

## COLLECTIONS IN PEDESTRIAN PRECINCTS AND PRIVATELY OWNED AREAS

A permit is required for any collection in a place to which the public has access without payment. However, in addition, you may need to obtain additional written consent to use certain areas in the city, particularly if they are privately owned.

Such additional consent will only be required for Above Bar Pedestrian Precinct or East and West Bargate if you intend to engage in any activity *in addition* to the collection of money. This might include the provision of entertainment or use of a table or stall. In seeking this additional consent, you should give full details of your proposed activities in writing to the contacts below.

Please note that consent is unlikely to be given for stalls to be erected or vehicles to be brought into any of the city council controlled precinct areas because of their status.

### The frequently used areas are as follows:

Area	Contact
