassett Green Primary school is a good idea because there's a huge demand in the "area" and no many other schools around either. Also I think Bassett Green should build extra classrooms on the outside to make more space and not have children cramped into one room
Parent/carer	Bassett Green Primary	Don't mind			
Parent/carer	Bassett Green Primary	No	No	No	I would say build other schools as some of the schools struggle to cope with numbers they already got (children) and you would have to pay money to build 7 new classrooms at each of the named schools so wouldn't be cost affective
Parent	Bevois Town	Don't mind	No	Don't mind	My child goes to Bevois Town school. The main reason for sending my child here was because it is a very small school (1 class per year). The teachers know all the children, very good education. I feel expanding the school would mean less space for the children to play outside. Teaching quality would reduce. I also have another child due to go next year would have to think about looking elsewhere if schools expanded. Why change, if parents are happy with the way it is now. Think it is too small to add classes of children. Offsite building would separate children when they should be together. Don't support.
Parent	St John's	Don't mind	Yes	Don't mind	As long as there is enough room and space for children, would like to see some achievement towards learning with loads of teachers. Outlook all nice not an eye sore.

					I think it's a very good idea as there is such a demand for St John's in the local area. Bigger classes would enable people in the local area to get places and not have to travel far. St John's is a fab school.

					I really think part of French Street should be closed off for St John's School. Cars, buses and vans drive down this road way too fast. Also a huge number of cars drive the wrong way up the one way street from West quay Road when they are looking for the registry office. This is only set to get worse with the expansion to make that road accessible for port traffic and so everyone will be driving even faster. This is very dangerous around school children. Please add a CCTV camera to the end of the road to catch these cars driving the wrong way up the road.

					I hope you will be planning ahead a bit more proactively when it comes to secondary schools, now that all the primaries are getting squeezed.
Parent/carers	St John's	Don't mind	Don't mind	Yes	
Parent/carers				No	They more concentrate on attendance to 95% but lack control on children discipline and academic. Increase of pupil numbers will make it worse.
Staff					As a member of staff I feel if there is room to expand any of these schools, without compromising quality of education, it should be done.
Parent	Bevois Town		Yes		Yes, we say more schools should be able to expand so children could come in and have a good education

					St John's need to have an extra reception class during this academic year as there are many children in the area either not going to school now or will not have a place in year 1 either or cannot get to the schools they have allocated. The school has room now. There is real need for a small senior school in the area - plans should start seriously now looking at the potential of empty sites as the recession continues this provides an opportunity to redress the real inequality in provision in this area. Historically our children have had to disperse all over the city at all key stages. The provision of the primary school and possible expansion goes towards redressing this inequality for some of the neediest children in the city - it needs the next step now - an inner city small senior school to deliver better outcomes for the community.

					I think it's a brilliant idea to expand St John's school as this will help people in the catchment area to have more peace of mind knowing their child can get into the local school. As it as a huge disappointment for many parents whose children did not get into St John's Reception this year, despite their children attending St John's Nursery.

					I feel it's important for these schools to expand. Also there is huge demand for a much need senior school in the city is vital too. Re: expansion - Traffic would need to be managed carefully for the safe transfer of pupils from building to the next. For their safety. Maybe temporary barrier when children need to cross.
