DETAIL (Including consultation carried out)	
3.	A Quality Account is a report about the quality of services by an NHS healthcare provider. The reports are published annually by each provider, including the independent sector, and are available to the public.
4.	Quality Accounts are an important way for local NHS services to report on quality and show improvements in the services they deliver to local communities and stakeholders.
5.	The quality of the services is measured by looking at patient safety, the effectiveness of treatments that patients receive, and patient feedback about the care provided.
6.	The Department of Health requires providers to submit their final Quality Account to the Secretary of State by uploading it to the NHS Choices website by June 30 each year. The requirement is set out in the Health Act 2009. The documents appended to this report are therefore draft reports subject to amendments, updating to incorporate data that is not yet available, and Board approval.
7.	At the Panel meeting on the 27 April 2017 representatives from each of the NHS providers operating within Southampton will briefly outline their key achievements against plans for 2016/17 and highlight their priorities for 2016/17. The information will be presented with a specific focus on the implications for Southampton patients and residents.
8.	The Panel have an opportunity to discuss the draft Quality Accounts with the representatives from the NHS providers and to submit a response to the document for inclusion within the final version.
9.	In addition, Solent NHS Trust will update the Panel on progress implementing the CQC action plan and Southern NHS Foundation Trust will apprise the Panel of the new Clinical Services Strategy, attached as Appendix 4.
