

Use this form to apply for a licence to fell trees. Note that a woodland management plan may be a more appropriate route to a felling permission.

Part 1 – Applicant’s Details

Title:	Mr	Forename:			
Surname:				Single Business Identifier (optional):	
Organisation:	Southampton Airport Ltd		Position:	Airport Duty Manager	
Primary Contact Number:			Alternative Contact Number:		
Email:					
Address:	Southampton Airport Ltd, Wide Lane, Eastleigh				
Postcode:	SO18 2NL		Country:	UK	
Interest in the Land:	<input checked="" type="checkbox"/> Land Owner		<input type="checkbox"/> Lessee with right to fell the trees.		

Agent’s Details

If you are an agent acting on the applicant’s behalf you must provide an Agent Authority form which confirms your authority to represent them before we can process an application.

Part 2 – Trees to be Felled

Name of Property:	Marhill Copse Southampton				
Name of Wood:	Marhill Copse Southampton				
Grid Reference (of centre of principal Felling Area): (e.g. XX123456)	SU449153				
Nearest Town or Locality Name:	Eastleigh (Townhill Park)				
Local Authority:	Southampton City Council				
Is the site designated?				<input checked="" type="checkbox"/> Yes	<input type="checkbox"/> No
If Yes please provide details of the designation(s), e.g. SSSI/NNR etc.:					
Conservation Area under Southampton City Council					

FCE-REG-01: Application to Fell Growing Trees

Part 2b – Felling Operations

- The operation type should be either: Clear Felling (CF), Thinning (T), Regeneration Felling (RF), Felling of Coppice (FC), the Felling of Individual Trees (FO) or Felling to Create Open Space in the Woodland such as roads or glades (OS). Please refer to the application guidance (FCE-REG-00) for more information.
- The species to be felled can be expressed by name (e.g. *Sitka spruce*) or by standard abbreviation (e.g. SS).
- Individual tree species that account for more than 20% of the timber that will be felled must be listed in this column. This is to ensure compliance with the EU Timber Regulations. An example is presented in *italics* where oak and ash each account for more than 20% of the timber.

This section must be completed, showing a separate line for each compartment or sub compartment and for each proposed felling operation. Use the same compartment reference where you have more than one felling operation on the same area of woodland. The compartment references should correspond to your application map, as shown in the example in the table below.

Felling Site/Cat	Type of Operation	Species to be felled	Number of trees*	Marking of Trees	Estimated Area of felling (ha)	Estimated Volume (m ³)
1a	T	<i>Mixed broadleaves including oak and ash</i>	9000	Orange dot	10	530
1A	Thinning/ Clear Felling	3 Monterey Pines, 3 Corsican Pine	6	Unmarked Trees as in fenced area	1HA	128.058
1B	Thinning/ Clear Felling	1 Monterey Pine, 3 Sycamore, 1 European Larch	5	Monterey is marked with Yellow Paint (TAG 300) 3 Sycamore, 1 Euro. Larch marked with Yellow and blue paint and TAG0280	1HA	26.417
1C	Thinning/ Clear Felling	1 Scots Pine, 3 Monterey, 1 Turkey Oak, 1 Western Red Cedar, 1 English Oak, 2 Sycamore.	9	Scots Pine marked with Yellow Paint and TAG 0249, Monterey Pines marked	1HA	128.544

FCE-REG-01: Application to Fell Growing Trees

				with Blue Paint and Tag 0206,0222 and 0264		
1D	Thinning/ Clear Felling	1 Douglas Fir, 1 Sitka Spruce, 1 Monterey Pine, 1 Turkey Oak, 1 Corsican Pine	5	Douglas Fir, Sitka Spruce marked with yellow paint and Tag 0228, Monterey is marked with Yellow Paint and Tag 0274. Turkey Oak is marked with Blue paint and TAG0216. Corsican Pine is marked with Blue paint and TAG 0271	1HA	62.765

* This column is optional.

Please provide further information about the proposed felling, including proposed timings and any measures you are taking to safeguard protected species:

We are requesting to completely Fell the above trees that are causing penetration to our Obstacle limitation surfaces. The Trees in question are all covered under Tree Preservation Orders and are within a conservation area. We are aware of the range of wildlife species in the area we are looking to undertake the work including badger sets directly under the large pines. Southampton Airport are currently undertaking a wide range of surveys of the area to formulate the best plan of action with

FCE-REG-01: Application to Fell Growing Trees

our nominated contractor who is yet to be fully appointed. Any works that will take place will be sensitive to the local environment and carried out by suitably trained and qualified contractors. Whilst not fully finalised an appointed person for Ecology and Wildlife has been discussed as a major point for attendance on site whilst works are taking place.

Part 3 – Proposed Restocking

In accordance with UK Forestry Standard requirements for sustainable forestry we normally expect the felled area to be restocked with trees, unless you are thinning. To secure restocking we will usually attach restocking conditions to the licence. We will discuss these conditions with you before we issue the licence.

If you do not intend to restock the felled area or an alternative location you should complete an Application to Convert Woodland to Open Habitat. We expect such applications to comply with the Government's Policy on when to convert woods and forests to open habitats in England.

Restocking Proposal Table:

With reference to the Felling Operations table (Part 2b), please use the table below to tell us how you intend to restock the areas felled. For each compartment or sub compartment reference where restocking will be required you must show a restocking proposal for 100% of the felled area. If you intend to restock an alternative area, you must submit a map showing the area to be planted. Use 'N/A' if restocking will not be applicable e.g. as a result of a thinning operation.

- The Restocking Proposal should be either to Replant the Felled Area (RP), Restock by Natural Regeneration (NR), Plant an Alternative Area (AA), Restock with Coppice Regrowth (CR), Restock with Individual Trees (IT), Plant an Alternative Area with Individual Trees (AAIT), or Create Designed Open Ground (OG). Please refer to the application guidance for more information.
- If you are intending to deforest the site, state Do Not Intend to Restock (DIR) in the Restocking Proposal column and provide the information requested above for conversion to open habitat.

Felling Site/Cpt(s)	Restocking proposal	Species	Area (ha)	% of total restock area	Stocking Density (stems per ha)
1A	RP	Unknown	Under 1ha	100%	300 which we have been advised will be covered by replanting 3 trees for every 1 removed
1B	RP	Unknown	Under 1ha	100%	300 which we have been advised will be covered by replanting 3

FCE-REG-01: Application to Fell Growing Trees

					trees for every 1 removed
1C	RP	Unknown	Under 1ha	100%	300 which we have been advised will be covered by replanting 3 trees for every 1 removed
1D	RP	Unknown	Under 1ha	100%	300 which we have been advised will be covered by replanting 3 trees for every 1 removed
Total Area			Under 1HA		
			(Approx)		

Please provide further information about the proposed restocking:

Southampton Airport will be looking to work closely with the Local Authority (Southampton Council) on the Replanting of Trees to replace the above. We will be re-planting 3 trees for every 1 tree felled so above the 1 for 1 amount required and will be working closely with the council to recommend the most suitable species for the area. These species have yet to be decided as we will be looking to refer to both the forestry commission and the local authority for advice on the most suitable species for the area.

We have been in discussion with Angus Clarke about the restocking and not yet decided the species. We have discussed the replanting to make sure that the 3 for 1 tree replacement will be sufficient and Angus has advised that stating 300 Stems per HA will be covered by replanting 3 trees.

Part 4 – Tree Preservation Orders and Conservation Areas

FCE-REG-01: Application to Fell Growing Trees

1. Are any of the trees to be felled subject to a Tree Preservation Order(s)? Yes No

If Yes, give details below:

The following Tree Preservation Order (TPO) applies to the trees in this application.

Order Made by (Local Planning Authority):		Southampton City Council	
Nearest Town or locality name:		Eastleigh (Townhill Park)	
Title of Order:	T2-020	Date of Order:	Townhill Park-cutbush order of 1956

2. Are any of the trees to be felled within a Conservation Area? Yes No

Details of Conservation Area: Itchen Valley
SCC Historic Environment Record
09.01.1986

Note: A felling licence will **not** cover the felling of trees to which a TPO applies or which are in a Conservation Area if you have not declared the existence of the Order or Area in the application.

Part 5 – Map

You must attach a map to your application that clearly identifies the location of the trees to be felled or thinned. We prefer application maps to be on an Ordnance Survey MasterMap® (OSMM). You can get free copies of an OSMM map by completing a [Map Request Form](#) available from our website or your local FC office. You should allow two weeks for the delivery of an OSMM map once requested.

If you do not use our Map Request Service you must provide us with an original map or a good quality photocopy. **We will return applications that include maps that are not acceptable without registering them.** Before you mark up your map for submission, check:

- The map is an up-to-date Ordnance Survey map, preferably OSMM.
- It is at a scale of either 1:10,000, 1:5,000 or 1:2,500 (more than one map may be required for large areas).
- The scale is shown on the map.
- Any relevant details are not hidden by folds, other marks or labels.

You must label the map with the type of tree felling and grid reference of the centre of the felling area. The grid reference must lie within the woodland or the area of trees to be felled. If a point of access to the area is not obvious please show this on the map. You should not use a map used for a previous application unless proposals remain exactly the same.

Part 6 – Declarations

I hereby apply for a licence to fell the trees described in this application and I certify that:

- I am the applicant, or an agent acting on the applicant's behalf, and have sufficient control over the land on which the trees are growing to fell the trees with or without the consent of any other person.
- Any necessary consents from any other person's, if required, have or will be obtained by the user.
- I am aware of the Good Practice to safeguard European Protected Species during forestry operations and the need to obtain a species licence if I cannot comply with the Good Practice.
- I have considered the impact this proposal will have on the area and diversity of habitat(s) for wild birds and legal protection given to wild birds, especially during breeding season.
- I have made the necessary checks with the local planning authorities regarding Tree Preservation Orders and Conservation Areas and English Heritage with regard to any Scheduled Ancient Monuments.
- To the best of my knowledge and belief the information given in this application is accurate and complete.
- I agree to any disclosure and exchange of information about this felling licence application with other organisations or consultees which the Forestry Commission considers necessary for the administration, monitoring, evaluation and publicising of the application or licence. Details may also be passed to successors in title to this land.
- I agree that information about the application, including that contained in the application or approved licence and any other relevant documentation may be made available to the public.
- I understand that the Forestry Commission will consider this felling licence application as an application for their Opinion, where appropriate (if this has not already been given) under Regulation 5 of the Environmental Impact Assessment (Forestry) (England and Wales) Regulations 1999.

Signature

Date 30/10/2018

Print Name

- **On completion, please attach a signed and dated copy of a map showing the area covered by the application.** Please refer to the application guidance for more information.
- I understand that the Forestry Commission may contact me about obtaining a felling licence as part of a Customer Survey. I am not obligated to respond to any survey.

DO NOT START FELLING UNTIL WE HAVE ISSUED YOUR FELLING LICENCE
