2. Purpose:

To identify opportunities to reduce incidence of drug related litter in Southampton.

3. Background:

- Litter related to drug use can cover a range of materials – including syringes, foils, swabs, spoons, plastic bottles and cans.
- Drug litter presents a health risk to the public and council employees, the discovery of which can cause fear, upset and anxiety for individuals and the wider community as well as causing physical injury.
- Action has been taken in Southampton, involving a number of agencies, to reduce incidence of drug related litter.
- Since February 2016 Community Safety have been logging drug litter finds across Southampton. From April 2016 – March 2017 the total number of finds was 7,620 including 7,037 discarded needles.
- Reflecting concerns the recently approved Southampton Drugs Strategy includes, as a key outcome, '*to reduce the amount of drug related litter in the city*'.
- Alternative and innovative approaches exist to improve awareness, reduce the amount of drug litter being discarded, and to lessen the risks and impact on local communities and those employed to clean up the litter.

4. Objectives:

- a) To understand the prevalence and impact of drug related litter in Southampton.
- b) To understand the reasons for the prevalence of drug related litter.
- c) To review progress being made in Southampton to tackle drug related litter.
- d) To understand what is being done to reduce drug related litter elsewhere.
- e) To identify what additional initiatives could work in the city to reduce drug related litter.

5. Methodology:

- a) Benchmarking the current position against other cities
- b) Seek stakeholder views
